CURIOUS BITS OF HISTORY

GENERAL WASHINGTON'S
LIFE GUARD.

By A. W. MACY.

General Washington's Life Guard was organized in the spring of 1776 and served until the close of the Revolutionary war. Its number varied at different times, from 60 to 250 men. They were soldiers in the regular service, chosen from the various regiments, and it was their special duty to protect the person, baggage and papers of the chief. They were selected with special reference to their fitness for such work, physically and mentally, and, of course, absolute loyalty to the American cause was a prime requisite. At one time, when the army was stationed at New York, the Tories formed a plot to capture General Washington and deliver him to one of the British armed ships in the harbor. They succeeded in bribing one of the Life Guards to assist them, but fortunately the plot was discovered and the traitorous guard was hanged. The last survivor of the Life Guards was Uzal Knapp of Orange county, New York. He died in 1856, and in 1860 a monument was erected over his grave, at the foot of the flag staff in front of Washington's headquarters at Newburgh on the Hudson.

Unnecessary Repetition.

Little Jean Elizabeth was being baptized. When the minister put the water on her forehead she said, loud enough for all the congregation to hear: "My muzzer washed my face."—The Delinquent.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Lame back is usually caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by Longwell Bros.

Abbreviated.

Words, says the Houston Post, should never be subjected to abbreviation save when it is appropriately done. "Xmas" is almost criminal. If you find abbreviation necessary, write it "Smias," and you will have it about right.

Pessimism.

A pessimist is one who receives a pair of gloves as a present and worries because they will soon wear out.

MAKE-BELIEVE PUP.

"What is your kitty's name, my boy?"
"Fido!"

A woman always knows when a man is in love with her. A man often knows a woman is in love with him when she isn't.—Life.

Real Trouble About Reform.
"I specks," said Uncle Eben, "dat reform would be a heap easier if dar wasn't so many different people pickin' 'bout so many different things."

Where Tea is Eaten.
The tea grown in Burma is almost entirely made into letpet (pickled tea) and eaten as a condiment. It therefore does not affect the world's supply of tea for drinking.

Argument for Vegetarianism.
Vegetarianism has been claimed as a part of the wisdom of the east, and it clearly has its uses, for two centuries ago an Edinburgh physician who weighed 32 stone "by regular adherence to this regimen reduced his weight to almost a third, became strong, cheerful, active and healthy."

Painter Had No Choice.
"May I ask," inquires the interviewer, "why you paint none but nudes?" "Certainly," replies the painter. "The styles change so rapidly in clothing that a picture would be out of date almost before the paint is dry."—Chicago Post.

Simple Liniment.
A simple liniment that is good for a strained back after a siege of housework calls for four tablespoonfuls of strong ammonia, four tablespoonfuls of alcohol, two large tablespoonfuls of salt and about a quart of rain water. Put these ingredients into a bottle and shake well. As soon as the salt is dissolved it is ready for use. When needed rub the back with the liniment and continue the rubbing until the surface is warm with the friction.

Odd Nest.
A curious freak on the part of wasps was recently discovered in Maryland. The wasps were noticed going in and out of a lock that secured a workshop door. The owner of the shop had the lock removed to satisfy his curiosity about the doings of the busy workers. He found a nest inside. The cells were made of mud and were full of larvae. There were several dead wasps inside the lock. As the lock was in daily use, the wasps could not have had a peaceful home.
