

### Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

### NEWS FROM THE NEIGHBOR TOWNS

Interesting Paragraphs by Our Staff of Suburban Correspondents.

#### VAN BUREN CORRESPONDENCE

Base Line, Lawrence, Rural Route No. 5, Sunny Lane and Many Others.

##### Waverly.

Mrs. N. E. Brank and two children of White Cloud visited her brother and other relatives in this vicinity last week.

Mrs. Katie Bodine and her sister Carrie Mc Kentosh visited in Kalamazoo the first of the week.

##### Reads Like a Fairy Tale.

An Atchison girl had always heard of the impoliteness of women in failing to thank men for giving up a seat in the street car, and decided that she would be an exception. A man gave her a seat Saturday night in a crowded car, affording her the opportunity for which she had been looking. "Oh, thank you a thousand times," she said. "It is just what I wanted, and how did you ever guess it? It is so thoughtful of you, and I do appreciate it so much." Then, as she sank into the seat: "And such a comfortable seat! It is the most comfortable seat I ever sat in." "Thank you again so much!" —Atchison Globe.

##### Penitent and Resourceful.

One of the prison missionaries of the Church Army tells a story of a man who came under the influence of the society at a mission held at York, England. The man, a notorious pickpocket, was so impressed by what he heard that he felt he must do something to show his determination to lead a new life. He considered the best way to do this was to put something into the collection, but unfortunately he had no money in his pocket. Then a bright idea struck him; he picked the pocket of the man sitting next him, and thus was able to contribute to the good work. It is said the man has been reclaimed definitely.

##### His Vacation Method.

Miss Lillian B. Hill, the writer of humorous advertisements, told a number of Duluth jewelers, at a recent jewelers' banquet, a good way to get off for a vacation without being missed from business. "During the last Easter holidays," she said, "I met a jeweler at a seaside hotel. "Why, I thought you were such a busy man," I said. "How do you manage your affairs here at the shore?" "O," said he, "I am just keeping my advertisements out of the papers until my return, and, you see, there are no initials to marage."

##### With an Eye to the Main Thing.

A Billville jury, slow in arriving at a decision and feeling the keen demands of appetite, sent the following note to the judge: "If you don't send us something to eat quick, we'll have to find the defendant guilty; but if you'll send us three meals a day we'll stay here till he's innocent."

## BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by.

When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood is food, to keep the blood rich. When it fails, take

## SCOTT'S EMULSION

It sets the whole body going again—man, woman and child.
