Local Department.

Laws Relating to Newspaper Subscriptions and Arrears.

1. Subscribers who do not give express notice to the contrary, are considered wishing to continue their subscription.
2. If subscribers order the discontinuance of their periodicals, the publishers may continue to send them until all arrears are paid.
3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are held responsible until they have settled their bills, and ordered them discontinued.
4. If subscribers move to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.
5. The Courts have decided that "refusing to take periodicals from the office, or removing and leaving them uncollected, is prima facie evidence of intentional fraud."
6. Any person who receives a newspaper and makes use of it, whether he has ordered it or not, is held in law to be a subscriber.
7. If subscribers pay in advance, they are bound to give notice to the publisher, at the end of their time, if they do not wish to continue taking it; otherwise the publisher is authorized to send it on, and the subscribers will be responsible until an express notice, with payment of all arrears, is sent to the publisher.

LECTURE.—By Dr. B. W. Witcher, at the Catholic Church, Paw Paw, Tuesday afternoon March 19th, 1874, at two o'clock. Subject—Story of a Convert or Reasons why I became a Catholic. Admittance Free.

Charley Matthews and his bride have returned from their eastern tour.

Read the article from the Benton Harbor Palladium, to be found in another column.

Lieut. Governor Bates died at his home in Traverse City on Monday morning last, the 24 inst., aged 68 years.

The Annual Fair of the Van Buren County Agricultural Society will be held on their grounds in this village Sept. 23d, 24th, and 25th, 1874.

The following named persons are the Village Republican Committee for the ensuing year, viz: S. T. Conway, J. M. Crane and William M. Kirkwood.

The Detroit papers still keep up their war on the county press, by insisting on their paying the same postage for simple delivery as for long carriage in the mails.

O. D. Glidden and Joseph Davey have been on their annual rounds during the past week. When they get through they will be able to tell what the village is worth in their estimation.

We had the pleasure of meeting Eusebius Mather, an old time resident of this village and county, the other day. He has been a resident of Decorah, Iowa, during the last ten years.

Yesterday morning things appeared to be exceedingly mixed up on Main and Kalamazoo streets. The signs had all been on a bender the night before and couldn't get back to their proper places.

Mr. James Bonnett is improving the Minera Spring on his premises near the railroad. He is about to introduce the water to several health institutions, in order to thoroughly test its curative properties.

One day last week our young friend, Seth Allen, walked into our sanctum and in a very neat manner presented us his compliments in the form of a bottle of strawberry wine, for which he has our thanks.

We have received the first number of the Northern Graner. It is an eight page paper with four columns to the page, and is neatly printed. It will probably have a large run, as the organ of the Grangers.

We are charged with being in favor of the early resumption of specie payments. Well, we are. We guess we are. At any rate we know we are in favor of delinquents paying up past arrears and one year in advance. We will take currency.

We are told that 300 young ladies combed their hair just as they do to-day. This won't do in a civilized land, and among an observing people. Three hundred years ago ladies used to comb their hair on their heads—now they hang it over the back of a chair to comb it.

A certain farmer, having company at dinner, was ambitious to make it appear that he was somebody. Addressing his boy, he said: "Have you driven those sheep in?" "Yes, sir." "Are you sure you drove them all in?" "Yes, sir, I saw him jump over the bars." He had but one.

A young gentleman was frequently cautioned by his father to vote for "measures, not men." He promised to do so, and soon after received a bribe to vote for Mr. Peck. His father, astonished at his voting for a man whom he deemed objectionable, inquired his reason for so doing. "Surely, father," said the youth, "you told me to vote for measures, and if Peck is not a measure I don't know what it is."

A man in a neighboring town recently signed the pledge, and in order to surprise his wife, as well as to accomplish a matter of poetic justice, put his savings in the bottle he had formerly used for whisky. It was a fine idea; but unluckily the wife sold the bottle one day to a wandering junk-dealer, money and all—There are some subjects that one cannot talk about calmly. Let us barely remark that the man has purchased a new bottle, and that up to this writing it hasn't seen the first shinp-ster.

The election of officers for this village was held on Monday last, the 24 inst., and the following persons were elected to fill the office mentioned in connection with their respective names, to-wit: I. W. Willard, President. Wm. H. Mason, Recorder. Charles B. Avery, Treasurer. John C. Rousseau, Joseph Kiburn and Jas. Bennett, Trustees. Joseph Davey and O. D. Glidden, Assessors. Wm. C. McKellar, Marshal. John Chapman, Street Commissioner.

The brick are all on the ground and the lumber is now being delivered for the two stores to be erected the coming season on Main street, between the Hardware store of Free & Martin and the First National Bank. The excavation for the basements is also being made. These stores when completed will afford additional facilities for doing the business of the place. Last year there were seven stores erected, all of brick; yet these additions to those already existing are inadequate to fill the requirements of business, hence the necessity for these two now in process of construction.

A residence in Indianapolis has the following conspicuously posted up in front:

"NO YOUNG MAN ALLOWED TO COME AND COURT ME. DARTER UNLESS he has \$250.00 TO PAY DOWN on a horse and load balance in 12 & 3 years for SAIL by me. WITHIN."

We are frequently in receipt of requests like the following: ————— March 24, 1874.

EDITOR NORTHERNER: If I send you six months' subscription—the time to expire the first of next month (April)—can you send me all the back numbers? Yours etc.

We cannot furnish back numbers any longer, as our edition has been entirely exhausted.—We can furnish front numbers to any extent required. We do not boast of the size of our edition weekly, but say it is large and is growing larger every week.

A preacher of Knox county, Ky., informs the public, through the *Barboursville Mountain Echo*, why he left the "Gospel field." After preaching six years, averaging one sermon a day, or 2,196 sermons, and converting 1,122 persons, he says that he received only \$797 for all his work, being a small fraction over thirty-six cents a sermon, and about seventy-seven cents a sinner. As Mr. Micawber said of the commission on coals, the pay was "not remunerative," but still 2,196 sermons and 1,122 conversions are not to be made light of.

The following resolution is the tenth of the Platform of the State Grange:

That the laborer is worthy of his hire, and that every public officer of the State should receive a reasonable compensation for the faithful performance of the duties of his office, which compensation should be fixed by the constitution of the State, and thus keep from the Legislature a power so difficult to exercise and so liable to be abused.

THE PHRENOLOGICAL JOURNAL for March contains rich reading on self-knowledge, opening with Chief-Justice Waite, with portrait: Pre-Natal Influences; Immortality, considered Physiologically; Tastes and Temperaments, a reason for denominations; The Mound Builders, Ancient Americans, with illustrations; Conversations About our Faces; Hereditary Character: An Elective or Appointive Judiciary; Alfred Doehery, M. C. of South Carolina; Domestic Help; Women at the South and at the West; A Royal Fair, with portraits; Vampires and Vampirism; The Siamese Twins, with illustrations, showing them at twenty-five, and at sixty years of age; Obligations of Character: Do Your Own Thinking; Timber and Ornamental Trees; Agricultural Hints, etc. Only 30 cents, or \$3.00 a year. Address S. H. Wells, Publisher, 389 Broadway, New York.

The Local of the *Detroit Post* gets off this: Yesterday morning a well-dressed young man called at the office of Justice Schen and asked how long it would take to perform the marriage ceremony. The justice replied that it could be performed very quickly if desirable, and the youth then said that he would be around about 4 o'clock, and that he wanted to be married in short order, "with no long speeches," for which accommodation he was willing to pay liberally.

Shortly after four o'clock a hack drove up in front of the Moffatt Block and the gentleman, with a "best friend" and three bonnetless ladies in full dress, went down into the justice's office followed by several spectators whom the unusual spectacle had attracted. The certificate was made out as speedily as possible, the couple stood up, and in less than a half a minute were pronounced man and wife. The bridegroom then, after complimenting the justice upon the rapidity with which he transacted business, handed him a \$50 greenback, led his bride and her attendants to the hack, and drove off without waiting for congratulations.

Justice Schen thinks he is getting up a fair reputation for speed in his official hymenal matters. Recently he was accosted on the street by a gentleman who asked him if he could marry a couple and make out the certificate in four minutes. Schen stated that he could do the job as quick as any man, and two minutes later was in the Howard House parlor with the document in his hand. Here he found a gentleman from the East and lady from the interior of this State, she having met the man here by accident. They merely explained that they were formerly acquainted; that he was en route for Chicago on business; that she came to the city to do some shopping, and meeting accidentally, they had decided to get married and go West together.

At this moment a bus agent shouted up the stairs, "All aboard going West!" the gentleman called back, "Wait a minute," took the lady by the hand, and they were immediately married. The happy groom handed the justice \$25, remarking that it was the best bargain he ever made in his life, grabbing his value and his wife's traveling-bag, rushed down stairs, entered the omnibus, and was rolled away, the happiest man out of jail.

In another column will be found the Notice of the submission of the proposition to raise, by tax, the sum of two thousand dollars, to be used in the erection of a fire-proof building in which to keep the Records of the County. We hope every citizen will give the matter their serious consideration, and let no prejudice or minor consideration influence their votes on this matter—of such vital importance to every property holder—in a manner to delay the providing a safe depository for them, and thus leaving them exposed to destruction, one hour longer than necessary to build a safe place for them.

It may be remembered that the fate of Alley, who was tried about two years ago for the murder of Abijah Ellis in Boston, depended on whether the blood found in his stables was that of a human being or of a horse. Surgeons testified both ways, and the jury acquitted the prisoner. Investigations since made by eminent scientific men in Europe have developed the fact that the difference between the fresh blood of a horse and that of a human being is so slight as to be recognized only with extreme difficulty, and in dried blood the difference are almost imperceptible.

KEELVILLE, Feb. 29th, 1874.

TRUE NORTHERNER. Yesterday, Mrs. Hiram Baker, and her sister Mrs. Brickle, were thrown from a buggy and hurt very badly. In going through a gap in the fence one wheel struck a rail and the horses starting suddenly, was the cause of the accident. Being near Mr. Arthur Hayden's they were taken there, and on the 22d were not yet able to be removed to their homes.

I wish to notice briefly an item in an article by Geo. Bartholomew, published in the *Hartford Daily Spring*, Feb. 21st, in which he speaks of "Spiritual Dyeptics." It is meant by the term those persons who withhold their sympathy from a person acting against the principles held sacred by all christian people; then there are "Spiritual Dyeptics" in Keeler! for which (I speak reverently) Thank the Lord.

While visiting a Grange not a hundred miles from the "Hub" we were pleased with the manner in which the worthy Lecturer handled different subjects. After denouncing the traffic in whisky by irresponsible persons, he took up the per cent on Patent Medicines among others, he said we pay 118 per cent for Dr. James Expectorant. The next subject was School Superintendent System, he made the remark that "to be efficient we ought to have four Superintendents for this County, as it is, in the hot weather they are sun-struck and have to lie in the shade, and in the winter they get frozen and cannot peep; so all they have to do is to make their report to the Superintendents, get their pay and go home." We have not heard of the Superintendents visiting a school in Keeler this year past, are we not paying our educational moneys for no value received—who can answer. Can there not be a better system? Will not educated men agitate this question until the Legislatures will feel compelled to take it up.

MARRIED.—In Almena, February 27th, 1874,

by Rev. J. H. Darling, Mr. BRADFORD C. GORHAM and Miss BARBARA A. VALLAEC.

COMMERCIAL.

DETROIT MARKET.

DETROIT, March 4, 1874. There are few remarkable changes to report since a week ago. Except in produce, business shows growing activity. Money is abundant to those having security to give or well established credit, and 10 per cent per annum is outside rate at Bank. Lined oil has lost the late advance; bolted now \$1 10 and raw 1 05. Lard oil is steady at 30 for No. 1. Kerosene is firm at 14@20, and refiners say, on account of a sharp advance in crude, the price is going still higher. Groceries are in good demand; Carolina rice has advanced to 9@10. Pepper has declined to 23, and codfish to 5@6 75. Coffee are strong at the late decline, and if N. Y. does not recede an advance will take place here soon: Rio, 27@32; Java, 38@39. Sugar steady at 10@10 1/2 for straight A. Nails remain at 4 10 for 10d. cash, and other sizes in proportion, but tin plates have advanced 50c; the leading size now \$13 25. The live stock market shows continued depression in the quality of Michigan; quotations range at 5 25@3 75 for best, and \$4@5 for poor to good butchers; rough, 3 50@3 75. Sheep are lower: range \$1 50@6 for 80 to 110 lbs. Light hogs, 5 25@5 50; no heavy to be had or wanted. Flour is lower on the upper grades, which are offered at 7 50@7 75. Wheat is 2@3 1/2 lower and very quiet; stock in store, 249,502 bu, and no speculative inquiry whatever. The markets East and West are all heavy. Closing prices: white extra, 1 58 1/2; No. 1 white, 1 52 1/2. Corn has advanced to 65 for No. 1 mixed. Oats weak: No. 1 declined to-day to 48 1/2. Barley is sick; best samples would not probably command more than \$3 65 per cental. Apples are scarce and nominal at 3 50@4 50 per bu. Beans firm; uncleaned, 1 30@1 35; country picked, 1 75@1 85 for bag and hbl. tins. Butter, which is scarce and up to 46c, finds very few customers. Dressed hogs, 7@7 25. Eggs weak at 18@19. Green onions firm at 6 1/2@7. Hops, 25@32, cash.—Hides, \$1 80@2 per lb. Preschlaw potatoes, from store, 1 05@1 10; E. B. \$1 61@1 65. Potatoes, 75@82 25 for fall and winter. Clover seed is steady at \$5 20. Tallow is buying at 6 1/2@6 3/4. Bee wax, 28@30. Mess pork, in small lots, \$15 50; country hams, 11c; shoulders, 6@7; lard, 8 1/2. City hams, 12@12 1/2; mess beef, \$10 for plain and \$11 for extra.

Lines on the death of CHESTER DEWATER, by ADA M. QUA.

Another star shining in Glory,
Another angel rose home,
For it was our Father that called him
To claim him as his own.
His voice was the sweetest and clearest,
That greeted the morning dawn.
His heaven-lit face the fairest,
The sun-shine smiled upon.

But lonely now is the homestead,
Bereft of one more darling,
In his dying breath he said,
Wait, Father I am coming;
O Mother can you see that bright light,
It shines in beauty vernal;
Chester has gone to a home that's bright,
And entered life eternal.

Ah! his life has been brief, Mother,
All shadowed, from harm and weep,
And perhaps in its first young freshness,
The better that he should go,
Then dry those burning tears
And soothe thy aching heart;
It will be but a few short years
When thou wilt meet, never more to part.

He now sits at Gods right hand,
In the mansion of the blessed,
And sings in the Angel's band
With a blessed, heavenly rest.
In that countless throng of Angels bright,
He will reign forever more;
He now is clothed in spotless white,
He is not dead—but gone before.
First born of love! his tender cry,
Awaked by yearning hearts reply;
And from his lips unstated bliss,
Thou hast imprinted the last sweet kiss.
Oh! thrilling hands clasped warm and true,
Oh! stars of hope forever set;
And sweet smiles frozen where it grew
O'er bliss remember to regret.
Oh! feet that tread that shining shore
Oh! timely voice heard here no more;
Oh! eyes that here no longer know
Now view the radiance of his throne.
Though still thy heart does for him yearn,
Thou would'st not leave him here return,
But thou would'st sleep, without a care,
And wake up gladly with him there.

Free & Martin have just received another car-load of that celebrated Cumberland Blasting Coal, for Blacksmiths, which they offer for sale cheap.

We are glad to learn that Mr. Van Kirk has been induced by several of our prominent citizens to make another spring and fall season with his trotting station Night Hawk, in this county. He will make his stand at the Dyckman House stables, commencing the first of March, and ending the first of August. All of our breeders ought to improve their last chance to improve their stock of horses by using this horse, which, undoubtedly is the best bred horse in the United States, as his colts are selling for higher prices than any horse that ever stood in the State.

FOR SALE.—On reasonable terms, 2 Horses, 5 head yearling Heifers, also from 20 to 40 Sheep, and 2 or 3 Cows. Apply to C. H. STILES, 3 miles north-east of Paw Paw. 9854
