Letter from Iowa.

CLARINDA, IOWA, September 11th, 1876.

ED. REPUBLICAN:—Having promised heretofore to write when I could find time, I will now try and comply with my promise.

I arrived in this city on the 1st day of July, and am to say the least, tolerably well pleased with the general climate, although at present the weather is rather unfavorable, there having been considerable rain. The rivers in this county are considerably beyond their banks. This morning, having heard considerable amount of talk about the damage done, I concluded to go down and see. Accordingly a friend, and myself secured a buggy and team and went down to the Nodaway river about a mile from town. Arriving at the river, I am sorry to say, we met with a scene not often witnessed. The corn-fields were all overfloded; and the bridge which has just been completed, was covered with water some three feet deep. The general average of water in the bottom is from 6 to 12 feet. On Saturday Sept. 9th a traveler attempted to cross the river, the banks having then been overfloded some little, but he not knowing anything about it got into the water and his horses became unmanageable, the wagon upsetting. The whole family consisting of a man and wife and three children, were thrown into the stream. Some men happened to be close by succeeded in saving all but one, the smallest child, some twenty months old, which drowned before they could possibly save it. This makes the second accident that happened in the same place.

The general climate of this country is something like that of Missouri, being a little cooler. The country is generally prairie excepting along the streams, where there is about enough timber for home use. The most of the people however burn coal, it being cheaper and more plentiful than wood.

This country is great on raising stock of all kinds, the general market for them seems to be Chicago and the East generally.

The country around this place is all new, and is fast settling up with eastern people, mostly retired merchants from eastern cities, who have got tired of active business life, and come into this country to follow farming and stock raising. They seem to have taken the advice of our old pioneer friend Horace Greely, who said sometime ago, "Go West young man and grow up with the country."

This city is fast improving, and we predict that in no far future day will be a city of no small importance.

There are several large business and dwelling houses being erected at present, those that are building seem to try to surpass every one trying to get the best, which speaks well for the inhabitants, showing that they intend to make a city.

This place is well stocked with churches and school houses, there is at present a number of Baptist ministers holding conference here.

The churches here are in a good condition, especially the Universalist; they have the finest church in the city. Rev. J. R. Baker, who you will remember visited your city some time since, is their pastor, and is liked exceedingly well.

This county as well as the State, is largely Republican, and enthusiastic meetings are constantly being held in favor of Hayes and Wheeler, who we think will be elected by one of the largest majorities ever known in the United States. The Democrats up here are all trying to make Haynes out a bad man, but they don't succeed very well. I am in hopes you may be successful in November, in electing candidates you are supporting for county offices, for we think they will all make a "No. 1," set of officers. Hoping you may be successful financially and politically, we will quit for this time, promising to write again in the future.

Yours Truly, TYPO.

Reform in Money-Lending.

No word is at the present day perhaps more generally heard than that of "Reform." Reproaching, as it does, the popular desire for relief from both political and social ills, and having become burdensome in their effect, it has been most aptly termed "The watch-word of the hour."

Probably by no class of persons is a word of reform more strongly felt than by those who, from time to time, find it necessary to borrow money upon their homesteads or other real estate; and in this connection we desire to call the attention of our patrons to the advertisement in another column, of "Money is Loan" by Mr. Walker Buckner, General Manager of the Mercantile Trust Company of New York at this point.

All who have carefully examined the system of loaning pursued by this company have unqualifiedly commended it as calculated to meet the long felt wants of our farmers and business men generally, for loans at a reasonable rate of interest extending over a term of years. It is hardly necessary for our readers to be reminded of this fact. Money obtained for only a short period is comparatively worthless to the majority of the residents in this section of country, for one failure in crops, one season injurious to stock, may render needful a sacrifice of their all to satisfy the debt. Mr. Buckner has already placed a large amount of money in this section, and the supply is inexhaustible. Those desiring to borrow will do well to confer with him, either in person or by letter, at his office, No. 19 West 3rd Street, Kansas City, Mo.—Kansas City Times.

MEASURES WATERMAN & SHAW, have just received a car load of No. 1 wagon which they will sell at seventy dollars each.

Sabbath School at the Sixth Street M. E. Church every Sunday morning at 9 o'clock A. M. Parents and children cordially invited to attend.

Fillmore Items. Fillmore Mo. Sep. 18, 1876.

Once more we send you a few of the items from this place. Farmers very busy putting in their fall grain. From present appearance there will be more grain sown around here this fall than there was last.

There is some sickness around here. Our fellow citizen, Mr. Hugh Berry has been quite low for some time.

Mr. Jabe Powell arrived home on last Saturday evening from Jefferson City, where he had been for two weeks attending court as a United States Juror.

The Nodaway river is on quite a tear, being higher than it has been for about twenty years. It is from half a mile to a mile wide, being from bluff to bluff. There is no way crossing only in a skiff. All the ferry boats, but one, have taken their departure for a southern climate. The Fillmore and Brownville bridge is considerably damaged, the water is some three feet deep in the Fillmore mills.

Some few grasshoppers have put in appearance. We hear of their being pretty thick north and west of here, though we do not think they will do much damage.

Our merchants are complaining of dull times, and to keep themselves awake, indulge in a phantasm game of croquet. We say boys, do not spend too much time at the game!

Yours, W.

Steam Thresher. Mr. G. N. Spurlock, proprietor of the Steam Thresher, finished up his engagements to the East of One-hundred-and-Two last week, threshing the wheat crops in the Jim, own neighborhood, to the general satisfaction of all his patrons.

On Tuesday last he passed through Savannah going North, and will first thresh the crop of Mr. Wachtel and other farmers in that vicinity, and will be open to any other engagements. He makes no engagements more than four days ahead, so he is sure to meet his contracts.

Fillmore Advertisement. Sewing Machine Attachments, and needles of all kinds; fine writing paper of all styles, and other Notions at Frank Reed's, F. M., Fillmore, Mo.

The great St. Joseph Fair opens on Monday next, continuing the whole of the week. It will draw largely from Andrew. It bids fair to be a big thing.

Fon choice meats of all kinds, go to Howard's meat market, south side Square.

Miss Mattie Ford, who has been ill for sometime past, started for St. Joe, Mo. on Monday last, where she will be under the care of Dr. Howard.

Mr. H. C. Noble, of Nodaway Station, paid our office a short visit on Tuesday last, renewing his subscription. He informs us that the Nodaway river is very high, though not out of banks at that point. A heavy rise is coming down the Missouri river, and that, with the heavy head water of the Nodaway, may possibly raise the water over the banks there. Above the Station, the river is over the bottom lands in many places; the corn often being submerged as high as the eard.

A. M. Bedford, wife and daughter, and S. R. Seelman, of Savannah, Mo., en route East, stopped at Macomb last Tuesday, in order to make flying calls upon the family of the Eagle editor and other friends in the city. The party will stop a day or two in Chicago, thence on to Niagara, New York, Philadelphia, Baltimore, Washington, Nashville, Louisville, Cincinnati and St. Louis—the trip occupying nearly six weeks.—[Macomb (Ill.) Eagle, 16th.]

The following are the nominations for county officers made by the Democratic Convention of DeKalb: For Representative—Col. H. Boone. For County Judge—M. Lancaster. For Sheriff—John M. Roberts. For Prosecuting Attorney—B. J. Casteel.

For Treasurer—L. L. Daniel. For Public Administrator—H. A. Hewitt, Sr. For Coroner—W. H. Bray.
