

# SCENE IN ANTHRACITE MINERS' STRIKE

GETTING THEIR LAST PAY ENVELOPES

HERE is a typical scene in the strike of anthracite miners. It shows the men of a Wilkesbarre mine, dressed in their "store clothes," gathered around the pay office to receive their last pay envelopes prior to the general suspension of work.

## RECORD FOR WORK

### Freighthouse Razed by Fire Replaced Over Sunday.

Town Joins in an Effort to Repair Damage Done to Depot in Order to Prevent Interference With Business.

Council Bluffs, Ia.—Some strenuous construction work was done here when a freighthouse, destroyed by fire, was rebuilt almost over night.

At 6:45 o'clock on a Saturday evening the freighthouse of the Chicago and Northwestern railway was destroyed by fire. The building, 36 by 110 feet, included the office, which was two stories high.

The problem presented was how to provide freighthouse facilities for the opening of business on Monday morning. It was decided to solve the problem by putting up a new building.

The telegraph and telephone were pressed into instant service. Necessary workmen and materials were ordered from a dozen points. Arrangements were made with a local lumberyard to deliver material on Sunday morning at seven o'clock. At the same time everybody was busy getting near-by material concentrated and mustering the different forces.

Men were picked up as far east as Cedar Rapids and as far west as Fremont, Neb. On Sunday morning at six o'clock a special train had arrived at Council Bluffs from Boone with men and material, and other forces had arrived on different passenger trains, so that about eighty mechanics and artisans were on hand at seven o'clock. Twenty men arrived from the west at eleven o'clock. Then the work was under way in earnest.

It was found that the transfer platforms and the platform in front of the old building had not been destroyed by the fire, so it was decided to erect a temporary building directly upon the floor of the larger transfer platform. The frame was up and partially sheathed at 11:30 a. m. At five

### SPARROW AS PEST KILLER

English Bird May Be Used Against the Alfalfa Weevil in the West.

Washington, D. C.—The English sparrow originally imported into this country to destroy insect pests, but known chiefly in recent years as a pest among birds, has come into its own again, according to the officials of the government biological survey. It has been found that the sparrow is a vigorous enemy of the alfalfa weevil, an evil which threatens to spread throughout the alfalfa farming territory of the west as the cotton boll weevil has spread in the south. So far the weevil has appeared only in Utah and part of Wyoming, but a dozen other states, it is said, will be affected within a few years unless a real enemy of the pest is introduced to fight it.

The biological survey is planning to experiment with other birds this summer and will not recommend that the English sparrow be sent into the alfalfa territory unless no other effective enemy of the weevil can be found. The bureau of entomology has received from its agent in Italy a number of parasites which feed on the alfalfa weevil and these will be sent to Utah at once.

Ask More Liberal Sabbath.

Elgin, Ill.—Favoring open theaters on Sunday to keep young people from going to Chicago on that day, Rev. C. S. Thomas has launched a campaign for a more liberal Sabbath.

### WANTED OPERATION AS JOKE

Occupant in County Jail Thought It Would Be Much More Comfortable in Hospital.

Cleveland.—Jack Ohlbaum, a county jail prisoner, charged with contributing to the delinquency of minor children, was a very sick man. At least, he told deputy sheriffs he was very sick. He moaned, groaned, tossed and rolled.

"It's here," and Ohlbaum pointed to his right side.

Deputy sheriffs were at first solicitous. When the jail supply of medicines failed to bring any improvement they became alarmed. They sent for the county physician, Dr. A. E. McClure. Dr. McClure came, examined, prescribed and left.

But Ohlbaum still rolled, tossed, moaned and groaned. He murmured something about "colic" and "appendicitis" and deputy sheriffs again sent for Dr. McClure.

Dr. McClure was skeptical on his second visit, however. Again he examined, but this time he winked and telephoned for a fellow practitioner who makes a specialty of surgery. The surgeon arrived and was escorted to Ohlbaum's cell by Dr. McClure. There a dazzling array of sharp-edged knives and operating instruments was laid out.

"What's those for?" anxiously inquired Ohlbaum.

"We are going to operate," said Dr. McClure; "you said you had appendicitis."

"Wow!" exclaimed Ohlbaum. "Don't cut me open. I ain't sick. Honest, I ain't. I was just fooling."

### Stole \$4,000,000 in Jewels

Stanislaus Zalog Writes from Chicago Solution of the Pauline Monastery Puzzle.

Warsaw, Russian Poland.—The mystery surrounding the theft from the Pauline Monastery at Czestochowa of jewels and votive offerings valued at \$4,000,000, which since 1909 has puzzled the brothers, seems at length to be solved by the receipt of a letter from Chicago.

The writer of this communication to the monastery confesses that he, Stanislaus Zalog, was the thief; that he was then a lay brother, and that Father Damatus, who is now serving a sentence in the Siberian mines for the murder of his cousin, was not implicated, as has always been supposed.

The letter seems genuine and the Russian police are taking steps to have Zalog arrested, but the former brother defies the police to trace him. It appears that Zalog remained at the monastery more than a year after the theft and not until Damatus was arrested did he escape to America.

The robbery of the jewels which decked the ikon of the Virgin and Child in the Pauline Monastery created a great stir three years ago, and when, in October, 1910, Father Damatus was arrested in Austria for the murder of his cousin, Vaclav Macoch—which crime he confessed—it was believed that the motive for the deed was to be found in a desire to shut the mouth of a man who could testify against him in the matter of the robbery.

### SAYS WOMEN ARE SELFISH

Rev. Mary Andrews Assails Female Sex in Speech at Kansas City.

Kansas City, Mo.—It is the tendency of American women to live beyond their means and to imitate their neighbors, regardless of expense, according to the Rev. Mary Andrews, formerly pastor of the universalist church here and well known throughout the west as a leader in the affairs of women, who addressed the Council of Clubs in Kansas City, Kan.

"The tendency among the women of America to receive, accept and demand, rather than to give and sacrifice, is growing to an alarming state," she said. "When a crisis of any kind enters into the American woman's life she is incapable of meeting it because she is so used to receiving that she has no self-confidence left. When she wants a thing done she expects her husband or servants her husband pays for to do it, instead of doing it herself, as our grandmothers did."

"A spirit of strife and unrest among women pervades all America. If a woman sees a thing that other women have she wants something just like it or better. It makes no difference whether she can afford it."

### BRAIN SMALLER THAN CHILD'S

Late Dr. Musser Shown to Have Developed Along One Line Only.

Philadelphia.—Experts at the Wistar Institute of Anatomy have just completed the examination of the brain of Dr. John H. Musser, a noted diagnostician who died recently. They found that Dr. Musser's brain weighed less than that of a well-developed child. It was 20 ounces lighter than the brain of Daniel Webster and 24 ounces lighter than that of James Pisk, the New York gambler who was murdered a few years ago. Scientists say Dr. Musser developed along one line, not broadening out in all lines, and therefore not fully developing all parts of the brain.

### BIG CAT COMMITS SUICIDE

Great Ratter Is Found Dead Near Pipe From Which Illuminating Gas Is Still Flowing.

Everett, Wash.—Everybody connected with the Chelan Fruit house declares the cat deliberately and premeditatedly destroyed herself by inhaling gas.

The cat had been a great favorite with her two masters. The way she captured mice and rats endeared her to their hearts.

When the proprietors opened their place of business the other morning a strong smell of gas met them. She was in a position that evidently gave her some trouble to reach. Further, she had lost her kittens a few days ago and had evinced a dejected spirit, losing her appetite for mice, rats and milk.

## FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 30-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

How Old Was He?

In a country school the boys of a certain grade were devoted to their teacher, a young lady of many charms. One little fellow of rather uncertain age was constantly proving his devotion by little acts of kindness, which did not escape the notice of the teacher. Coming up to him one day she put an arm about his shoulders and said: "I believe I will kiss you for being so good to me, but how old are you?"

"Oh, that's all right," he said, "I am old enough to enjoy it."—Mack's National Monthly.

Was Sure He Knew It.

The physiology class in a country school was studying about the backbone.

Teacher—What are the pieces of cartilage for between the vertebrae? A little boy raised his hand.

"Well, Eddie, you may tell us," the teacher said.

"To take the jar off the jumps," answered the triumphant Eddie.—Norman E. Mack's National Monthly.

### BABY'S TERRIBLE SUFFERING

"When my baby was six months old, his body was completely covered with large sores that seemed to itch and burn, and cause terrible suffering. The eruption began in pimples which would open and run, making large sores. His hair came out and finger nails fell off, and the sores were over the entire body, causing little or no sleep for baby or myself. Great scabs would come off when I removed his shirt.

"We tried a great many remedies, but nothing would help him, till a friend induced me to try the Cuticura Soap and Ointment. I used the Cuticura Soap and Ointment but a short time before I could see that he was improving, and in six weeks' time he was entirely cured. He had suffered about six weeks before we tried the Cuticura Soap and Ointment, although we had tried several other things, and doctors, too. I think the Cuticura Remedies will do all that is claimed for them, and a great deal more."

(Signed) Mrs. Noble Tubman, Dodson, Mont., Jan. 28, 1911. Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. L, Boston.

They Draw Interest.

"A kiss," he said after just having had one, "is the most precious thing, and yet women give them away."

"You are mistaken," she said. "We never give them away, we merely invest them."—Fun.

### COLD BROUGHT IT ON.

Terrible Pain and Disorders of the Kidneys and Bladder.

Mrs. Carrie Sommer, 3422 N. Hamilton Ave., Chicago, Ill., says: "A severe cold settled on my kidneys and the pains through my back and limbs were so intense I could scarcely keep from screaming. My heart troubled me and I became so dizzy I could barely stoop. At last I took to my bed and was in agony for two weeks, the doctor failing to help me.

Learning of Doan's Kidney Pills, I began using them and continued until entirely cured. For eight years I have had no sign of the old trouble."

Missing the Point.

Representative Rucker of Colorado, apropos of a tariff argument about sugar, said to a Washington correspondent: "Oh, well, those men don't see my point. They miss it as badly as the old lady missed her son's."

"Mother," a young man said, looking up from the Bulletin, "would you believe that it takes 5,000 elephants a year to make our piano keys and billiard balls?"

"Make our piano keys and billiard balls!" cried the old lady. "Well, I always understood elephants were intelligent creatures, but I never knew before that they'd been trained to make piano keys and billiard balls."

Before Publication.

"Patsy, bring me a paper when you come to work in the morning," a woman who lived at the edge of a village told her man of all work when he went home at night. "Now, don't forget it," she added.

"No, ma'am," said Patsy, "I won't. I might forget it if I left it until morning, so I'll get it tonight."

Easily Overcome by Counsel.

"The trouble is," said Wilkins as he talked the matter over with his counsel, "that in the excitement of the moment I admitted that I had been going too fast, and wasn't paying any attention to the road just before the collision. I'm afraid that admission is going to prove costly."

"Don't worry about that," said his lawyer. "I'll bring seven witnesses to testify that they wouldn't believe you under oath."—Harper's Weekly.

THE SECRET OF LONG LIFE.

Do not sap the springs of life by neglect of the human mechanism, by allowing the accumulation of poisons in the system. An imitation of Nature's method of restoring waste of tissue and impoverishment of the blood and nervous strength is to take an alternative glyceric extract (without alcohol) of Golden Seal and Oregon grape root, Bloodroot, Stone and Mandrake root with Cherrybark. Over 40 years ago Dr. Pierce gave to the public this remedy, which he called Dr. Pierce's Golden Medical Discovery. He found it would help the blood in taking up the proper elements from food, help the liver into activity, thereby throwing out the poisons from the blood and vitalizing the whole system as well as allaying and soothing a cough.

No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. The "Discovery" is an all-round tonic which restores tone to the blood, nerves and heart by imitating Nature's methods of restoring waste of tissue, and feeding the nerves, heart and lungs on rich red blood.

"I suffered from pain under my right shoulder blade also a very severe cough," writes Miss W. Dorsey, New Brookfield, S. C. to Dr. R. V. Pierce, Buffalo, N. Y. "I had four different doctors and none did me any good. Some said I had consumption, others said I would have to have an operation. I was bedridden, unable to sit up for six months—and was nothing but a live skeleton. You advised me to take Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Pleasant Pellets. When I had taken one bottle of the 'Discovery' I could sit up for an hour at a time, and when I had taken three bottles I could do my cooking and tend to the children. I took fourteen bottles in all and was then in good health. My weight is now 127 pounds."
