

The Pulaski Citizen. L. W. McCORD, Editor and Manager. THURSDAY, JULY 26, 1877.

SCHEDULE. A. & G. S. R. R., Decatur Division. GOING SOUTH. Mail and Express, 12:30 P. M. Express, 11:34 A. M. Local Freight, 9:59 A. M. Through Freight, 9:10 A. M.

The Bloody Strike. Some weeks ago the Baltimore & Ohio R. R. Company reduced the pay of its employees 10 per cent. This was followed by all the railroads North and East.

Pittsburg, July 22.—Fifteen minutes after five o'clock the cars below the transfer office in the yard, were set on fire; they were laden with barrels of some coal-mining material.

At 7:45 the military made another desperate attempt to escape; they were in solid column and came out through the lumber yard and went down Twenty-fifth to Liberty street, with a Gatling gun in front and made for the Allegheny Arsenal.

At 8:20 the fire from the burning freight cars communicated with the upper Found House, in which 700 men were crowded, and all were specifically destroyed.

There is little danger of a general conflagration, but it is estimated that the property destroyed is worth of railroad property has been destroyed.

Upon arriving at the Arsenal the Philadelphians found the United States troops at the gate and they were ordered to disperse.

It is reported that 30 persons have been killed this morning, most of them by the explosion of a cloud of dark smoke to-day, arising from the two and a half miles of Burning Pennsylvania K. R. Property.

No additional demonstrations were made at Pittsburg Monday, though excitement was intense.

The strikers now regret that they went to such lengths and surrendered their arms. The city was quietly controlled by patrols of citizens and military.

In Pennsylvania, Ohio, West Virginia and Maryland troops have been ordered out to suppress violence and protect life and property.

bringing into requisition the torch, cannon, stones and small arms. The dispatches tell the horrors which ensued. The railroad property, freights, etc., destroyed must have amounted in value to not less than five or six million dollars.

The military succeeded in escaping the flames; were singularly enough refused admission to the United States Arsenal, but found a refuge elsewhere. The citizens of Pittsburg seem to have been paralyzed.

The State militia was of no service whatever. The rioters completed their work of pillage and destruction, and between 10 and 11 o'clock last night, being very drunk and sleepy, went off to bed. After the deadly work was done the Pittsburghers organized a vigilance committee, armed with ball bats. This movement appears to have come too late.

The Russians are slowly and surely pushing towards Constantinople. It is rumored that Ranof Pasha was defeated Monday, losing 15,000 men, and that the Russians have captured the southern entrance to Duga Pass.

Stanley Matthews denies that he ever made a bargain with anybody, about anything, at any time, condition with Louisiana affairs, and assertions to the contrary are pure inventions.

Mr. John G. Thompson, Sergeant-at-Arms of the House of Representatives, predicts that Ohio will give 20,000 Democratic majority in October.

The European war news is overshadowed by the strike. We have omitted it almost entirely. Two millions of property was destroyed at Pittsburg by the strikers.

The young ladies of Columbia have organized a cooking club. Memphis had a shake, Saturday.—A little earthquake.

The strike of the freemen and brakemen on the Baltimore and Ohio Railroad has developed into alarming proportions. A labor revolt that requires the interposition of the President, and of the Governors of two States, with military forces, to suppress it or hold it in check, is not a matter to be lightly considered.

The Howgate polar expedition is being rapidly organized. The schooner Florence is being put in condition for sea at New London, Conn., and the work is pushed with such energy that there is reason to look for her clearance from that port upon the 20th of July, instead of the 25th date heretofore set by Capt. Tyson for her sailing.

The report is again in circulation in Washington that the President will revoke the proclamation convening Congress in extraordinary session in October, and that the Forty-fifth Congress will not assemble until the regular day of meeting, the first Monday in December.

WHAT THE STRIKERS SAY. Expressed Determination Not to Resume Work at the Present Rates.

Baltimore Gazette, 19th. The strikers say they are determined to stand by their demands at the present rates. They were willing, they said, to submit to a reduction if it had been a moderate one.

Hon. T. M. Jones. Mr. Epperson.—During the present term of our Circuit Court we had the pleasure of a two weeks sojourn with us of your distinguished jurist, Judge T. M. Jones, and his handsome son Lee. The Judge was in attendance on the defense in the case of the State vs. Robert L. Bright, charged with manslaughter in the killing of E. L. Allen on the 7th.

The dignified, manly and courteous bearing of Judge Jones won for him not only the esteem and respect of our bar, but the admiration of the people. From what we can learn, his stay was one of continuous ovation, each vying with the other in the bestowal of that homage and respect so certainly merited by him.

The defense fought the case upon the plea of self-defense, and Mr. Bright was justified in the killing by the jury. Mr. Bright's host of friends are greatly rejoiced at this termination of this sad and lamentable affair.—Fayetteville Express.

Miss Katie Williams, of Marietta, Georgia, a charming brunette of sixteen, is the heroine of a very romantic story, which we find in one of our exchanges.

July and August are the proper months to turn land to get it in a proper state to seed down. It should be turned deep with a good mold, and the soil should be well broken, so as to pull out all the briar roots, and then thoroughly harrowed when sown.

What the Bilious Require. Since torpidity of the liver is the chief cause of its disorder, it is evident that a remedy should be an alternative stimulant which will arouse it to activity, an effect that is followed by the disappearance of the various symptoms in lieu of its derangement.

R. L. Bright Acquitted. After seven days of patient investigation and able argument for and against, the jury in the case of the State against R. L. Bright for manslaughter in the killing of Mr. E. L. Allen, brought in a verdict of acquittal.

The State in the prosecution was assisted by the talented young lawyers from Louisville, the Messrs. Armstrong and Pillow, and by learned counsel of our home bar. Nothing was overlooked in the prosecution which justice and the peace and dignity of the State required.

Mr. Bright was ably defended by a number of the members of the Fayetteville bar, and the distinguished Judge Thomas M. Jones acquitted him. The acquittal of Mr. Bright was a triumph for the law.

The Texas and Pacific railroad, with a Memphis branch, and a New Orleans branch is the need of the South. These public improvements are of more importance to the Lower Mississippi Valley than the contests for office of this or that amiable or able citizen.
