

# Sings the Highest Note.

**BROOKLYN GIRL HAS MOST REMARKABLE VOICE IN WORLD.**

**Renders Tones Never Reached by Jenny Lind or the Great Agujari—Has Throat and Vocal Chords Like a Bird.**

New York.—Higher than Jenny Lind, higher even than the great Agujari, who is credited with having reached the very top note ever sung by the human voice, soar the tones of a young Brooklyn girl, whose vocal range is not a freak, but is said to be the most remarkable in the world.

Musical history records the famous achievements of Agujari when her liquid voice ascended the scale until it struck and sustained C in altissimo. The same chronicle tells how Jenny Lind sang a cadenza almost as high as Agujari, reaching A flat, two and a half tones below the recognized highest note ever struck by mortal.

Miss Bessie Greenwood, of Brooklyn, has outdistanced both of these great singers and not by a margin but by several tones. She sings Mulder's staccato polkas, ending the song on the highest G on the keyboard. This is four tones higher than Agujari sang. Another bit of music which shows the remarkable range of her voice is that familiar ballad, "Violets," which has a hummed refrain at the end. Miss Greenwood sings this refrain an octave higher than it is written, finishing on F in altissimo, two tones higher than the C of Agujari.

Miss Greenwood and her remarkable voice are not wholly unknown to musical New York. Her singing has brought her to the notice of many well known singers and impresarios. Herr Felix Mottl, this year's conductor at the Wagner Festival, in

heard in even a very large hall. The tones are wonderfully sweet and bird like and the medium ones are resonant and pleasing. She sings with the most delicate pianissimo and her high notes do not tire her throat or make her hoarse. Her success in this has been ascribed by one of our well known musical conductors to the way she has been taught, according to the principles of tone production. She has been taught how to breathe properly, he asserts, so that her tone is free from the common vice of unsteadiness and the registers of her

**MISS BESSIE GREENWOOD.**  
(Vocalist Who Can Sing Highest Musical Note Ever Rendered.)

voice have been kept within their natural compass and have been well equalized.

Dr. J. Mount-Bleyer says that her voice and throat are unique; that there is probably the only voice of its kind in the world. The roof of her mouth is very highly arched and narrow and the vocal ligaments and larynx are of unusual and very delicate construction. Her throat is like the throat of a bird and her vocal chords are almost as small.

This young singer is by no means delicate in appearance. She is tall, of a vigorous and robust constitution, and has a great supply of energy. Mr. Merriman believes that she has a very promising future. She is only 23 years of age and has devoted all her life to the study of music, being a fairly good player on the piano and violin. Miss Greenwood hopes to enter upon a professional career in which her voice will be displayed in all its wonderful sweetness and range, but not as a "freak" singer, for there is absolutely no trickery in the way she reaches and sustains the highest note ever sung.

Scale Showing Miss Greenwood's Remarkable Compass.

Bayreuth, said that he considered her voice of unusual range and quality. When Mr. Conried was asked about this member of his school he said, "Miss Greenwood has a high note of wonderful purity and can sing almost any note that can be produced on the piano."

Her tessitura lies so high that she has no difficulty whatever in reaching these extremely high notes. Her voice is not a large one, but it has a great carrying quality, so that she can be

## MONUMENT TO VERDI.

**Italians in America Erect Tribute to Noted Composer.**

New York.—As evidence of the high esteem in which the works of that famous composer of operas, Giuseppe Verdi are held by Americans and as

Monument to Be Erected to Verdi.

a tribute to the memory of their dead countryman, the Italian colony in the United States has had a beautiful monument carved and sent to New York to be unveiled on October 12.

Chevalier Pasquale Civiletti, a well-known sculptor of Palermo, Italy, was chosen by the committee to execute this important commission. It has met with the approval of the Italians in charge of the monument fund and the commissioner of parks for the borough of Manhattan, which will hold the Verdi memorial. The monument is about 25 feet in height and is composed entirely of

fine Carrara marble and dark tinted granite. On top of a round granite shaft, which is capped by a laurel wreath, stands the imposing figure of Verdi as he looked in the heyday of his career.

The granite shaft on which the figure of the composer stands rests on a square base of the same dark stone, and surrounding the central column are four smaller figures, in Carrara marble, representing operatic creations of Verdi. They are "Otello," "Aida," "Falstaff" and "La Forza del Destino."

Soon after the death of Verdi, on January 25, 1901, Signor Charles Barzanti, the editor of an Italian newspaper, conceived the idea of collecting a subscription to perpetuate in marble the memory of Italy's favorite composer and the man whose operas were lived by the whole world. Contributions poured in from all parts of the United States from Italians who recently emigrated to this country and from those who have become American citizens. In the end \$20,000 was subscribed to the monument fund and the order for the sculpture and the design were given out. The monument has been finished now for some time and has been on view in Italy, where it was wrought. The commission appointed to decide upon its acceptance comprised American and Italian representatives of the two governments and sculptors.

**Up-to-Date Definition.**  
A schoolmaster asked a small urchin the other day the meaning of "The quick or the dead." "Please, sir," he said, "the man as gets out of the way of the motor car is quick, and 'im as doesn't is dead.'"—London Trib.

**Book in Costly Binding.**  
In the jewel house of the Tower of London there is a book bound throughout in gold, even to the wires of the hinges. Its clasps are two rubies set opposite ends of four golden links.

**No Use for Further Knowledge.**  
In one of the big new office buildings on lower Fifth avenue, New York city, the elevator is managed by a mild-mannered negro, who carries his responsibilities with the languidly tolerant air of one who feels that he has never received his just due in this world, but who has long recognized the futility of appeal. One day he was confronted by a typical book canvasser who was trying to sell him a work on mechanical engineering.

"This book is made up specially for the engineers of public buildings," urged the canvasser. "It is just what you want in your business here."

"No, boss, don't want no books. Don't git no time to readin' books," said the darkey. "It taks all mah time to run dis elevator."

"But this book will help you to run your elevator," persisted the canvasser.

"Don't want no help to run dis elevator," said the darkey. "Dis elevator runs all right now."

Just then the indicator rang and the darkey stepped inside the car.

## WHEN EGGS ARE SCARCE.

**Ways in Which Housekeepers Can Economize in Their Use.**

The housekeeper expects eggs to be high at holiday time, just when she wants to make extra good things, but to offset this condition the cold weather allows more sugar and fat in food, and the lack of eggs is not quite so serious as it might be. When eggs are nearly 40 cents a dozen at the beginning of September, as they were this year in the large cities, the price has a decided influence on the daily menu. The first point in which to bring economy of eggs is in serving them as a substitute for meat. Something at less cost can temporarily be taken by giving the matter a little thought, although eggs are so staple a part of the usual breakfast as to come first to mind.

When eggs are scarce it is not necessary to make ten egg sponge or angel cake; neither is it wise to scribble too much by using baking powder to take the place of eggs. If a recipe calls for a certain number, do not take out one or two and expect to have a satisfactory result, for the proportion of materials has been changed. It is greater wisdom to select a recipe in which the number of eggs is smaller. "No egg cake" is seldom satisfactory, but there are many good cakes made with but two eggs. Raised hot breads can for a time take the place of muffins and other breakfast cakes made with eggs, yet even here it may not be wise to entirely omit them, for a pan of light, feathery muffins will all be eaten, but if made without eggs two or three of the cakes are likely to be wasted. It takes but a small per cent. of waste in this way to turn cookery that was intended to be very economical into extravagance.

## SKIRT-HANGERS EASILY MADE.

**Set Makes an Acceptable and Suitable Gift for Bride.**

A set of clothes-hangers makes an acceptable gift for a bride, a traveler or a college girl. The set consists of waist and skirt hangers—a dozen of each. The best waist-hangers are those of coppered wire, found at any furnishing store. They should be wound with narrow ribbon, finished with a tiny bow at each shoulder end. The skirt-hangers are easily made at home. Take an inch strip of pine wood. Cut it into eight-inch lengths. Wind these also with ribbon. Screw into the middle of the upper edge a fairly large-sized brass cup-hook, and two cup-hooks of smaller size near the ends of the lower edge to hold the loops of the skirt-band. Many closets now are provided with a small brass rod fastened across at a convenient height. The hangers are hooked on this. Closets sometimes have a shelf running across for the entire length. In that case three large cup-hooks can be screwed to the under side, to hold any sort of a rod, from brass to broomstick. It is astonishing what a number of waists and skirts can be hung without crowding on a rod four feet long.

## Back Stairs.

A woman who found her steep back stairs as little ornamental as they were useful has had them converted into two closets, one opening out of her dining room, the other on the second floor. The steps were removed bodily and a glass door opened into the dining room from where they had been. The space inside she had paneled and rows of shelves were built in, well up to the ceiling. The lower ones were used for china, and the upper ones for preserves. A small window cut into the side yard admitted light into what was really a small shelf-lined room. The whole cost little. Upstairs a capacious linen closet filled in the vacant space.

Another woman who did not wish to have the stairs actually taken out had the upper landing converted into a closet, but left the stairs underneath, using them from the first floor as a store closet for brooms, buckets and the like.

## Rust Marks.

Linen suits have a way of showing an ugly rust mark on the top of the shoulders—from the coathanger upon which it was carefully hung whenever out of use.

Coathangers should always be covered or otherwise they are used for white or delicate colored things. Little bags of silk or linen or dimiti can be drawn over the long sides and held in place by narrow ribbons, tied into pretty bows. And then, even if the weather is damp enough to make everything rust, the brunt of it won't come upon one's very best bib and tucker, but upon an easily replaced thing.

## Home-made Towels.

A nice way to finish home-made towels is to scallop the ends, and three inches above the scallops have a fancy drawn-work stripe. The monogram or initials is then embroidered, long narrow letters being the most effective. Huck, damask and a good weight bird's eye all can be done in this manner, and for much less than the cost of an ordinary towel you get a very good quality of any of these mentioned materials, all coming by the yard.

## Her Own Color.

Every season brings at least one popular color—this fall there are two, royal purple and sage green. Neither color is becoming to all women, but it is to be feared that will make precious little difference. Only the wise woman studies the effect of colors and clings to those which suit her coloring. The reign of a particular color does not trouble her an atom.

## Found Ring Lost in Ocean.

A gentleman visiting Rhoscolyn, Holyhead, England, six years ago, lost a valuable ring while fishing in the bay. A few days ago a bathman, in diving, picked up a ring from the bed of the sea, which has been identified as the one lost.

## Was Not Doing a Thing.

"Yes, lady," said Hungry Higgins, "police persecution ruined me life. Why, when I wuz first arrested years ago I hadn't been doin' a blessed thing"—Catholic Standard.

## HAD IT ALL FIGURED OUT.

**Couple Not Only Were Going to Live, But Become Rich.**

Lord Sholto Douglas, who was arrested recently in Maine through an error, was congratulated at a Portland hotel on the courtesy he had shown in pardoning the erring Maine police.

"Why shouldn't I pardon them?" said Lord Douglas, laughing. "They did their duty. Their calculations were wrong, that is all."

"I admit that their calculations were absurdly wrong. They reminded me of a young lady I used to know when I lived in the west."

"This young lady, whose family was well to do, announced to her father one night that she was going to marry a peasant man."

"If you marry him," her father grumbled, "how on earth will you live?"

"Oh," said the girl, confidently, "we have figured that all out and it is very simple. You know that black hen I bought last week?"

"Yes. What of it?"

"Well, I have consulted the best poultry circulars, and they all agree that a good hen will raise 20 chicks a year. That means that next season I shall have 21 hens. These at the season's end, each having raised her 20 young, will give me 420 in all. The next season there will be 8,400, the next 168,000, and the next 3,360,000. Just think of that! With chickens at 50 cents apiece we will then be worth \$1,680,000. So you see, papa, you needn't worry about us."

## TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes back-ache, headache, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Me., says:

"Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills wonderful."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## PENNIES FOR A COLLEGE.

**One Hundred Thousand Workers Each Give a Penny to Ruskin College.**

The British trade unions had not in their origin any direct concern with education, says the Fortnightly Review. But it is a fact of no ordinary significance that some of the leading unions should be taking very great interest in the higher education of the workman.

For the last three years some 100,000 workmen, members of the Amalgamated Society of Engineers, have made three levies of one penny each to help on the work of Ruskin college at Oxford. This levy produces over £300 a year, and by means of it six engineers are maintained for a year's course of study at the college.

Smaller but substantial sums have been contributed to the same institution by the London Society of Compositors, by the Lanarkshire Miners' County Union, by the Amalgamated Association of Beavers, Twisters and Drawers, by the Derbyshire miners and the Durham miners, while a large number of other societies appear among the donors and subscribers.

## Designs Patented by Women.

Not a few designs—some of them cleverly contrived—of fire escapes are credited to inventive women. Others have planned motors for sewing machines and other domestic aids; a thermometer fire alarm, which gives its warning when the temperature reaches a certain figure, a balcony that may be carried from one house to another and adjusted, a thread cutter that is fastened to the tumbler, a furnace that generates heat by means of chemicals instead of ordinary fuel, and a great many similar contrivances.

## New York's Great Ocean Trade.

New York is the second great seaport of the world. In 1903 over \$9,000,000 tons of imports and 8,700,000 tons of exports were cleared through New York harbor. London is the greatest seaport, exceeding New York in imports, though not by exports. Antwerp and Hamburg are third and fourth, respectively.

## Ghastly Foreign Pun.

Mrs. Carrie Chapman Catt, the noted American clubwoman, has been received abroad by royalty, and some of the foreign papers have the temerity to declare that she has a proverbial right to look at a king.

## A Harmless Laxative.

If you must take a laxative, take a harmless one. Lax-Fos does not gripe, therefore does not irritate. Irritation is what does the harm. Price 50 cents.

## Origin of England's National Debt.

England's national debt originated in the reign of William III., whose first loan was obtained in 1694.

## Mrs. Winslow's Soothing Syrup.

For children teething, soothe the gums, relieve inflammation, allay a pain, cure wind colic. See a bottle.

## About two-thirds of a man's friends are enemies in disguise.

Hurt, Bruise or Sprain. St. Jacobs Oil relieves from pain.

## There was a time when the obese woman was the light of other days.

## NO REST NIGHT OR DAY.

**With Irritating Skin Humor—Hair Began to Fall Out—Wonderful Result from Cuticura Remedies.**

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body, and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out. D. E. Blankenship, 319 N. Del. St., Indianapolis, Ind., Oct. 27, 1905."

## Those men who ride on the water wagon get some awful joits.

**PUTNAM FADELESS DYES** produce the brightest and fastest colors with less work and no wash.

## If a man would know himself thoroughly he hasn't much time to waste in trying to find out things about his neighbor.

## You Don't Have to Wait.

Every dose makes you feel better. Lax-Fos keeps your whole inside right. Not one cup in a full bottle. Sold on the money back plan everywhere. Price 50 cents.

## White Diamond Found.

A white diamond, weighing 149 1/2 karats, has been found by a digger at Karrepan, near Kimberley, who sold it for \$14,465.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one remedial agent that has been able to cure in all its stages, and that is Cuticura. It is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for full particulars. Address: J. C. HENRY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

## Chandler's Joke on Conkling.

Roscoe Conkling was a capital boxer and quite proud of his skill. One evening after considerable banter he induced Senator Chandler to "put on the gloves" with him. He played with Chandler for a few rounds, much to the discomfiture of the downstate. The latter bided his time and some time later quietly brought a professional pugilist to dinner where Conkling was a guest. In the course of the evening "Mr. Smith" was induced to engage in a boxing bout with Mr. Conkling. The professional danced around the senator, landing when and where he wished, playing with him as he would with a punching bag. The elegant New York senator was dazed, overwhelmed, humiliated, crushed. When he surrendered and called enough, as he did at last, Senator Chandler smiled blandly and presented the pugilist in his true colors.

## DODD'S KIDNEY PILLS.

**DODD'S KIDNEY PILLS** CURE ALL KIDNEY DISEASES. RHEUMATISM, BRONCHITIS, BRIGHT'S DISEASE, GRAVEL, CALCULI, NEURALGIA, MIGRAINE, SCIATICA, GOUT, AND ALL AFFECTIONS OF THE URINARY SYSTEM. Sold only in packages of 100 pills. Price 50 cents.

## Enameline NO DUST NO DIRTY SLOP NO SMOKE NO STOVE POLISH NO SPATTER.
