A distinguished physician remarks that the surest way to catch cold is to buy the stove. Our young men should bear this fact in mind when courting Sunday nights and not spend all their time in hugging the stove.—Leader.

Hon. C. J. Monroe was in Dakota during the recent blizzard or what can be considered a blizzard. When you see him you can see him how it was in Dakota county where there is no law against the wind blowing as hard as it wants to.—Sentinel.

About 8:30 o'clock Monday evening fire broke out in Saxton's shoe shop. It was discovered before it got under any headway and was very easily extinguished. No damage was done except burning a hole through the floor. The fire originated from a pan of ashes.—Leader.

In a recent interview Senator T. W. Palmer said "all classes recognize the evils of whiskey; it is becoming almost disreputable to make it." He feels confident for the success of the republican party this year. To both of these opinions a large majority of the people will respond heartily.—Sentinel.

Ed. Cable received a telegram from Fort Scott, Kansas, Wednesday, that his father was sick and not expected to live, and a second telegram that he was dying. He left on the night train. Mr. Cable was formerly an old resident in Arlington, and is widely known and respected throughout the county.—Reflector.

William Street arrested for furnishing liquor to Samuel Howard, on being arraigned pleaded not guilty and the trial was appointed for Tuesday, when he changed his plea to guilty and was sentenced to 10 days imprisonment and \$25 fine with costs, which if not paid will subject him to an additional detention in jail for 30 days.—Advocate.

The cold snap has been very severe all over the states. Away down in the Southern States the thermometer registered 15 to 20 degrees below zero while here in South Haven it only reached 3. This village is like a summer resort in winter, when we compare our cold to those who experienced 40 and 45 degrees below.—Messenger. Bro. Barber is learning his lesson.

On Saturday last John Van Sickele was arrested, on complaint of Mrs. Samuel Howard, for having furnished her husband with a quantity of spirituous liquor. He pleaded guilty and was sentenced to pay a fine of \$25 and costs and be imprisoned in county jail for a period of 10 days, and unless said fine and costs were paid an additional 30 days imprisonment.—Advocate.

During the storm and cold weather of last week several families were in destitute circumstances and were obliged to accept public charities. The Grand Army Post looked after the wants of the families of comrades, thereby indicating that at least one of its purposes is a noble one. "Friendship, Charity and Loyalty" are not empty phrases with Burnside Post.—Dentist Republic.

A warrant has been in the hands of constable L. F. Earl for several days past for Morris and George Castleman, who are charged by Mrs. Lowe with the theft of five chickens and a turkey from her coop on the night of the fourth. Morris was caught Tuesday and in charge of the justice while the constable went to pay a fine of \$25 and costs and be imprisoned in county jail for a period of 10 days, and unless said fine and costs were paid an additional 30 days imprisonment.—Advocate.

Never skip the advertisements when reading newspapers. They show just what live business men are about and every one who has trading to do, will find it pays to trade with those who advertise. Business men who do not advertise are not up to the spirit of the age, and their stock lingers on their hands. Those who advertise turn their stock quickly, make a fair profit and always have a fresh stock to select from. This is a fact and not a fiction, as can be demonstrated by every successful business man in the country.—Messenger.

The Western Van Buren and Allegan Co. Agricultural Society will hold its annual meeting at the Monroe hall on Saturday, January 20th, at 2 o'clock p. m., for the purpose of reviewing the affairs of the past year; electing officers for the ensuing year; and the transaction of any other business that the best interest of the Society may seem to demand. All who are interested in the success of this enterprise will readily see the importance of this meeting and be on hand in good time.—Sentinel.

A country hardware merchant undertook to order from the city for his neighbor, the tailor, two useful implements. "Send me two tailor's geese," he wrote. That, he thought was plainly wrong, and he tore up the order. "Send me two geoses for a tailor" was the next formula. But after the letter was sealed and stamped, his mind misgave him, and he tore it up again. The third time he hit it right beyond a doubt. "Send me one tailor's geese, yours, etc." John Doe. P. S.—Send me another just like it.

Saturday last as Mr. Beckwith and the fireman, L. Secor, were fixing the engine at the Round Oak Stove Works a nut from the steam gauge broke off letting the steam out. There was ninety pounds of steam on at the time. It struck Mr. Beckwith in the face throwing him several feet from the engine. His face was badly scalded but his injuries would have been much more serious had the force of the escaping steam not thrown him from the engine. The fireman was also considerably scalded. Both of the men are recovering from the burns.—Dentist Republic.

Mrs. Jesse B. Lull died at her Geneva home Thursday, the 13th inst., after an illness of five months, aged 29 years. She leaves as an immediate family a husband and three little sons, the eldest eight years of age. Mrs. Lull was formerly Miss Eva Barnes, a daughter of T. S. Barnes, of that place, and leaves many warm friends to mourn over her death. Although this is but the fourth week since the plating of the Lacota cemetery, there are now six new mounds therein, Mrs. White, Mrs. Sheldon, Mrs. Lull, and the three unfortunate who were killed by the recent bursting of the boiler in the mill at that place.—Sentinel.

A physician in this village recently received the following communication from Cincinnati, Ohio: "American Health College and Vitapathic Sanitarium."

"Prof. J. B. Campbell, M. D., V. D., President and Physician-in-Chief."

"Dear Sir: I have just seen a Printed Matter that perhaps will explain all

We do not sell the encyclopedia & reference books and printed lessons go in at the one price of Vitapathy as the System in Printed Lessons you will see by the enclosed Printed Sheet that we sell to Physicians for one hundred dollars. Then they can come and attend college and Graduate for Fifty dollars making 150.00 in all with highest Diploma. Waiting your further action and with our best wishes do"

your Truly J. B. Campbell"

The following is a choice specimen of the "Printed Matter" that accompanied the foregoing communication:

MISSIONARY HYMN For Vitapathic Graduates of the American Health College, Cincinnati, Ohio.

Go, brothers, spread the story, And sisters help to roll, God's name and glory, From Nature's pole to pole.

Go, spread the news to all, Let each sick person know That Vitapathy can cure them all, And keep them here below.

Go, heal with Vitapathy's Power, All sickness, pain, and death; Bring in the immortal hour, When all shall have new breath.

Go, and baptize, all who will, With Vitapathy's living breath, Obey him every ill, And save them all from death.

Go, now; lawfully endowed, With highest spirit power, By God and angels allowed, To night, go forth this hour.

COMPOSED BY Prof. J. B. Campbell, M. D., V. D., Author and Founder of the Great Vitapathic System of Health and Life, that cures all physical and mental diseases, and saves body and soul alive together, and finally immortalizing in human immortality.

The wonderful and miraculous cures that have been made; the deaths prevented; the lives saved; and the dead revived, are ample proofs of the invincible

POWER OF VITAPATHY. It is useless to add that the gentleman to whom the documents were sent did not invent in the scheme which is to ultimate in human immortality. Of course when this new and wonderful system of Vitapathy comes to be generally understood by the people our doctors must quit business, for like Othello, their occupation will be gone.

Weeks and Newspapers. The Song Friend, published by Prof. S. W. Strawn, at Chicago, has long been a favorite with the musical fraternity and has been well worthy of the patronage it has received. The January number comes to hand enlarged to 24 pages and handsome than ever. Price \$1.00 per year.

The North American Review discusses those topics which at the time are uppermost in the public mind, and about which every intelligent person is desirous of acquiring the fullest and most trustworthy information.

It addresses itself to thinking men in every walk of life—to all who would reach solid, reasoned, unpartisan conclusions on subjects of public interest.

It presents both sides of questions, thus insuring the largest view of all matters in controversy, and enabling the reader to judge understandingly on which side, in the conflict of opinions, the truth lies.

It engages the services of authors who by their studies or their opportunities are specially qualified for the thorough discussion of the subjects on which they write.

With the beginning of the year the Detroit Evening Journal congratulates itself upon the marked success it has achieved, and promises to give its readers the benefit of every dollar it earns for the next 12 months. The Evening Journal aims to be the longest-lived, most useful, and most enterprising newspaper. It avoids sensationalism, and all matters of any objectionable character are excluded from its columns.

It may be safely said this is the secret of its success, and as a family paper it is now a recognized favorite. It prints more reading matter than any evening paper in Detroit, and gives all the news of the day in an attractive form. It is the servant of no party, and the servant of no man or set of men, but stands as a thoroughly independent journal, devoted only to what it believes to be for the best interests of Michigan.

DR. HENDRICK'S MONUMENT OF HONOR.

AS A SURGEON.

To begin with, Dr. Hendrick is well prepared for his profession, having had a liberal education and the regular fitting that is only got in the best medical colleges and hospitals. And during eighteen years of professional life he has had as good luck as any other surgeon, in amputating arms and legs, hands, fingers, feet and toes; in excising tumors, cancers, and various vicarious growths; in adjusting fractures of bones and dislocations of joints; in operating on all the various forms of piles and rectal disease, and in treating those abnormal conditions peculiar to the female sex. In every direction there is a vast amount of good work that shows his skill; hence any amount of anxious looking can find but little. And as far as surgical instruments are concerned, he has as choice an array of the best of what is made, as may be found in any other office in the country. In the future as in the past, as good a job in surgery as the case may admit of, may be reasonably expected of Dr. Hendrick, and he always has his share of that kind of work.
