

The Holt County Sentinel.

Wm Kaucher db

VOLUME XVI.

OREGON, MISSOURI, FRIDAY, AUGUST 13, 1880.

NUMBER 9.

J. M. Winsch & Co
MAITLAND, MO.,
DEALERS IN

LUMBER, SHINGLES, LATH,
AND BUILDING MATERIAL.

Parties wishing to buy will find it to their interest to call and examine our stock before purchasing elsewhere, as we have the largest and most complete stock ever brought to Holt county.

J. M. Winsch & Co.,
MAITLAND, MO.

E. F. WELLER,
DEALER IN
GENERAL MERCHANDISE,
AND

AGRICULTURAL IMPLEMENTS
LIVE STOCK, ETC.,
MAITLAND, MO.

TO MY FRIENDS AND CUSTOMERS IN GENERAL:

Having removed my store from Whig Valley to the new and flourishing town of Maitland, where I have refitted the same, I am prepared to accommodate all my old customers and as many new ones as will call with as good goods as can be found in the market, at a reasonable profit. Hoping that my dealings in the past have been such as to merit a continuance of the same and by fair dealing make many new ones.

E. F. WELLER,
Maitland, Mo.

The Red Front
FILLED
FULL AGAIN!

The Road is here, Business is good, the trade of the town is increasing, but we want more. Come and see us, no matter what the distance, it will pay you.
SMITH & NORMAN, MOUND CITY.

Local Jottings.

—H. E. Denny has purchased a new steam engine and is now prepared to thresh wheat better than ever.

—We learn that a larger acreage of fall wheat will be sowed in Holt county this year than ever before.

—There will be no preaching by Elder White at the Lincoln school house on the fourth Sabbath in this month, on account of the county meeting.

—Mrs. Perkins has returned from her summer vacation and will be prepared to entertain boarders during circuit court.

—Sheriff Frame has been having a hard time with the fever and ague for the past fortnight, but is now up again, though looking decidedly pale about the gills.

—Dr. Callen left last Friday for Denver, Colorado, where, or near where, he will locate permanently. The best wishes of many friends here follow him to his new home.

—Read the call for the Republican county convention. The township meetings will be held on Saturday, September 4th, and the convention will be held on Tuesday, September 7th.

—Mr. C. D. Cox, who has been living near New Point for the past nine years, left on Sunday for Edgar county, Illinois, where he thinks of remaining. We predict however, that he will soon find his way back to old Holt.

—Miss Pierce last Saturday paid his seventeenth annual subscription to the SENTINEL. He commenced with the first number, has taken it continuously ever since, and says he couldn't keep house without it. May he live to take it for a half century longer!

—A convention has been called September 21 to promote the improvement of the navigation of the Missouri river. The meeting is to take place in Kansas City and promises to be of much importance. The subject is one of great concern to the people of the Missouri valley.

—Here is a sample of the way the people of Holt county are "skinned" by the K. C., St. J. & C. B. railroad. The charge for shipping fruit, etc., from St. Joseph to Omaha is fifty cents per hundred pounds, while the charge from Forest City to Omaha (only a little over half the distance), is eighty-five cents per hundred pounds. This is because there is no competition from Forest City. Is not this outrageous?

—The mean temperature for this point for the month of July 1880, was 75.25; the highest was 93° on the 12th; the lowest 57° on the 21st. The mean temperature for 25 years was 77.32; the highest 105° in 1864; the lowest 50° in 1872. The mean for July 1880 was 4.79 fms. The mean for 25 years was 12.24 fms. In 1867 and the least in the same period 0.76 fms in 1870.

—On rising in the morning the bedroom windows should be opened at the top and bottom equal, and except when the weather is very wet, they should remain open until the sun begins to go down. It is a bad practice to leave the windows open late in the day. The air becomes damp, and a damp air is really as dangerous as a close air. To sleep in damp air is quite as bad as to sleep in damp sheets, and is a most common cause of rheumatism, neuralgia and chronic cold or catarrh.

—Speaking of the Oregon Cornet Band, the Corning Herald of last week says: "The Holt County Band attended the picnic at 'Manitoba Lake Park' and discoursed some excellent music. This band is fast becoming famous, each member being a talented artist, and under the superior guidance of such a leader as Prof. Armstrong has already taken rank as one of the very best bands in the State. Our people were highly interested and edified and the two thousand people that listened happy."

—Attention is directed to the law card of Pepper & Aiken, attorneys at law, Mound City, Mo., which appears in our columns to-day. Mr. Pepper, we are informed, is a young gentleman of fine ability, a graduate of the Cumberland Law University at Lebanon, Tennessee, and a man of energy and integrity. Mr. Aiken is well known to the people of the northwest as a strong, wide-awake man, who is liked by nearly everybody. The firm means business and we are glad to learn its members are meeting with encouraging prospects. We commend them to those of our readers who need anything in their line.

—As the Republican county convention is called to meet on the 7th of September there are only three more issues of the SENTINEL in which candidates who desire to go before that convention can announce themselves through its columns. Aspirants for the various offices will promote their own interests by making their names known at once. People like to have a little time to think over the merits of a candidate before voting for him, and members of a convention do not like to have new names suddenly sprung upon them. If a man seeks an office he ought to let the people know it in time for them to think over and discuss his claims, and if he intends to submit his candidacy to the decision of a convention, the members of the convention ought to know the fact before-hand. Otherwise, they are very apt to say: "Well, if he wanted the office, why didn't he say so before? It's too late now we are committed to some one else." So, Messrs. Candidates, don't hide your lights under a bushel, but come out and announce yourselves at once. Our charges for announcing candidates in the SENTINEL are five dollars, cash in advance. Send us the money and let us know what office you want, and the next issue of the SENTINEL will tell it all the world.

—Rev. William Meyers will preach in the Presbyterian church in this city next Sabbath morning and evening.

—If you have any fat hogs, now is the time to sell them. Four dollars a hundred is as good a price as ought to be expected or wanted.

—Barnum's circus exhibits in St. Joseph to-day, Friday. A number of persons from this city will go down and "take it in."

—Rev. Mr. Showalter being too unwell to fill his appointments next Sabbath at Triumph and New Point, they will be filled by Dr. S. B. Lukens of this city.

—We learn that Mr. M. L. Zook, formerly of the Neosho (Kansas) Grainger, will shortly start a paper at Maitland in this county. That's business!

—A North Carolina editor declares that "the man who will read a newspaper three or four years, without paying for it, will pasture a goat on the grave of his grandfather."

—Now is the time when every tax payer should make out a list of his taxable property, and put it away until the assessor comes around. It will save him and you both time and trouble.

—Miss Kate Fenton (sister of Mrs. McKnight) is organizing a Juvenile singing class, to be taught by her in the Methodist church. Her terms are fifty cents for twelve lessons, which is quite reasonable, and she should have no difficulty in getting a large class.

—Sammel Stuckey has added to his livery stock a fine new carriage, which is decidedly the handsomest rig in the city. It is at the service of his patrons, and when attached to his spanking pair of trotters, is a turn out good enough for any body.

—Grant Howell sends the first correct answer to the puzzle published in last week's SENTINEL: How can you put nine pigs in four pens and have an odd number in each pen? The answer is: Build three pens and put three pigs in each pen; then build a fourth pen around the other three.

—We are now regularly receiving the St. Louis Evening Chronicle, the new two cent daily paper recently started in St. Louis. It is bright, fresh and newsy and bears unmistakable evidence of being a success. We predict that in less than three months it will have a larger circulation than any other St. Louis daily and will become the "Wants" paper of the city. It is independent in its views and criticizes all parties, Scripps, Waterloo & Co are the proprietors. It is our best wish.

—Mauck's mill was broken into at Forest City on Saturday night and 600 pounds of flour and 200 pounds of shorts taken out. The thieves were tracked on the following day to certain houses near by but no attempt being made to push the investigation until Monday morning, the thieves had a fair opportunity to remove their booty to a safer place. A search warrant was issued by Judge W. L. Poynter, and Tom Burns returned "nary dust" showed the flour had gone.

—Those who suffer from sleeplessness—and the number is not small—might do well to notice their position at night. A German physiologist states that the heating of the earth by the sun causes magnetic currents from the equator to each pole. We should therefore in the directions of these currents; if we lie across these the result is unpleasant and want of sleep the consequence. The head to the North is the best position to the west of the hospital. Physicians who have charge of wards attend to the direction, in which the beds are placed, and with the best results.

—The windmill and pump recently erected on the west side of the public square seem likely to prove failures. The windmill does not seem to have sufficient power to work the pump. The well from which the water is to be drawn is about one hundred and twenty feet deep, and the necessary lifting power is only obtained when there is a very strong wind. The parties who did the work guaranteed that it should furnish a stipulated amount of water daily, and until it does so, the city authorities will decline to pay for it. It is hoped that changes can yet be made which will cause it to work all right and furnish an abundant supply of water for watering stock and extinguishing fires.

—Wm. Redwood (white) and Cliff McFadden (colored)—two young men, each about twenty years old, got into an altercation at Stuckey's livery stable last Saturday afternoon, which came near resulting fatally. They attacked each other with pitchforks and both received severe and painful wounds— one of them has his scalp split for a distance of several inches on top of his head, and the other having one ear nearly torn from his head. Dr. Thibault was the patcher of Redwood's wounds and Dr. King did the thing for McFadden. Both are getting along as well as could be expected. McFadden is one of the hardest cases in the community—being engaged in frequent broils—and our people generally would rejoice to see him sent to Jefferson City for a few years.

—When Don Marco A. Soto became President of the Honduras Republic, he found the country bankrupt, but, with a remarkable spirit of patriotism, he made a great deal of his own large fortune in improving its condition. He, moreover, refused to receive any salary for his services.
—A new industry is springing up in the shape of muslin farming. A man with a good pond or marsh can need it down to raise and raise it steadily, after two years' treading, about \$20 per acre. The trapping is a winter industry—then there is plenty of leisure, and is a source of amusement to the young members of the family. The market for rats is steady, and a little.

—We are glad to learn that Rev. Mr. Showalter, who has been quite ill, is rapidly convalescing.

—Elder Maupin will preach at the United School house next Sunday morning and evening.

—A. J. Castle this week opens up at Maitland with a fine stock of boots, shoes and clothing.

—Three weeks more of the right kind of weather will place the corn crop out of danger. Everything now indicates that it will be the largest ever raised in the county.

—Subscribers for the campaign SENTINEL are coming in rapidly. Send along the names. Our new mail book has room for several hundred more subscribers. Only thirty-five cents from now until the middle of November.

—Messrs. T. S. Hinde, Robert Montgomery, Fred Myers, Charles Zook, Bryant Peter, Stewart Keesee and Hampy Price, with Cub Payne as cook, started yesterday (Thursday) for a ten days' hunt in Kansas and Nebraska. Good luck to them.

—For a hundred dollar bill you can get from the SENTINEL a splendid new parlor organ, fully warranted for six years, which is handsome enough for any parlor in the land. For further information apply to the editor of this paper.

—At the meeting of the Republican county committee last week, Captain Albert Breeker was appointed member of the Senate orator committee in place of W. H. Chase, removed from the county; and Colonel Wm. Wilkinson was appointed to fill the vacancy in the Congressional committee.

—William Ball has shown us a curious growth in his garden in this city, consisting of nine tomatoes grown together into one and weighing two and three-quarter pounds. The vine upon which it was grown was an enormously large one, fully six feet high, and bore no other fruit—concentrating all its energies on this one mighty effort.

—We hear very many encomiums on the speech delivered by Captain Posegate at the recent Manitoba Lake discussion, and the wish seems general that he will have it printed in pamphlet form and circulated as a campaign document. We hope he will do so, as it would undoubtedly shed light in many dark places.

—Oregonians who may have occasion to visit Rock Port will be glad to learn that Mr. Dan Snyder, formerly of this city, has again gone into the hotel business at that place. His house is newly furnished from cellar to garret and his table will be first class. Of course all his old Holt county friends will stop with him.

—We hear of several burglaries which have been committed in this city recently, and all the circumstances indicate that the robbers are well acquainted with the premises of those robbed. We undoubtedly have a set of thieves in our midst and strong efforts should be made to trace them out and bring them to justice. Meanwhile let every honest citizen keep a sharp gun loaded and discharge its contents into any one caught in the act of stealing.

—The committee appointed by Corydon F. Craig, county supervisor for this district, to award a diploma to that enumerator in each county whose returns were adjudged to be the most complete and the best in every particular, and a general diploma covering his entire district to that enumerator whose returns give evidence of the most excellent work, have awarded the diploma for Holt county to Mr. D. W. Thuma, and the general diploma to Mr. R. E. Chonstant of Clinton county. The committee also make honorable mention of the returns from Holt county made by Judge W. H. Poynter, Wm. Kaucher, Charles E. Barnes, George A. Bryant and Miss Stella Goslin.

—In another column will be found a very nice letter from "Coo-Coo," on the subject of Jim Craig's candidacy for congress. It is an open secret that "Coo-Coo" is a prominent and well known Democrat in the upper part of the county, who is responsible for every thing he says. We mention this fact because he is somewhat free in his allusions to some of the local lights of the Democratic party in Holt, and we do not wish those "lights" to blame us for his utterances. We publish his letter (and will continue to publish whenever he sends) for the reason that the SENTINEL is an impartial tribune which gives every side a hearing; and those whom "Coo-Coo" rebukes can have the free use of our columns to reply, if they so desire.

—We have recently received from Messrs Geo. P. Rowell & Co., the well known advertising agents of New York, a copy of their American Newspaper Directory for 1880, a large volume containing over one thousand pages, giving the size, circulation, politics, together with the population and general industries of the town or city in which published, of every paper in the United States and Canada. We rarely do any business with this agency, for the reason that they always offer only starvation rates; but we freely concede the excellence of their Directory. It is far superior to any book of a like character published by any other agency and is a work the preparation of which requires an immense amount of labor and care. Of course, it contains errors—in fact, the SENTINEL is rated as having a smaller circulation than it really has—but, on the whole, it is nearer correct, generally, than any other Directory we have ever seen. We find it of great use in our business, having occasion to refer to it almost daily, and would feel ourselves at a loss without it.

—It has no Political Significance: But for curing all Summer derangements of the stomach and bowels Brown's Black-berry and Ginger has no equal. No family is safe without it. For sale everywhere, 50 cts. per bottle.

—"The Silent Man"
Is no wiser than he who has the forethought to provide his family with Brown's Extract Blackberry and Ginger; the most wonderful remedy in use for curing Diarrhoea, Dysentery, Cholera Morbus, and all Summer derangements of the Stomach and Bowels.

—A big head is no more evidence of brains than a paper collar is of a shirt.

—The Platte Presbytery of the Cumberland Presbyterian Church meets at Watson, Missouri, on Wednesday the 6th of August, at 7 o'clock p. m.

—We are glad that a few of our merchants take pride enough in their town to keep the streets clean in front of their places of business. Why don't they all do it?

—Kreek & Watson's new brick warehouse is nearly completed and will afford them a great deal more room for the transaction of their increasing business.

—The man who loads his time away around a one horse grocery, while his wife takes time in washing to support him, can always tell you just what the country needs to enhance its prosperity.

—Durant circuit court, Reinhardt & Blum will be prepared to furnish lodg ing, as well as meals, to all who apply. They have fitted up several sleeping rooms in the second story over their restaurant, and will take care of their patrons in the best manner.

—The attention of parents is called to the advertisement of the Mound City Academy, which appears elsewhere in this issue. The Principal, Rev. Durcan Brown, is a regular college graduate, who has had several years of successful experience in teaching and has visited and studied the work in many of the best schools in the State. We most heartily commend this Academy to all who have children to educate.

—W. W. Davenport has two pens of perfectly pure Leghorn chickens—one of White and the other of Brown, which he wishes to make an arrangement with some farmer or farmers near Oregon to take and breed on shares. The Leghorns are the finest egg producers in the world and develop into spring fryers several weeks earlier than any other breed. In fact, they are by far the most profitable breed of chickens to raise. The only reason he wishes to dispose of them in this way is because his small city lot does not afford sufficient range for them. He would prefer to have one farmer take the Browns and another the Whites, in order to keep them from mixing. Extremely liberal arrangements will be made with those who will take them and pro, erly care for them. Any farmer's wife who has a taste in that direction will find the care of them a daily pleasure. They are perfect beauties and the number of eggs they lay is astonishing. Everybody is invited to call and see them.

—As this is the fruit canning season, housewives will do well to remember that one pound of sugar stirred into fruit after it is cooked and while it is yet warm, will make the fruit as sweet as two and a quarter pounds added while the fruit is boiling. The reason of this is that sugar boiled with acid will be converted into glucose, and one pound of sugar has as much sweetening as two and a quarter pounds of glucose. Take notice, as I save your sugar.

—We are indebted to Mr. G. O. Kalb, Secretary for a copy of the premium list of the St. Louis Fair for this year. The exhibition begins on Monday, October 9th. The premiums amount to the sum of \$20,000. This has gotten to be the Great Fair of the Continent. Those who attend it always see something new. The exhibitions in every department are truly wonderful. It pays everybody to go and see the St. Louis Fair.

—R. C. Frederick informs us that he has just ascribed to him a large collection of elegant cartoons, all handsomely framed, with instructions to dispose of them immediately. He is expecting them every day and will give notice of their arrival by means of hand-bills distributed through the city and surrounding country. Messrs. Reinhardt & Blum have kindly tendered him the use of the walls of their restaurant upon which to display them and they will undoubtedly make an attractive exhibition. Ladies are requested to bear this in mind and to call and see the pictures as soon as they receive notice of their arrival.

—Compliments to the Sentinel.
EDITOR SENTINEL:—The course of your paper during the present campaign pleases me so much that, though I seldom write for publication, I cannot refrain from sending you this to express my satisfaction; and I ask you to print it, as I know it expresses the sentiments of hundreds of others.
Personal abuse never helps; any cause and a kind-spirited conqueror quicker than blows. In conceding the exalted personal character of General Hancock, you have disarmed those who would like nothing better than to have you alone him; and they are now forced to meet the issue of his civil qualifications for a non-military office, and in that regard even his warmest admirers cannot deny that he does not possess the qualifications of General Garfield. Keep on in the path you lay, marked out for the SENTINEL and the selection returns this fall will show how heartily the people are in sympathy with you.
OLD TIMER.
New Point, Aug. 11, 1880.

—Where the Credit Belongs.
EDITOR SENTINEL, Oregon, Mo.
DEAR SIR:—For favor of P. M. Cook, the popular hotel man in Craig, I have a copy of your paper containing an account of the arrest of Dr. J. I. Hamilton; and I think it but fair to the people of Holt county that I owe my success almost wholly to the prompt action of Sheriff Frame and the untiring staying qualities of Deputy O'Fallon, who I consider one of the best workers in his business that I have met.

—Gro. W. WYATT,
Sheriff of Webster County, Iowa.
P. S. The Old Fol-low is under bonds for his appearance in court.
Fort Dodge, Iowa, August 5th, 1880.

—If you want a square meal go to Reinhardt & Blum's.

—Holtzleit & Jesse keep the largest and best stock of Pine Lumber, Lath, Shingles, Doors, Sash and B. Inds, etc., which is kept in Holt county; all of which is at Bottom Prices. Mound City, Mo.

—Fresh arrivals every day at E. P. Hostetter's leading Restaurant in the City.

Corning.

Health is improving.
About a half dozen bad cases in town yet.

Business is quite good in all the houses, but especially good at the Drug store. Mr. and Mrs. Geo. Stubbs buried their infant last week. It was sick about two weeks before it died.

Sedwick, Walter & Co., have changed the location of their Elevator. It will be built southeast of town, on the T. V. railroad.

On last Friday Geo. Postal killed a mad dog, about a half a mile north of town. The animal was down in the ditch struggling for life, when discovered, but had not bitten any thing.

Our merchants are now receiving large quantities of grain from the Tarkio country. Next year the Tarkio farmers will have a grain market at home, but still the T. V. R. R. is a good thing for Corning.

Crops of all kinds are good in this vicinity. Wheat runs from 18 to 27 bushels per acre. Corn will go from 70 to 100 per acre. Many fields are almost out of the reach of frost.

Something like cholera has struck the hogs in the southern part of Atchison county. If farmers would feed more articles—such as other vegetables, and less corn, "cholera" would not be so prevalent.

The German boys have organized a brass band and employed Henry Bungestock to teach them to blow. Won't it be pleasant to nights when the boys begin to trot, the cats begin to yowl and babes, with coo, begin to squall? Turn loose your mosquitoes, flies and bed bugs! Let us have a good night's sport while the opportunity is offered.
BERTON.

—The Highland S. S. Picnic.
EDITOR SENTINEL:—The Picnic by the Highland Sunday school last Saturday, notwithstanding the incessant heat of the day, was a grand success; was well attended, and as one of the most elegant and enjoyable affairs that has occurred in this neighborhood for years. About one hundred and fifty persons assembled besides the Sabbath school, in a beautiful grove west of the school house, under the able and efficient leadership of the very worthy superintendent, Mr. Laughlan.

The exercises were opened by the school with a beautiful and appropriate hymn, entitled "The Greeting Song," with Mrs. McKinlay at the organ. Rev. G. A. McKinlay then led in prayer, when sweet music again floated on the air by the Juvenile portion of the school, led by Miss Jessie Murray.

Rev. McKinlay was then introduced to the audience and delivered a very able address. He spoke plainly and philosophically on several of the great questions connected with the rising generation's success and failure in life, ending with an earnest appeal to the young of our land in regard to the great responsibilities devolving upon them in connection with the glorious cause of Sabbath schools.

Mr. J. S. Mesifine then took the stand and occupied about thirty minutes talking to the little children. His speech was very beautiful, pointed and interesting.

Dinner was then announced which was elaborate and beautiful and reflected the highest credit on the culinary skill of the ones that presided at the kitchen.

After dinner Mr. Samuel Murray was introduced and made us a very able speech, of at least one hour.

The closing songs, which were all good, closed the exercises of the Highland Sunday School Picnic, Mr. Laughlan, the superintendent of the school, and the committee of arrangements deserve great credit for the manner in which it was gotten up and in securing one of the finest stands for refreshment, lemonade, soft water and ice cream, all as fine as can be gotten up by any confectionary this side of St. Louis. Reinhardt & Blum are the right men in the right place.

All remained on the ground enjoying themselves till a late hour when the sun was about to sink beneath the western horizon and night with her sable garment told us that another day of pleasure and I hope of profit was about to draw to a close, all were seen winding their way homeward, feeling good they had spent the day so pleasantly.

Judge Poynter received a telegram calling him to Colorado, where his son, Lewis Poynter, is lying at the point of death. Mr. Robert Paterson accompanied him. They started yesterday.
J. P. R.

—NANCY HERSHBERGER,
MARY L. MCKNIGHT, & Co.,
Mound City Academy
MOUND CITY, MO.

—Will open Monday, September 29th, 1880. Instruction given in all English branches and Latin and Greek.
 tuition \$2.00 per month. For further particulars, address the Rev. DEACAN BROWN, MOUND CITY, MO.

—Meats at all hours at Reinhardt & Blum's.

—MONEY TO LOAN
AT
7 Per Cent. Interest
for five years or as short time as desired.
Address,
J. FOSTER MARSHALL,
OREGON, Mo.

—Go to Holtzleit & Jesse for your Lumber, Hair, Cement and Plaster. They sell at the Lowest Prices. Give them a call in Mound City.

Mound City.

EDITOR SENTINEL:—Your regular correspondent being absent, I have sent nothing in the SENTINEL for the "hub" for several weeks; and as I like to see the Future Great town of the county constantly represented in the county paper I take the liberty of sending you a few items.

Improvement is still the order of the day here, and carpenters, bricklayers, plasterers, etc., are in brisk demand at good wages. Glenn's fine building is progressing rapidly, and, when completed, will be an ornament to the city. The circus has come and it raked in the dimes. About three thousand people went to see it.

A Channell has retired from the furniture business, having sold out to his partner, Mr. Carpen er. He will continue, however, to keep the boss harness store of the county.

Professor Drake, formerly of Oregon but recently of Rock Port, has been employed as principal of our public school for next term.

Meta Dodge, Ed. McCoy and several others have gone up to Minnesota to spend a month in hunting and fishing. Mr. W. H. Hill, off shore store man, is in such bad health that he has gone to his old home in Macomb, Ill., to recuperate.

We are happy over the prospect of getting the Q. M. & P. railroad. Those who are posted say we have the "weed wood" on it, and then Mound City will boom. You had better move the SENTINEL up in time.

Folks are very quiet. Dismissing the election is so near at hand, I only occasionally hear a name mentioned in connection with any club office this fall; but all of us, Republicans, Democrats and Greenbackers, think Moses M. Smith would make a splendid Collector.
LEGIS.

—Forest City.
Weather warm, inhabitants' not all in good health; business moderate and politics very quiet.

The Methodist people began a protracted meeting on the 7th inst. It was expected to last two weeks.

One day last week our church gong ladies stormed the M. E. church S., and gave a thorough "cleaning up."

The stock and grain trades at this point still move on, though moderate now, under the management of Messrs. Lutes, Glass, Miller and Ceter.

M. McKillop, of Rock Port, Dist. Deputy G. M. A. F. and A. M., was in town Saturday night.

A. Mrs. White of Nebraska City, sister of T. H. Buras, is visiting in the city.

Miss May Dunbar and a Miss Shultz, of St. Joe, have been in our midst several days—the former at Mr. Hovey's the latter at Mr. H. K. S. Robinson's.

Esq. Wilkinson will soon begin work on a new school house, which he has the contract for building, in the Brownville District.

Zook & Terry, in tearing down, rebuilding and retitting their brick stable, have made a substantial improvement. The work was done by Messrs. Whobrey and Hitt.

Mr. Rogers, our operator, has been transferred to Mound City, where he fills the places of both operator and agent. He came down on last Sunday night on some business or other; ask black eyed Bessy.

Prince Hart, it is understood, will go out on the branch road to buy grain.

Several of our town folks are away rustivating in rural villages. W. H. Williams is in St. Joe having his eyes doctored; Miss Cora Canon is in Kansas City; Mrs. Mary Haigler, a little out of town, is (?) in Washington; Mrs. Baldwin is with her daughter in Troy, Kansas; and Mr. Wells's wife and two sons are at Wainwright and Aclison. And Mrs. Hovey is away, we don't know where.

J. P. Adams thinks, if his efforts result in success, he may some day be related to Adams near Forbes.
LEXA.

—In Memoriam.
At a meeting of the Woman's Union a committee was appointed to prepare resolutions of respect to the memory of Mrs. Sarah Jacobs. The following resolutions were adopted.

Resolved: That in the death of sister Sarah Jacobs the Woman's Union of Oregon loses one of its oldest and most faithful members—whose recent place can never be filled. We fully sympathize with the bereaved family and request all members of the Union to wear the usual mourning badge for thirty days and further request that the resolutions be entered in the minutes and be printed in the SENTINEL, and Press and that copies be sent the family.

—MOUND CITY ACADEMY
MOUND CITY, MO.

—Meats at all hours at Reinhardt & Blum's.

—MONEY TO LOAN
AT
