

The Donaldsonville Chief.

Published Every Saturday.

Official Journal, Town of Donaldsonville, La., as Second Class Matter.

LINDEN B. BENTLEY, EDITOR AND PROPRIETOR.

Job Printing of all kinds, from a full sheet poster to a broad ticket, executed at shortest notice, at city prices and in best style at the Chief's office.

The Chief is received by all subscribers POSTAGE FREE.

Saturday, January 12, 1894.

Sara Bernhardt horsewhipped Miss Marie Colombar in Paris for publishing a scathing criticism of the great actress. The quarrel has been adjusted, Miss Colombar having published an apology.

According to a fifteenth century manuscript, there are thirty-two days in the year that are lucky marriage days. Jan. 1, 2, 4, 7, 10, 16; Feb. 6, 7, 13; March 1, 6, 8, 19; 5, 11; May 6, 8, 7; June 7, 15; July 5, 13; Aug. 15, 19; Sept. 6, 7; October 6; Nov. 15, 16; and Dec. 15, 17.

Observations taken at Colon by the engineers engaged on the Panama Inter-oceanic Canal indicate that the great earthquake was caused by the Java eruption made its way in about thirty hours from Java round the Cape of Good Hope to the east coast of Central America.

The Roman Catholics of our parish will be glad to learn that the Supreme Court will soon take into consideration the questions upon which appeals were granted in the case of the Board of Wardens, etc., vs. Right Rev. N. J. Perich et al. The proper officer is hard at work on the transcript in the case and will have it ready for filing during the coming week.

New Year's day was cold enough to please the most Arctic taste in this latitude, but last Monday was still colder. We are informed that the thermometer registered as low as 14 degrees, which is certainly "way down" for this neck o' woods. The cold wave extended all over the country and at many places it was more severe than any that had occurred for more than a hundred years. The weather has greatly moderated again, and is now almost spring-like.

Speaker Carlisle has assigned the Louisiana members of the House to service on the following committees: Mr. Hunt, Banking and Currency, American Ships and Ship Owners; Mr. Ellis, Appropriations; Mr. Kellogg, Territories, War Claims; Mr. Blanchard, Rivers and Harbors; Mr. King, chair-man, Mississippi River Levees and Improvements; Mr. Lewis, Land and Manufactures. Our State formerly had a representative in the important Ways and Means Committee, but under the dispensation of the new Democratic Speaker we lose this advantage and the loss may prove a serious one to sugar interests, as that committee has jurisdiction over the tariff question.

Although science has not yet robbed consumption of its terrors, the discovery of the so-called bacillus of tuberculosis has already pointed out to medical men a possible means of saving the lives of many patients. Speaking recently in Paris, Prof. Germain Séé dwelt upon the importance of searching for this organism in the matter expected by persons having apparently slight lung troubles. He regards its presence as an unfailing sign of consumption, for the most careful research has failed to detect it in other lung affections, and as it may be found before the appearance of other symptoms it may enable the physician to successfully apply treatment in the early and curable stages of the disease.

If Mr. West Steever of Washington, D. C., who has desk room with ex-Congressman J. H. Sypher as a "lawyer," would consent to be experimented on by emanations, he would be appreciably applauded. He has the audacity to confer with Postmaster General Gresham to have the mail of the World's Exposition outlawed on the ridiculous pretense that our big cotton show is an advertising scheme of the Louisiana State Lottery! The well developed cheek of this "lawyer" if submitted to a temperature of 100 degrees Fahrenheit for some seconds would almost equal a fine Italian marble or his ashes could be returned to practical use in the form of concentrated lye. The Postmaster General is man of sound judgment, a friend of the Exposition, and there is no danger to its success from slander of any sort.

CIVIL ENGINEERING, ETC.—We take pleasure in calling attention to the renewed advertisement of Mr. J. B. Dunn, civil engineer, architect and builder, who is well known by reputation and personally to a number of our readers, and who has done work in this and neighboring parishes that attests his professional skill. Mr. Dunn has had over thirty-five years' practical experience combined with scientific research, and the works of which he makes a specialty are enumerated in his advertisement. Prominent among them are the construction of sugar-houses, furnaces, bagasse burners and chimneys, and all classes of work designed to secure economy in the use of fuel. Planters contemplating the erection of new sugar-houses or additions, improvement or repairs of any character, will find it advantageous to engage the services of Mr. Dunn. His address is post-office box 2906, New Orleans, and his residence at No. 547 Camp street, near St. Andrew.

WILL WE EVER MEET AGAIN?—This is the title of a new song just published by Messrs. A. E. Blackmar & Co., of New Orleans. The words are by Mr. A. E. Reynolds, former man of the Chief office, who has already earned considerable reputation as a poet and song writer, and we concur in the opinion expressed by a number of our contemporaries of the press that his latest attempt excels all its predecessors. The music is the composition of Prof. Edward Petzsch of Natchitoches, and a guitar accompaniment has been added by Mr. A. E. Blackmar, both composers of marked talent. The song is dedicated to Miss Estelle Blackmar, daughter of the publisher and one of the most charming young ladies and accomplished musicians in the city of New Orleans. We have not yet become familiar with the air, but competent critics pronounce it sweet and taking, and express the belief that "Will we Ever Meet Again" is destined to take a high rank among the popular melodies of the near future.

REPUBLICAN POLIOY.

A meeting of the Republican State Central Committee has been called for Wednesday next, the 10th inst., presumably for the purpose of determining the policy to be pursued by the Republican party in the pending State campaign—that is to say, to decide whether a State ticket shall be placed in the field or the Democratic candidates permitted to walk over the course without opposition.

We think it is the general opinion of Republicans in this parish and section that a convention should be called and a ticket nominated, and the Chief is inclined to favor this policy. If a good set of candidates should be selected we believe they would not only have the earnest backing of all the available Republican strength in the State, but would also receive the passive if not active support of a large number of Conservatives and Democrats who were allied with the anti-administration faction of their party and who are loth to lend their aid to the election of nominees whose success implies a continuance of the evils against which the opponents of the present Democratic administration made such a warm but unavailing struggle.

At all events, there ought to be two parties in every State and no political organization should be permitted to hold imperial sway over public affairs without even a pretense of opposition. The bad results that will inevitably flow from such a condition of the body politic are too patent to the reflecting mind and have been often exemplified in history to require more than a passing reference at our hands. The tendency of every party with unlimited and undisputed power is towards corruption, oppression and misrule, and where the better elements of a dominant organization find that they are unable to accomplish reform within its ranks—that the "machine" has grown too strong and insolent to be successfully attacked by ordinary methods—their only tangible hope of attaining their patriotic desires lies in giving their countenance and aid to the ticket of the opposing party. As the Republicans of New York and Pennsylvania smashed the autocratic and obnoxious machines of the party in those States by voting for Democratic candidates, so can Louisiana Democrats attain a similar result in this State, if they so desire, by throwing their ballots for Republican nominees.

Of course the personnel of the ticket must be a guaranty that its success will entail no injury upon the State, but that point we reserve for discussion further on. The first thing to do is to provide the preliminaries essential to the formation of a ticket, and we shall not be sorry to learn that the State committee has decided to undertake this work. The Republicans of Louisiana can not hope to maintain a party organization worthy the name if they permit election after election to go by default—a policy will dishearten and demoralize their voters, and if carried too far will end in total disruption and dissolution. They now have an opportunity not only to revive the interest of their immediate political adherents, but to test the sincerity of thousands of Democrats who have declared unalterable opposition to the men and methods that have obtained supremacy in the dominant party of our State.

A TAX SALE ATTACKED.

Messrs. Fergus Gardere, Rufina Gardere and Mrs. Amelia Street, have filed a suit in the District Court against P. A. Jones, Sheriff, and Mr. Quinby, the object of which is to set aside as null the sale of a portion of land situated in the eighth ward of this parish, and to recover damages. The sale was made for taxes of the year 1873, and the petition urges the following grounds of nullity:

- 1. That the taxes for that year had been paid.
2. That the assessment of their property was illegal, inasmuch as it was not in the names of the several owners, but under the name of Gardere & Co., a firm which never had any existence; that the boundaries of the property were incorrectly described and the assessment rolls not sworn to and returned in proper time.
3. That said property was never returned as delinquent and that the delinquent list of 1873, upon which the tax was attempted to be collected, was never sworn to by the Tax Collector.
4. That petitioners are non-residents, and that any lien for said taxes, if any ever existed, is prescribed.
5. That the taxes of 1873 are prescribed.
6. That the property was never legally advertised, the name of the owner being given as Gardere & Co., the advertisement appearing in a supplement of the Ascension Democrat which was never regularly sent with the paper, containing no dollar mark preceding the figures opposite the name, having blended together all the taxes, State and parish, and having nothing to show the date from which the interest charged began to run.
7. That the Sheriff advertised that he would sell said property for cash and that he would sell such portions of said property as the debtors would point out, and in case the debtors should not point out sufficient property, he would sell the least quantity thereof that any bidder would buy, whereas the act of 1882 provides that the purchase price of property sold at tax sale can be paid either in United States currency or in bonds or warrants receivable for taxes, and the Sheriff sold the whole of the property, consisting of 1700 acres and worth not less than \$4000.
8. That the amount of the bid was illegally retained in the hands of the purchaser until November, 1883.
9. That by the advertisement said property appears to owe \$28, when, if any taxes are due, it owes \$61.30.
10. That the property was adjudicated for less than was due, if any taxes were owing.

This suit put at issue the legality of all the sales made by the Sheriff last year for taxes. It promises to prove an interesting one, and will be watched closely by parties affected by such sales. The plaintiffs in the case are represented by Mr. E. N. Pugh.

To Repair Damages.

Dear Lady, there is probably no one telling you that fashionable life is a great city is a rough one on your beauty. Late hours, loss of sleep and a constant excitement will have you and by and by a host of beautiful tresses which you have around you in other years. Artificial beauties can be made for these tresses and they look like hair. Parker's Hair Balsam will stop your hair from falling out, restore its natural color and softness, and prove cleansing and beneficial to the scalp.

Proceedings of the Police Jury, Parish of Ascension.

REGULAR MEETING. DONALDSONVILLE, Jan. 8, 1894.

Pursuant to notice the Police Jury met this day in regular session. The roll was called, which resulted as follows: Present—Messrs. R. T. Hanson, President; Mathias Rodriguez, Pierre Klopman, Basileh Gibson and Solomon Barmon. Absent—Dr. Edward Duffel, Messrs. Henry C. Brand and C. Z. Blouin.

The minutes of the last meeting were read and approved.

Responsive to the request of the Bridge Company, Mr. Klopman offered the following resolution, which was adopted: Resolved, That inasmuch as the Levee Ferry was leased to the City of Donaldsonville, and until which time the same was operated by the lessee thereof in violation of the contract with the Bridge Company forbidding ferries within three miles, that the sixteen years privilege granted them by the City of Donaldsonville, January, 1874, provided, that this be annulled by the Town Council of Donaldsonville.

The President stated that the special committee in settling with the Tax Collector for back taxes, found every thing correct except a voucher for license for \$20, which the Tax Collector agreed to make good—difference between him and the Parish Treasurer; that they had not completed examination of the Treasurer's account.

Report received, and on motion of Mr. Barmon, duly seconded, the committee was granted until the next regular meeting to report as to both the Tax Collector's and the Treasurer's accounts.

The President stated that a few sporadic cases of small pox had occurred in Port Barre; that he had been called upon for means to bury the dead, and asked that the Jury take action in the matter.

On motion of Mr. Gibson, duly seconded, the President was authorized to call on the President of the Board of Health, and have such action taken in the matter as may be deemed right and proper for the good of the parish.

A petition from Mr. Jacob Sheets was received, asking permission to erect a warehouse on the bank of the Amite river above the mouth of Black Bayou for the purpose of storing and delivering freight, and the following resolution, offered by Mr. Hanson was thereupon adopted: Resolved, That the permission of erecting a warehouse on the banks of the Amite river above the Black Bayou Landing asked for by Mr. Jacob Sheets, be and the same is hereby granted to him; provided, that said warehouse shall not trespass upon or in any way obstruct the public road or bank at said landing, and that he will not be held responsible for any claims or damages that may be claimed from the building of said warehouse.

Mr. Gibson offered the following: Resolved, That it shall be the duty of the Treasurer to place all moneys received by him from the Tax Collector for the year 1893, to the credit of the various appropriations made in the budget of expenditures for that year, and to that end he is authorized to draw some or received by him pro rata, according to the proportion of the amount of each fund to the amount of the whole budget.

Resolved, That all moneys arising from other sources, viz: back taxes and licenses, be and the same are hereby appropriated to be placed in a fund to be known as the "Levee and Road Repair Fund," and the same shall be disbursed by the Treasurer only upon orders of the President of the Police Jury in accordance with the resolutions of this body.

Before the vote was taken on these resolutions, Mr. Frederick Duffel obtained permission to address the Jury at length, and why, in his opinion, the resolutions should be passed. He was answered by Messrs. Barmon, Hanson and Hanson, who were then taken by yeas and nays, the resolutions were unanimously adopted.

The following resolution, offered by Mr. Gibson, was adopted: Resolved, That no warrants against the parish criminals of any kind, including officers and soldiers, shall be issued in the future without the indorsement of the President of the Jury.

Capt. M. W. Dixon, Inspector of Levees, etc., submitted the subjoined report, which was received: DONALDSONVILLE, Jan. 9, 1894.

To the President and members Police Jury, Ascension parish: Gentlemen—I hereby tender this, my report on the condition of levees within the parish, including the balance of the work done during the year. Judge Duffel has removed his rice flume and refilled the levee in good manner, and I think it is perfectly safe, as also are the levees down to Smoke Bend, where there are three small levees that have been raised, and the Roadmaster, J. T. Richard, making all levees above Bayou Levee, and the levee at the mouth of the parish line all levees are in good order. Grand saw-mill levee and crevasse cut levee in good order. The levee at the ferry landing is too low and will need raising. A petition has been laid before you for the balance of funds set apart for levees signed by all the tax payers in Darrouville and others above and below that town.

With respect, I am truly yours, M. W. DIXON, Inspector.

On motion of Mr. Klopman it was Resolved, That four hundred dollars (\$400) be appropriated to repairing levees above Darrouville.

Mr. Gibson presented the following resolution and it was adopted: Resolved, That the Clerk of the Police Jury, that the Clerk of the Police Jury on his books in the future the names of all parties from whom back taxes have been recovered and the names of the ones by whom the fines were collected.

A bill of the Ascension Democrat for three hundred and twenty-five dollars (\$325) for printing 500 copies of ordinances of the Police Jury was presented, and on motion, duly seconded, was approved and ordered paid.

R. T. HANSON, President.

A true copy: R. PROSPER LANDRY, Clerk.

HOTEL ARRIVALS

At the Town of Donaldsonville for the Week Ending Yesterday. LEE—Wm. Chambers, Bayou Goulet, W. K. Lenart, R. B. Asher, Wm. J. Galloway, M. Goldstein, L. A. Ledoux, Sam. Israel, D. E. Pursell, S. F. Lewis, Robert Smith, Charles Boudin, Joseph Willard, W. K. Blake, Jos. Janfroide, New Orleans; L. J. Bourgeois, St. James; R. W. M. Fernan, Ohio; F. H. Plant, Memphis; S. M. Malliot, Louisiana; J. A. Crawford, Alexandria, La.; Moses E. Weil, Cincinnati; Charles Richardson, Louisville, David Hochstetler, Dreyfus, New York; J. J. Wallis, W. S. Rose, St. Louis; R. M. Halam, Chicago.

CHEAP TONY'S MAGNIFICENT DONATION. Go to Chicago Tony before buying elsewhere for cheap in his line of business. You will not regret from \$2 to per cent. you pay by carrying your goods from him, but all such five dollars worth will have a free number of his magnificent collection of goods and machines. Remember, the drawing will positively take place as soon as all the numbers are taken. Secure a chance at once before they are all gone.

Last Monday evening Mr. John Ayraud, son of our esteemed friend J. H. Ayraud, Esq., of the third ward, was taken suddenly ill while at Mr. Schonberg's stable, on Railroad Avenue, and for a time his condition excited the gravest apprehensions. Dr. Duffel was summoned from across the street and prescribed remedies that soon produced a salutary effect. The young man remained at the Doctor's residence over night and seemed all right again next morning.

What Struck an Old Soldier.

"It will soon be twenty years since the war closed." Under the hot sun of August, 1863, the village of Dover, N. J., lay still as the sphinx in Egypt, while Elijah Sharp, of that place, slowly and softly spoke of the past. "Yes," he said, "I was in the army and saw many of the sights of those fearful years. I was finally discharged from disability, resulting from sunstroke. I came home, miserable in health and spirit; so feeble that I took cold on the slightest exposure. Life seemed worthless to me; I lived only in memory." "That was not enough," I said, dividing my last two cigars. "That's so," responded Mr. Sharp; "but I got over it. I returned to my old quarters. When in that condition I began taking PARKER'S TONIC, and my health commenced to improve right away. I was astonished at it, and so was my wife. I piled on the flesh and could eat any thing. My ambition blazed up. I could stand to business, and now—excepting that I have to take care about exposing myself to the hot sun—I am as well as I was the day I landed. What difference there is in things—guns and bayonets, kill; PARKER'S TONIC saves." "There is no change, however, in the preparation itself, and all bottles remaining in the hands of dealers, wrapped under the name of PARKER'S TONIC, are commonly despoiled by customers by substituting inferior articles under the name of ginger, and as ginger is really an important ingredient, we drop the misleading word."

ADVERTISEMENTS.

SUGAR MACHINERY FOR SALE.

ONE SUGAR MILL, ENGINE,

Boilers, Carriers & Drums, KETTLES, JUICE BOXES, Sulphur Machine and Coolers.

All complete and in running order. For further information apply at Germania plantation, or address, at Hohen Solms P. O., Ascension parish, La., GEO. B. REUSS.

J. B. DUNN, Civil Engineer,

Architect and Builder. Thirty-Five Years' Practical Experience and Scientific Research.

SPECIALTIES:

Construction of sugar-houses, furnaces, burners for bagasse, sawmill, etc., setting sugar kettles, boilers, draining wheels, building bagasse chimneys, smelters, etc., and burning brick, and every kind of work in which the economy of fuel is a desideratum.
