Hill's Almanac for 1882 forecasts the weather for this month. It runs down the page through the whole month thus: "About—this time—look—out—for—warm—weather." He is a jinx.

The sudden appearance of the comet was unaccountable until it was found that it was no comet—Some fellow hit a Chicago editor on the cheek and this is the sparks flying off.

Miss Mamie Crockett of Nashville, accompanied by her little sister Cora, arrived in Pulaski last Thursday to spend the summer, a gratifying fact to her numerous friends here. She is stopping at Mrs. Adams.

We are Compelled. To call upon those indebted to us to settle. Our partnership dissolved and we wish to settle up our matters and cannot do so unless our customers pay their accounts. We earnestly urge you to come up at once.

Pronouncements.

A gentleman in Pulaski furnishes us the following weather guesses which he has formulated from observations extending over a long life: If it rains on Monday, it is sure to rain again during the week.

If the sun sets behind a cloud on Thursday, it will rain in three days. If it remains perfectly clear April 1, it will be a dry season, if it rains or is cloudy, there will be a good season and it will be abundant. It rained April 1st last.

Christmas and May 1 always fall on the same day of the week.

The District Parsonage.

The residence of Dr. C. C. Abernathy on 3rd street, now occupied by Mr. W. A. Gilmore, has been purchased for a district parsonage and will be occupied by the presiding elder after conference this year. The price paid was \$1500. The quarterly conference met last Monday and elected the following board of trustees for the parsonage: Geo. S. W. Riddle, Dr. Reynolds, W. J. Craig, A. J. Abernathy, E. W. Crow, J. S. Childers, L. W. McCord, Geo. T. Hughes and E. W. Grigby.

Preachers and others having subcriptions in their hands will please send them to Dr. Lettwith by July 1st.

The district parsonage board of stewards is requested to meet at Capt. W. A. Gilmore's on Monday at 10 o'clock to receive the property.

An Unfortunate Burning.

On last Monday morning at Lebanon, Tenn., a fire broke out at the residence of Mr. James Boyd were aroused from their slumbers by the falling rafters of their burning dwelling, and to escape with their lives was all they could do.

The fire was caused, it is thought, by the carelessness of the young people of the neighborhood and a goodly number of the household and kitchen furniture, and there was no insurance. The fire is thought to have originated in the cook-room, though the exact cause is not known.

Mr. Boyd is at his mother's, Mrs. Alf. White, near Pulaski, for the present. We deplore the sad catastrophe that meets this young couple just upon the threshold of life.

A New Comet.

The astronomers were thrown into consternation last Thursday morning by the appearance of a brilliant comet in the constellation of Pythias, at Antiope's Hall tomorrow evening, but the project was abandoned. This lodge has very rich paraphernalia and the exercises admissible in public demonstration give our lodge an illustration of the grandeur of its secret work.

One Improved Singer machine only \$12.00 at Wheeler & Wilson office, Winship's jewelry store.

Mr. G. S. Townsend sent us the Albany Express of recent date. It contains many interesting points on the various parties in the contest, and which comet it is. It is said to be the most brilliant since the comet of 1843. It is receding from the earth at the rate of 300,000 miles a day.

The Elkmount Reunion.

Unfortunately the invitations and programs to the proposed meeting at Elkmount were not promulgated in time. Lawyers are men of business and it is their duty to see that they could not make arrangements to attend, doubtless. The meeting was therefore very simply attended.

The visit was highly enjoyable, nevertheless, to those who did attend. It afforded the opportunity to see at least the accommodations under the new regime and to see the prosperous footing upon which the season is commenced. The season is barely opened, and yet the prospects are so bright that it is not surprising that a full attendance of boarders all during the summer is flattering. The program was ignored, of course, so few being present, and the anticipated business was not attended to.

Rob't F. Boyd, supreme treasurer widows and orphans' fund, B. A. J. Nixon, supreme assistant secretary, and delegates G. W. Buchanan, Joe Alexander and Alf. J. Lanier, leave this week to attend the supreme grand lodge of Immaculate which meets in Louisville Monday next, July 4th.

Webster's new Amalgam Pen is just introduced at Gilks. Mr. J. F. May is agent for Gilks and A. J. Nixon, supreme assistant secretary, Ala. It is highly endorsed by all the county officers and by the banks in Pulaski. It is warranted not to corrode and is surely a good pen. They sell at \$2 per gross.

Needles and supplies for all sewing machines at Wheeler & Wilson office.

Mr. Tom Mason exhibited last Saturday on the Lodge Academy, a tonishing feat upon the bicycle, the most difficult of which was the act of standing still for two or three minutes. It could not be done in Nashville a month ago, but Mr. Mason only learned it recently.

At a regular meeting of the I. O. O. F. Friday night following, officers were elected to fill the term just beginning: A. J. Abernathy, N. G.; W. Bouldin, V. G.; H. C. Per. Sec.; Dr. H. Parsons, Treas.

Second hand sewing machines from \$5.00 to \$15.00, at Wheeler & Wilson office.

Rev. D. S. Bodenhamer will fill the pulpit at the C. P. Church on the 2d and 4th Sundays in each month, morning and evening.

We have a suggestion from Nashville to call it Evergreen Cemetery. That strikes us as a little too commonplace.

Correspondents should address the CITIZEN, and not the editor. It sometimes occasions misarrangements, and it is not adhered to.

We learn with regret that Miss Sam. O'Connell, near Whitesburg, was very sick Sunday with asthma, to which she is subject.

Mayor H. C. Row is hauling a quantity of wood to his brick kiln and will soon be ready to fire it up.

Mr. H. M. Staley and wife arrived yesterday upon their periodical visit.

WOOL CARDING.

Bring your Wool to the Pulaski Factory to be carded. Good rolls guaranteed or Wool returned. Usually you get your rolls at our opening in August.

Stout-Gidwell.

The following letters to a Giles county boy: Mr. S. V. Stout, one of Moore and Marsh's clerical force, was married to Miss Fannie L. Caldwell yesterday at the Third Presbyterian church—the Rev. T. Keft Smith, pastor, officiating. Soon after the ceremony the happy couple left for Chattanooga, the home of the groom's parents, where they will remain several days.

Mr. Stout is well and favorably known in Atlanta where he and his bride will receive a hearty welcome when they return. As an evidence of their esteem for his many good qualities his fellow clerks yesterday presented him with a magnificent chamber set. Several of his good presents bore evidence of the appreciation of his friends.

B. A. Stout, Charles McClenden, Robert Gamble and Walton Veal acted as ushers.—[Atlanta Constitution.]

In the Baging Floods.

Mr. Andrew Chambers, proprietor of Chambers' mills, near Elkton, came near meeting with a fatal accident Tuesday night. He was going home from Pulaski with some purchases he had made, three kegs of horse shoes, fifty pounds of sugar, a barrel of syrup and some other articles in a wagon, and on crossing Buchanan's creek he was overtaken by a sudden rise in the stream and all was swept away. To save the lives of his mules, he cut them loose from the wagon and they carried him safe to land. At last reports nothing had been heard of the great danger of the wagon. A negro crossed the creek just ahead of Mr. Chambers without trouble.

LATER.—Since the above was written we learn that Mr. Chambers seized the creek Tuesday and recovered all his goods except a keg of whisky, which he was taking to a tenant, and a barrel of sugar. Mr. Jim Rivers noticed horse shoes swimming in his mill-race and took something wrong. He waded in to get them, when the water splattered in his mouth and he found the mill-pond was the finest cock-tail he had tasted since the war to smell an empty bottle. The neighbors all gathered in and they were having a 4th of July there yesterday. Dr. Tol. Grant got a dispatch from Mr. Chambers yesterday to hasten down with his hog-cholera remedy. Mr. Chambers has ordered a life preserver and will keep it hanging on the fence at Buchanan's to use when his tenants send him after goods and things.

The Lawyers Ball at Elkmount.

Fayetteville Express. A few of us have noticed a programme published in the American, of a certain ball to take place at Elkmount Springs on the 23d inst. From the language of "said programme" we are led to believe that a few of the members of the profession are wanted on the occasion referred to, as no card of invitation has been sent them. It professes to be a meeting of the members of the Fayetteville Express, Lewisburg, Huntville, Athens, etc., while the fact is not but one or two of the attorneys at this bar ever heard of the "thing" until its announcement in the American. We are not sure that the lawyers are not to be invited, but when such invidious lines are drawn let not the better part of the profession be classed in any such work. A lawyer true to the teaching of his profession and who has a respect for the grand lessons he learns, despises and condemns these little picked up class snobs, who, perhaps, have supposed in "replevying more coes" than belong to them. We protest against the drawing of the great body of the respectable part of the fraternity as being parties to the mach taint will no doubt be on hand. We very respectfully suggest two amendments to the programme as follows: "The members of the profession who are invited to the ball are to be the members of the Fayetteville Express, Lewisburg, Huntville, Athens, etc., and the doctor claims that he does not."

Should you sit up 'n' night to watch for the appearance of the comet, don't let the festive lighting-bug delude you simply because it is a white sitting. If his sweetheart the other night was not paying close attention (to the ethereal regions) and was brought to grief by exclaiming "comet!" when there was no comet.

Mr. Theo. Stevenson, the watchman at the Pulaski Cotton and Woolen Mills, who has been perhaps the best offered for the first observer of a comet, says that the comet has already changed its course. The garish stranger makes his appearance at that few have yet observed him.

Capt. John S. Wilkes returned from a tour in Texas, Sunday evening. He took an extended tour for health and pleasure, and of course was highly delighted. He came back through Mississippi and Alabama and brought his family back with him. Capt. Wilkes a box of his splendid cigars. They are of the purest line as pictures, and the wreathing and the aroma, but perturbed with generosity and nobility—the characteristics of the donor.

The following officers were elected Monday night in the lodge of A. O. U. W. J. C. Martin, M. W.; J. R. Crowe, G. F.; F. Winship, Rec.; L. W. Ewing, Finance; Geo. T. Riddle, Sec.; H. C. Row, Guide; W. A. Malone, L. W.; J. Hanneberg, G. W.

Mr. James M. Stevenson, son of Mr. C. L. Stevenson of Bethany, who went to Texas in February last, returned a few days since, satisfied with Texas. There will probably be other young men who will go, and they will come back too after trying that country awhile.

Mr. R. A. Lasseter returned last Friday from a trip to Arkansas and Texas. He finds pleasure anywhere, but in this tour he fell in with pleasures and wonders combined. His business there is developed in another column.

Mr. Morris Davidson is over from Lebanon on a visit. He is agent for the Singer Sewing Machine over there and will shortly return to Fayetteville. He is doing a good business.

Comet gazers are out by the score losing sleep. Mother Shipton may be correct yet in her prophecies. The thing is alarming.

Mrs. Thos. J. Flaunt and little Guy, of New Orleans, came up last week for a few weeks with relatives in Pulaski.

Mrs. Jno. Bateman Smith, accompanied by her sister, Mrs. W. C. McCord, went to Fayetteville Monday to spend the summer.

Mr. Walter Steele went to Tuscomb, Ala., last week to accept a clerkship in the hotel there. His wife followed him Sunday night.

Miss Mattie Bond of Franklin is spending a week for two in the neighborhood of Wales.

Another conclusive confirmation.

of mother Shipton's prophecy is found in the fact that the 4th of July and 1st Monday occur on the same day this year. Something dreadful always happens when they come together. Mark Antony knocked two of Caesar's teeth down his throat on this day. Martin Luther fell in the church; Cromwell broke the tongue out of his supporter buckle; Washington got his ear chewed by the old man who owned a cherry tree; Roscoe Conkling dreamed he heard a confiding drap. All these occurred on the conjunction of these two days, and Warner's Safe Liver and Kidney comet is certain to wind up the program next Monday by some kind of catastrophe. We have always been a special admirer of comets and the CITIZEN has not abused this one. We respectfully remind it that its proprietor, Mr. Warner, advertised most of all last year, and this evidence of his friendship should exempt us from its wrath.

Our young friend Grady B. Gibson of Nashville, son of Mr. R. B. Gibson of Pulaski, was married on Sunday, 19th inst., in Murfreesboro to Miss Mattie Prater of Smyrna. This was quite a surprise to his friends here, and even to his own family, who knew nothing of it until it was over. We congratulate the fair bride upon being wedded to a promising young man, and we wish that their happiness may continue with them even as years come upon them. It is said Grady has won the heart of a splendid young lady.

Our new Kentucky merchant, J. R. Hammonds, and his family will start to Kentucky Monday on a short visit.

Our handsome young friend, Dr. A. W. Gray of Columbia, was here Saturday fixing up new grinders and grinders for the mouths of some of his customers.

Miss Bettie Higdon is visiting friends in Columbia this week. She is a very charming young lady.

The people of Robertson are getting up some fine crops. The building of a good road to Wagonville, which will be given to McClure's when crops are laid by. Their commissioners desire to put the Lynnville and Cornersville road under a contractor's hands and get regular hands to grade and gravel it. This is a commendable enterprise, and we hope that Lynnville will meet them with a liberal spirit.

Our town was all up Thursday night looking at the brilliant comet to be seen in the north from 1 to 3 o'clock a. m. It was first seen by Capt. John S. Wilkes and his daughter, Mrs. Zuck Bug and her daughter of Virginia are visiting at the Hon. R. M. Bugg's, her brother-in-law. She is an old lady highly esteemed.

Our old Baptist friends enjoyed a sermon Sunday from one of their most gifted preachers, Mr. H. H. McClellan of Rutherford county. Mr. McClellan is a very able and eloquent man.

I am conscientiously opposed to making mention of agents and drummers, but I feel called upon to notice a worthy young man, Mr. J. W. Ewing, who is selling an excellent book—a bible commentary that should be in the hands of all who have a bible, and especially all Sunday school workers. Young Thompson is a very able and eloquent man.

Mr. J. C. (Hick) Brown of Petersburg, Va., spent a few days in Pulaski last week. He lived here for some time and was a printer on the "Trumpet of Liberty," a paper published at that time in Pulaski by Mr. Austin B. Estes, and was regarded as one of the best printers in the country.

The congregation who heard Dr. Lettwith's commencement sermon a few weeks ago in Pulaski will remember his remarks upon Shakespeare's false philosophy. A repetition of the same thoughts in Columbia last week brought down upon him the wrath of C. V., the American's writer. A man doesn't want to see Shakespeare's days—and the doctor claims that he does not.

Miss Mattie Bond of Franklin is spending a week for two in the neighborhood of Wales.

Lynnville.

Last week we unintentionally omitted to notice the death of Miss Sallie Waldrop who died of consumption at her brother-in-law's, D. B. Garrett, in Old Lynnville on the 15th. She was a young lady of many good qualities of head and heart and leaves many friends to mourn her early death.

Mrs. C. Johnston was called to the bedside of her daughter, Mrs. Stone of Marshall county, who, it was thought, was dangerously ill with a bilious attack, but I am glad to learn she is much better.

Mrs. Milton McClure of Scottsboro, Ala., formerly of Cornersville, is visiting her niece, Mrs. Parteneher at Lynnville.

Our new Kentucky merchant, J. R. Hammonds, and his family will start to Kentucky Monday on a short visit.

Our handsome young friend, Dr. A. W. Gray of Columbia, was here Saturday fixing up new grinders and grinders for the mouths of some of his customers.
