

French and Prussian Leaders.

The leading soldiers brought prominently forward by the pending conflict between France and Prussia are men whose reputations have been made chiefly in the midst of events equally if not more important than this is likely to be.

THE FRENCH GENERALS.—MARSHAL CANROBERT.

Marshal Canrobert (François), who commands the first army corps, is over sixty years of age, having been born in 1809. His military celebrity, like that of most of the French generals, was commenced in Algeria, and was perfected before Sebastopol.

Charles Guillaume Marie Cousin de Montaudan, Count de Pallikao, the French General and Senator, now called to the command of the second army corps, was born on the 24th of June, 1786. He was employed at an early age in Algeria, and distinguished himself there as a cavalry officer.

MARSHAL BAZAINE.

Marshal Bazaine, (François Achille) who is in command of the Imperial Guard and reserve, is the descendant of a family of soldiers. He is now 61 years of age. He has the high reputation of being one of the bravest officers in the French army.

THE PRUSSIAN GENERALS.—BARON VON MOLTKE.

Helmuth Charles Bernard, Baron von Moltke, chief of staff of the Prussian forces, and the man upon whom devolves the conduct of the war in behalf of Prussia, was born at Gneiwitz, in Mecklenburg, on the 20th day of October, 1800, and is, therefore, at the present time, about seventy years of age.

The battle of Sadowa came. The Austrians had been beaten, and Prussia had become the great power of Germany. Gen. von Moltke was on the field near the person of the King during the fight, and under his direction the army advanced towards Vienna.

CROWN PRINCE FRIEDRICH WILHELM.

Prince Friedrich Wilhelm is lieutenant general inspector of the first division of the army, commandant of the first division of infantry of the guard, chief of the first regiment of the grenadiers of Eastern Prussia, No. 1; first commandant of the first battalion (Berlin) of the second regiment of the Landwehr of the guard attached to the first regiment of foot guards, and the second regiment of grenadiers of Silesia, No. 11; lieutenant general of Pomerania, chief of the regiment of Russian Hussars, No. 11, and proprietor of the regiment of Austrian infantry.

He it was who commanded the army of the Order at Sadowa. Of the distinguished part which he took during the German-Italian campaign but little is to be written. At first he was unknown, and nobody had any idea that the conduct of the war would eventually come into his hands, but at last it did so.

PRINCE FRIEDRICH CHARLES.

Frederick Charles Alexander, born on June 29, 1803, is Grand Master of the Balilwick, of Brandenburg of the order of Hospitaliers of St. John, of Jerusalem, field marshal-general and commander of artillery, colonel of the twelfth regiment of Prussian infantry, first commander of the first battalion second regiment of Grenadiers of the Landwehr of the Guard, colonel of the eighth regiment of Austrian Cuirassiers, and of the fourth regiment of Russian Musketeers. He commanded the army at the Elbe at Sadowa, and married, on the 25th of May, 1827, the Princess Marie Louise Alexandrine, daughter of Charles Frederick, Grand Duke of Saxe-Weimar.

Dr. M. Lytle's Elixir!

FOR THE CURE OF

DIARRHEA, DYSENTERY, BLOODY FLUX,

CHOLERA MORBUS, PAINFUL PURGING, SUMMER COMPLAINT, CRAMP AND COLIC.

The want of a medicine of this character has long been felt by the community, and has induced the proprietors, by over thirty years' trial in private, to introduce it for the benefit of the public as a staple family medicine. It does not act as astringent alone, but by reducing the activity of the secreting membranes of the bowels, reduces the inflammation, hence performs a thorough cure.

The proprietors take the liberty of stating to the public, that no more perfect receipt which is guaranteed for the cure of the above-mentioned diseases exists in the world, being entirely vegetable, and containing no sugar of lead or other noxious drug or mineral. And they would further say that the preparation has met the hearty approval of numerous physicians who have used it.

DIRECTIONS:

To adults, a tablespoonful after each passage, or four times a day; To children under ten, a half-teaspoonful as required. To children under five a teaspoonful. To children under two or three, a half-teaspoonful, as required, and by carefully administering as directed it will never fail.
