

# The Donaldsonville Chief

Official Journal of Ascension Parish,  
Town of Donaldsonville and  
Parish School Board.

L. E. BENTLEY, Editor and Proprietor

G. D. BENTLEY, Managing Editor

MRS. ELLA BENTLEY, Associate Editor

A. G. WEDDEN, Publisher

The Chief is entered at the Donaldsonville, La., postoffice for transmission through the mails at second-class rates, and is received by subscription postage free.

All kinds of Job Printing executed at the Chief office promptly, cheaply and in the best style. Telephone No. 34.

SATURDAY, NOV. 3, 1906

## ANNOUNCEMENT.

### FOR CONGRESS.

GEO. K. FAVOROT

is hereby announced as the nominee of the Democratic party of the sixth congressional district of Louisiana for member of the sixtieth congress. Election to be held Nov. 5, 1906.

## Republican Nominees For Congress.

FIRST DISTRICT,  
HARRY SEINER,  
of Orleans.

SECOND DISTRICT,  
A. L. REDDEN,  
of Orleans.

THIRD DISTRICT,  
S. P. WATTS,  
of Vermilion.

FOURTH DISTRICT,  
E. P. MILLS,  
of Caddo.

SIXTH DISTRICT,  
JOHN DEBLEUX,  
of Iberville.

SEVENTH DISTRICT,  
C. C. DUSON,  
of Acadia.

The safe and sane sixth district voter should stamp the elephant next Tuesday and send John Debleux to congress.

The police jury will meet in special session next Monday forenoon for the purpose of taking action looking to a solution of the ferry problem. President G. B. Beaumont, an interested party, the meeting will be presided over by President Pro Tem, S. Goette.

By my scientific method I accurately measure the errors of refraction. My system is not an experiment. My knowledge of the eye and of rays of light enable me to determine precisely the kind of glasses you should wear. Don't take chances. Come and see me. FRED LINDSE, Graduate Optician, Donaldsonville, La.

The Chief sympathizes with Mr. and Mrs. W. B. Moore in the bereavement occasioned by the death of their infant son, Roy Weatherford J. Moore, who departed this life at 1 o'clock Tuesday morning, Oct. 30, at the tender age of five weeks. The remains were laid to rest in the Catholic cemetery Tuesday afternoon at 4 o'clock.

J. C. Falcon, of Dreyfus, Iberville parish, has accepted the position of night superintendent of the West Michigan Sugar Company's extensive factory near Charlevoix, Mich., and expects to remain in that section of the country some several months. Mr. Falcon writes that "Charlevoix is the Carlsbad of America in mid-summer, but an ice-box in winter."

Had a Close Call.  
"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my chest, was prevented by the application of Buckle's Astringent," says A. G. Stickle, Miliana, W. Va. "Persistent use of the same completely cured it." Cures cuts, burns and injuries. 25 cents at J. J. Leche's drug store.

Dorothy May, the infant daughter of Mr. and Mrs. Samuel Pettit, died at her parents' home in Lessard street Sunday afternoon at 3:45 o'clock and was buried the following day at 3 p. m., with services at the Methodist church and interment in the Protestant cemetery. Rev. Randolph Miller officiating. To the bereaved young parents The Chief tender its sincerest sympathy.

Interesting services were held at Biker Cholim Synagogue last Sunday evening, the 28th ult., when Rabbi Alfred T. Godshaw, of Cincinnati, occupied the pulpit and delivered a forceful and eloquent sermon on the subject of "Synagogue and School Extension." Rabbi Godshaw is a graduate of the Hebrew Union College of Cincinnati, and is presently filling the position of director of the Jewish missionary work undertaken by the Union of American Hebrew Congregations.

A large force of workmen employed by the Southern Bitulithic Company arrived here Wednesday afternoon from Baton Rouge and is engaged in constructing a ramp leading from the edge of the river to the opening in the levee at the head of Chetmichas street, the object of which is to facilitate the unloading of the rock and gravel to be used in the concrete required for the paving of Railroad avenue and Mississippi street. It is stated that a second and larger force of employees will reach here next Monday, when the actual work of laying the pavement will be inaugurated.

Mrs. Ben Holzman, wife of ex-Mayor Holzman of Shreveport, died Monday night at her husband's home in this city, after an illness of only three days. Mrs. Holzman was regarded as one of Shreveport's best known and most charitable women, and her untimely demise will be deeply deplored by an exceptionally wide circle of friends and acquaintances. She is survived by her husband, two daughters, Mrs. A. M. Marks, of New Orleans, and Miss Hortense Holzman, of Shreveport; two sisters, Mrs. Jacob Blum, of Donaldsonville, and Mrs. J. Levy, of Alexandria; one brother, Morris Baer, of Houston, Tex., and her mother, Mrs. M. Baer.

Made Happy for Life.  
Great happiness came into the home of S. C. Blair, school superintendent at St. Charles, when his little daughter was restored from a benighted complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until at last I tried Electric Bitters; and I rejoice to say three bottles effected the complete cure." O. K. cure for nervous complaints, general debility, female weakness, impure blood and indigestion. Guaranteed by J. J. Leche. Price 30 cents.

## The River Ferry Tangle.

The affairs of the river ferry at Donaldsonville are in a tangle that suggests the lines from one of the songs in an erstwhile popular comic opera: Here's a pretty mess; Here's a howdy do.

Briefly stated, the situation is like this: Lessee H. C. Whitman notified the town council and police jury that two years' experience has shown that it is impossible to operate a steam ferry under the present tariff without heavy financial loss, and asked that the tolls be increased in order that he might be enabled to continue his contract with the town and parish. The council received and discussed the petition, and appointed a committee of three to investigate the receipts and expenses of the ferry, consult the town attorney relative to the legal phase of the matter, and, if necessary, to confer with a like committee of the police jury with a view to joint action as the conditions called for. The council's committee struck a big snag at the outset of its intended investigation, in the shape of a written opinion from Town Attorney E. N. Pugh to the effect that "the municipal authorities have not the right, power or authority to raise or interfere with the tariff under which the ferry franchise was sold." The committee promptly reported the obstruction to the council with the suggestion that it was deemed unnecessary under the circumstances to investigate the receipts and disbursements of the ferry lessee or to meet a police jury committee, whereupon the council constituted itself a committee of the whole to meet the police jury "and confer with that body relative to devising ways and means to settle the ferry proposition."

In accordance with this action, the police jury and town council assembled informally last Sunday and talked over the affair for about three hours without reaching any definite conclusion. Meanwhile, Lessee Whitman, at the instigation of the gentlemen who endorsed his notes, took the ferryboat Washington out of commission and substituted a tug and barge. The council met Monday night and adopted a resolution to the effect that the lessee is violating the terms of his franchise, which call for a ferry of the catamaran type, and the secretary was instructed to give formal notice of this violation to the lessee's bondsmen, Dr. E. K. Sims and J. Ramsey Duke. The grand jury has also taken cognizance of the troubled situation, and in its final report calls the attention of the parochial and municipal authorities to the character of the ferry being operated, and recommends that these authorities take steps to secure a proper enforcement of the terms of the franchise. The police jury has been called to meet in special session next Monday forenoon for the purpose of considering ways and means to solve the problem and it is expected that some way out of the pending dilemma can be found, but what it is to be remains as yet among the undeveloped mysteries of the future.

The ferry chicken has come home to roost, and if the bird could be depended on to torment none but those responsible for the present turmoil the Chief would be willing to let them wrestle with the consequences alone. Unfortunately, however, the general public is suffering inconvenience and injury from the lack of proper facilities for crossing the river, and some solution of the pending trouble should be devised that will insure the early and permanent restoration of an adequate and reliable ferry service, such as was maintained by the predecessors of the present lessee. To this end, if it is necessary for the police jury and town council to waive their legal right to exact full compliance with the terms of the present unprofitable ferry contract, we are disposed to think that such a waiver would be justified from the standpoint of the public welfare. If it be true, as seems apparent, that the existing tariff is insufficient for the maintenance of the right kind of a ferryboat, what's the use of trying to compel a lessee or his sureties to operate such a boat three years at a dead loss? It goes without saying that they will not consent to bear such burden until forced to do so by authority of the court of last resort, hence the prospect of a long-drawn-out and expensive lawsuit must be confronted if the contract is to be regarded as too sacred for amendment or abrogation.

We suggest the inquiry to the parochial and municipal authorities, the town attorney and whomsoever else it may concern: Won't it be better to rescind the present agreement, revise the franchise under conditions that will protect the community from recurrence of the pending difficulties?

### Proposed Amendments.

- Following are the proposed amendments to the constitution of the state of Louisiana in the order of their appearance on the official ballot:  
1. Authorizing the city of New Orleans to issue \$8,000,000 of bonds for the purpose of completing its sewerage, water and drainage systems.
- Providing for the payment of the back salaries of the public school teachers in New Orleans by giving the board of directors of the city of New Orleans the right to issue and sell sufficient bonds for this purpose.
- Increasing the salary of the attorney general from \$3000 to \$5000.
- Providing for the election by popular vote of the seven assessors and tax collectors of New Orleans.
- Authorizing one of the two judges of the city criminal court in New Orleans to sit for the other.
- Relative to drainage and sewerage districts.
- Creating an additional district judge for the parish of Caddo.
- Reforming the judiciary system by creating courts of appeal for the country parishes.
- Making the salaries of district judges uniformly \$3000 throughout the state.
- Removing the limitations placed on the appropriations for the Ruston Industrial Institute.
- Providing for male or female inspectors of factories throughout the state.
- Increasing the exemption from taxation.

All of the proposed amendments may be safely favored and are likely to be adopted except No. 12, which will have the effect, if passed, of rendering church parsonages and rectories subject to taxation.

They All Do It.  
Try one bottle of Rosaline Oil, the great anti-sple, and you will see nothing else. That's the way they all do. Why? Simply because it's the only one that's stronger than the others. If you want it to break like a nut, add water to suit and save your money. Pleasant and safe. Sold everywhere. Clean and perfect. 10.25 and 50c. For sale by J. J. Leche, J. J. Leche and Edmond Richard.

## Next Tuesday's Elections.

Forty-two states and three territories will hold elections on Tuesday next, the 6th instant, the list including all the states except Maine, Oregon and Vermont, which will elect their state officers and members of the sixtieth congress. Twenty-three states are to elect governors and other local officers, and in twenty of these states legislatures are to be chosen. Ten states are to elect minor state officers or justices of the supreme court; two are to choose congressmen and legislators, while in seven only congressmen are to be elected. The new state of Oklahoma, comprising the Indian and Oklahoma territories, is to vote on a constitution, and Arizona and New Mexico on joint statehood.

The terms of thirty United States senators will expire March 3, 1907, fifteen being Democrats and a like number Republicans. It is regarded as reasonably sure that nineteen Republicans and eleven Democrats will take the places of these thirty outgoing senators in the sixtieth congress, in which case the Republicans will have a clear two-thirds majority in the national senate.

The present house of representatives is composed of 250 Republicans and 136 Democrats, a Republican majority of 114. It is to be expected, of course, that this great preponderance will be considerably reduced, but it can be safely assumed that the Republicans will continue to control the popular branch of congress by a large majority. It is announced in the Democratic press that the congressional committee of their party "figures out a Democratic majority in the 'house,'" but this time-worn claim, which always bobs up smilingly on the eve of an election, has ceased to deceive intelligent and well-informed voters.

The most interesting and exciting state contest is that in New York, where Wm. A. Hearst, the millionaire yellow journalist and Socialist, is running for governor as the candidate of the Independence League and the Democratic machine, against Charles Hughes, the Republican nominee, who made a world-wide reputation for the legal ability and force of character he displayed in directing the recent inquiry into the affairs of the great life insurance companies of the country, which resulted in effecting a radical and wholesome reorganization of those corporations. Hearst is making a desperate effort to capture the governorship as a stepping-stone to the Democratic presidential nomination, but many Democrats have rebelled against his candidacy and are joining the Republicans in support of Hughes. The betting in Wall street, which rarely fails to indicate the true trend of public sentiment in New York when odds are offered, has been largely in favor of Hughes all along, the odds never falling below two to one and generally ruling at three to one.

In Louisiana members of congress, members of the new state board of equalization, a railroad commissioner in the third district and an even dozen of proposed constitutional amendments are to be voted for. If we were possessed of the sublime sang froid of a Democratic campaign committee we might easily "figure out the election of a majority" of the Republican candidates for congress in this state, but being merely a modest and truthful newspaper, The Chief resists content with saying that such result ought to ensue and that the best interests of Louisiana would be vastly promoted thereby.

For Over Sixty Years  
Mrs. Winslow's SOOTHING SYRUP has been used for over 60 years by millions of mothers for their children while teething with perfect success. It soothes the inflamed membrane, allays all pain; cures wind colic, and the gas, cures diarrhea. It will relieve the poor little sufferer. Beware of cheap imitations in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take no other kind.

School Notes.  
The committee on furniture placed an order last week for another cart of school furniture for the rural schools. This makes the third cartload of furniture purchased by the present school board.

The regular annual parish teachers' institute will be held at Donaldsonville at 9 o'clock a. m. Monday, Nov. 19, and remain in session until the following Friday afternoon. Superintendent D. B. Showalter will conduct the institute, assisted by Prof. J. E. Keedy of Baton Rouge, state institute conductor; Prof. J. W. Heckert, training teacher, and Miss Jessie E. Bowden, critic teacher of the State Normal School at Natchitoches. State Superintendent J. B. Aswell and other leading educators are expected to visit the institute and deliver addresses. Arrangements will be made to entertain the teachers and others in attendance at a series of social functions so that the week will be one of pleasure as well as profit.

Superintendent Showalter visited the institutions of Whites, Gonzales, Smoke Bend and Donaldsonville schools during the past week. He found each of the institutions in first-class condition. The attendance is satisfactory and splendid results are being attained.

Frank Cantzon, a negro employed on Point Houmas plantation, was enticed into a vacant house in the tenderloin district last Saturday afternoon and there robbed of his watch and 15 cents by Chas. E. Jones, Netter, and "Sweet Dick," three notorious young negroes who infest the rear portion of this town. The matter was reported to the proper authorities and King was soon taken into custody and lodged in jail, but Netter and "Sweet Dick" managed to make their escape. The former was arrested at Baton Rouge Tuesday and the following day Deputy Sheriff Lucien Acosta, acting under instructions from Sheriff St. H. St. Martin, repaired to the state capital and took charge of the prisoner, returning with him Wednesday afternoon. "Sweet Dick" is still at large.

George Smith, an obstreperous negro, was shot and instantly killed last Saturday afternoon by Addison Hudson, a well-known cotton farmer of east Ascension. The negro cultivated a portion of Mr. Hudson's land on the tenant system and was of the type known as "bad man" among the members of his race, being very unruly and belligerent. Last Saturday he quarreled with Mr. Hudson when the latter sought to have a settlement with him and attacked the farmer with a knife. Mr. Hudson retreated into his residence, closely pursued by the murderer black, and, gaining possession of his shotgun, fired at Smith at close range, the load taking effect in the negro's heart and killing him instantly.

Do You Realize  
the serious consequences of continued eye strain? Priced beyond all position your highest consideration. Don't trifle with your eyes. It will cost you nothing to see me. FRED LINDSE, Graduate Optician, Tobias Building.

## SUGAR SQUIBS.

Items of Interest from Field and Factory.  
Opening of the Grinding Campaign in Ascension and Elsewhere.

The present week witnessed the opening of the sugar-making season in this vicinity, but it will be several days yet before the campaign becomes general. For the past fortnight the weather has been clear and cool, closely approximating the kind that is most desirable at this period of the year, and if other things were as favorable the grinding season would open with a better outlook than now confronts us.

St. Emma factory started off Monday morning under favorable auspices and is working away smoothly, grinding an average of 300 tons a day. The juice is weighing 61 Beaumé, and in the field approximately 15 tons of stubble are being obtained to the acre. K. A. Aucoin, the efficient manager of St. Emma, is officiating as chief sugar-boiler, as usual, and Florian Michel, of Donaldsonville, is his assistant at the pan. Guy Dunning is again in charge of the engine room, with Lawrence Montero, also of this place, as an assistant. There is an ample force of labor on hand, and no shortage is anticipated. St. Emma has 230 acres of D-74 plant cane to grind, and this is expected to yield so well that the plantation will probably make as large a crop as last year—about 14,000 tons. Unfortunately, St. Emma will be alone in her glory in this respect, as no other place hereabout is likely to do anywhere near so well.

The Lemann Company's Palo Alto factory got under way Wednesday morning with everything running like greased lightning. Edgar Temple is holding down the position of chief sugar-boiler, with John Babine and Lester Vessier as assistants. The engine room is presided over by Jos. Cire, assisted by Lawrence Michel, Tom Chapman and Julien Barthelmy. It is unofficially reported that Palo Alto's tonnage will fall about one-third below the amount handled last year.

McCall & Legendre's McManor factory was in operation three or four days last week, but the cane was so green, the percentage of sucrose so low and the granulating process so difficult that it was considered the part of wisdom to suspend grinding operations in order to put down seed.

McCall Bros.' Evan Hall factory began the season's labors Thursday morning and is chewing up several hundred tons of cane per day in the most efficient sort of fashion. Joseph Dicharry, for many years chief sugar-boiler at Evan Hall, is manipulating the proof-stick again this season and has Charles Landry as an assistant. C. O. Peltier is cook of the walk in the engine room, with Joseph Landry and Perceval Elance as assistants.

The Belle Helene central factory also ground its first stalk of cane Thursday morning, and has been grinding away since that date without the slightest interruption.

The Miles Company's New Hope factory has scheduled to start this week, but deferred the agony until Monday.

The St. Joseph Planting and Manufacturing Company's St. Joseph factory, in the parish of St. James, is expected to begin work next Monday. Charles T. Chapman, of Darvay, will again officiate as chief engineer of the newly established.

C. B. Reuss' Germanis factory will make a start Monday after next, the 12th inst.

The Belle Alliance central, one of Assumption's crack factories, started her rollers to rolling this week, with what result remains to be seen—and guessed at.

The exodus from Donaldsonville of field-hands and factory employees has commenced, and by the latter part of next week all those who have secured positions for the current season will be "on the job."

Arthur Lemann left for Palo Alto Tuesday evening and will exercise a superintendency over that factory during the crushing season.

Genial "Bob" Murch's many friends in this community will be pleased to learn that he is again delivering the goods as cane-weigher at Belle Alliance.

W. A. Dill and Hubert Comes left Wednesday forenoon for Tallyho plantation, Iberville parish, where they are billed to hold the boards in the sugar-boiling department of the Tallyho factory during the present season.

Fred Werner, Sr. and Jr., are officiating as chief and assistant sugar-boiler, respectively, at the big Belle Alliance factory, and it is safe to say that a more efficient team would be hard to find.

Do You Realize  
the serious consequences of continued eye strain? Priced beyond all position your highest consideration. Don't trifle with your eyes. It will cost you nothing to see me. FRED LINDSE, Graduate Optician, Tobias Building.

## Quality Did It!

The fact that SCHNAPPS is so widely imitated only proves that it is the best chew—the standard flat plug. Other plugs are made to imitate the size and shape and color of SCHNAPPS—other tags are made to look like SCHNAPPS tags—yet there are more pounds of SCHNAPPS chewed annually than all other similar tobaccos.

# Schnapps

SCHNAPPS is made of only choice selections of well matured, thoroughly cured leaf, and in factories as clean as the cleanest kitchen, situated in the very heart of the greatest chewing tobacco growing country, by men of life-long experience in tobacco manufacturing, and who have directed the R. J. Reynolds Tobacco Company since 1875.

SCHNAPPS has the pleasing, appetizing aroma which created and popularized the fondness for chewing. Expert tests prove that it requires and takes a smaller amount of sweetening than any other kind—and has a wholesome, stimulating and satisfying effect on chewers.

Internal revenue statistics show that SCHNAPPS and other of the Reynolds brands won enough chewers in one fiscal year to make a net gain of six and a quarter million pounds, or one-third of the entire increased consumption in the United States on chewing and smoking tobacco.

Be sure the letters on the tag and under the tag spell S-C-H-N-A-P-P-S, and you will have the genuine.

With Less  
Sweetening  
Than Any Other
