Dam to be Strengthened.

The United States dredgeboat Ram will arrive here shortly to begin the work of repairing and strengthening the dam at the head of Bayou Lafourche, which gave some concern to the state engineers and the levee board officials during the last high water. While the plans of the engineers have not been definitely announced, it is understood a trench will be dug in front of the base of the dam, on the river side, in which sheet piling will be driven to a depth of twenty feet or more. The trench will then be filled with some material other than the dirt now constituting the foundation of the dam, and the top of the embankment will be raised and broadened.

The levee on the Donaldsonville side immediately adjoining the dam will be strengthened either with a concrete apron or piling, and will be made as large and strong as the other levees protecting the water front of this city. All of the work will be done by the federal government, under the supervision of Capt. Sherrill, of New Orleans.

Governor Hall has appointed Dr. William Porcher Miles, of Burnside, a member of the board of commissioners of the Pontchartrain levee district for Ascension parish, vice A. I. Picard, resigned. Dr. Miles is president of the Miles Planting and Manufacturing Company, whose plantations in this parish have a frontage of seven miles on the Mississippi river, and is one of Ascension's most influential business men and leading citizens. That he will make a capable levee commissioner is a fact too apparent to need stating.

His appointment as a member of the Pontchartrain board will meet with general approbation and indorsement.

J. E. Dearmond, of Kentwood, was a visitor to Donaldsonville Friday. Mr. Dearmond spent several days at Gonzales during the week as the guest of relatives.

SUGAR SNIBS.

Opening of the Grinding Campaign in Ascension and Elsewhere—Items of Interest from Field and Factory.

Grinding was started Monday morning at the Miles company's big Houmas Central factory at Burnside, and the same company's New Hope mill and the well-equipped Evan Hall house in upper Ascension got under way the following day. All the factories in this parish and section are now at work, and the sugar-making campaign is in full blast.

The first frost of the season was noted Sunday morning and it is said this ice was observed by early risers, but there is no official record that the mercury fell below the freezing point. It came very close to that mark, however, a temperature of 38 degrees having been recorded.

Tuesday afternoon heavy showers fell in certain favored sections, serving to lay the dust and to strip from the cane stalks some of the shuck which is now clinging to them. The climatic conditions during the closing days of the week have been all that could be desired.

Alexis Poirrier left Tuesday for the Bessie K. factory in St. James parish, where he will look after the double effects.

Louis A. Landry, of the fourth ward, left Monday night for Brazoria, Texas, to assume the position of head clarifier in the factory on the Clement state penal farm near that place.

The Old Hickory factory opened the campaign Monday morning, with K. A. Aucoin in charge of the sugarmaking department and a capable crew of operatives on hand elsewhere throughout the smooth-running plant.

Diedrich Ohlmeyer and his son, Dille, of this city, left Tuesday to take off the crop of the Wilbert Company's Myrtle Grove plantation in Iberville parish. Mr. Ohlmeyer, Sr., has served as chief proof-stick manipulator of the Myrtle Grove factory for many years, with unvarying success, and Dille has had experience in the boiling of sugar at some of the largest houses in Louisiana, hence the combination of father and son should make a team of whom excellent results may be expected.

The newly-erected St. Cecilia factory in St. Martin parish crushed its first stalk of cane Thursday morning, and is operating with a degree of smoothness and efficiency that reflects much credit upon its designers and builders. Joseph Oubre, of Donaldsonville, is in charge of the vacuum pans.

The St. Emma factory closed down Thursday morning to give the field forces an opportunity to windrow cane, and will resume operations Monday. St. Emma started grinding Nov. 4, and had crushed 1500 tons of cane up to the time of suspending work. K. A. Aucoin, Jr., is chief sugarcane boiler, with Percy Barton as assistant. Thos. Q. Chapman, of Port Barrow, is again on the job as cane weigher, and George Aucoin, of Plattenville, is weighing sugar.

Fred Werner, Sr., the capable chief sugar-maker of the Palo Alto factory, made a flying visit to Donaldsonville Tuesday afternoon to cast his ballot in the general election.

Episcopal Guild Reorganized.

At a well-attended meeting held yesterday afternoon at the residence of Mrs. Maggie Gisclair, the Ladies' Guild of the Episcopal church was reorganized by the election of the following officers: Mrs. Emma Pujos, president; Mrs. C. Kline, vice president; Mrs. G. Donnad Bentley, secretary; Mrs. Clerville Himel, treasurer. Much interest and enthusiasm were displayed, and it was decided to wage an active campaign in behalf of securing a resident minister. A number of guests were present and dainty refreshments were served for a small fee, quite a nice little sum being realized from this source.

TRADE BOOSTERS COMING.

Heads of Fifty New Orleans Houses, on "Crusade of Acquaintance," to Visit Donaldsonville Next Monday and Meet Local Business Men.

The Chief is in receipt of the following communication:

New Orleans, La., Oct. 31, 1912. Editor Chief, Donaldsonville, La. Dear Sir:—The Merchants and Manufacturers Bureau has about completed its plans for its annual "trade boosters" trip, leaving New Orleans November 11 over the Texas and Pacific-Iron Mountain lines, and we have included your city in our itinerary.

This trip will be made by at least fifty of the heads of New Orleans houses. It is not a selling expedition, but may be aptly termed a "crusade of acquaintance." It being the desire of our merchants and manufacturers to visit the merchants of Louisiana in their home towns and show the appreciation of business that New Orleans has been favored with by returning the many individual visits that have been made to our local market.

The main desire is to become better acquainted with your merchants. It is the wish of our party to explain the great advantages of dealing in the New Orleans market and to ascertain at first hand the needs and requirements of the adjacent territory.

This will be our third annual trip of this kind, and upon its completion we will have visited all sections of our state.

Our special train will be composed of four standard Pullmans, a diner and two baggage cars. We carry our own band representatives of four New Orleans papers and our official photographers. This train will be so equipped that at each stop there will be direct communication with New Orleans, both telephone and telegraph.

We desire to extend you, and through you, to the merchants and business men of your city, a most cordial invitation to meet us and get acquainted. Our slogan is "New Orleans for a bigger Louisiana and Louisiana for a bigger New Orleans."

Very cordially yours, MERCHANTS AND MANUFACTURERS BUREAU.

A. H. BORDEN, Executive Secretary.

The "trade boosters" special will arrive here at 1:07 o'clock next Monday afternoon and remain until 3 p. m., when it will depart for points above. Arrangements are being made to receive the visitors with proper ceremony and extend them the hospitality of the city. Mayor Charles Maurin, who is also one of Donaldsonville's leading merchants, has written a letter tendering the New Orleans business men a cordial welcome to Donaldsonville, and inviting them to extend their stay at this point as long as their schedule may permit. After the formalities following the arrival of the train have been concluded, the tourists will be taken over the city and shown the principal points of interest.

Representative merchants and business men of the community have been invited to attend an informal reception aboard the train upon its arrival here. There will be music, speeches and refreshments, and the function promises to afford much pleasure and profit to everybody present.

Karl DeBuono, the efficient manager of the uptown office of the Western Union Telegraph Company, will leave shortly with his wife and little son for New Iberia to accept a similar position in the employ of the same concern, at a substantial increase of salary. Mr. DeBuono has been in charge of the local telegraph office for the past four years, and has made many friends here, who, while happy to learn of his promotion, will regret sincerely his departure from Donaldsonville.

RED CROSS APPEAL.

Great Relief Society Asks for Contributions to Mitigate the Terrible Suffering Entailed by War in the Balkans.

It is difficult to bring home to the public in this country the appalling suffering involved in a winter war in the Balkans. Communication is difficult, the cold is intense, and even rudimentary transportation is a matter of extreme difficulty. Moreover, the fighting in this particular war is likely to be of an especially bitter and severe character, while on the other hand the medical organization available is quite inadequate to cope with the large numbers of wounded.

Reports have been received both from our diplomatic representatives in Turkey, the Balkan States and Greece, and from the Red Cross Societies, of the desperate conditions of the thousands of sick and wounded and the inadequate medical service. With these reports have come urgent appeals to the American Red Cross for aid.

The British Red Cross and those of continental Europe are sending out medical detachments of doctors and nurses and hospital supplies in order to mitigate in some measure the terrible suffering entailed by such a winter campaign.

Because of the distance, the American Red Cross will not send expeditions of trained personnel, but it earnestly appeals to the generosity of our people to aid the sick and wounded soldiers of all the countries involved.

Though an armistice may be declared, the great number of sick and wounded must be cared for during a number of weeks and the troops must remain under arms in the field for months during the severe winter weather, with all the suffering and sickness this will entail.

The services of the American Red Cross will be rendered impartially to all the combatants concerned, but it is, of course, open to any subscriber to designate a donation for the special assistance of one or the other of the belligerent parties, and instructions to that effect will be strictly observed.

Contributions should be sent to the American Red Cross, Washington, D. C., to Jacob H. Schiff, Red Cross Office, United Charities Building, New York City, or any other local Red Cross treasurer.

Smallpox Among Negroes.

A despatch from Napoleonville to the New Orleans Times-Democrat, dated Nov. 8, says "Health Officer Roger was called to Belle Alliance plantation and Tigerville settlement, in upper Assumption, to investigate reported cases of smallpox among the negroes. He found three cases on Belle Alliance and several at Tigerville. A meeting of the parish board of health will be held today, and steps will be taken to check further progress of the disease."
