## 110,000 Miles, No Complaint

Here is a record of a Ford car picked at random by the Ford Motor Co. This car is owned by J. Edwards, Cincinnati, Ohio, and performed this record of service without a single course of complaint.

"Relative to Ford Runabout, would say that it has given entire satisfaction. I have had no trouble whatever, although I use it every day, in all kinds of weather, and have had it since February 1912, making in this period of time about 110,000 miles. If I was asked for any complaints, I would not know where to begin as I haven't any."

With hundreds of thousands of Ford cars out performing equally as good service as the above can you honestly afford to buy anything but a Ford?

The more money you have, the more reason you should drive a Ford, because with many business cares your affairs demand sure, efficient, time saving service. No car at any price can give you this so well as a Ford.
