LOOK INTO THE FUTURE.

People who have owned cars realize what it would mean to them to have an exclusive service station for their particular make of car right here in Lawton.

You who are buying your first car possibly haven't thought of the "after service."

When a Farmer buys a Binder he usually buys a standard make, the parts for which are easily obtainable. There are makes of cars on the market for which you would wait weeks for repairs, and when they did come the price would be exorbitant.

We will have a modern garage here supplied with a good stock of Ford parts. In ONE MINUTE you can get any conceivable Ford part, and mind you, at a very low price. We will specialize on Ford cars and will repair no other makes. This service is worth more to you than you can imagine. It means CONSTANT Ford service. No waiting for repairs from Kalamazoo, Detroit or elsewhere. After considering Ford efficiency, durability, price, low-maintenance and low-depreciation, you will surely agree that this "service-at-home" is the final feature that will appeal to you.
