Sickness, Pain and Death

Legitimately result as penalties for violations of natural laws, from which none can escape.

The faded cheek, the pale and wan features, the dull eye, the clouded intellect, the drooping head, the feeble and emaciated frame, the doctored bow, the lingering pain, all indicate previous transgressions. It is knowing that "procrastination is the thief of time," and intelligent beings apply for some remedy as soon as circumstances permit; while those who do not take this principle that "delays are dangerous," generally linger, lose more time and pay more money.

Thousands of mothers and daughters, in all climes and conditions of life, are suffering, lingering and dying from the effects of some dreaded and dreadful

Female Complaint,

That claims its victims throughout the length and breadth of our land.

Many females suffer in some way at each monthly period; some girls are in great peril at the commencement of menstruation, while others are distressed at the "turn of life." Sometimes the menstrual flow is too much, or too little, or may be attended with pain; may be irregular or entirely checked, or changed in appearance, attended with other distressing symptoms. Leucorrhoea, or the "Whites," frequently drains the system, or absorption of the womb may create cold and cause rapid prostration.

Falling of the womb is an exceedingly common complaint, giving much trouble and distress, which ordinary treatment is difficult to cure.

Indigestion, liver complaint, and other ailments of the stomach and other serious and fatal complaints follow the female sex throughout life. Have there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many. Is there no combination of remedial agents that will come to her rescue? We answer, Yes.

English Female Bitters,

The only acknowledged English Female Bitter, mentioned in an incredibly short time. The Bitters of

the natural condition, removing obstructions, regulating pain, and regulating the monthly period. Feels a pain in the face, forehead and temples, and a cold in the womanhood; she is the price of all, but her health is silently stolen a pickle, cold chills, or a state of cold, an appetite for food, she turns with a dull, heavy head, and solitude; her eye no longer sparkles, her every sigh is no longer heard ringing through the air, she begins about with bloodless lips and general weakness, palpitation, constipation, swimming of the head, cold feet and hands, melancholy, she has a coated tongue, offensive breath, and a host of other evils to mention.

When indicated all these symptoms become aggravated, there is sick stomach, heartburn, a dark line appears under the eyes, the legs and ankles are swollen, the hair loses its gloss and falls off, there is brittleness and splitting of the finger-nails, swollen abdomen, extreme nervousness, irritability, pains and aches, dry cough, and if you, or any of your friends, are thus afflicted, send at once for a Bottle of English Female Bitters and its cure. Its effects are magical in their nature. Surely no mother will postpone and delay this until

Death is at the Door.

In all these complaints the system eventually shows a want of red blood, and Mr. Churchill, in his work "Diseases of Females," says: "Bearing in mind that the blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, thereby suggests it as the most to be relied on, the best of which is the 'Citrated.' Citrate of Iron enters largely into the composition of English Female Bitters, combined with powerful vegetable tonics of rare quality.

Among the mountains of Tennessee, and the green woods of Mississippi, is found a certain hard and brittle root, which has been in secret use by some old natives for many years, possessing magic powers in regulating and restoring all females suffering with any affection of the womb. This root we have obtained, prepared it for our practice, and it is now one of the principle ingredients in these Bitters. Other medicinal and general tonics also enter into its composition. We also add Leptandra or Black root, said to act upon the liver and keep the bowels open.

Blooming Young Girls,
Middle-aged matrons, those at the critical period, and the aged grandmother, are all cured by the use of our English Female Bitters, now prescribed and used by physicians all over the country.

If you are troubled with Falling of the Womb, attended with a sense of weight and bearing down pain in the back and side, and other attendant evils, English Female Bitters will give entire relief.

Those at the "turn of life," mothers after confinement, and others (male or female) who are so afflicted from any protracted or debilitating complaint, who gain strength slowly, and whose digestion is slow and imperfect, will find these Bitters a powerful and their system demands. It gives a powerful appetite, aids and assists digestion, restores to the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood coursing through its channels.

Common Grogshop Bitters

Empty bitter bottles, of various sizes, can be found around almost every dwelling and cabin throughout the land. Their taste is pleasant, and are advertised to cure almost every disease, while the manufacturers assure those who possess no medicinal properties whatever. They are so many disguises for exceedingly common poisons, which do not, nor cannot, possibly cure one.

Beware of these pleasant bitter in quart bottles; they contain a sting for your child, and the whole family carries a "topee" grog into his house. One man who knows nothing about medicine, says his big bottle of common stuff will cure chills and fever, rheumatism, and consumption; another, whose bottle is very large, cures all impurities of the blood, makes old men young, casts out devils, restores sight to the blind, and cures all other maladies; while yet another, who prescribes every man a dram of, proposes to cure colds, ingrowing nails, yellow fever, heart disease and love-sick maidens! We know they make no such cures; we know the people at large are deceived and swindled; and as we desire to ventilate these common humbugs, make the following challenge to one and all:

One Hundred Dollars

That one tablespoonful of ENGLISH FEMALE BITTERS contains as much medicinal properties as one bottle of any of the pleasantly-tasted, common advertised bitter of the day! The medical profession to decide the question. Be it understood that the English Female Bitters is not a beverage, but is a powerful Iron and Vegetable Lonic combination, curing long-standing chronic female complaints in every direction.

Put up in large bottles at \$1.50 per bottle, or six bottles for \$8.00, and sold by druggists and merchants everywhere.
