

Donaldsonville Chief.

Office in Crescent Place. Subscription Price Two Dollars a Year. DONALDSONVILLE, LA., Saturday, November 27, '80.

LOCAL JOTTINGS.

Cincho-Qufnine cures chills and fever. Reed's Gilt Edge Tonic prevents malaria.

Mr. Ambrose Roussan, Sr., returned from France this week. He looks as hearty as usual.

An excellent investment for \$12,000 is offered by the advertisement headed "Proposals for building an iron bridge."

We hear that Rev. Father Cuppen, pastor of the Assumption Catholic Church, has arrived at New Orleans, en route from Europe, and is expected to reach Donaldsonville on Monday.

One day last week the steam drum attached to the boilers of Dr. J. J. Gauthier's sugar-house in the parish of St. James exploded. Life damage was caused by the accident and nobody hurt.

The act granting the right of way for the construction of the proposed New River road has been duly authenticated and filed in the Recorder's office. As soon as possible after the close of the sugar season work will be resumed on the road and pushed forward to an early completion.

St. Peter has often been accused of not keeping strict watch over those within the parish gates, so we suppose he is accountable for the escape of a little girl who slipped into our ex-Recorder's household last Tuesday morning. To friend Buford and his amiable wife we tender our hearty congratulations.

The damage resulting from the boiler explosion at Israel & Co.'s Sausburg plantation has been repaired and sugar making is again under full headway. At Israel & Co.'s store may be seen specimens of the first and second qualities of sugar being manufactured at Sausburg, and we venture to say they are about as good as can be produced any where in Louisiana.

That genial gentleman and competent civil engineer, M. W. Darton, Esq., having been appointed by Gov. Wiltz Parish Surveyor for the parish of Ascension, has furnished the bond required by law and holds himself in readiness to perform all duties and service attaching to the position. Mr. Darton was in town yesterday and to-day. Communications addressed to him at the office of the Board of State Engineers, New Orleans, or in care of the CHIEF, will receive prompt attention.

FATAL EXPLOSION.—Last Monday, the 22nd inst., at the sugar-house of Mr. J. Godberry's Terrebonne plantation, parish of St. John the Baptist, one of the centrifugals exploded while revolving at full speed, wounding three men. Oliver Duhé had both legs broken below the knees and one of his hands torn off; Mr. Temple had a shoulder dislocated, and the third man, whose name we have not heard, received two slight wounds. It was thought Mr. Duhé would not survive his injuries.

We are deeply grieved to chronicle the falling of a little earthly flower, Armide Theresa Wilson, who died last Monday, the 22d inst. Scarce ten months since she came to crown her parents' marital felicity, and now, "Death falls on her like an untimely frost upon the fairest flower of the field." It is moments such as these which prove the fallacy of atheistic theories, for who that has loved and lost believes not in that other world where the treasured darlings of our hearts who have been moved down by the mighty hand of the dread reaper will be restored to waiting arms. Not grown to stately white-winged Angels. But full of diaphanous and holy charms.

Most of our planters have about finished wading their cane, but the continued wet, unseasonable weather is proving a terrible drawback to the work of sugar making, rendering it impossible to carry on field work or haul cane to the mills. An experienced planter with whom we conversed on the subject a couple of days ago estimates that the loss already incurred throughout the State by reason of the unfavorable character of the weather will reach 50,000 hogheads. He said that he has never seen such a cane, nor one that yielded better than that of the present crop. With good weather during the grinding season the crop of 1880 would undoubtedly be the largest produced in Louisiana since 1861. We hope and believe it will still be so, in spite of the apprehensions existing by reason of the miserable weather now prevailing.

STREET FOR PAY-DAY.—Many of our readers, particularly those engaged in the business of sugar planting, who have experienced the inconvenience arising from the difficulty of procuring small change for paying off their laborers, will find something to interest them in the following circular, a copy of which has been transmitted to the CHIEF by Mr. George Drury, an employee of the Mint: THE MINT OF THE UNITED STATES AT New Orleans, La., Nov. 19, 1880.

Circular: This Mint will ship to any point accessible by railroad or steamboat (the Government paying the transportation charges), standard silver dollars in sums of \$500 or any multiple thereof, upon receipt of a certain sum of deposit from the Assistant Treasurer of the United States at New Orleans, and which can be obtained by yourself, your merchant or banker depositing in currency with the Assistant Treasurer the amount desired, together with shipping instructions.

The near close of the grinding season and consequent settlement of the year's business making a demand for currency to meet small payments, I will for the convenience of the planting interest, if so desired, have the coin rolled in packages of \$10 or \$20 each. M. V. DAVIS, Superintendent.

Reed's Gilt Edge Tonic cures chills and fever.

On Dit. That somebody ought to sit down on the young man who keeps bringing state indictments to the Chief's office. That the chap who advertised an extra horse most inexplicably lost him as soon as the owner put in an appearance. That the nickels in the collection plate at the Catholic Church have been like angels' visits of late.

That the gentleman who saw no reference to himself in last week's On Dit is advised to re-peruse the latter part of the column.

That the other gentleman who declared himself to be On Dit will curroll a different tune when he hears that he is in imminent danger of having his nose washed all over his face.

That the Town Council makes and repeals laws by "a tie."

That the P. O. blonde is mad as Tuckee. That Ferd. has shot that hat.

That it may not be generally known Donaldsonville abounds in mountains, peaks and seas.

That information on the subject may be obtained from the geography class.

That On Dit wondered, on hearing of that very uncomplimentary remark Jack made, if he had ever heard the old story, "Stick beat hog and hog won't go home to-night."

That probably On Dit had better publish it for his delatation.

That the young lady who eats garlic is trying to make an early bird of herself.

That the human prototype of the odoriferous, mammosiferous quadruped of the genus Capra looks rather weak about the eyes. What ails you, Tony?

That the package of "sweetest regards" which an absent young man sent to a married lady has been carefully put away for delivery to her husband.

That the young ladies who roamed around town Sunday evening hunting an escort did not succeed in finding Aman.

That the professional gentleman who laughed at the accompaniments getting left the other night, got some of the same in his few evenings later. In choir—but we refrain.

That a certain trio of young ladies should remember it is always the place of the gentleman to ring the bells.

That the CHIEF will have the blues next week.

That the young man who, on being introduced to one of our most agreeable young ladies, was struck speechless and remained so the entire evening, should recover his equilibrium before he goes popper' around that residence again.

That a jovial Judge and popular Fierro have consented to contest for the prize at Phoenix fair. "When Greek meets Greek, then comes the tug of war."

That the worthy but misguided young man who seeks to make others believe they are insulted by On Dit's references, ought to cork up the vials of his wrath and take a few doses of the invigorating cordials of good humor and common sense.

The Assumption Pioneer recently published the following complimentary reference to a worthy citizen of this parish who has taken up his residence in Assumption: It becomes our pleasant duty to record the capture of another of Ascension's most honorable, industrious and useful citizens in the person of Mr. Honoré Giro, the father of our esteemed young townsman Paul H. Giro. Mr. Giro has permanently located here with his family, for the purpose of pursuing his occupation, and can be found, when not employed elsewhere, at his residence, on Franklin street, opposite the hardware store of Mr. A. S. Chompus. During his absence from town, all orders left with his son at Littlejohn's drug store, will receive prompt attention. As a builder, none can be found in the country more capable, reliable and attentive, and no mechanic more industrious, temperate, intelligent and skillful can be obtained than Mr. Giro.

The Baton Rouge and Bayou Sara mail service, which is none too efficient or reliable, has suffered greatly by the enforced temporary suspension of business on the part of the steamboats, and the delivery of mails on the coast between here and Bayou Sara has been extremely unsatisfactory and uncertain. This is a cause of great annoyance and inconvenience to the people interested; and if means could be devised to improve the service on this route, the change would be heartily welcomed. There is some talk of re-establishing the daily mail line between Donaldsonville and Baton Rouge and if this can be accomplished upon a permanent and reliable basis, it will prove a popular innovation.

THE WRONG MAN ARRESTED.—Having received information from St. John the Baptist which led him to believe that Terrence Babin, the murderer of Perigue Allen and Frank Gansin, was hiding in that parish, Deputy Sheriff David Laird visited St. John last week, and consulted with the Sheriff there, furnishing a plan which it was believed would secure the apprehension of the fugitive should he indeed be secreted in that vicinity. The other day word was received here that Terrence had been captured, whereupon Mr. Laird again went to St. John, returning yesterday with the prisoner. It transpires, however, that the young man arrested—a youth about 14 years of age—is not the murderer, although he avows himself to be so. Parties who know Terrence say that he is a brighter colored, taller youth than the prisoner. The real name of the latter is said to be Alfred Joseph. What his object is in representing himself to be Babin is yet a mystery. He has told so many different stories that it is impossible to say whether he is crazy or has perpetrated a deliberate fraud upon the authorities with a view to diverting pursuit of the real criminal. His statement relative to the murder is false on its face, since he says the difficulty occurred at Armand Richard's store and the men he claims to have shot were colored; whereas Allen and Gansin were both white men and were shot in Mollere's lane, a mile or more above Richard's store. We shall interview the prisoner Monday, and report in next week's CHIEF the result of our investigation of this peculiar case.

The Bradford Case. Resume of the Testimony Taken at the Preliminary Examination. At Napoleonville, on the 17th inst., a preliminary examination was held in the case of Thomas Bradford, under arrest on an affidavit charging him with the shooting of Dufossat Guedry and Lacroix Alonzo with intent to commit murder. Through the kindness of a friend who was present the CHIEF is enabled to publish the following reliable synopsis of the evidence adduced:

About half past 11 o'clock the night of the 3rd of September last, notice was first attracted to Bradford, who was standing on the gallery of the house where the shooting took place, by his saying to Marins Melancon, "I believe that I'll go to the cart, get my coat and have a dance." Mr. Dufossat Guedry, who was standing near them, overheard the remark, stepped up to Bradford and after a reply from the latter to a question with regard to Bradford's having been invited to attend the ball, Guedry colored him, and notwithstanding Bradford's verbal protestations at such stage, he was pushed or pulled down the steps and fell on the ground. Getting up, he advanced towards the stairs of the house and Guedry kicked at him. After some few words more between them, Guedry stepped from the gallery and slapped Bradford, when some such conversation as the following took place:

Bradford—What is your name? Guedry—John Bull. B.—You are too old for me to strike. Have you any sons? G.—I have about a dozen or so. B.—Send any one of them here and I will fight him. G.—I would not dirty my sons by allowing them to fight with you. B.—Do you know my father? G.—No; he may or may not be a gentleman.

Antoine Gomez then advanced, asking Bradford the cause of the quarrel. Receiving an answer, he turned, and after saying to Guedry, "if you had taken hold of my collar I should have ripped you open with a knife," Gomez went up to the steps. Guedry advised Bradford, "the best thing you can do is to leave here," and followed Gomez to the gallery, where he said to the latter, "you, also, are a rascal, and the best thing you can do is to leave." Gomez replied, "you are another," and receiving a slap from Guedry, retreated into the ball-room and fired, shooting Guedry in the abdomen. As Gomez retreated, Mr. Lacroix Alonzo, perceiving an attempt on Gomez's part to draw a weapon, hastened up to prevent the use of it, but was too late. Gomez then made an ineffectual effort to shoot Alonzo. Simultaneously with his second shot was heard the report of Bradford's pistol. Bradford had jumped upon the gallery, fired at Alonzo and jumped to the ground again. Alonzo received the bullet in the back of the neck.

No time during this quarrel had Bradford offered violence to Guedry, and the evidence entirely disconnecting him from any complexity with Gomez, he was admitted to bail by Judge Arthur Knobloch in the sum of \$500, but has not yet furnished the requisite bond.

Mr. Alonzo has completely recovered from the effects of his wound. Gomez is still at large, a fugitive from justice.

BACK TAXES.—We notice that nearly all the newspapers in this State have called the attention of their readers to the important fact that, under the new constitution and the laws of 1880, all interest, penalties and costs on taxes and licenses due the State and parish prior to the 1st of January, 1879, which were suspended until the 1st of January, 1881, will again accrue unless the principal of said taxes and licenses be paid before the latter date. Persons who are delinquent for such dues to State or parish will be doing themselves an injury if they fail to make a settlement thereof prior to the 1st of January, as they will then become the duty of the Sheriff not only to exact payment of all the penalties above referred to, but also to proceed by seizure of property to collect the principal and accrued interest and charges.

ST. LANDRY SUGAR.—Mr. J. Elphege LeBlanc, manager of Bloch's Poplar Grove sugar plantation, near Opelousas, writes us to correct the statement with relation to the yield of sugar obtained on that place which appeared in the CHIEF of the 6th inst. It was 38 acres of stubble cane, instead of 28, from which 68 hogheads of sugar were produced. Friend Elphege writes under date of November 21 says: "I have now made 145 hogheads from 75 acres; have nearly all my crop windrowed; have yet 150 acres of No. 1 plant cane and 10 acres of stubble to grind. My plant was yielding, previous to the late freeze, 24 hogheads to the acre, fully. I make another start at the sugar-house to-morrow. All our planters are backward with their cotton and sugar crops, caused by the bad weather, which is still prevailing."

Receipts of Sugar and Molasses at New Orleans. Messrs. Delery & Purves, weighers and gaugers, No. 33 North Peters street, have furnished the CHIEF with the following comparative statement of the receipts of sugar and molasses at New Orleans:

Table with 3 columns: Item, 1879, 1880. Includes Hogheads Sugar, Barrels Molasses, Half Bbls., Barrels Sugar, and TOTAL FREEK SUGAR TO DATE.

List of Letters Remaining in the Post-office at Donaldsonville, Ascension Parish, La., November 27, 1880.
