CONGRESSIONAL.

WASHINGTON, December 27.—Several petitions were presented for the passage of the bill for the increase of pensions to one-armed and one-legged soldiers...

At the close of the morning business, the Pendleton civil service bill was taken up, according to understanding. When the Senate adjourned Saturday night last, the pending question was on an amendment offered by Senator Hawley...

The amendments were supported by Senators Beck, Vest and George, and opposed by Senators Hawley, Lapham, Harrison and Sherman. Senator Vest's amendment was rejected by a vote of 18 to 27.

Senator George moved to amend the section of Senator Hawley's amendment prohibiting the solicitation or receipt of contributions for political purposes in public buildings...

Senator Blair offered the following as an additional section: "No person habitually using intoxicating beverages, shall be appointed to or retained in any office, business or employment to which the provisions of this act are applicable."

Senator Brown moved to amend the amendment by inserting after the word "bearing" the words "to excess." Agreed to. Senator Blair spoke briefly in support of his amendment.

Senator Edmunds said the amendment as it stood contained the legal implication that other vice were to be excluded from consideration by the civil service commission, and to cure this defect by inserting after "intoxicating beverages" the words "or guilty of any other immoral habit."

Senator George offered an amendment providing that when the board of examiners ascertained by a public examination, which shall be free to all applicants, that two, or if there be more than two of equal qualification and merit, then from those of the highest grade of qualification they shall select from among those best qualified one whose political affiliations are with the Republican party...

Senator Logan proposed that its friends should speak to-day, and he would occupy two or three hours tomorrow in opposing it. Senator Conger protested against any arrangement for the final disposal of the bill until it should have been first considered by the full Senate.

The conclusions of the military board, composed of Generals Schofield, Terry and Getty, were read from the report of the committee on military affairs, made in May last. Senator Sewell then addressed the Senate in support of the bill.

At the conclusion of Senator Sewell's remarks the Senate went into executive session, and soon after adjourned. The New Channel at Mobile a Success.

MOBILE, Ala., December 27.—The British steamer Thorn Hill sailed to-day from this city with 4,000 bales of cotton for Liverpool. She passed through the new channel without difficulty, drawing six feet of water. North winds were prevailing and the water was very low, being fully two feet below mean tide.

Survived the War to be Killed by a Train. PETERBURG, Va., December 27.—Barney Sherdon, a resident of Raleigh, N. C., was run over by a passing train on the Wilmington and Weldon Railroad, near Weldon. The deceased was well known and was a gallant soldier in a North Carolina regiment during the late war.

MONUMENTAL EVIDENCE.

"For Strength, Purity and Wholesomeness, the Royal Baking Powder Stands Unsurpassed."

The following certificates from well known chemists and scientists form a strong array of evidence as ever given in behalf of any article of human food.

Prof. Edward G. Love, the Government chemist, says: "I have tested a package of Royal Baking Powder which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances."

Prof. Henry A. Mott, Government chemist, says: "It is a scientific fact that the Royal Baking Powder is absolutely pure."

Prof. S. Dana Hayes, State assayer of Mass., says: "I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome."

Prof. F. L. Bartlett, assayer and chemist for the State of Mass., says: "I have examined a sample of Royal Baking Powder, and find no injurious substance nor any adulteration. The materials comprising the powder are pure, and the proportions quite accurate."

The late James V. Z. Blaney & Son, analytical chemists, of Chicago, said: "We have examined a sample of Royal Baking Powder, and find the same to be free from any deleterious substances."

Dr. J. H. Wright and Dr. Albert Merrell, analytical chemists, late of the firm of Wright & Merrell, St. Louis, each says: "I have made a careful analytical test of Royal Baking Powder, purchased by myself in the open market here, and in the original package. I find it to be a cream of tartar powder of the highest grade of strength, containing nothing but pure, wholesome, and useful ingredients."

"JUAN H. WRIGHT, M. D. ALBERT MERRELL, M. D." COMING ATTRACTION. G. D. Hess's Case English Opera Company.

The show organization will inaugurate a brief season of grand and comic opera. It may be said that Mr. Hess's company is the only one in this country organized to successfully present both grand and comic opera.

At 1:55 o'clock, the bill to prohibit the solicitation or payment of political contributions by government employes, was passed just as it came from the judiciary committee. Senator Sewell's amendments were offered and rejected.

Senator Sewell moved to take up the Fitz John Porter bill. Senator Sherman appealed to Senator Sewell to give way, in order that a vote might be had on the bonded whisky bill, but Senator Sewell declined to give way until the Porter bill should have been taken up.

The Senate then, by a vote of 22 to 21, took up the latter bill. Senator Sewell was willing that the bill should be informally laid aside to permit Senator Sherman to call up the whisky bill, but unanimous consent was required, and several Senators objected, so the Senate proceeded with the Porter bill.

Monday, matinee, Maccoite, evening, Fra Diavolo. SCRIPPO, N. Y., Dec 1, 1879. I am the Pastor of the Baptist Church here, and an educated physician. I am not in practice, but am my sole family physician, and advise in many chronic cases.

A party of men undertook, last Saturday night, to hike with a negro named Gray, in Hawkins County. Gray, not entering such Christmas festivities, fired into the crowd of assailants. They returned the fire. Results: Gray killed, another negro in the cabin wounded, and two white assailants wounded, one dangerously. Gray was rescued of getting his Christmas pork without paying for it.

OVER THE STATE.

The train from Nashville to Lebanon, Monday evening, ran over and killed an old man 70 years old. He was walking the track and did not observe the train in time to make his escape.

J. Adam Payne, after a protracted illness, died at his residence in East Nashville on Saturday night last. The deceased was one of the best known citizens in Davidson County, and was an enterprising and successful farmer for a long period.

The Nashville Banner says that there is greater scarcity of money in Nashville than ever before in the history of the city. The banks are even closed against any who want to borrow, except regular customers, and to them only on gilt edge paper.

Two men were run over and killed on the Cincinnati Southern Railway on Christmas day. One was an unknown white man, near Georgetown, Ky., the other a negro, near Nashville, Ky.

Mat Goddard, a brakeman on the Cincinnati Southern railway, a native of Greenville, Tenn., but at present a resident of the 4th ward of this city, was very seriously injured yesterday. Dayton, Tenn., he was jumping from a box to a flat car while the train was moving.

Miss Fannie G. Turner, daughter of the attorney-general, will leave shortly for New York to prepare herself for the stage. The young lady is gifted with the personal attractions which are necessary for success, and the ambition, without which talent would avail nothing. By hard study and persevering effort she may become a star in the Memphis will be proud of her.

A few weeks ago Mr. A. Mueller received a letter from a friend of his son Adolph, formerly a well-known young man of this city, in which he stated that he was very ill. The money was sent, but nothing further was heard in reference to the matter until yesterday, when a letter from his wife came, and that Adolph had been put on the train for Chicago, bound for Chattanooga. Nothing further has been heard from him, and his relatives are very anxious, not knowing whether he is alive or dead.

Fifty-six arrests were made by the police at Memphis Christmas day. The cotton receipts at Memphis are now 40,437 bales ahead of last year. W. H. Powers, a prominent merchant of Glasgow, has fallen, being woefully insolvent.

The latest report from Money Creek shows sixteen cases of smallpox and two deaths, the deaths being in the Holdman families, where it first broke out—Dandridge Banner. WINCHESTER, December 27.—The judge gave his decision in the Poe case this morning. John is to be languished on the 23rd of February, and John is to be put in the penitentiary for life.

Frank B. Earnest, a former Knoxville journalist, but now a resident of Texas, is in this city, on route to his old home in East Tennessee. He is accompanied by his wife.—Nashville World. The after-Christmas issue of the Knoxville Tribune comes to our table with a bad headline. There is no more to be found in a turkey and stuffing which the "short" editor is trying to digest.—Nashville World.

Rube Shaw, the colored desperado of Shelby County, has been received at the penitentiary. He escaped in 1869. Rube has seven buck shot in his arms and legs and neck. His term of sentence is somewhere between fifty and sixty years. Over \$14,000,000 of old Tennessee bonds have been funded into new 60-3-4-5 bonds. The arguments which the able statesman at Nashville will make for the redemption of these bonds for the purpose of repudiating ten cents more of the public debt will be printed and will be read with a great deal of interest throughout all parts of the United States and Europe.—Memphis Avalanche.

Christmas night, as the Nashville train was rounding a sharp curve near Bellair, 20 miles from Chattanooga, the train was derailed by an old man. Upon examination it found that a rail was chained across the track, the evident intention of the parties who placed it there being to wreck the train. The unusual excitement admitted the dead were arrested and are now in jail at Sealsboro, Alabama.

Tuesday, as the Rockwood was rounding the point of the Rockwood in Tennessee, a few miles above Chattanooga, a fine large, containing 200 tons of iron ore was sunk. In rounding the point, the bow of the boat was in a rocky, and the stern in a swift current, and this caused the boat to suddenly swerve, and in doing so, the large struck a snag and was sunk before anything could be done. The cargo was valued at \$1,000, and the ore \$400; it is the property of Roberts, Winston & Co.

One of the most mysterious affairs of Monday was a shooting affair on Broad Street, on the corner where the horse returned the fire. About ten shots were exchanged altogether, but as both seemed to be dead marksman, neither one was hurt. The affray caused a good deal of excitement at first, but as both the combatants disappeared it soon died out.—Nashville American.

DEARER LUNGS ARE GREATLY ON AN INCREASE IN THIS COUNTY.—The sudden changing of the weather has done much to give rise to Consumption. But there are thousands of cases who bring it on by their own imprudence—such as wearing damp clothing, and going from the warm room into the cold air, and checking the perspiration, which causes irritation of the lungs, and then matter or phlegm will collect, which nature will try to relieve by coughing it up, to prevent pestilence from forming. If nature does not raise the matter with ease, and stop this inflammation, tubercles will soon form, and consumption will soon follow. Azzay's Lung Balm will cure and prevent thousands of cases of Consumption if it is only taken in time. For sale by all Druggists. Clifton Pike. The work on this pike attracts the general attention of the traveling public. It was begun under the direction of I. T. Anderson, in 1877, whose forces was employed here principally for six months. Capt. Homer Gilmore and M. W. Walker also did some good work on this pike. "Squire Carter," who succeeded Mr. Walker, completed the road, and afterward repaired the entire work done by his predecessors—a distance of five miles. The road remains in good condition and returns from tolls a handsome revenue to the country.
