Van Buren County Stalwarts.

In our write-up of the nominees on our county ticket, we have studiously refrained from fulsome flattery and confined ourselves to a brief review of such facts as would show the candidates as they are, men of integrity and practical business ability. We believe that all who have read these articles will agree with us that they are men with whom our public business can safely be trusted, and what is true of them, is equally so of those whose names are on the ticket for the minor offices. Extended mention of the latter is unnecessary, though we desire to make brief reference to each.

For Circuit Court Commissioners we find the names of Stephen B. Monroe of South Haven and James E. Chandler of Paw Paw, both of them young men of much natural ability, enhanced by a good education, as also of untarnished reputation, the former being a successful practitioner in his native village, the latter the junior partner of Judge Heckert.

For surveyor, F. Percy Lawton, the third son of C. D. Lawton, received a renomination by acclamation. He is a young man of the highest type, well educated and progressive, and inheriting a taste for surveying which has made him specially proficient in this art.

Our county ticket is completed by the names of Wm. F. Conner and Isaiah E. Hamilton for Coroners. Mr. Conner is one of the solid men of Covert who not only farms it very successfully, but also attends to the duties of Justice of the Peace, and his renomination by acclamation shows that the Republican party has no "color line," but recognizes good business ability among its voters irrespective of nationality, and wishes the comparatively small colored element of the county to receive due representation. Dr. Hamilton of Lawton is a model young physician, studious, progressive, reliable, and one who wins the confidence of every person who makes his acquaintance.

Thus, in the less responsible positions, as well as in the more important ones, the Republican convention was careful to select such nominees as would leave no excuse for any man to "split" his ticket, and there is no reason why next month should not see a rousing Republican victory in Van Buren county.

"Then up and be doing, let nobody say, You've not done your best in the midst of the fray, Hold fast to your colors and never give way, Harrison, Reid and Rich."

Columbian Chit-chat.

The saluting of the flag by the entire school was well done and presented a pretty sight.

President Broughton's open air reading of the proclamation, was very clear and distinct.

Quite as many people as could be accommodated, attended the exercises at the school house.

Main street presented a very patriotic appearance, most of the business houses having been decorated.

The flag exercises gave both participants and spectators a good object-lesson on the flags of various nations.

Otto Gilman, Charlie Stevens, Harley Wilkinson, and John Graime are the newly organized Glee Club that sang "A Thousand Years" so sweetly.

The primary, intermediate, and high school exercises were each well rendered and very entertaining, reflecting much credit upon teachers and pupils.

Misses Daisy Longwell and Christine Hudson each made ideal Columbias, and little Ward Bartram as Columbus, was the admiration of all his school-mates.

The three rooms in which exercises were held, were tastefully decorated, the designs and sentiments ornamenting the black boards being especially appropriate.

It seemed a pity that the exterior of our school house, which presents such a chance for decoration, should have given no hint of the great event in which all the pupils were so thoroughly interested.

While the brave old navigator was duly commemorated, still the main object of Columbus Day, was as it should be, a realization of the wonderful progress made during the last four centuries, and an appreciation of our good fortune in having been born in this wonderful 19th century, beneath the protecting folds of "Old Glory."

Even Dame Nature seemed in sympathy with the Columbian celebration, spreading a cloudless sky above October's blazonry of scarlet, and green, and gold, though the keen autumnal breezes were anything but balmy, and those who participated in the opening exercises with bared heads, will doubtless many of them have a severe cold as souvenir of the day.

East Arlington Farmers' Association.

The East Arlington Farmers' Association held its quarterly meeting at the home of Mr. and Mrs. Wm. Wallace on the 13th inst. After dinner and viewing of the farm, &c., the meeting was called to order by President Julian Sheldon. After an earnest discussion came the report of the viewing committee that Mr. W. has one of the best grain farms in this county and since our last meeting there we find there has been a steady improvement. His crops the present year have been good and garden excellent, as the daintiest epicure could testify, for the menu of vegetables was all that could be desired.

Our next meeting will be held with Mr. and Mrs. R. G. Hutchins on the second Thursday in December.

Some of our good people went to the Opera House last Wednesday evening fondly expecting that Labor Commissioner Robinson would give some statistics to prove his numerous assertions about the "robber tariff," the corruption of the Republican party, the bankruptcy of the nation and other like absurdities; but never a fact or "figger" did they get, although he repeatedly said he had come to educate the Republicans "if they had brains enough to appreciate sound logic." Most of them who listened to his tiresome repetitions felt that they must be lacking in that commodity, if it depended on the ability to detect any thing like logic in his discourse. In fact, as many Democrats admit, it was the most tiresome speech ever given in Paw Paw.
