

TELEGRAPHIC SUMMARY.

BERLIN, Sept. 20.—The North German Gazette says Bismarck consents to see Favre, promising, however, that Germany is not disposed to intermeddle in the internal affairs of France. The German States are ready to recognize the Republic when they are sure that the French people prefer that form of government, but to protect the military operations it is necessary to recognize in territory actually occupied the authorities left by the Empire.
Moreover, it is still unknown whether Bismarck recognizes the Republic and the government at Paris. Indeed, he expressly disavows both.
HONG KONG, Sept. 1.—VIA LONDON.—The feeling in China against foreigners is so intense as to cause fears of fresh outbreaks of violence on the part of the natives.
LONDON, Sept. 21.—Paris papers represent the joint income of the Emperor and Empress at two hundred million francs. It is said General Worder threatens to entirely destroy the city of Strasbourg if it does not surrender.
Russia is moving large bodies of troops into Poland.
General Ripley, an American, is now in Paris, and has tendered his services to the Committee of Defence.
FLORENCE, Sept. 21.—The city of Rome is occupied by the Italians. No blood was shed, which is altogether attributable to the tenderness of the Pope, who forbade any resistance.
LAGUY, Sept. 20.—Evening.—A sharp battle has occurred between Villeveuve and Montrauge, near Paris. The French force consisted of three divisions commanded by General Vinoy, supported by a strong redoubt. The French were defeated.
VILLE ALBANY, Sept. 21.—The Italian troops entered Rome through the Porto Reo, firing on the mercenaries as they advanced. At last the Pope ordered a white flag to be hoisted, when hostilities ceased. The national forces then quietly occupied the city.
RICHMOND, Sept. 21.—Hon. George W. Booker, Congressman from Virginia, and A. J. Hamilton, of Texas, have issued a call for a convention of the native, original Union men of the South, to be held at Knoxville, Tennessee, on the 1st of November. The subjects to be brought to its attention will be the acceptance of the 14th and 15th Amendments as the final status of the African race; universal amnesty, and a restoration to every man of the civil and political rights he enjoyed before the war; compensation to loyal men for property taken during the war; a fair distribution of the banking capital in the South and West; the abolition of the iron-clad oath, giving the rights of citizens to all persons from whom the duties of citizens are required, and the payment of the public debt according to contract.
The call says the convention is not to be of a party character.
LONDON, Sept. 21.—A letter from Bismarck, bearing date of the 18th, says: The next phase of war will be the investment, and in time, it is hoped, the occupation of Paris, and then peace. Those in power will certainly not desire further slaughter when a sole requirement will be an absolute guarantee that peace in Europe will not again be disturbed. Bismarck characterizes the statements of the newspapers as mainly romance. When gentlemen of the press approach him, he gives them civil answers; their imagination does the rest.
The Prussians threaten those engaged in repairing railroads which they have destroyed with death.
Bietrie, formerly Prefect of police in Paris, writes from Wilhelmshohe, that it was impossible for the Emperor to conceal from the Court his extravagance by the reinforcement of the civil list; he also witnesses that the Emperor has ten millions safely invested at Amsterdam; also, that it is untrue that the Emperor borrowed two thousand millions at Sedan. Bietrie adds, that his master's misfortune should protect him from such outrageous publications.
TOURS, Sept. 22.—The Prussian cavalry entered Mont-sur-Seine and made a requisition. They subsequently rejoined their corps, which was advancing in that direction.
NEW YORK, Sept. 22.—The Telegram's special from London says the German military authorities demand Alsace, Lorraine, Metz, Toulon and Verdun for Prussia, French Flanders for Belgium, Savoy for Switzerland, Nice and Corsica for Italy. They will not submit in any way to interference on the part of neutrals.
NEW YORK, Sept. 22.—Admiral Farragut's obsequies will be held October 1st. General Alexander S. Webb has been invited to act as Chief Marshal on the occasion.
LONDON, Sept. 22.—Telegrams to several of the London journals assert that the Prussians, having been repulsed in their last assault on Toul, have abandoned the siege and are marching to J in the army around Paris.
During the investment of the city, the following important engagements have occurred: On Saturday, the 17th, a Prussian brigade routed several battalions of French north of Bievonnes Forest. Next day a sharp skirmish occurred near Vitry. On Monday the French were driven from the outposts at Vitry, losing seven guns. Near Versailles a body of two thousand Garde Mobile captured a number of Prussians, whose protection had been solicited by the inhabitants.
FLORENCE, Sept. 22.—A plebiscite is to be taken in Italy to decide whether or not Rome shall be the capital of the Kingdom.
FLORENCE, Sept. 22.—A contingent of each division of the Italian army occupied Rome, while the remainder camped outside of the walls.
The Papal troops laid down their arms, and marched out before the Italian soldiers, who offered lustily for Victor Emanuel.
The people all over Italy are enthusiastic over Italian unity. The large cities are all covered with bunting, and fireworks and illuminations attest the general joy.
The Arab troops have been sent back to Algeria from Marseilles, to suppress a general revolt there.
The publishers of Boston Times have been sued by J. W. Simonton, of the Associated Press, for libel. Damages laid at \$40,000. Their real estate attached.
Customs receipts for week ending 17th, \$4,500,000.

MISCELLANY.

RECALL OF GEN. CLUSERET.
Escaped Prisoners at Lyons—Prussians Watched From Balloons.
TOURS, Sept. 23.—The Paris mails are spasmodic.
Gen. Cluseret has been recalled, for encouraging dissatisfaction and disorder among the people.
Great numbers of French prisoners, who escaped while en route to Germany, have reached Lyons. Many more have reached Toul.
Balloons successfully watch the movements of the Prussians around Paris.
Another balloon from Metz, containing 137 letters, fell into the proper hands. The garrison and citizens are eating horse flesh. Breadstuffs are plenty.
Garibaldi is still a prisoner at Capena. Italian vessels are cruising around the island to prevent his escape to France.
The La France, claiming to write from unerring authority, gives the following as the Prussian plan: "The advance toward Paris was so regulated as to bring several corps before Paris on the 14th of September. The city was then to be turned on the south, cutting communication with Tours. From Versailles, as the Prussian headquarters, they were to harass Paris until it surrendered. Metz, Strasbourg and Toul still hold out, and present at least a fortnight's task. Meanwhile, the Prussians will detach two corps to Lyons, Havre and Cherbourg, and send flying columns throughout the country for forage. Seventy-five thousand cavalry, for this service, is expected from Germany."
A portion of this programme has already been realized.
A writer reaffirms that Steinmetz has been disgraced because of the heavy losses inflicted by Bazaine.
The Journal, of this city, states that M. Magne, formerly Minister of France, says in a private letter that shortly before the change of Government, he said and repeated for one million chassapots and three hundred thousand other guns which were never delivered.
BRISLIN, Sept. 23.—Bismarck and Jules Favre were closeted all day Thursday.
Bismarck insists on a convention of the Constituent Assembly to ratify a treaty.
Favre has conceded indemnity for the cost of the war, by the surrender of a part of the French fleet and the dismantling of Strasbourg, Metz and possibly other fortifications.
LONDON, Sept. 23.—The Prussians are preparing to move on Orleans.
FLORENCE, Sept. 23.—Italian General Codorna has sent troops to defend the Pope.
MADRID, Sept. 23.—Venom is spreading rapidly in the sea coast towns.
NASHVILLE, Sept. 22.—The Republican Convention nominated Hon. W. H. Wisener, of Bedford county, for Governor, by acclamation, who will make a thorough canvass of the State.
A platform was adopted, of twelve resolutions, embodying Progress, Industry, Honesty, Equality, Protection, and Liberty for all men. It is full of food for rebel orators to discuss.
The Convention represented all parts of the State, and was numerous, intelligent and respectable.
Speeches were made by Messrs. Maynard, Peabody, Nunn and others.
Full tickets are to be nominated in all the districts and counties, and the campaign will be vigorous.
No one is frightened by the old yell that filled the Capitol at the recent military reunion. Hood's second campaign on Nashville is not regarded here as a success, although Thomas is dead.
AGUNTA, GA., Sept. 21.—There is a report of a disturbance between the whites and blacks in Lawrens and Barnwell counties, S. C., a few nights since. Two negroes were murdered. Two blacks and one white man were wounded. No cause assigned.
CHARLESTON, S. C., Sept. 21.—Much excitement prevails in Lawrens county on account of the disturbances between the whites and the negroes. Both parties are armed and organized. Several colored men have been killed. The Reform party charge that these disturbances are part of a prearranged plan of the secret leagues to create excitement for political effect. The Republicans indignantly deny the charge. At last accounts all was quiet.
SAN FRANCISCO, Sept. 23.—The Oregon Legislature has elected J. K. Kelley, Democrat, United States Senator. Vice Williams, Radical.
SAN FRANCISCO, Sept. 21.—Late advices from Arizona place the capital of the territory in a state of siege. A dozen citizens have been killed and a number wounded. Several Mexican teamsters and mail riders have been slaughtered and mail stations and wagon trains destroyed. Farmers are abandoning their ranches, as the Indians are absolutely free to depredate.

NEW YORK, Sept. 20.—120 volunteers for the French army were arrested on the steamer Lafayette, on a United States warrant, issued upon the complaint of the North German consul. The steamer was on the point of sailing when the arrest was made, but she will await the result of the examination to-morrow.
OUR RAILROAD INTERESTS.—Governor Senter, E. R. Pennelaker, Comptroller of State, Robert J. McKinney, G. M. Fogg and Archibald Wright, who were appointed by an act of the Legislature, commissioners to sell all railroads which had not, during the past two years, paid their interest on all bonds loaned them by the State, met at room No. 11 Maxwell House, yesterday, and discussed the matter for three hours. They did not, however, reach any definite conclusion. They adjourned until to-day, when it is expected that they will take definite action. Mr. Wright, we regret to say, has been confined to his room with chills since his arrival here. His illness necessitated the meeting of the Commissioners at his hotel.—Nashville Banner.

Common Grogshop Bitters. Empty bitter bottles, of various styles, can be found around almost every dwelling and cabin throughout the land. Their taste is pleasant, and are advertised to cure almost every disease, while the manufacturers fancy they possess no medicinal properties whatever. They are so many disguises for exceedingly common beverages, which do not, nor cannot, possibly cure any one. Beware of these pleasant bottles in quart bottles they contain a sting for your vitals, and he who buys them carries a "tooper's" grog into his house. One man who knows nothing about medicine, says his big bottle of common stuff will cure chills and fever, rheumatism and consumption; another, whose bottle is very fancy, cures all impurities of the blood, makes old men young, cures old devils, restores sight to the blind, and numbing chronic neuralgic complaints in every direction. Every man a drunkard, proposes to cure colic, narrowing nails, yellow fever, heart disease and love-sick madness! We know they make no such cure; we know the people at large are deceived and misled, and as we desire to ventilate these common humbugs, make the following challenge to one and all!

Sickness, Pain and Death. Legitimately result as penalties for violations of natural laws, from which none can escape. The faded cheek, the pale and wan features, the dull eye, the clouded intellect, the deep heaving sigh, the feeble and emaciated frame, the dejected brow, the tattering hair, all indicate previous transgression of law. Knowing that "prevention is better than cure," an intelligent being applies for some remedy as soon as circumstances permit; while those who do not act upon the principle that "diseases are dangerous," generally linger, lose more time and pay more money. Thousands of mothers and daughters, in all stations and conditions of life, are suffering, fluttering and dying from the effects of some dreaded and dreadful

Female Complaint. That claims its victims throughout the length and breadth of our land. Many females suffer in some way at each monthly period; some girls are in great peril at the commencement of menstruation, while older ones dread its decline at the "turn of life." Sometimes the menstrual flow is too much, or too little, or may be attended with pain; may be irregular or entirely checked, or changed in appearance, attended with other distressing symptoms. Leucorrhoea, or the "Whites," frequently drains the system, or ulceration of the womb may create pain and cause rapid prostration. Falling of the womb is an exceedingly common complaint, giving much trouble and distress, which, under ordinary treatment, is difficult to cure. Hysterics, Green Sickness, Irritability of the Womb, and other serious and fatal complaints follow the female sex throughout life. Lives there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many. Is there no combination of remedial agents that will come to her rescue? We answer, Yes.

English Female Bitters. The only acknowledged Uterine Tonic and Female Regulator known, will cure all those complaints above mentioned in an incredibly short time. The Bitters at once arouses strength and restores the womb to its natural condition, removing obstructions, relieving pain and regulating the monthly period. Younder stands a pale, feeble and languid girl, just bursting into womanhood; she is the pride of all, but barks like a dog, and is a picture, eats chalk, or a stone pencil; no appetite for food; she turns with a dull eye and seeks solitude; her eye no longer sparkles, her merry laugh is no longer heard ringing through the air; she mopes about with bloodless lips and gums, with leaden pallor, palpitation, constipation, swimming of the head, cold feet and hands, melancholy; she has a coated tongue, offensive breath, and a host of other evils too numerous to mention. When neglected all these symptoms become aggravated, there is sick stomach, heartburn, a dark line settles under the eyes, the legs and ankles are swollen, the hair loses its gloss and falls off, there is irritability and splitting of the finger-nails, swollen abdomen, extreme nervousness, fretfulness, pain and aches, dry cough, hysterical fits, rapid prostration, epilepsy and death if not, or any of your friends, are thus afflicted, send at once for a Bottle of English Female Bitters and be cured. Its effects are magical in such complaints, surely no mother will postpone and delay this duty until

Death is at the Door. In all these complaints the system evidently shows a want of red blood, and Mr. Churehill, in his work on Diseases of Females, says: "Having in a certain case blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, theory suggests it as the most to be relied on, the best of which is the Citrate." Citrate of Iron enters largely into the composition of English Female Bitters, combined with powerful vegetable tonics of rare qualities. Among the mountains of Tennessee and the pine woods of Mississippi, is found a certain hard and flinty root, which has been in secret use by some old midwives for many years, possessing magic powers in regulating and restoring all females suffering with any ailment of the womb. This root we have obtained, gave it a fair test in our practice, and it is now one of the principal ingredients in these Bitters. Other powerful uterine and general tonics also enter into its composition. We also add Leptandra or Black root, sufficient to act upon the liver and keep the bowels open.

Blooming Young Girls. Middle-aged matrons, those at the critical period, and the aged grandmother, are all cured by the use of our English Female Bitters, now prescribed and used by physicians all over the country. If you are troubled with falling of the Womb, attended with a sense of weight and bearing down in the back and side, and other attendant evils, English Female Bitters will give entire relief. Those at the "turn of life," mothers after confinement, and all others (male or female) who are overburdened from any protracted or debilitating complaint, who gain strength slowly, and whose digestion is slow and imperfect, will find these Bitters the very thing their system demands. It gives a powerful appetite, aids and assists digestion, arouses the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood coursing through its channels.

One Hundred Dollars. That one tablespoonful of ENGLISH FEMALE BITTERS contains as much medicinal property as one bottle of any of the pleasantly-tasted, common advertised bitters of the day. This medicinal profession to decide the question. Be it understood that the English Female Bitters is not a beverage, but is a powerful iron and vegetable tonic combined, curing long standing chronic female complaints in every direction. Put up in large bottles of \$1.50 per bottle, or six bottles for \$8.00, and sold by druggists and merchants everywhere. J. P. DROMGOOLE & CO., Prop's, Memphis, Tenn.

Dromgoole & Co.'s Buchu. The best and cheapest combination for all affections of the Kidneys and Bladder ever offered to the public. It is prepared by regular physicians and sold by the profession. Price \$1, or six bottles for \$5. Sold by druggists and merchants everywhere. J. P. DROMGOOLE & CO., Memphis, Tenn.
