It is stated that the management of the Mississippi Valley railway have in contemplation the deflection of their line from the Riverton to the Ashland plantation, in this parish so as to run within easy reach of Darrowville, on the left bank of the Mississippi river, opposite Donaldsonville. This change would prove a decided convenience to a large portion of the traveling public of our section, and we hope to see it accom-plished at an early day. We understand that steps have already been taken to obtain the right of way and survey the route of the proposed deflection.

Responsive to the advertisment inserted in the CHEEF, the St. Joseph Brass Band of this town has received and accepted a satisfactory proposition from Lafayette Hook and Ladder Company of New Orleans to furnish music for that well known organization on the occasion of the firemen's aunual parade on the 4th of next March, The pany last year and its music gave the firemen such perfect satisfaction that they have to succeed Mr. Louis Lefort, whose term made haste to secure the service of Donaldsonville's celebrated colored musicians for another parade. The boys of Lafayette 1 will be better pleased than before with their bargain, we feel confident, as the members of the band are now handsomely uniformed and present a much improved appearance, besides supplying first-class music.

Mr. J. B. Wilkinson, Jr., of Plaquemine parish, having been appointed Chief Clerk of the Appraiser's office, New Orleans custom-house, has resigned his position as member of the Plaquemines Police Jury, and Mr. R. A. Wilkinson has been appointed to fill the vacancy. The latter gentleman is the same, we believe, who has occupied the post of sugar maker at Messrs. Lemann & Bro's. Peytavin plantation, in this parish, during the sugar season just closed. He had contemplated going into the newspaper business here as a co-editor and publisher of the Ascension Democrat, but altered his plans, and wisely, we think, since there is little ground for supposing that the field would have yielded a return common | Court, opening on the first Monday of surate with his marked ability as a writer o

Sugar Squiss .- At the Peytavin sugarwork was brought to a close on Thursday with the grand total of 2,300,000 pounds of sugar as the product of 18,811 tons of case a splendid average of about 118 pounds to the ton. The molesses filled 2000 barrels and the consumption of coal reached 38,000 barrels. Grinding was commenced on the 23rd of October, and the average production of sugar was, in round figures, a million cane the Dugas place produced 7983 tons. Peytavin place, 7486 tons: Perseverance

place, 2686 tons; and 654 tons were bought from Mr. Jacobs of the Stella place. Du gas therefore led Psytavin 497 tons, equiv lent to nearly 60,000 pounds of sugar-in fact, the proportion was still greater, since the trash and tops of thirty acres of cane on the Dugas place were burned off by fire while lying in the field, hence this cane lost in weight but gained correspondingly in the average yield of sugar. The general result is highly creditable to managers Greenwood of Dugas, Hanson of Peytavin, Drake and Mollere of Perseverance, but we thin he feather in Mr. Greenwood's cap is entitled to precedence, since he has managed with splendid success a place that has not een heretofore considered as profitable a its neighbors, and has produced from it a crop that will compare favorably with any other in the parish.

The mills are still going at Messes, Cross-ley and & Sons' Southwood place and it will take right or ten days work to finish up the onthwood and Riverside crops. All the Beirne places have gotten through, Or ange Grove, Clark and Donaldson being the last to wind up. Clark holds the horns with a total of 1,270,000 pounds, and the yield of the other places is just about as reported in

We have no positive information from Chatham, Mt. Houmas or Honmas (Tureaud), but believe they are all through. In this event the Southwood and Yale mills are the only ones still in operation in Ascen-

At Mr. Leon Godehaux's Souvenir place near Donaldsonville, the total accrage of cane ground was 345, which gave 8863% tons an average of slightly more than 25% tons to the acre. We have not learned the exact sugar yield, but it was considerably more than 1,100,000 pounds, adding another to Manager Fulgence Bourgeois' list of hand some achievements as a cultivator.

Work was finished at Capt. Aldrich's Magnolia place, Assumption parish, last Tuesday evening, and the total yield is reported at 550 hogsheads from 240 acres, the best cron made on the plantation since the war. The yield last year was 318 hogsheads.

We venture to say that there are few prettier or more attractive articles displayed at the New Orleans Exposition as the product of colored labor than the beautiful patchwork quilt made by a committee of the colored ladies of this parish, and placed on exhibition Jan. 1, the anniversary of the ion proclamation. The face of the quilt pre sents a handsome and faithful design of Ascension Academy, the new institution of earning erected in Donaldsonville during the past year, traced by Andrew Gingry. E-q., and worked in variegated silk patche by the lady members of the following Exosition Committee: Mrs. A. Lawrence. president; Mrs. S. G. Chinn, vice presdent; Mrs. E. Slater, secretary; Mrs. Dr. Mary Smith, treasurer; Misses Sallie War-ren, Josephine Madison, E. Bush, Mmes. M. Turner, V. Harris, C. Isom, L. Nelson; Mesars. Preston Holmes, M. Moore, J.
