- and unimpeachable witnesses, that 1. Thousands of aliens fraudulently procured certificates of naturalization during a few weeks immediately pre eeding our election.
- 2. Many hundreds of certificates were granted in the names of fictitious persons, that those holding them might 3. Many hundreds holding these
- have facilities for voting many times. certificates did thus vote many timesranging from twice up to forty times or
- 4. The frauds committed in counting Iron and Brass Castings the ballots were nearly equal to those in casting them. 5. There was a combination of offi-
- cers, judicial and otherwise, to protect those committing these frauds, and no vilnso-ly one has been punished for them.
- 6. The Democratic electors for RELIANCE WORKS President, and the candidates on the Democratic State ticket, were elected only by the aid of this fraudulent voting.

Look again at some of the facts developed in the examination of witnesses on these points : In the Superior Court, in a single day, and mainly by the solitary exertions of the indefatigable Judge McCunn, there were issued 2,109 naturalisation certificates. In the Supreme Court, in a single day, toward the close of this heated Democratic term, Judge Barnard issued 955 naturalization certificates. From the 8th to the 23d of October that remarkable Judge issued daily average of 718. The blanks printed for this Court (which had never issued naturalization papers before,) and for Judge Mc-Cunn's Court, were on a scale that looked to their issue only by tens of thousands. The fees were paid by tickets on Tammany, printed with equally splendid profusion. Both courts are proved to have knowingly and deliberately issued papers to men who never appeared in Court at all. They were sent broadcast over the city, and distributed throughout the State. Not less than 68,343 of them were issued from the two courts held by Judge Barnard and Judge McCunn. Not one fraudulent paper has been traced to any Republican Court.

-We have stated these facts in a cold and passionless a manner as we can command. We submit them this morning to the sober judgment of honest men-of whatever party-without one word of comment.

A REFUGEE BELLE. Her Wenderful Beauty and Wonderful

From the New Orleans Picayune. The steamer Beinville, on her last trip from Havana brought over a number of Cuban refugees. Among them Smut Machines. is a person whom the young lady readers of the Picayune will feel a great interest in. She was a belle in Havana, and the betrothed of an insurgent officer-an heiress to immense wealth. and a member of the Spanish nobility. It would scarcely be necessary to say she is beautiful. There are few ladies of that favored isle who are otherwise. But our heroine is not only pretty in the common acceptation of the wordbut surpassingly lovely. The chief American Double Turbine object of interest however, is her wardrobe. Not even our city belles, distinguished as they are for costly and elegant apparel, ever dreamed of such magnificence. Think of 200 dresses, shawls from the looms of Cashmere, THE BEST WHKEL IN THE WORLD. rich silks from Cairo, pearls and emeraids that out rivaled those that gleam ed in the fabled grotto of the Ocean

icas; and diamonds that would pur-

chase a prince's ransom. Her traveling costume was of dark material, fluted in the last recherche style of fashion a walking suit indeed The skirt of rich, heavy satin, border ed at the extremity by a wide fluting, from the folds of which peeps out a viln30-3m rich lace, intricately blended with the greateful puffs, disclosing the beautiful foot and exquisitely turned ankle. A shoster evenkirt of the same material, but of lighter shade, scalloped into halt-diamonds at the end, from which are pendant satia tassels, gleaming with diamond dust, reaches the upper edg of the fluting. The waist is of the same material, with a faintly defined vein of red running through the center of the streamers attached to it, and, which, too, are fringed at the sides side ends with the diamond-dusted tassels—a diamond-shaped cape rests upon either shoulder, and the points meeting at the waist are secured by an oval pin. Pearls gleam in the rich braids, of her black hair, which is worn in the fashion of Mary Stuart; the beautiful head is not disfigured with unsubapely chignon and the Turkish horse tail Soating like a streamer behind. A small velvet cap set jauntily on the silken hair, is adorned with the light of the streamer behind. A small velvet cap set jauntily on the silken hair, is adorned with the silken hair. rich lace, intricately blended with the ily on the silken hair, is adorned with GOOD FARM FOR SALE. a small white feather, secured with a large solitaire diamond; diamonds in Farm," containing 160 acres, lying six miles from St. Cloud on the road to Maine the small cars and on the breast; while the fingers of the right hand blaze in a diamond sheath. No won-Log House and Frame Barn der that the young Cuban loved her. On the premises, and about thirty acres un-Sees, as the reporter saw her, stepping der cultivation.

A never-failing stream of water runs would not be difficult to find him imitators. Nor is the prophecy too much hazard, that unless a gallant story, rich in brave achievements as any Puladin of France, reaches her from the field that my wife, Caroline Wetsel, isie, the young hero may win his liber-has left my bed and board without just

St. Cloud, Jan 5th, 1869.

FRED, VINCENT.

v11n25

From the Knozville Press and Herald, 16th.

On Saturday morning the 18th inst., as Mr. Glen, of New Market, Jefferson county, Tennessoo, was engaged plowing on a side hill on the farm of Mr. Hill, half a mile from New Market, he suddenly perceived his team of horses disappear into the ground beneath, leaving the plow and harness on terra firma. Upon examination he discovered that the ground had first given way under the hind feet of the horses, thus "skinning" the harness over their heads as the dumb beasts sank into the One of the horses was buried some

STARTLING MYSTERY.

eighteen or twenty feet deep, and of course died instantly from suffication. The other remained in sight about twelve feet below the surface. Mr. Glenn and his son, who also witnessed the occurrence, attempted to save the living animal by descending into the cavity. but the earth kept giving way beneath them and they were soon unable to save themselves, and were rescued from their perilous position by neighbors who heard their cries brought to the scene. Both of the horses were lost.

The cavity is circular, and twenty feet in diameter. This dirt and horses fill the centre, while on each side is a large fissure, into which logs have been thrown, disappearing from view, and it has been found impossible to fill the cavities. There are no recks or stones to be seen, yet the whole sides seem to be a mere crust beneath which is apparently unfathomable abyss.

-An old dairyman says that if cabbage and turnips are fed to cows immediately after milking they will not favor the next yield of milk. The mistake is often made of under-

estimating the amount of water horses and cows need. Some large cows will ro quire twelve or fifteen gallons each, and they will not yield a full flow of milk if such a quantity of pure water is not supplied. A trough where ten fullgrown animals are watered should be capacious enough to hold not less than five barrels of water.

A correspondent of the Journal of Pharmacy catches mice by putting a rag saturated with chloroform in places they pillage.

The sprouts of the potato contain an alkaloid, termed by chemists solonine. which is very poisonous if taken into the system. This does not exist in the tubers, unless they are exposed to the light and air, which sometimes occurs from the accidental removal of the earth in cultivation. A potato that shows a blackish-green tint on the one side should never be cooked for the table or fed to stock. So says Hearth and Home.

-A fortunate fellow says that his wagon tires wear out before they get loose. The reason is that before the tire is put-on he saturates the felloes in het linseed oil for an hour, making them vented.

of horses' breasts by the collar is said POSTERS, to be, to take a peace of thick and smooth leather, cut it out just the size of the collar, or a little wider, and let it lie flat on the neck and shoulders of the horse. This will lie smooth on the neck, while the collar itself moves about on it.

-Laurence Stern, whe never aspired to the reputation o special morality, once wrote: "I never drink; I cannot afford it; it costs me three days, the first in sinning, the second in suffering, the third in repent-

isn't the butter they need.
