General Meeting of Committees Last Night.

An encouraging meeting of the Fourth of July celebration committees was held at the City Hall last night, Col. C. W. Charlton in the chair and Frank A. Moses Secretary.

The resignation of Mr. Jas. D. Cowan, as chairman of the Amusement Committee, was tendered with his regrets that his having to go East would prevent his serving. Accepted.

Capt. John M. Brooks stated that Col. Lockett, of the University, is organizing vigorously to make a turn out of the cadets with the pieces belonging to the University, as an artillery company, if horses are furnished him; also, that if funds are furnished he will go to work to prepare the ammunition for the salutes.

Mr. Moses suggested that the University ought to furnish the ammunition, and on his motion Mayor Luttrell was requested to bring the matter before the Board of Trustees at their next meeting.

A communication was read from Captain King, Chief of the Fire Department, representing that he is getting his department in good shape for a turnout, and suggesting a grand Firemen's Tournament, with prizes offered for steamer, hand engine and ladder company, contests to be open to the world. Referred to the Amusement Committee.

Capt. King, also resigned as ward captain for the Fifth Ward, from a press of other duties, and at the suggestion of Rush Strong, Ros Gault was selected in his stead.

Rush Strong, Chairman of the Invitation Committee, said the committee had decided to send invitations to all editors within reach, also, to represent it as East Tennessee's celebration, not Knoxville's.

On motion of Mr. Strong, Capt. Brooks was appointed to wait on the railroad authorities and secure the most reasonable rates possible.

It was reported that the Committee on Speakers have written to Hon. Jas. G. Blaine, of Maine; Hon. Zeb. Vance, of North Carolina; Hon. Geo. H. Pendleton, of Ohio, and Senator Morgan, of Alabama.

On motion of A. J. Albers, on account of the closing exercises of the public schools to-morrow night, the Fourth of July mass meeting is postponed till Friday night, at the court house.

Capt. J. J. Condon reported that he was working up Mechanicsville, but said that there ought to be other Captains from the rest of the 12th district; consequently Messrs. R. J. Seruggs, Andrew Knott and Wm. Osborne were appointed to bring up the country part of the said district. Capt. Condon gave notice of a meeting in Mechanicsville next Saturday night.

On motion of Mr. Strong, all the wards are to hold meetings next Monday night, and the various Captains are requested to give notice in the papers at what point.

T. H. Heald, Chairman of the Finance Committee, offered a resolution, which was adopted, requiring the Finance Committee to hold weekly meetings, to report amount of collections; also requiring the several committees to report their needs; and that no committee shall make any contract whatever, till an appropriation is made therefor.

It was also decided, on motion of Capt. Brooks that the Finance Committee go to raising funds at once, and publish their progress in the papers. It was stated that one leading business house of the city has signified its willingness to start the ball with \$100.

The committee are ready for business, and request us to say that they will commence to call on the business men this afternoon, and it is hoped all will be ready to receive them with open purses and willing hearts.

The following are the members of that committee: T. H. Heald, J. W. Lewis, Charly Hodge, W. E. Williams, Peter Kern, Stephen P. Condon, J. L. Hudiburg, Jos. H. Sheppard, John Scherf, Jas. B. Pickens, H. B. Branter.

Col. Charlton was appointed as a kind of Corresponding Secretary of the General Committee to carry on correspondence with the gentlemen appointed in the various districts, etc., with the understanding that he is to devote his attention thereto and be compensated.

It was suggested to entrust with Mr. Cowan, who is going East, the duty of selecting the fireworks, for no one could do it better, and it was also stated that Mr. Cowan had proposed to procure a very large balloon for the occasion.

Mr. Rush Strong made a novel and at the same time taking suggestion, which was referred to the Amusement Committee. It is this: that there be procured from the mint a large quantity of new small coins, copper, nickel, silver and gold, have them all of date of 1879. These are to be taken and at the proper time sown broadcast in the streets, for the multitudes to gather up at their will. This feature is new, and will attract great crowds, and besides it will not be wasted, but much of it will fall into needy hands, while others will be preserved as souvenirs.

Capt. Brooks suggested a base ball contest. Referred to Amusement Committee.

Col. Gibson suggested a band tournament, with prizes for the best, etc. On motion of P. B. Sheppard, all the committees are required to make out estimates and plans of what they will do, need, etc., with probable cost, before the mass meeting Friday night, and the meeting adjourned till that time.

The Amusement Committee held a meeting immediately after, and elected Mr. Jos. H. Sheppard chairman instead of Mr. Cowan resigned, and the committee adjourned to meet again to-night at 8 o'clock at the City Hall.

RAILROAD ACCIDENT.

Engineer Dan. Gurley Runs a Narrow Escape of His Life.

An accident which might have proved quite serious, happened Tuesday night, or before day Wednesday morning, to passenger train No. 4, bound east. When near Talbot's Station one of the parallel rods of engine No. 23, which was pulling her, Dan. Gurley, engineer, snapped in two. The broken end thereof began whizzing around at a frightful rate, first breaking through the cab and putting Dan. to it to keep out of the way. Finally the broken end burst a hole in the tender and let out all the water. The engineer could not get at his air brake, and it was some time before the engine could be stopped. It was certainly a narrow escape for Engineer Gurley and his fireman, and they were quite fortunate to come out unhurt. No damage was done except to the engine. It was so disabled that another one was telegraphed for and sent from Knoxville, taking on the A. M. & O. Road took the passengers on from Bristol on a special train.

A Matter of Interest to Travelers.

Tourists, emigrants and mariners find that Hostetter's Stomach Bitters is a medicinal safeguard against unwholesome influences, upon which they can implicitly rely, since it prevents the effects of an unhealthy climate, vitiated atmosphere, unaccustomed or unwholesome diet, bad water, or other conditions unfavorable to health, would otherwise produce. On long voyages, or journeys by land in latitudes adjacent to the equator, it is especially useful to prevent the effects of the feverish complaints and disorders of the stomach, liver and bowels, which are apt to attack natives of the temperate zones (returning or traveling in such regions, and is an excellent protection against the influence of extreme cold, sudden changes of temperature, exposure to damp or extreme fatigue. It not only prevents indigestion and remittent fever, and other diseases of a malarial type, but eradicates them, a fact which has been notorious for years past in North and South America, Mexico, the West Indies, Australia and other countries.
