Chairman Republican County Committee,
St. Cloud, May 25, 1876.

In the new school district the Board
has fixed the school day at five hours.

Mr. Barnes's term as City Justice has
expired, and he has turned over the records
of his office to Judge Evans.

Messrs. E. Cross and John Farrell
have been getting brick from the ruins of
the old brick block to use at their shops
here.

There was a splendid rain Sunday,
and the weather since has been steadily warm
and bright. Vegetation of all kinds is
coming along at a 2 1/2 gal. and
Another rain last night and to-day.

Drummers and travellers generally
now make it a point to reach St. Cloud,
if possible so as to stop at the West House,
and for the same reason spend Sunday
here.

Mr. A. W. Dennis went to Fair
Haven Tuesday to do some fishing. He
is in his charge of plunder to-day, and
like a gentleman and a scholar, his first
thoughts were that THE JOURNAL should
have a supply. Thanks.

Some eight or ten persons went from
this City last evening to attend the Centennial
Ball at Maine Prairie. They report a
good attendance and a splendid time. They
dined all night, till about 12 o'clock,
and came home at six o'clock this morning.

Yesterday one of our merchants, whose
suspicions had been excited, sent a little
trip by which he detected one of his em-
ployees helping himself from the money
drawer, a V at a time. Of course that
young man's services were promptly dis-
pensd with.

We understand that Manager Farley
expresses his willingness, in case the mat-
ter of tickets can be satisfactorily arranged,
to have the up and down trains stop at
the Washington avenue crossing and take on
a large accommodation to our people.

Frank Daggett was elected Secretary
of the St. Cloud, Litchfield and St. Peter
Railroad Company, so that, as one of the
officers of the road, he might have his own
private party, and he is expected to
around the country on. It will have to be
on a broad-gauge track.

Economy can be run into the ground,
and we think it was by the Council last
night when the salary of the Chief of Police
was reduced from \$600 to \$500 per month,
without any fees. An officer's services
ought either to be dispensed with altogether
or else he should be paid enough to keep
body and soul decently together.

At a meeting Saturday evening of Di-
amond Lodge I. O. G. T., the regular in-
stallation of officers took place. We have
published a list of the elected officers; the
following are the appointees:
E. H. S. - Miss Edna Hayward.
L. H. S. - Miss Mary Locke.
A. M. - Miss Mattie Wright.
E. S. - Miss Ada Gordon.

The Pioneer-Press and Tribune says
that the Chief Engineer of the New Ore-
leans fire department has written to R. O.
Strong, chief engineer of the fire depart-
ment of St. Paul, for a copy of the pro-
ceedings of the St. Paul Firemen's Association
which met in this city last January. The
only record of the New Orleans firemen is
that couldn't have been here to have "some
fun with the boys."

It is worthy of note that in the three St.
Cloud papers there is not a single mortgage
or Sheriff's sale advertisement. This is
bad for the papers but it speaks well for
the condition of the people of Stearns county,
financially. In nearly every other county
in the State the papers have from one to
five columns of these sales, and the same
evidence of hard times can be found in
the columns of the eastern papers.

Yesterday morning a team of horses
attached to a wagon loaded with seats for
a school in the neighborhood of Payneville,
started from Herberger's brewery, came
down Washington avenue on the fall
spilling a seat, and was caught near
Rockwell's wagon factory with nearly
everything in a good condition as when
they started.

If people in the country have any con-
sideration for the convenience of THE
JOURNAL office, there is not a single mortgage
or Sheriff's sale advertisement. This is

financially. In nearly every other county
