The New York Herald, famous as a political prophet, has issued its first forecast, in this national campaign. These forecasts are impartial, and free from party bias. This forecast puts Wilson first in New York, Delaware, New Jersey, Ohio, Indiana, Kentucky, West Virginia and Wyoming, with Roosevelt second in all these states except Ohio and Wyoming, where Taft runs second and Roosevelt third. Roosevelt, says this first forecast, will carry Connecticut and Pennsylvania, with Wilson second. Says the Herald: "A drift to Democracy, a great loss to the Republicans and a heavy progressive vote is indicated. The above is culled from The Lynchburg News.

Paint And Not

Paint was never before so high as last year and this: about \$2.50 a gallon Devco and a half-dollar less for trash?

What is trash?

It looks like paint and pretends to be paint, but isn't worth painting. It costs a painter's day's work to put on a gallon of paint, good or bad; and a painter's day's work is \$3.00 or \$4.00.

Add that to the price of a gallon. That is the cost of a gallon Devco is \$5 or \$6 a gallon; and trash a half-dollar less.

But Devco is all paint and more too; you add oil to it; a gallon is 5 or 6 quarts of perfect paint for the painter's pot. But trash is three-quarters two-thirds or half paid; you pay a half-less for nobody-knows-what-it-is.

10 gallons Devco is enough for the average job; it takes 15 to 20 gallons of trash. And the wear same way. Unfortunately, they look alike when first but on
