

FOR PRESIDENT,
CLAYTON B. GRANT,
OF ILLINOIS.

FOR VICE-PRESIDENT,
HENRY WILSON,
OF MASSACHUSETTS.

REPUBLICAN TOWNSHIP MEETINGS.
In view of the near approach of the national, State and county election, and in order to secure a more thorough organization of all those who favor the election of Grant and Wilson, it is suggested that the citizens of Holt County assemble in public meetings on their respective voting precincts, at 2 P. M., on

Saturday, July 6, 1872,
for the purpose of choosing five men to serve as a campaign committee, and to transact such other business as may be deemed necessary.

This notice is intended for such townships only as have not already provided for the same. By order of
522 COUNTY COMMITTEE.

EIGHTH VOLUME.

With this number we commence the eighth volume of the HOLT COUNTY SENTINEL. The first number was published seven years ago, and has appeared from that time weekly without intermission. In a word, it has become one of the fixtures of Oregon and Holt County. Its career has been eventful and wrought with change and varying fortune. It commences the eighth year under brighter auspices and fairer prospects than before. Though the proprietorship of the paper has changed several times, yet its moral and political sentiments have ever been the same. It has always been a consistent Republican organ, and is pledged to be so in the future. It commends the support and patronage of the party, & should be taken by every man who desires the success of Republican principles in the coming election. The SENTINEL is a patronized very liberally by some Democrats, who have become convinced that it is the organ of the masses on all local questions. Our greatest aim and object in the future, as in the past, shall be to advocate the moral and material interests of our beautiful county. By pursuing a course of this kind, the SENTINEL will continue to grow in popularity and circulation. Within the last few weeks our subscription list has been increased very materially and in a few days we expect to take the field in person, in the interest of the paper, hoping thereby to increase our already extensive list to at least twelve or fifteen hundred subscribers. The SENTINEL has now a much larger circulation than any other paper published in Holt County, which attaches to it an unusual importance as an advertising medium. Now we have one questing to make, particularly of the friends of the paper, and that is that they speak and work a little for its success; that each present subscriber will endeavor to obtain us at least one new name. A few of our citizens are sending the paper to various parts of the country, as an evidence of what we are doing in this part of Missouri. This, of course, is very encouraging to us, and should be very encouraging to you, as it is our endeavor to make each succeeding issue more worthy of exhibition. To this end our best efforts shall be exerted, feeling that our success will be measured by our deserts.

OUR CONGRESSMAN.

Hon. L. C. Parker, M. C. from this District, returned home week before last and received a cheering reception from his friends at St. Joseph. Being accidentally in St. Joseph on the evening alluded to, we participated in the reception ceremonies. Mr. Parker has won an enviable reputation by his course in the House of Representatives, when he was sent there by so large a majority over a regular party vote. We are glad to know that he is home again in good health and hope soon to be able to announce to the Republicans of Holt County that he will address them on the questions of the day.

Hon. Greely in 1846.

In 1846 Horace Greely declared as follows: "If, on a full and final review my principles, let due infamy be heaped on my memory; but let none be thereby led to distrust the principles to which I proved recent, nor yet the ability of some to adorn them by a suitable life and conversation." It is in the spirit of his exhortation that the American people are now acting. Mr. Greely's reputation is destroyed, but the people "are not thereby led to distrust the principles to which he proved recent." We have no fear but they will show this by an overwhelming majority for the Republicanism he has taught for seventeen years, and against the Democratic party which he fought for forty years.

THE NEW CONGRESS—HOLT COUNTY APPOINTMENT.

The Ninth District.

Our inevitable General Assembly has, after one regular session, one adjourned session, and two stormy extra sessions, finally on the 27th June last, agreed to an apportionment of the State into thirteen Congressional Districts. A great agony among aspirants for Congressional honors, is thus fortunately passed, and the gentlemen who had Congressmen-at-Large on the brain are happily relieved of a great mental burden. These gentlemen if they intend to reach the National Capitol will now have to betake themselves to looking about in the districts where they reside and as supposed to be best known to secure their nomination and election to Congress.

The districts thus created are constituted as follows:

First district—First, second, third and fourth wards, of the city of St. Louis, Carondelet township, and all that part of St. Louis township lying South of the Manchester road in St. Louis county.

Second district—Fifth, sixth, seventh and eighth wards, in the city of St. Louis, Central, Bonhomme and Meramec townships, and all that part of St. Louis township lying between the New Manchester and the Natural Bridge plank road in St. Louis county.

Third district—Ninth, tenth, eleventh and twelfth wards, in the city of St. Louis, St. Ferdinand township, and that part of St. Louis township lying North of the Natural Bridge plank road in St. Louis county.

Fourth district—Perry, Cape Girardeau, Scott, Mississippi, New Madrid, Pemont, Dunklin, Stoddard, Bollinger, Madison, Wayne, Butler, Ripley, Carter, Reynolds, Oregon, Washington, St. Francois, Ste. Genevieve and Iron.

Fifth district—Jefferson, Crawford, Phelps, Maries, Osage, Gasconade, Pulaski, Laclede, Franklin, Dent, Wright, Texas, Shannon, Douglas, Ozark and Howell.

Sixth district—Jasper, Barton, Newton, McDonald, Cedar, Dade, Lawrence, Barry, Stone, Taney, Christian, Webster, Greene, Polk and Vernon.

Seventh district—Johanna, Pettis, Cooper, Monticello, Morgan, Cole, Miller, Camden, Hickory, Benton, Henry, Dallas and Clark.

Eighth district—Platte, Clay, Jackson, Cass and Bates.

Ninth district—Atchison, Nodaway, Holt, Andrew, Buchanan, Clinton, DeKalb, Geary and Worth.

Tenth district—Harrison, Dayles, Caldwell, Livingston, Grundy, Mercer, Putnam, Sullivan, Linn and Chariton.

Eleventh district—Randolph, Howard, Saline, Lafayette, Hay, Carroll and Boone.

Twelfth district—Schuyler, Adair, Macon, Shelby, Knox, Scotland, Clark, Lewis and Marion.

Thirteenth district—Monroe, Callaway, Audrain, Pike, Lincoln, Montgomery, Warren, St. Charles and Ralls.

It will be seen from this list that ours has been constituted the Ninth Congressional district, with Atchison, Andrew, Buchanan, Clinton, DeKalb, Geary, Holt, Nodaway and Worth in it.

Senator J. H. Birch, Jr., of Plattsburg, has, for a long time, worked hard to bring his (Clinton) county into this Congressional district, for the purpose of enabling him to go to Congress next fall. Clinton county, it will be remembered, is Democratic by 300 to 400 majority, the Senator calculates that he will have an easy job of carrying the district for himself at the next election. What we know of the Senator, is that he is a jolly, good-natured sort of a fellow, and stands very high with his Democratic brethren; but we think the Republicans of this district are strong enough to beat him, or any one else that the Democratic-Greeley party may bring into the field, by 1,000 majority.

The Democratic majority in the Legislature used every means in their power to re-district the State as to swamp the Republican counties by attaching them to strong Democratic districts. This little game did not succeed in every instance. Instance Platte county: It was proposed by many of the Democrats to attach that county to this Congressional district, but the undertaking failed for want of the concurrence of the Senate.

New Roof to the Court House.
We are extremely glad to chronicle the fact, that our Court House has lately received a brand new No. 1 pine shingle roof—one that will battle the inclemency of the seasons—and one it is hoped, that will keep out the rain and protect the public records from dampness.

ADDRESS TO THE FARMERS OF HOLT COUNTY—No. 2.

Were there five thousand mechanics and artisans in this county there would be a ready market for every pound of butter made in the county at remunerative prices, and so many other farm products that are now so cheap that the farmer does not get pay for raising. The buildings these men would build would add largely to the value of the farms in the county, and by paying a respectable portion of our taxation reduce the taxes on the present taxable property of the county.

The above facts are patent and denied by none, therefore the only pertinent question remaining is: Can we secure the presence of this desirable class of persons? We answer, "yes," and in the following manner: When Farmers' Clubs are general and farmers pledge themselves to support home manufactures, a simple statement of the facts attended with an invitation to the men that we want, will secure the result desired.

Our Railroads are creatures of legislation, or in other words they consume business on a charter secured from our Legislature. They then come before us for county, township and individual aid, and are received with open arms and purses, being as polite and deferential all this time as a French dancing-master; but after receiving from us all we are able or willing to grant, they become the veriest tyrants, and extort from us many a hard-earned dollar. There is probably but one way to reach this evil and that is through our Legislature. The fight may and perhaps will be a long one, yet if the people work intelligently and persistently victory will ultimately perch on the banners of the right. When Farmers' Clubs are general, a petition can be circulated through the county thoroughly in ten days, and no person is obliged to leave his own school district.

A word politically. Farmers call out your man for the Legislature, one whom you can depend upon, one who will work for your interests, one whom free presses and other courtesies from Railroad officials, will not swerve from, and back him up by a petition from this county that shall show the Legislature that this people is in earnest. Inasmuch as this movement of Farmers Clubs is designed to be general, it is not possible and probably not desirable that all should vote the same ticket, but this can and should be done; each man should work in the party which he prefers for this end.

Had the farmers known two years ago that hogs would sell less now, they would now have less hogs and more of something that would pay them for their labor, and this they might have known had they been organized and prepared to intelligently work for this end. Let a financial agent be elected by the farmers of the county, whose duties it shall be to ascertain the amount of pork in the hands of pork dealers throughout the United States, as well as the best information in regard to foreign demand that can be obtained. Such a proceeding two years ago would have saved the farmers of this county many thousands of dollars. The same course should be pursued with other crops. Manufacturers, lumbermen, importers and exporters, all pursue this course, and are obliged to look ahead, well knowing that running their business blind would run them into the ground.

A large portion of the cultivated soil of Holt County is still producing corn, a crop that pays somewhere near ten dollars per acre, while fine pays about fifteen, hemp from thirty-five to fifty, and tobacco from two to three hundred dollars per acre. It is true these crops that bring the higher prices require very much labor, yet the difference in the price is so great the farmer may hire every stroke of work done and then realize very much more for his season's labor than he can get out of corn and do all his work himself.

The probable demand for any farm product can be ascertained nearly enough for all practical purposes. A country like this, capable of the very widest range of agricultural products, should be eminently prosperous, whereas the reverse is now the case.

Farmers will do your own banking and insuring? As soon as clubs are general and the farmers continually accomplished, thereby providing yourselves with money in time of need without being obliged to pay the exorbitant rates current last winter. One-half what you now pay for insurance would insure you and pay the salaries of all the men you need to do your business.

Your financial agent can buy your plows, wagons, in fact, all agricultural implements, very much cheaper than you can when this matter is appreciated and patronized by the people. Would it not be wiser to spend an hour or two each week at the club, working intelligently for a great abatement on the prices of what you buy, than it is to spend an hour haggling and juggling down the price of this article now, and that article next, and so on of all. Instead of controlling the business of the county as the farmer should, farming being the first interest of the county, the farmer is being controlled by any and every other business harassed, here and badgered there.

The Farmers' Club met in Oregon, June 15th, and did all that could be done to organize this movement, another meeting to perfecting the organization takes place in Mound City, August 2nd. Each subordinate club is entitled to two delegates and those school districts that as yet have no organization are requested to organize and send in their delegates, and let them be the best business men in each district.

The undersigned, your committee, were appointed to place this matter before you for your consideration.

The Unreconstructed.
The following telegram tells its own tale. It is dated Greensboro, North Carolina, June 27, 1872:

Judge Settle, the Republican candidate for Congress in the fifth district, addressed the citizens of Carroll county, at Yanceyville, on Saturday. Some of his opponents attempted to stop his speaking and went to the stage and threatened him if he continued his speech. He defied them, and by his resolute manner prevented them from doing so. This brought on a general fight among the anti-Grant men, in which rotten eggs were thrown at the American flag with the names of Grant and Wilson and Settle printed upon it. The judge finally made his speech. Yanceyville is the place where Senator Stevens was murdered three years ago by the Ku-Klux.

First Senatorial District.
The members of the Republican Senatorial Committee for the first State Senatorial District are requested to communicate immediately with me, J. H. DAVIS, Chairman.

MARVILLE, Mo., June 27, 1872.
Republican papers in the District please copy.

Grape Prospect in Holt County.
Last Saturday we visited Mr. Sam. H. Whitmer's vineyard. The vines, mostly of the Concord species, had a great many new grapes on them on the slope of the hill than those on the level ground. Mr. Whitmer is of the opinion that on his place the grape crop will produce much more bountifully this year than last.

The Republican Congressional Committee.

Now, that the campaign has fairly begun, we hope that the Congressional Committee for this (the ninth) District will convene for the purpose of fixing the day and place for the holding of a convention to nominate a candidate for Congress. Maj. John L. Bittinger, of Buchanan county is the Chairman of the old committee, and we call on him to assemble the committee as soon as possible, and have the time and place of the convention designated. The policy of waiting till after the State Convention is not a good one; let us have our Congressional Convention forthwith.

P. S. Since the above was in type the subject called met our eye:

REPUBLICAN CONGRESSIONAL COMMITTEE.
St. Joseph, Mo., June 28, 1872.
The members of the Republican Congressional Committee for the counties of Andrew, Atchison, Buchanan, Clinton, DeKalb, Geary, Holt, Nodaway and Worth, (which Counties now comprise the ninth Congressional District of Missouri, as recently formed by the General Assembly), are requested to meet at St. Joseph, on Wednesday, the 10th day of July, 1872, at 12 o'clock, A. M. A full attendance is respectfully requested, as business of importance will be brought before the Committee.

J. H. BITTINGER,
JEFF CHANDLER,
Members of the Republican Congressional Committee for Buchanan County.

FROM SAVANNAH, MISSOURI.
EDITOR SENTINEL: The sighing and crying for woe weather has ceased, and a gentle whisper breathing a wish for a little rain and a cooler atmosphere can now and then be heard. Notwithstanding the dull times, Savannah has the appearance of life. Circuit Court has been in session, which called many of the farmers of the county to our city. They have seemingly forgotten the prediction of famine, and all report that the prospect for goods crops are favorable.

His Honor Judge Kelley conducted business in a thorough skilful and lively manner. He gives universal satisfaction to all. Col. Wilkinson of this place was admitted to the bar. The Col. on this occasion gave an ice cream supper to the officers of the Court. Seventeen legal tenders were on the ground, fifteen minutes before the appointed hour, and at the announcement of supper every tender was at his post in the twinkling of an eye.

Horse thieves are on the rampage again, two found a home in our county jail last week, and will doubtless be transplanted within the walls of the Penitentiary at Jefferson in a short time.

A programme of the celebration to be held at Mound City on the fourth reached me a few days ago. If the grand salute of 36 guns at sunrise, also the 36 young ladies representing the different States of the Union, are intended to represent all the States in the Union, they must be "big ladies" and "big guns." GLANVILLE, SAVANNAH, Mo., June 28, 1872.

CHRISTIAN FEMALE ORPHAN SCHOOL, CAMDEN POINT, MO.
EDITOR SENTINEL: Knowing that you are willing to do all you can for the good of humanity, I herewith submit the following for publication:

The Missouri Female Orphan School of the Christian Church was founded in 1870, at Camden Point, Mo. The object of the school is to educate, feed and clothe destitute female orphans who have no relatives or friends to take care of them. At present but few of the above class can be admitted. More will be admitted as the endowment increases. The building will accommodate one hundred students. Over forty thousand dollars has been raised since the school began. Elder Thomas Haley, the agent of the school, is visiting the congregations of the church in Missouri, and is raising money rapidly on the endowment plan. The Board intends to raise the fund to one hundred thousand dollars. It will take several years to fully accomplish it on the endowment plan. After the required amount is raised, none but the above named class of females will be admitted, at present and until the fund is raised. The necessary endowment is invested, upon their complying with the laws and regulations of the institution.

Destitute female orphans, having friends who wish to educate them, will be admitted, for session of 10 months, \$100. The respective amounts pay for board and tuition. Female orphans who have some means of their own and not sufficient to educate them in their first class institutions, \$130. Young ladies who have parents, \$100. One who wishes to give their girls a first-class education would do well to address the Secretary, Female Orphan School, Camden Point, Mo. W. B. OSBORN, Mo., June 28, 1872.

Reliable Chicago Papers.
Since the defection of the Chicago Tribune, the Republicans have rapidly transferred their patronage to the true and sound Republican papers of Chicago, the Journal, and the Post, and the Inter-Ocean. The last named is a morning paper—conducted with ability, force and fairness—and is, we are rejoiced to learn, steadily and surely taking the place of the Tribune, which now advocates everything else but the principles of the Republican party. The Inter-Ocean is the paper for those who can no longer stomach the Tribune, and still want a first class morning paper from Chicago.

Grape Prospect in Holt County.
Last Saturday we visited Mr. Sam. H. Whitmer's vineyard. The vines, mostly of the Concord species, had a great many new grapes on them on the slope of the hill than those on the level ground. Mr. Whitmer is of the opinion that on his place the grape crop will produce much more bountifully this year than last.

Where to Emigrate!

We answer, go to Southwest Missouri, reach the Atlantic & Pacific Railroad Co. offer 1,300,000 Acres of Land to actual settlers, at low price on long credit, besides furnishing free transportation over roads food to purchasers. This road extends from St. Louis, through Missouri to Vinita, Indian Territory, is being pushed rapidly to its destination, the Pacific Coast; will be one of the trunk lines of the country, never blocked by snow—the lands along the road are in a rich fertile country, as productive as any in the State; the climate combines all the advantages of northern and southern latitudes; good climate, soil, health, water, timber, grazing, fruits and flowers, invite you to go to this region. For further information address: A. TUCKER, Land Com'r, 623 Walnut Street, St. Louis, Mo. 40y

For All Kinds of Cabinet Furniture, such as Bureaus, Stands, Cupboards, Rocking Chairs, Tables, Bedsteads, &c., &c., go to A. M. Jacobs, on Washington Avenue, Oregon. His prices are so low that none need to deny themselves the necessary Furniture for their residences.

"How to Go East."
By the Kansas City, St. Joe & Burlington Route.
"Though last not least," is an adage as true as it is old, and its truth is again exemplified by the completion of the New Line to the East via Creston and Burlington, which, though the last, may be called the best route in the West.

The Line consists of the Kansas City, St. Joseph and Council Bluffs R. R., with two daily trains from Kansas City, through Atchison, Leavenworth and St. Joseph to the Missouri State Line, there connecting with the Burlington Route, which leads direct to Chicago, Cincinnati, Indianapolis, Logansport and Columbus—through cars are being run to all these points.

This Line is well built, thoroughly equipped with every modern improvement, including Pullman's Sleeping and Dining Cars, and nowhere else can the passenger so completely depend on a speedy, safe and comfortable journey. The Burlington Route has admirably answered the query, "How to go East."

It is an important consideration to the traveler, to know that the Burlington Route is a safe and comfortable journey, and that the Burlington Route is a safe and comfortable journey, and that the Burlington Route is a safe and comfortable journey.

Subscribe for the SENTINEL, it is only \$1 50 a year, in advance.
