The question between Germany and Nicaragua, growing out of an attack made on Mr. Eisentuck, German consul in Leon, in his private character, has assumed serious proportions. Germany's ultimatum, in which demands are made for an indemnity of \$30,000 and that the German flag be saluted, reads more like a declaration of war than anything else. It states that if the demand be not complied with immediately on its receipt, a German squadron will be sent to Nicaraguan waters, and an imperial army will march to Leon and enforce the demand. The matter is now before the government of the United States and England.

IMMIGRATION TO LOUISIANA.—Louisiana has not acted wisely in matters affecting the prosperity of the State. In consequence she has been forced to see a tide of emigration sweeping around her for years, and building up far less attractive States. A step in the right direction has been taken in the appointment of Commissioners of Immigration. This looks judicious. Louisiana has the climate of Italy and the fertility of Brazil, and is only one tenth settled. It will be easy to secure immigration to so inviting a State if public order is maintained and new comers are welcome.

The question of public lands is never alluded to without the remark that they are all sold that are worth anything. This is a great error, for in Louisiana the Federal Government owns thousands of acres of the finest agricultural lands in the world. They will produce all the productions of the temperate zones, and also many of the hardy fruits and plants of the tropics. Rumor has it that these lands are to be put in the market.

The deputy mayor of Eureux has been dismissed by a decree of President MacMahon. On the occasion of the president's recent visit to Eureux, the deputy mayor made a speech, informing him that the population of Eureux, and Normandy generally, were deeply attached to the republic, and desired to see the present crisis terminate as soon as possible.

Our Washington Letter.

Important Astronomic Discovery—The Indians—After Mexican Marauders—Nepotism.
 WASHINGTON, D. C., August 23, 1877.
 EDITOR CHIEF:

Rear Admiral Rogers, Superintendent of the Washington Naval Observatory, in formally notifying the Secretary of the Navy of the discovery of two satellites of Mars last Thursday night by Professor Hall of the Observatory, says: "The satellite which was at first discovered, and which he supposes was seen for the first time August 16, at 11 hours, forty-two minutes, had been, in fact, observed August 11 at 14 hours forty minutes." Its apparent distance from Mars' centre is given as 82 degrees, time of revolution around the planet, 30 hours; estimated magnitude, thirteenth or fourteenth degree; plane of orbit has now quite an inclination from the line of sight from earth to Mars at its elongations; angles of position 72 degrees and 252 degrees. The second satellite was discovered 17th inst. at 16 hours, appearing quite as bright as its fellow. Its elongations have nearly the same angles of position, corresponding to Mars' equator; apparent distance at elongation periodic time not yet definitely ascertained. Preliminary elements of outer satellite as calculated by Prof. Newcomb: major axis 72 and 250 degrees; minor axis 28 degrees; passage of satellite through western axis 16th inst. at 16 hours and 40 minutes. The period of the inner satellite or satellites is stated to be short—probably less than an hour—that it has not yet been fixed. This American discovery is regarded as one of the most important of the present generation and forever fixes the name of Hall high among the astronomical discoverers of the preceding generations.

The absence of the President and every member of the Cabinet save Mr. Schurz, renders this always dull season in Washington superlatively so. The most, in fact, all that can be learned of the hostiles leaves them in the neighborhood of Hole-in-the-Rock Stage Station, Idaho, with their horses broken down, and carrying along in their leisurely retreat their wounded of the late battle. Sheridan telegraphs here that he believes Howard close to them; and intelligence of another engagement is looked for soon.

It appears that the Mexican authorities about Camargo have honestly set to work to capture the desperadoes that raided Rio Grande City a few days since, releasing two noted criminals from jail. Several of the marauders have been captured and it is thought the balance, including the jail birds, may soon be secured. The forces of Generals Ord and Trevino, with only the boundary river between them, are apparently on good terms, quite willing evidently to avoid all initiating international controversies that might lead to a breach of the peace.

Evidences multiply, showing that the workingmen's movement toward political organization is likely to become general; and unless the strategists of the two old parties are able to make a good many captives, allowance must be made for a new and perhaps important factor in casting the horoscope of our political future. Efforts in this direction are already perceptible. But a more serious evil menaces the yet inchoate mass, and that is its liability to fall into the hands of the arrant demagogues always lying in wait for such opportunities, who would mould the plastic material into such forms as would insure the promotion of these political soldiers of fortune, adventurers and free-booters, at the sacrifice of every principle which animates the honest men identified with the movement.

A good deal of curiosity is manifested here to see what disposition the President will make of Mr. Cornell. The contemptuous treatment accorded by him to Mr. Hayes' order has been one of the most prolific subjects of conversation for some days in political circles. If, as generally insisted, the President is anxious to conciliate Senator Conkling and secure his support of the Administration, it is an ugly alternative that Cornell has forced on him. But he has no choice if he would enforce discipline among his hundred thousand subordinates; and it is believed the untoward New Yorker will be made to walk the plank on the President's return, braced up by the White Mountain air and the cordiality of his New England reception.

A large number of Collectors were instructed to report to Commissioner Ramm the number of relatives they

had appointed to office and also the relationship existing between the families of the employees of their respective offices. The replies show that nepotism has become a very grave abuse. In some cases whole families are found saddled on the Government. Circulars have been prepared and sent out that are designed to cure the evil. How successful they may prove will hereafter appear. SENTINEL.

Monition.

Bernard Lemann, et als., vs. The World.
 Application of Bernard Lemann, et als., for a Monition. No. —
 Fourth Judicial District Court, in and for the parish of Ascension, State of Louisiana.

The State of Louisiana, to all whom these presents shall come—Greeting:
WHEREAS, Bernard Lemann and Richard T. Hanson purchased at a public sale made by Ernest Pedeschar, auctioneer in and for the parish of Ascension, on Saturday, September the 2nd, 1876, at the hour of 12 M., at the Court House of the parish of Ascension, in the town of Donaldsonville, under and by virtue of a judgment in partition rendered in the matter of Bernard Lemann vs. No. 1895, R. T. Hanson, et als., by the Hon. Fourth Judicial District Court, in and for the parish of Ascension, on the 17th July, 1876, and by virtue of an order of said Court, dated July 25, 1876, rendered in the aforesaid suit, the property hereinafter described, have applied to this Court for a monition and advertisement in conformity with sections 326, 327 and 328 of Act No. 96, approved 16th March, 1870, and commonly known as an "Act for the revision of the Statutes of a general character."

Now, therefore, know ye, and all persons interested herein, are cited and admonished in the name of the State of Louisiana and of the Fourth Judicial District Court in and for the parish of Ascension, who are set up any right, title or claim in and to the said property hereinafter described in consequence of any informality in the order, decree or judgment of the Court under which the sale was made, or any irregularity or illegality in the appraisements and advertisements, in the manner or mode of sale, or for any other defect whatsoever, to show cause within thirty days from the date of this monition, and of the Fourth Judicial District Court in and for the parish of Ascension, why the said sale should not be confirmed and homologated.

The said property was sold in the matter of Bernard Lemann vs. No. 1895, R. T. Hanson, et als., of the docket of the Fourth Judicial District Court in and for the parish of Ascension, at which sale the said Bernard Lemann and Richard T. Hanson became the purchasers in proportion of one undivided half each, for the price and sum of twenty-seven thousand and no/100ths of dollars (\$27,000.00), the receipt of which is first inserted in the public papers, why the said sale should not be confirmed and homologated.

A certain tract of land established as a sugar plantation, situated in the parish of Ascension, upon the right bank of the Mississippi river, near the town of Donaldsonville, known as the "Peytavin Plantation," measuring six arpents and seven toises front on said river by a depth of forty arpents, together with a portion of the double concession (with the exception and reserve of a lot of ground lying on the front of the said plantation, between the public road and the river.)

Another tract of land measuring three arpents front on the river, with a depth of thirty-seven arpents, together with its double concession; said tract of land having on its front several lots of ground of three arpents in depth, measuring from the public road, and which belong to divers individuals, the said tracts being bounded above by the plantation just described, and below by the lands heretofore the property of Wilcox Auguste Sampaury.

All the buildings and improvements attached, belonging and appertaining to said tracts of land above described, together with the crops thereon gathered and ungathered, the stock, cattle and implements of husbandry, consisting principally of fifty-four mules, ten three-horse carts, one wagon, two one-horse carts, two drays, fifteen hundred barrels of coal, twenty-two two-horse plows, four four-horse plows, two six-horse plows, two subsoils, two cultivators, one harrow, sixty hoes, twelve spades and shovels, one cow, thirty sets gearings, eight saddles and bridles, one pair old boilers, a lot of cut knives, cut saddles, hammers, etc.

Said plantation was sold in lots under Art. 132 of the Constitution.
 Given under my hand and the seal of said Fourth Judicial District Court in and for the parish of Ascension, State of Louisiana, this 17th day of November, 1876.
 O. J. FLAGG,
 Judge Fourth Judicial District.
 JNO. D. CANTEY,
 Clerk of Court.

TUTT'S PILLS

A Noted Divine says
They are worth their weight in gold.

READ WHAT HE SAYS:
 Dr. TUTT—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation, and Bilis. Last spring your pills were recommended to me. I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.

WHAT IS QUEEN'S DELIGHT
 Read the Answer
 It is a plant that grows in the South, and is specially adapted to the cure of diseases of that climate. It is

NATURE'S OWN REMEDY.
 Eradicating all malarial, eruptive, all scrofulous, syphilitic, and rheumatic affections. Alone, it is a searching, yet gentle, but when combined with Sarsaparilla, Yellow Dock, and other ingredients,

DR. TUTT'S SARSAPARILLA AND QUEEN'S DELIGHT,
 The most powerful blood purifier known to medical science for the cure of old ulcers, diseased joints, foul discharges from the ears and nostrils, itching humors, eruptions, dizziness, kidney complaint, and effects of secret practices, disordered liver and spleen. Its use strengthens the nervous system, purifies a fair complexion, and builds up the body.

HEALTHY, SOLID FLESH.
 As an antidote to syphilitic poison it is strongly recommended. Hundreds of cases of the worst type have been radically cured by it. Being purely vegetable, continued use will do no harm. The best time to take it is during the summer and fall; and instead of debility, weakness, and nervousness, you will enjoy the health. Sold by all druggists. Price, \$1.00. Office 35 Murray Street, New York.

DR. TOWNSEND'S
OXYGENATED AIR!
CURES

CATARH! Why! because Inhalation is the only way that the Air Passages can be reached, and Catarrh is a disease of the Air Passages of the Head. Use this Treatment as we direct, which is easy and pleasant, and we guarantee a perfect cure of Catarrh.

BRONCHITIS! Why! for the same reason as given above. The Bronchial Tubes are simply conductors to carry air to the lungs, hence Inhalation must go direct to the seat of the disease, and if you follow our directions we guarantee to cure Bronchitis.

ASTHMA! Why! because Asthma is a contraction of the Bronchial Tubes, caused by inflammation of the mucous membrane lining the Bronchial Tubes. Use Oxygenated Air as we direct and we will warrant a Cure. We have cured cases of 20 years standing.

Consumption! Can be cured. Why! because we cured hundreds of cases, some of them being given over to die by all physicians of other schools of practice. Consumption is a disease of the Air Passages and over two-thirds of the cases are caused by Catarrh. We guarantee a cure if you will come in season.

DYSPEPSIA WE CURE. Liver and Kidney complaints are effectively reached by Oxygenated Air.

BLOOD DISEASES! Dr. Townsend's Oxygenated Air will purify the blood in one-third the time that any other known remedy can. Why! because to inhale Oxygenated Air it goes direct to the Lungs and passes through the tissues and comes in direct contact with the blood as it is forced into the Lungs by the action of the heart. All the blood in our veins returns to the heart every four minutes if the blood is good, and is forced from the heart to the lungs, and the more Oxygen you inhale the more you purify the blood. When Oxygen comes in contact with the impurities in the blood it carbonizes and burns, causing the blood to be heated so that it warms every part of the body, as it goes on its revolutions through the system. If your blood is pure you can not be sick. We drive Mercury out of all other humors out of the blood. We guarantee to purify the blood in one-third the time of any other known remedy.

CANCERS AND TUMORS! CURED without cutting or drawing blood with little or no pain. Any person troubled with Cancer and Tumors will please write for testimonials, cured from patients cured. We warrant a perfect cure.

 Late of the **McCLELLAN U. S. A. Hospital, Philadelphia, Pa.**, who has been so successful throughout New England in the cure of Cancers and Tumors, takes charge of this department.

Physicians wishing to locate in some town or city in this business, can be furnished with territory and our illustrated papers for advertising the same, by addressing as above.

Caution!
 There are unprincipled persons in Boston and elsewhere that are putting up a **BOGUS LIQUID** and trying to palm it off as **MY TREATMENT**, or Oxygenated Air, and claiming it to be like mine. None genuine unless the words "**DR. TOWNSEND'S OXYGENATED AIR**" are blown in bottle and PORTRAIT ON LABEL. 42-1y
