Pleasant Honeymoon Trip.

Mr. and Mrs. Emile Louis Garon, who were married here in July, returned on Aug. 24 from a four weeks' honeymoon trip to Colorado, and have taken up their residence at the home of the bride's father, Prosper Rodriguez, in Faubourg la Pipe. They spent some time in Denver and in Colorado Springs and visited many points of interest in the Rocky Mountains, including the snow-capped summit of Pike's Peak, 14,109 feet above sea level, where they enjoyed snowball throwing. They also visited the Cave of the Winds, Cheyenne Canyon, the Garden of the Gods, and other points, and spent a few days with George Rodriguez, the bride's brother, who is located at Denver. On their return they stopped at Fort Worth, Dallas and Sherman, Texas. At the latter place they called on Sister Angela, a sister of Mrs. Garon, who is a nun in a convent there. Since their return Mrs. Garon has resumed her position temporarily as local operator for the Western Union Telegraph Co., while Mr. Garon has taken up his work as agent of the Texas and Pacific railroad station at Belle Alliance, in Assumption parish.

A CARD.

Donaldsonville, La., Sept. 1, 1919. With the successful closing of the Colored Summer Training School held here the past month under the control of Prof. J. H. Whaley, a well-known educator of Mansfield, La., we, the undersigned citizens of Donaldsonville, express our appreciation of the splendid showing and impression made in this community. We deeply appreciate the good fortune of having in our city this teachers' and prospective teachers' training school, and we highly commend the wisdom of the ones who made it possible.

We commend our parish superintendent, Mr. H. P. Brongard, whose untiring efforts and unqualified support has been back of this Summer Training School since the day of its opening and which support in a large measure contributed to the success attained.

We commend the state superintendent of education, Mr. T. H. Harris, Mr. L. Favrot, our parish school board and the school boards of other contributing parishes for this valuable opportunity given our young people to prepare themselves to assume larger responsibilities in the educational crusade of this era, and we are confident that volumes of good will come as a result.

We commend Prof. Whaley, that splendid negro educator and live wire, who like Alexander when he came to the throne found a number of perplexing problems to solve, but with a zeal approaching that of Alexander, Whaley entered upon his task proving himself the master of the situation. We commend the associate teachers, Prof. Lee and Mrs. Rosa K. Johnson, who also labored assiduously with Conductor Whaley to achieve success.

We commend the students of this training school, whose department and class work, as well as to merit special recognition from leading citizens of this community, expressing a desire for the return of this school next summer.

We commend the Donaldsonville Chief for the assistance rendered this school in many respects. We also commend the Donaldsonville High School for the valuable aid this institution rendered.

We commend the Gulf Division of the American Red Cross for introducing the course in First Aid Nurse Training as well as Dr. L. C. Speight who conducted very efficiently the class, eighteen of which received certificates granted upon satisfactory examination by the American Red Cross.

Believing our community and the members of this training school have been highly benefited in the operation of this school here, we respectfully petition its return next summer, promising our full co-operation in every respect in the future as given in the past.

Mrs. J. N. Colomb left last Saturday for New Orleans where she will make her home in the future.

She will reside temporarily with her son-in-law and daughter, Mr. and Mrs. Delmayne Hanson. Her furniture was shipped to the Crescent City last Monday. Adolphe Netter, who recently purchased the handsome Colomb residence in Lessard street, removed therein with his family yesterday.

Fence Built at Cave.

A fence has been built on the south side of the big cave in the Smoak Bend drainage canal where it crosses the public road, thus affording protection to automobiles and all vehicles coming from below during the day time. But no lights or danger signals of any kind have yet been installed to give warning to travelers at night, and this should be done without delay.

Jannsens Melancon, the bright son of City Clerk Aramis J. Melancon, left last Sunday for Auburn, Ala., where he goes to enter the Polytechnical College at that place. He was accompanied as far as New Orleans by his father who returned Monday. This is young Melancon's third year at that school and he is making much progress with his studies.

Mrs. Alex Bloomentiel and her two charming and interesting young daughters, Misses Pauline and Lilly, returned home last Saturday from a delightful sojourn of six weeks at Connelly Springs, North Carolina. They report having had a most pleasant and enjoyable time while away and feel much invigorated in health as a result of their brief stay at the delightful summer resort.

After all, the vitality of the car depends on the battery

If the ignition is not absolutely right, no part of the car can function properly.

Many a car stays in the old age class while in reality its life is barely half spent—because its nerves are paralyzed by a failing battery.

The Eveready Storage Battery has proved a veritable fountain of youth for thousands of such cars.

The guaranty exceptions—this requires—efficiently interested to secure the facts—do not but agree with us. MAE GIRSHEFSKI, O. M. BABIN, OSCAR P. BABIN.

Experts or Theorists—Which?

The packing industry is intricate, complex—far more so than the railroads or the telegraph.

Every day multiplying needs of society increase its problems and multiplying responsibilities demand more of it.

Highly trained experts, specialists of years' experience, thinkers and creative men, devote their lives, their energies, their activities, to solving the problems of the packing industry and meeting its widening duties.

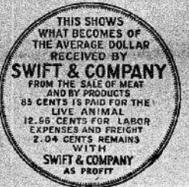

Swift & Company is not a few dozen packing plants, a few hundred branch houses, a few thousand refrigerator cars, and a few million dollars of capital, but an organization of such men. It is the experience, intelligence, initiative and activity which operates this physical equipment.

Can this intelligence, this experience, this initiative and creative effort which handles this business at a profit of only a fraction of a cent per pound from all sources, be fostered through the intervention of political theorists, however pure their purposes? Or be replaced by legislation? Does Congress really think that it can?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.
