TEACHERS CHOSEN FOR NEXT YEAR

Prof. Carson Re-Elected For Another Term—Some of Teachers Next Session.

On last Saturday the school board, at a meeting held here in the afternoon, Professor W W Carson, was re-elected principal of the Tazewell High School for another term. A number of the teachers whose applications were before the board were re-elected. Others will be acted upon later. It is generally conceded that the school has been a splendid success this year, under the present management. With few exceptions the pupils have made satisfactory progress, and the large majority of them are doing very fine work. The state school official, who was here last week, expressed himself as highly gratified, not only with the building and equipment, but with the personnel of the teachers and the work they are doing. He said that he did not believe that better work was being done in any school in the state than is being done here now. The teachers of this present school have proven their efficiency and faithfulness during the present session. They have had a maximum share of criticism, as all teachers have, and gotten a minimum of praise and approval as most teachers get, but they have gone on, doing their very best to impartially and faithfully discharge their important duties to our children. It seems to be the general consensus of opinion, that the school has a bright future, and taken all together, is a credit and honor to the town and entire community.

Teachers For Next Year

The following teachers have been elected for the High School for the session of 1910-1911: Miss Lou Coulter, Miss Virginia Carrington, Miss Mary Turk, Mrs. Elizabeth Hunt, Miss Vail and Miss Julia Davidson. All but the two last were re-elected. Other applications will be considered tomorrow.

Dogs Being Slayed

Great depredations by dogs on Bluestone and in the neighborhood of Falls Mills. Large numbers of sheep have been killed, and a few dogs, but not as many of the latter as these should have been. Eternal war should be waged against the sheep killing dogs, without fear or favor. Let no suspected dog escape. Where it can possibly be done with safety supplement the work of the shotguns with strychnine. If nothing stops the ravages, send for our G W Doak. He knows how to hunt 'em and shoots with unerring aim. If the tax collectors would do their full duty there would be fewer dogs in the country, anyway.

Does This Mean You?

Indigestion, sour stomach, constipation—then headache, backache and a general miserable feeling. Do you know that the pleasant herb tea, Lane's Family Medicine (Lane's Tea) moves the bowels each day and will remove all these troubles almost immediately? If you do not know it, get a package today at any druggists or at dealers—25 cents.

BENBOW

Benbow, April 7—Rev. Mr. Carson preached an excellent sermon at this place Sunday afternoon.

Farmers are most through with their plowing, and a great deal of other work so far there is a very fine prospect for a good fruit crop.

Mrs. Will Corell has gone to her home in Wytheville, where she expects to spend most of the summer.

Miss Mattie Crabtree is visiting in Bland county.

Mr. and Mrs. Ransom Hubble, of Bluefield, spent last week with homefolks here, Mr. and Mrs. John Buchanan.

George Crabtree has returned from Bland county.

Miss Crabtree, who taught at Pounding Mill the past session, has returned to her home here.

Master Frank Buchanan caught a large number of very fine fish in the Thompson Valley creek last week.

Charles Belcher, of the Cove, is spending a few days with relatives Frank Wall, the new rural route man, has taken his work this week.

An Awful Record

Every year thousands of men and women die of kidney disease who might have been cured if its presence had been discovered in time and a prompt treatment with Kidnets adopted. If you have backache, kidney trouble or other symptoms of kidney disease, begin using Kidnets immediately. Druggists and dealers sell it for 50 cents.

DEATH OF S. H. McMULLIN

Tip Top, April 7—Sidney McMullin, son of S H McMullin, of Bluestone, aged 22 years, died at the Catawba Sanatorium on Monday from congestion of the lungs. He had been in very bad health for some time, having consumption. He was in the goods business at Graham until his health became so bad that had to leave the store, when he went to his father's, where he remained until two weeks ago, when he went to the Catawba sanatorium, and while there seemed to be doing well, but on last Sunday he caught a cold and lived but a few hours afterward. None of his relatives were present when he died except his father, who reached him about two hours before. He leaves, besides his father, and mother and sister and brother a wife who was Miss Georgie Shrader and one child a few months old. The remains were brought home and buried on yesterday at the Taber cemetery at Ebenezer church, where his brother Ellis was buried just a little over a year ago. The funeral service was held at the church and were conducted by Revs. William Ballard, of Bluefield, and William Hicks, of Graham. As a testimony of the high esteem in which he was held, one of the largest crowds ever seen in the church, was present, and it was remarked that most every one seemed akin to the dead man by blood or marriage—near or remote. Seeing the two ministers referred to above, officiating together on yesterday recalled the following to this writer: Along during the years from 1875 to 1880, Rev. William Hicks, senior, an elder of the M E church, south, and his son, William, now pastor in East Tazewell, preached at the old camp ground on Bluestone known as Charles Chapel. Father and son were both eloquent and thundered against sin and called upon men to flee from the wrath to come and live holy and righteously.

It was during these days too that Dr. Chester Bullard and his son William of Snowfield were in this county at times in cooperation meetings of the Christians. Both were great and mighty preachers and it was a matter not to be forgotten to hear and see these pulpit orators. There are not many of the then active generation living now to greet the sons of the elders Hicks and Bullard as the latter remarked yesterday that most of the people present were born during the last thirty years. The days past were the times of the Fraziers, Jack, George and Tyler; Hicks, Haynes, Bowman, Sullins and others, who proclaimed the gospel in the John Wesley order. Of the persuasion of Alexander Campbell there were the Bullards—father and son; Haymaker, Lucas, Coghill, Calfee, Austin, and others, who called upon men to lead better lives. Alas, for the good old days of camp meetings and cooperation, we have lost, and the voices of the ministers heard then are heard no more; the people who lived along these valleys are buried "neath the sod of the hills." And that mighty, but silent throng are known mostly by tombstones and in memory.

Remember The Fair

Dont lose sight of the exhibit to be made at the Fair next Fall. Now is the time to get ready for growing your exhibits. Try to grow the finest vegetables for exhibition. Good premiums will be offered this year. The largest prizes will be offered for the best ten ears, and best ten stalks of corn. Try to grow 20 good ears on ten stalks. The coming fall will exceed all previous ones in the agricultural department. Keep it in mind.

Doing a Great Work

Rev. L. W. Smith, of Louisville, Ky., a recent graduate of the Southern Baptist Theological Seminary, preached in the Baptist church here on Tuesday night. Mr. Smith is one of a number of agents of the seminary now traveling through the South in the interest of the \$600,000 the Baptist people are raising as an endowment fund. The amount, it is expected, will be raised by or before January 1, 1911. Mr. Smith, among other interesting statements, said that the Seminary at Louisville is the largest Protestant denominational seminary in the world. This present year there are 325 students there, and that 500 men are now needed for the foreign field. He also said that there is a great falling off in ministerial students among all denominations. The demand for trained, educated preachers is greater than the supply.

WOMAN'S MEETING BEGINS TUESDAY

Missionary Union of Abingdon Presbytery Will Be Here in Fifth Annual Convention

The Womens' Missionary Union, of Abingdon Presbytery, will hold its fifth annual meeting in the Tazewell Presbyterian church, beginning with an organization meeting at 4:30 o'clock on Tuesday, April 12th, and continuing through Thursday, the 14th. There will be two meetings to which the men as well as the women are invited—one at 8 p. m. Tuesday, sermon by Rev. W W Arrowood; the other Wednesday at 8 o'clock, address by Rev. Woodbridge missionary to China.

To all other meetings the woman and girls of the town and community are cordially invited.

About twenty five ladies from different towns in Southwest Virginia are expected to attend as delegates

Richmond and Manchester United Now "Greater Richmond"

The agony, long drawn out, is over, and the final steps were taken on Monday which made Richmond and Manchester one city. An election was held on Monday resulting in a majority of 290 votes in favor of consolidation. Manchester will be known hereafter as "Washington Ward." It is understood that there will be no contest. The annexation adds about 20,000 people to the city of Richmond, making it the second city in the South.

Stump Clearing Demonstration

The stump clearing demonstration advertised in this paper to take place on the 22nd at 3 p. m. will be of interest to the farmers who may have land encumbered with stumps. Mr. LaBaume of the N. and W., gave a similar demonstration at Ivor, on yesterday. Dynamite has been used for this purpose in certain sections of the country for some time. It has also been used for beaking "hardpan" boulders, etc. Attend this demonstration next Tuesday, the 22nd, on the farm of C. H. Peery, near the depot, at 3 p. m., and see how it is done.

Unlawful Fishing

The following explains itself: Mr. J. A. Leslie, Dear Sir:—Is it or is it not, a violation of the law to use traps, nets and dynamite to catch fish? Our little creek is filled with traps and nets, and if this is unlawful it should be stopped. If not then we all have equal rights to use such devices for taking fish.

Very respectfully
Citizen.

Thompson Valley April 5th.

The law is against using dynamite to clear and anyone using it to kill fish should be reported to the grand jury and prosecuted to the extent of the law.

As to setting nets etc. there is some confusion as to the law on the subject. There can be no serious objection however to taking horny headed with a net as the life of a horny head is only a year anyway. The little ones usually slip through the meshes and escape or are thrown back if caught as they are not fit for food. But the use of dynamite kills both male and female alike and is a foolish as well as an unlawful thing to do. Report the dynamiters—Editor

FLOCKING TO STUART.

Pounding Mill, April 6
Mr. Editor:—I have been around over the country in the last few days, and H C Stuart's nomination reminds me of the old saying that the first thunder in March wakes up the snakes. So it is with the Stuart nomination. It has waked up the old, sleepy democrats that have been gone to their holes for the last six years, and it is my opinion that the Republican party will be blessed with a storm of Stuart thunder such as they never witnessed before on election day. I, for one, along with numbers of others, haven't been at an election for six years, but if I live to see the day and am able to get out I expect to beat the polls and place one ballot in the box for the good of the country and the memory of gone by days. So, with three cheers for the 9th and with the Honorable Henry Carter Stuart as a leader, I am yours truly,
A Working Man.

Play to be Given at Richlands

The Splinters Club will give a play at Richlands on Saturday the 16th at 8:15 o'clock in the Baptist church entitled "While There is Life There is Hope." Admission 25 cents. Everybody is invited to attend and a pleasant time is promised. Proceeds of the entertainment for charitable purposes.

The Land Was Sour

The opinion was expressed some time ago that the Buxton lots needed lime. It was thought improbable from the fact that the soil is naturally a strong limestone, and had not been cropped for forty years until recently, and that the soil had no opportunity to leach and wash, and that, if there was land free from acid and in good shape it is this land. Last Saturday a test was made. A handful of soil taken from an inch or two below the surface and made into a thick mud. A piece of Litmus paper was put into the mud, and in a short time had changed from its blue to a decided pink color, showing that the soil is strongly acid. If this soil needs lime it may be safely concluded that most of the soil in the county needs it. The acidity of this soil, no doubt, accounts in part for the rather poor growth of the present crop of crimson clover now growing there. Ask Mr. Campbell for a piece of Litmus paper and directions. Directions say to use rain water, but ordinary spring or pump water will answer. And, while on the subject, it is probably true that the bluegrass itself needs an application of lime occasionally. It eats and lives on lime, takes up great quantities of it, and cannot live without it, and the longer a field stands in bluegrass the less lime the soil contains. The fact that a field has been in bluegrass for many years is the very reason it may need lime. The bluegrass has been consuming it slowly but surely for years. Try a load of lime on an acre of bluegrass and see.

C. M. Cecil Dead

Mr. Chesley M. Cecil, a member of the well known family of the name in this county, died at his home, near Pisgah, on last Saturday morning, about 3 o'clock, in the 62nd year of his age. He suffered a second stroke of paralysis a short time ago, which was the immediate cause of his death. For several years he had suffered from paralysis, and other ailments, and in an enfeebled condition he was unable to overcome the effects of the last attack. The funeral and burial was delayed until Tuesday, awaiting the arrival of a son from Oklahoma.

Besides a wife deceased leaves a family of three sons and four daughters, viz: Chesley M., living in Oklahoma; S. W., James P. and Samuel W., are living in this county, and Mrs. John Maxwell, Mrs. B. P. Ratliff, of Dante; Mrs. James Maxwell, of Bluefield, and a young daughter, Marie, nine years old. He was a life long member of the Methodist church and a good man and citizen.

A Pleasant Social

The following account of a very pleasant event was overlooked, and should have appeared in our last issue—Editor.

Falls Mills, March 30—There was a birthday party given at the home of Mr. and Mrs. Charley Hale in honor of their daughter, Ollie. Many delightful, old fashioned games were played, after which the refreshments were served. The was ice cream, and cake, and all kinds of fruits. The young folks stayed until a late hour and all regretted when the time came to go home. Those present were: Misses Mollie Tabor, Helen and Louise Gilhepie, Annie Nash, Mollie and Bessie Hale, Hattie Carter, Gladys Ransom, Rose Summers, Myrtle Kirtner, Messrs. Arthur and Robie Harry, Clinton Tabor, Hoge Tabor, Grover and T E Tabor, Jr., R M Reed, Sidney Conode, Silas Hill, James Benbow, Will Tiekle, Mr. Hearst.

Frost Proof Cabbage Plants

Frost proof cabbage plants—Early Jersey Wakefield, for sale at the News office. Cold weather doesn't hurt them—put them out any time. Haven't many; better come quick. Price—3 dozen for 25c.

Cove Creek

The following notice was received in this office last Friday, too late for publication:

Cove Creek, March 31—Dear Mr. Leslie:—I write to inform the editor of the Register department that a rousing, big Democrat arrived at the home of Mr. and Mrs. T. L. Shuffelbarger last Friday morning. Mother and child doing well.

Farmers are busy sowing oats and preparing to plant corn. Never before have I seen farmers so much interested in their crops as they are this spring. If the seasons are favorable you may look out for Cove Creek at the Fair this fall with an exhibit of corn, oats and potatoes, that some fellow will have to hustle to beat. Much of this interest is due to the editorials, etc., in your valuable paper on growing more and better products.

Stockholders Meeting.

The annual meeting of the Buckhorn Iron and Improvement Company will be held at the law office of Chapman & Gillespie, Tazewell, Va., on Monday, May 9, 1910. All stockholders are requested to attend.
