### A Little Wire Talk Straight from the Shoulder.

IF YOU WANT YOUR GRAPE WIRE on time this spring, order now. Make plans to draw it home during the next two or three weeks.

The market is getting very firm. "Captains of Industry" in the iron and steel business are looking for a year of unequalled prosperity in the heavy metal trades. A hardware traveling man told the writer one day this week that his firm had advised him to be on the lookout for sharp advance all along the line of heavy goods, and if he had any special trade that he wanted to "take care of" to do so at once. We speak of this only to show the feeling amongst the men who are in position to know. We can sell up to about 60 tons at \$2.25; perhaps the price will not exceed this figure at any time during the season, but we confidently believe that the man who buys late wire pays if he gets the wire at all, from 10 cents to 25 cents more than this figure.

We do not expect every fruit raiser to read this advertisement, nor is it reasonable to presume that each one who does will hurry right down and leave his order; but the man or woman who does read and believe it and takes our advice will thank himself later on. This is our prediction, but we believe it will be true.

Remember that we guarantee our prices and also a delivery up to 60 tons.
