

**INDICATIONS:** For Tennessee and the Ohio Valley, slightly cooler, partly cloudy weather, southwest to northwest winds, slowly rising barometer, and in the eastern portions areas of rain.

The Republican National Convention will be held some time in May next, it is believed.

The Cincinnati *Gazette* has two libel suits on hand, in which damages are put down at \$110,000.

Why in the world don't somebody build a shirt factory? It's a sin to vex the serene soul of Parson Charlton.

It is stated that 59,000 tickets were sold on the railroads leading into Chicago on the occasion of the Grant festivities.

If common law is founded on common sense what were the laws made by the last Tennessee Legislature founded on?

The Republicanists have a decided majority in the Virginia Legislature and will probably elect Gen. Mahone to the United States Senate.

The *Dispatch* reports the editor of the Athens *Post* as favoring Seymour for President. By the way, has the *Dispatch* given up Tilden? Too bad.

COL. JOHN RAY, once Private Secretary of President Lincoln, has been tendered the position of Assistant Secretary of State, vice Mr. Seward, resigned.

BOB TOMBS is doing now just what he did during the war—fighting with his mouth. He makes a bold charge on the little brown jug, but always had an aversion to gunpowder.

BAYARD is booming, but it strikes against solid rock in South Carolina. The rice planters have not forgotten that he was an opponent of the rice tariff.

MR. KEY continues to wage war on the lottery companies. This is just as it should be, and he will have the best wishes of all good citizens in his course.

THOSE who are in a position to know say that Gen. Noyes, Minister to France, will resign and Murat Halstead, of the Cincinnati *Commercial*, will be appointed in his stead. It's a great pity we all can't be Ohio men, isn't it?

THE Solid South is bearing fruit. If a stone wall was built around it emigration could not be more effectually checked. Sturdy emigrants are filling up all the rest of the country, but the frontier of the Solid South is a dead line beyond which none pass.

It really begins to look as if the Democratic authorities of Maine are going to count out enough Republican members of the Legislature to control the organization of that body. Nothing could strengthen the Republican party more than a bold Democratic fraud like that.

WILLIAMS, the bulldozer who attempted to assassinate Postmaster Nix, of Blackville, South Carolina, has been arrested on a charge of conspiracy. The State authorities have declined to do anything. It is not regarded as a crime in some places to shoot a colored man.

THE Atlanta *Dispatch* has yielded up the ghost and departed to the limbo of all papers who would but couldn't. The Atlanta *Constitution* glazes over the fact, mentioned in this connection, that it has starved out fifteen journals since it was started. The *Constitution* is a first-class paper, no better can be found in the South, and is too strongly entrenched to admit another enterprise into the field.

THE New York *Herald* is not so sure the Democrats will carry New York next year as it might be. In a recent issue it says:

"In discussing the bearing of the New York election on the vote of the State for President, a consideration has been omitted, which is so important that it may prove decisive when the two parts are so evenly balanced. We refer to the official patronage of the Governor, which has become large by recent amendments of the State Constitution. In the late election this patronage was used by Gov. Robinson against the Republican party; next year it will be wielded by Gov. Cornell in favor of that party."

A WASHINGTON special to the Cincinnati *Gazette*, of Friday morning, says:

"It is reported upon reliable authority that a confidential letter has been received here from a close friend of Gen. Grant, which, if authorized, dispels much of the fog that has enveloped the purposes of the ex-President. The object of the writer of this letter appears to be to remove in good season whatever impression might exist among the political friends of Gen. Grant that he is indifferent to a reelection to the Presidency, and to infuse renewed vigor into the Grant movement."

"The letter, after cautioning the observance of great prudence, states that Gen. Grant will, at the proper time, place himself at the disposal of the American people, and that, meanwhile, it is expected that his friends will exert themselves to bring about his nomination."

Considerable Excitement in Maine Over the Recent Election,

Democrats Reported as Intending to Count Out the Governor Elect,

But Their Infamous Schemes Likely to Fall to the Ground.

Kentucky Regulators on the Rampage at Their Usual Game.

## KENTUCKY.

LOUISVILLE, Nov. 15.—A dispatch from Paducah says considerable damage to buildings was done by the heavy rain and wind storm.

The Constitution of Kentucky is now stated to be safely locked up in the State vaults.

A fire last night nearly destroyed Ferguson, Smith & Co.'s mill, together with nearly two thousand bushels of wheat. Loss, \$25,000; insurance, \$2,000.

CINCINNATI, Nov. 15.—A special to the *Enquirer* states that Lewis Sooggs has been convicted of the murder of Waddell, in Elliott county, Ky., and sentenced to eight years imprisonment. Judge Riddle has refused him a new hearing and the case is to be appealed. The prisoner was removed from the county jail, for fear that the Regulators would shorten his sentence.

The Regulators in northwestern Kentucky have issued a proclamation, fashioned after the Declaration of Independence. It recites, that in view of the reign of assassination, robbery and rapine which has existed in that region for four years, they have had to band together to protect themselves and the property of the honorable people. They deny that they are a mob, but assert that they are an organized and disciplined set of men who mean business. They assure good citizens that they have nothing to fear, and warn all barn burners and murderers to leave the country, and threaten them with lynch law where the State law fails to do its duty.

## STEAMSHIP DISASTER.

PHILADELPHIA, Nov. 15.—At the close of the testimony in the Champion disaster inquiry the following letter was read:

"November 13.—Edward R. Shortwood, Secretary—DEAR SIR: We have to acknowledge the receipt of your favor of the 12th inst., relating to the investigation now pending before the British naval court at Philadelphia, to inquire into the particulars of the collision between the steamer Champion and the ship Lady Octavia, and your courteous invitation to have Captain Lockwood attend. In reply, we beg to say that Capt. Lockwood is now awaiting the United States Local Inspectors, to whom he has already submitted his report, and before whom he daily expects to be called. If, therefore, he and the other parties interested in the vessel lost should desire to avail themselves of an opportunity your polite invitation offers, they could not, in any event, appear at an early day. Respectfully, yours, Geo. W. Quinn, for the New York and Charleston Steamship Company.

The Court adjourned until Monday, the Secretary, Mr. Shortwood being instructed to see when the Captain of the Champion would attend. It is understood that there is no way to compel them to attend, as they are amenable to the local United States Inspectors where the steamship belongs, and this being New York, their trial, if any, must take place there.

## MISSOURI.

ST. LOUIS, Nov. 15.—There is a movement among the millers here to close the mills until the price of wheat declines. The reason assigned is that flour is below the price at which it can be made without loss.

It is stated that many millers have already lost heavily on contracts made when wheat was less than one dollar per bushel, and they see no profit in the immediate future. But little flour has been shipped from here for the last three weeks, and large amounts are in store, more than enough to supply all demand for some time. Millers are satisfied that there must be a de-

cline in wheat pretty soon. At all events they will not purchase until the price falls, or there is a margin on flour.

## MAINE.

AUGUSTA, ME., Nov. 15.—The rumors in regard to the Governor and Council intending to count out the Republican majority in the Legislature, are exciting general attention. Notices were filed with the Government with yesterday's hearings in the disputed cases in Franklin, Lincoln, Penobscot and Washington counties. It is reported that no hearing will be allowed in the disputed cases, but certificates will be issued as already determined. A carefully compiled list shows that the Republicans have 89 members in the House and one vacancy by death, while the Democrats have 61 in the same branch. In the Senate the Republicans have 19, the Democrats 12.

## NEW YORK.

NEW YORK, Nov. 15.—The Cohen family, arrested on suspicion of setting fire to the tenement house, were discharged on account of lack of evidence of incendiarism.

Marshall H. Mallory, of the *Churchman*, which was burned out yesterday, says the losses on presses, type, machinery, engine, etc., are between forty and fifty thousand dollars.

## OHIO.

CLEVELAND, Nov. 15.—The main boiler in the plate mill of the Cleveland rolling mill exploded last evening, scattering oil in all directions. No one was killed. The fireman was slightly injured. The damage is \$20,000.

CINCINNATI, Nov. 15.—At Paoli and Princeton, Indiana, and South Bend, Ohio, considerable damage was done by the storm.

## WASHINGTON.

WASHINGTON, D. C., Nov. 15.—Col. John Hay, formerly private secretary to President Lincoln, has been appointed Assistant Secretary of State, to succeed Hon. F. W. Seward, resigned.

## Gen. Grant in Chicago.

At the grand reception to Gen. Grant in Chicago Wednesday, it being the occasion of the Reunion of the Army of the Tennessee, the General spoke as follows, in reply to the welcome of Mayor Carter Harrison:

"Mr. Mayor and gentlemen of the committee of reception of Chicago, gentlemen of Chicago and of Illinois: I feel very much honored by the welcome which I am receiving at your hands, to-day. I feel highly honored by the pledge of welcome which has been uttered by your worthy Mayor, which is something so personal to myself that it would be hardly in good taste for me to respond to the language of it, and it leaves, therefore, nothing for me to do but to convey thanks to this committee of citizens of this city for the hearty reception which they have given me. To one allusion to my reception abroad I will say, that in every case I felt it was a tribute to our country. I will add further that our country stands different abroad in the estimation of European and Eastern nations from what it did a quarter of a century ago. An American citizen is regarded in a different light from the American citizen of a quarter of a century ago. At that time it was believed we had no Nation. It was a mere confederation of States, tied together by a rope of sand, and would give way upon the slightest friction. They have found it was a grand mistake. They know we have now a Nation, that we are a Nation strong and intelligent, and are people capable of judging and knowing our rights, and determined on all occasions to maintain them against either domestic or foreign foes. That is the reception you, as a Nation, have received through me whilst I was abroad."

## The New York Election.

NEW YORK, Nov. 14.—The *Sun*, this morning, prints the official canvass for State officers as made by the supervisors of counties. In New York and Kings county the official count has not been completed, but the result will not probably be changed fifty votes from the unofficial count election night, and those figures are used. The table shows the following majorities except for Governor, the figures given in his case indicating a plurality: For Cornell, 40,175; Hoskins, Republican, for Lieutenant

Governor, 1,130; Carr, Republican, for Secretary of State, 4,411; Wadsworth, Republican, for Comptroller, 7,959; Ward, Republican, for Attorney General, 7,909; Wendell, Republican, for Treasurer, 4,651; Seymour, Democrat, for Engineer and Surveyor, 9,969. Kelly's vote, 77,471.

## The Chi-Delta Society.

CHI-DELTA HALL, Nov. 14, 1879. MR. EDITOR: Last night was a glorious night for Chi-Delta. The news having been spread during the week that we would have an election, every member seemed to be there to "exercise his franchise." There was no "intimidation or bulldozing," but every one was elected by acclamation or by an honorable ballot. Never before did we see such a spirit of enthusiasm and general good will in the Society. This is surely an era of prosperity. Every one is enthused; every one is working. The whole hundred of them are "busy as bees." If merit and labor is to be rewarded, they will certainly prosper. The following is a list of the very efficient corps of officers elected: President, M. Nicholson; Vice President, J. C. Hook; Critic, J. A. Cole; Editor of *Chronicle*, D. Fanning; W. H. Dick; W. B. Staley; W. A. Park; and E. W. Kennedy; Treasurer, W. L. Bullcock; Recording Secretary, A. B. Eaton; Assistant Recording Secretary, E. B. Barber; Corresponding Secretary, E. E. Lyster; Librarian, J. M. Maskell; Marshal, W. P. Hay. Let us here remark that never before did we see such a brotherly feeling among the members. CADEE.

## Phi Iota Literary Society.

The following is a list of the officers elect of the Phi Iota Literary Society, University of Tennessee: President, S. A. Myrders; Vice President, E. F. Fuller; Recording Secretary, E. D. Rees; Corresponding Secretary, J. E. Lantz; Treasurer, S. D. Long; Critic, C. S. Zimmerman; Librarian, P. P. Gilchrist; Marshal, F. A. Vincent; Board of Directors, W. J. Bailey and J. W. Tomlinson; Editors of *Star*: Editor in Chief, W. B. Lockett; 1st Assistant, P. P. Gilchrist; 2nd Assistant, R. Barton.

We would advise our readers who are in need of anything of the kind to examine Mr. Atkin's stock and prices before purchasing.

THERE has only been one time in the history of New York when the election returns came in with such provoking slowness. It was in 1854, when Seymour was running for Governor against Myron Clark. The result was in doubt for two weeks, the chances going up and down, like a sea-saw, but Clark finally came out ahead.

## A Lady's Wish.

"Oh, how I do wish my skin was as clear and soft as yours," said a lady to her friend. "You can easily make it so," answered the friend. "How?" inquired the first lady. "By using Hop Bitters," that makes pure, rich blood and blooming health. It did it for me, as you observe."

## Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills, Fever, Remittent Fever, Dumb Ague, Periodical Bilious Fever, and all the ailments which arise from malarial, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarial districts demand, and no specific remedy for any other medicine yet discovered for the cure of Intermittents, that it contains no quinine or mineral, and those who take it are free from danger of opium or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so invariably has been successful that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shivers or chills, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh of the Lungs, Pertussis, Spasmodic Affections, Hysteria, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which become intermittent or periodic, have no specific remedy than AYER'S AGUE CURE, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travelers and temporary residents are enabled to defy the most insidious miasmata, and will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulates the organs into healthy activity, and produces many remarkable cures where other medicines fail.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
