JUST A LITTLE PLOW TALK

Wouldn't you like to own a better plow than you now have? If you could buy one that handles easier, does better work, one that scours in all kinds of soil (clay and muck included) and has less draft, would you be interested? Would it appeal to you if we told you to take one of our 43 Oliver Steel Plows home, try it, and after a good test you did not find it to be the best working plow you ever saw used, bring it back to Waters and be recompensed for your trouble, would this appeal to you?

We will make this offer to any responsible well meaning man. It's cheaper for us than canvassing the country. In this way you make your own sale strictly unbiased. The repair question is a very important item for you to consider. You will find over two tons of Oliver castings in our basement. Supposing you buy a plow that repairs have to be ordered as needed, isn't this a great inconvenience to you? When you buy an Oliver, none of this. Isn't this worth something to you? We think it is.

The Oliver Steel Plow Costs \$14, Reversible Coulters \$1.00 extra
