

FIRST EDITION.

11.30 P. M.

That was a big blow at Washington Monday evening.

Col. Dudley assumed the duties of his new office, commissioner of pensions, Monday.

The arrival of Senators Conkling and Platt in Albany no longer creates a sensation.

There is nothing in the vote at Albany yesterday that indicates a solution of the Senatorial question.

CONGRESSMAN KEFFER, of Ohio, is vigorously pushing his claims to the Speakership of the next House. The contest will be a lively one.

JAY GOULD is said to be coaching the New York World now. It is beginning to be regarded as his special organ.

THE MOLLY MAGUIRES, of Pennsylvania, are at their infernal work again. They murdered a foundryman at Dunbar last Sunday night.

The stalwarts are willing to drop Platt and elect Depew if the "half-breeds" will agree to support Conkling. The latter refuse to make any such a bargain.

The action of the directors of the Kentucky Central Road, at their meeting on Monday, leave it no longer a doubt about the connection between Cincinnati and Knoxville. It is to be completed in eighteen months.

It is denied on good authority that ex-Senator Spencer, of Alabama, has ever been offered the first assistant postmaster-generalship, and he denies that he would accept it if offered. The probability is that Mr. Tynes will remain in the position.

THE NEW YORK EVENING POST intimates that Assemblyman Spicola is better versed in poker than in law. He is the gentleman who so strenuously insists for the Democrats, that there was not a quorum of the Senate present at the joint balloting last Saturday, therefore no election by the present legislature will be legal.

OF government bonds held in the United States, the New England States own 11 per cent., the Middle States about 43 per cent., the Southern States a trifle over 2 per cent., the Western States nearly 8 1/2 per cent., while the banks and insurance companies own 35 1/2 per cent. The whole debt is owned by less than 100,000 individuals. There are 1,500 persons who hold \$410,000,000 out of the registered bonds.

A NEW ENGLAND TORNADO.

Franklin, N. H., Terribly Torn up by Wind, Rain and Hail.

FRANKLIN, N. H., June 29.—A destructive tornado struck this village about 4 o'clock yesterday afternoon, attended with a tempest of rain and hail, and almost incessant thunder and lightning. Hail stones, many of them more than an inch in diameter, fell in great numbers, and spread ruin everywhere. Half of the houses in the place had their windows shattered. Multitudes of chimneys were swept down, trees uprooted, and the gardens everywhere ruined. The damage seems to have been mainly confined to this village and valley for a mile or two each side. Part of the tornado was not more than two miles wide. Many buildings were badly damaged. Among them was the Methodist Church, of West Franklin. By the flood of rain and hail which poured in through the shattered windows, the Catholic Church was moved six inches on its foundation, twisted and badly damaged. A two-story house, together with a barn and a shed belonging to David E. Brown was blown down and George H. Drake's new house was lifted and turned several feet from its foundation, leaving it a complete wreck. The freight cars at the Northern Railroad depot were blown off the track. Great damage was done throughout the town by the furious sweep of the rain, though the storm lasted scarcely fifteen minutes.

At 11 o'clock last night another furious storm occurred, accompanied by much thunder and lightning, the rain falling in a perfect deluge for two hours.

Educated Women.

Refined and educated women will sometimes suffer in silence for years from kidney diseases, or consumption and piles, which could easily be cured by a package of Kidney-Wort. There is hardly a woman to be found that does not at some time suffer from some of the diseases for which this great remedy is a specific. It is put up in liquid and dry forms, equally efficient.—Springfield Union.

NEWS BY TELEGRAPH.

THE DEAD LOCK AT ALBANY.

The Stalwarts Propose a Compromise to the Half-Breeds.

That Conkling and Depew be Elected—The Half-Breeds Decline the Offer.

ALBANY, N. Y., June 29.—The stalwarts and half-breeds had a lengthy conference yesterday afternoon, but reached no conclusion. It is said the friends of Conkling sent a proposition to the half-breeds that the stalwarts would accept Depew for the long term if the half-breeds would accept Conkling for the short term, but the half-breeds would not listen to such an arrangement, and said that Senators Robertson and Woodin were especially opposed to it. The Administration supporters are still firm in rejecting the proposition of the stalwarts to elect Conkling and Depew for short and long terms respectively. They say they would prefer to accept Platt. At the same time they see no way out of the dead-lock, owing to the firmness of Conkling's supporters, who evince no disposition to leave him.

The vote to fill the short term vacancy was as follows:

Potter 52, Conkling 32, Wheeler 41, Cornell 3, Lapham 18, Folger 1, Hosk 1, Rogers 1, Crowley 1. No choice.

When the name of Senator Foster was called he said that as his vote here had been called into question in the Senate, by the Senator from the 25th district, he deemed it proper to make an explanation of his voting. He had been actuated by but one consideration, and that was to elect two Senators in the place of the two Senators who had resigned. So far as he could learn the views of his constituency, he believed that they did not desire the return of the two resigning Senators. With that view he had first voted for the candidates known as the half-breeds, and subsequently for a half-breed and a stalwart and then for two stalwarts. This week, he had determined to vote for two stalwarts and if no election was secured, he would then vote for adjournment. He then explained his vote for Lieutenant-Governor Hoskins, whose course in public life he eulogized, and concluded by voting for Hoskins.

Mr. McCarthy, when his name was called, said that he had simply alluded to the gentleman's voting for Lieut.-Gov. Hoskins when it was known that he was paired with Senator Astor, although the senator (Forster) had said that he was not paired with Lieut.-Gov. Hoskins. The vote to fill the long term vacancy was as follows: Depew 50, K-rnan 52, Platt 28, Cornell 9, Wheeler 1, Crowley 7, Tremaine 1, Lapham 1. No choice.

Mr. Sharpe offered a resolution that when voting hereafter, on asking to be excused, members of the Senate have unlimited time for explanation, and that the members of the House be limited to two months each. He said the only object he had in view was to establish a rule. He asked that the resolution lie on the table till to-morrow, which was agreed to. Mr. Sharpe then moved for adjournment. Carried. Ayes 81, noes 66.

FROM MEXICO.

An Officer and the Engineer of the Ill-fated Train Under Arrest.

CITY OF MEXICO, June 29.—G. Pacheco, governor of the Federal District, succeeds Ex-President Diaz as minister of public works. Dr. R. Fernandez Lecaster has been appointed governor of the Federal District. The details of the Morelos Railroad accident augment the horrors of the disaster. In addition to the killed previously reported, there are 37 women and 5 children, mostly the wives and children of soldiers. The authorities of Morelos have been officially informed that the accident was caused by one of the officers, who, fearing the soldier would desert, compelled, with his pistol in his hand, the engineer to go forward in spite of his reluctance on account of the heavy rain and intense darkness of the night. The officer and engineer were both saved, and have been arrested.

Texas News.

GALVESTON, Tex., June 29.—A special from Weatherford, Tex., to the News says: The large mill and gin property of Verdy & Coder were burned on Saturday; loss, \$10,000. There is no insurance. It is supposed the fire was of incendiary origin.

A special to the News from Austin says: By an amendment to the charter filed at the office of the secretary of State yesterday, the Texas and Mexican Railway changes its name to San Diego and Northwest-ern, owing to a conclusion arrived at to abandon the Mexican project. Governor Roberts has resented Burton, who was to be hanged at Weatherford on Friday next, because the papers for his commutation were received too late for a full investigation before Friday.

A private telegram has been received here of the death of General Canales, of the Mexican army.

WASHINGTON.

Miscellaneous News from the National Capital.

WASHINGTON, D. C., June 29.—The Treasury Department to-day issued a circular notifying the collectors of customs that all machinery and other articles arriving from abroad at the ports of New York, Boston and Philadelphia, destined for the International Cotton Exposition, at Atlanta, in October next, may be shipped by bonded common carriers from the port of the first arrival to Atlanta under the provisions of the act approved June 10, 1880, and the act of February 25, 1881.

Goods arriving at Beaufort, S. C., may be similarly shipped on entry for warehouse and transportation after examination by the customs officers usually required in such cases. On the arrival of the goods at Atlanta they will be taken possession of by the surveyor of customs and entry for warehouse in the usual manner will be required after the bonding in the exhibition building. Goods withdrawn for consumption and payment of duties after one year from date of importation, will be subject to additional duty of 10 per cent. of duties on her wise accruing. All goods entered in the foregoing manner, not withdrawn for consumption or exportation within three years from date of importation, will become subject to sale to realize the duties due.

Greenback Nomination in Maine.

LEWISTON, Me., June 29.—Judge W. S. Gilbert, of Bath, was yesterday nominated for Congress by the Greenbackers of the 2d district. Judge Gilbert, before the nomination, pledged himself to stand with the Greenback party and for Greenback principles, and to vote with the Greenbackers in the organization of the national House in case he should be elected.

Resolutions were adopted against the national banking system and for the immediate payment of the public debt.

FROM FOREIGN LANDS.

News From the Old World Through the Atlantic Ocean.

LONDON, June 29.—A Times Rome correspondent says: Everybody, from the quiet bankers to the hot-headed politicians, indorses the opinion expressed in the article in the Liberty, which declares that France is anxious to relieve the share of her defeat in 1870, and convinced that she is not sufficiently strong to measure herself against Germany, seeks in every way the pretext for picking a quarrel with Italy. The Liberty advises patience and foresight, and says it must be for Italy to choose the occasion of going to war with France, and not leave the latter to force on a war when she finds it most convenient.

In the central criminal court to-day Lord Chief Justice Coleridge sentenced Herr Johann Most, publisher of Freiheit, convicted of inciting to murder, to sixteen months' imprisonment with hard labor. Lord Coleridge said the prisoner's offense was detestable and cowardly, and but for the jury's recommendation to mercy he would have inflicted a sentence of penal servitude. Herr Most, on leaving the prisoner's dock, exclaimed, "We might as well be in Russia."

A process-server named Meanleff was shot dead at this residence, near Castle Island, county Kerry, last evening. He recently gave evidence in the court of sessions against the President of the Local Land League. In the House of Commons in committee to-day, clause 5 of the 1nd bill was adopted by a vote of 238 to 142, after the government had consented to the amendment offered by Healy, home rule member, removing some of the existing limits to the tenant's power of assignment, and on the other hand, consented to some modifications tending to favor land lords in the scale of compensation for the disturbance. The committee is now discussing the vital clause—clause 7—on which there are 12 pages of amendments.

MINOR DISPATCHES.

CHARLOTTE, N. C., June 29.—At Sparthburg yesterday, W. B. Hicks, who, in May last, killed his wife by shooting her and then cutting her throat, and who afterward attempted to commit suicide, was found guilty of murder. The defense was insanity.

NEW ORLEANS, June 29.—The yacht race for the Southern Yacht Yimb challenge cup has been postponed until July 9, on account of the unfavorable weather.

NORFOLK, Va., June 29.—Jackson Eastham, a prominent business man of this place, and senior partner of the wholesale grocery house of Eastham, Palmer & Co., died last evening of a pocket-knife stab in the abdomen, inflicted by a young man named Thomas Donald, during an altercation at the Atlantic Hotel Thursday night. Donald is under bail for the act.

NEW YORK, June 29.—The bark Justin H. Lagersoll, of New Orleans, bound for Cadiz, has put in for repairs, having been thrown on her beam end, and obliged to throw over her deck load and cut away her mainmast, in a gale which struck the vessel June 22d, in latitude 34 degrees and 24 minutes, longitude 75. On June 27th her steward, Frank Clark, died of inflammation of the bowels.

INDICATIONS.—For Tennessee and the Ohio Valley: Fair weather, preceded in the east portion by occasional rain, stationary or lower temperature and higher barometer.

SEVERE STORM AT WASHINGTON.

Houses Unroofed, Trees Blown Down and Cattle Flooded.—Great Damage to Property.

By Telegram to the N. Y. Tribune.

WASHINGTON, June 27.—Shortly after 8 o'clock this evening one of the most severe thunder-storms ever seen in this latitude broke over Washington. For nearly an hour clouds had been gathering in the northwest, from which were emitted flashes of lightning which at last came in such quick succession that a continual blaze of light illuminated the sky. The wind rose and soon blew a gale, the 23,000 trees planted in the streets were bent to the ground, and many hundreds of them probably are ruined. The walks in the parks are obstructed by fallen tree-tops and branches. Many houses were unroofed, and others were flooded by water, which rendered many of the streets impassable for several hours. Acting Paymaster-General McClure reports his house unroofed, and says that Paymaster Vedder's house is almost a wreck. It is reported that the roof of a house on G street was torn off and carried across the street and a vacant lot before it found a resting place. Most of the telegraph and telephone wires throughout the city are down.

Reports from the river front indicate that great damage has been done, and fears are expressed for the safety of several excursion boats which left the city in the evening. The metal roof of the Masonic Temple was torn off and carried across the street, where it crashed through the windows of a building. The entire roof of the city hall was carried away, and the building, including the offices of the register of deeds and register of wills, is flooded. Architect Park, of the Capitol, who has just visited the building, says that the destruction caused is greater than would have resulted from a fire. Trinity Church spire was blown down, four houses at the corner of Four-and-a-half and C streets were unroofed. A number of business houses suffered destruction of show-windows, causing great damage. One stock of goods alone is said to have suffered damage amounting to \$5,000. The loss and damage of property will probably amount to several hundred thousand dollars.

The Chicago Panther.

CHICAGO, June 28.—Grisoom, at noon weighed 163 pounds, a loss since yesterday of a quarter of a pound; since the beginning of the fast, thirty-one days ago, 343 pounds; pulse 58, respiration 14. He took two hours drive to Central park with one of his watchers this morning, and says that although a little weak and decidedly hungry, he is confident that his endurance will bring him through. He looks fleshy in the body, but his face has lost its rotundity.

PRESIDENT COLE.

What Robert Toombs says of him.

Atlanta Constitution, yesterday. President E. W. Cole reached the city yesterday morning at 6 o'clock. He breakfasted with Mr. Toombs, who is one of his ardent admirers. Mr. Toombs said of him to a Constitution man on yesterday:

"Cole has got more sense than any of those fellows that are making these big combinations. I've watched them all, and Cole has the longest head, the steadiest nerve and the best system of them all."

"You think his system is a strong one?"

"I do—the strongest and best projected or existing in the South. If there is anything I do know, it is all about the general value of railroads, and I am satisfied that after all the rest fail to pay, Cole's lines will make their way."

Mr. Cole spent the most of yesterday in the offices of his company on Broad street, looking over the details that have been gathered and preparing for the letting of contracts. Mr. McCracken, who is in charge, is in North Carolina. Mr. Cole will be here for a day or two, and will spend this evening at the executive mansion, where a few gentlemen have been invited to meet him.

KNOXVILLE AND CINCINNATI.

A Connection to be Completed in Eight Months.

The following we clip from the Cincinnati Gazette of Tuesday morning:

A meeting of the board of directors of the Kentucky Central Railroad was held at the office of the company in Covington yesterday. The most important business before the board was the location of the new extension. It was settled by the following resolution:

"Resolved, That the line for the extension of the Kentucky Central Railroad Company be and is hereby located from Paris, Bourbon county, to a point on the Knoxville branch of the Louisville & Nashville Railroad Company, near Livingston (Rockcastle county), through Clark and Madison counties."

The contract for building the extension was awarded to Warner, Tabler & Co., of Mt. Sterling, Ky.,

whose bid was regarded as the best, and who are at present engaged on the Big Sandy Railroad. The location of the proposed extension of the Kentucky Central is regarded as an admirable one. Work will be begun as soon as the right of way can be procured—a task that seems to require but little time and trouble, and it is to be built complete within eighteen months from date.

MARKETS BY TELEGRAPH.

Futures.

New York, June 29.—Cotton, net receipts; gross, 2,000 bales. Futures closed steady; sales, 47,000 bales; for June, 10.33a10.35; July, 10.36a10.37; August, 11.02a11.03; September, 10.65a10.66; October, 10.23a10.24; November, 10.00a10.10; December, 10.10a10.11; January, 10.21a10.22; February, 10.34a10.35; March, 10.47a10.49.

Sugar quiet and unchanged. Hogs steady; common and light, \$4.25a4.60; packing and butchers', \$5.40a6.30.

A Skillful Farmer.

No one who has visited the Island Home farm has failed to notice the skill with which hay and straw stacks there are constructed. We noticed while witnessing the threshing the other day, and could but admire the genius displayed by Jerry Padgog, who has the honor in charge. He is very skillful and his men are the best for the symmetrical and well-constructed stacks.

ROYAL BAKING POWDER Absolutely Pure.

Made from Grape Cream Tartar. No other preparation makes such light, flaky hot breads, or luxurious pastry. Can be eaten by the peptic without fear of the results from heavy indigestible food. Sold only in cans, by all grocers. ROYAL BAKING POWDER CO., NEW YORK.

D'HARTER'S
GENTLEMEN: I was suffering from general debility to such an extent that my labor was exceedingly hampered. A vacation of a month did not give me much relief. In the contrary, was followed by increased prostration and sinking vitality. At this time I began the use of your Iron Tonic, from which I realized almost immediate and wonderful results. The old energy returned and I found that my natural force was not permanently lost. I have used three bottles of the Tonic. Since using it I have done twice the labor that I ever did in the same time during my illness, and with double the ease. With the tranquil nerve and vigor of body, has come also a clearance of thought never before enjoyed. If the Tonic has not done the work, I know not what. Live to the credit.
J. F. WATSON, Pastor Christian Church, Troy, O.

IRON TONIC.
The Iron Tonic is a preparation of Pure Ferrous Sulfate, and Phosphates, associated with the Vegetable Aromatics. It serves every purpose where a Tonic is necessary.
MANUFACTURED BY THE DR. HARTER MEDICINE CO., NO. 213 NORTH MAIN STREET, ST. LOUIS.

IRON
A TRUE TONIC
A PERFECT STRENGTHENER. A SURE REVIVER.
IRON BITTERS are highly recommended for all diseases requiring a certain and efficient tonic; especially Indigestion, Peppermint, Intermittent Fevers, Want of Appetite, Loss of Strength, Lack of Energy, etc. Enriches the blood, strengthens the muscles, and gives new life to the nerves. They act like a charm on the digestive organs, removing all dyspeptic symptoms, such as Tasting the Food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache. Sold by all druggists. Write for the A B C Book, 52 pp. of useful and amusing reading—sent free.
BROWN CHEMICAL CO., Baltimore, Md.
