SEWARD & MARSHALL—MACHINISTS.

A refreshing shower is worth a great deal to crops just now. What a pity we can't make rain "come" when we want it. It is something like the harvesting machinery that we are "trying to get along" with and won't "go" only when it wants to. We don't pretend to be much on rain machinery although we are putting a considerable "go" in to the other kind.

Maybe you are not harvesting this year. Don't be discouraged. If the hay is too short to cut with the large mower you can take the lawn mower and if the knives are dull and gummy you will do just as much work to the acre.

We can grind the knives and remove the gum while you are fishing, or in other words, you can "kill two birds" as it were.

Some one set a fire in the woods north of town last Sunday and it ran through Woodman's woods and other valuable timber and, in spite of all efforts to subdue it, burned \$150 worth of wood and posts belonging to Elder G. P. Linderman. The fire was either the result of crass carelessness, the work of a fool, or a piece of vandalism.

Holmes & Bisborrow's windows give only a faint hint at the extent and diversity of the stock carried behind them. These gentlemen aim to keep their windows suggestive of interior possibilities. Of course, they can't display a big "Quick Meal" gasoline stove in a window, but they will sell you one so cheap that it will almost take away your breath. All other hardware goods in proportion.

It has been some time since advertisements were so generally noticed and talked about as those of the Long Brick Store, with their odd pictures, illustrating some phrase or line of the advertisement. Another feature of it is that scarcely anyone is satisfied after reading them until they go to the store and see some of the "H. S. & M." clothing in the new styles for this season. Sold by E. Smith & Co.

The new statute in relation to the admission of attorneys will be a little tough on the boys who are studying law. They must be examined by a committee appointed by the governor, and must pass an examination satisfactory to the supreme court. A standing of at least 70 per cent in each branch of the law is required, and this may be increased if thought advisable. Graduates of the university will be admitted on motion. The new law goes into effect about the first of September. The circuit courts will be likely to be crowded with applicants during the summer.
