COAL SHORTAGE IS SERIOUS NOW

Less Than Forty Per Cent of Normal Output is Being Produced, According to Report of Railroad Head.

Washington, Nov. 25.—With less than 40 per cent of the normal output of bituminous coal being produced, the Nation is facing its most serious crisis since the strike of soft coal miners was ordered, according to reports received Tuesday by the Railroad Administration. In scores of cities, the number of industries in operation is rapidly falling while the Nation's coal bin continues to diminish.

Officials held out only a ray of hope for increased production. While last week's production showed an increase over the previous week and indications were for a production of about 50 per cent of normal this week, officials said they could not expect sufficient production to check the drain on the national supply until all differences between the miners and operators are ironed out by the conference here.

Temperatures Drop.

Meanwhile temperatures in the north half of the nation have dropped and the cry for coal for household purposes grows louder. So far the supplies have been dealt out rather liberally to meet the demand. It was said but further releases of coal must be limited if the nation is not to face a serious tie-up of industry as well as transportation before normal production is again reached.

Ranks of the soft coal miners, while showing some losses in men returning to work, still hold firm, reports showed. In some districts, it was said, men have gone back to their jobs in large numbers but in many mining areas the union ties have continued to keep the mines closed.

Reviewing the coal supply situation the railroad administration reported that 22,000,000 tons were held under its distributing system on November 2, the second day of the walk-out. Since then these stocks together with current production have been drawn on to supply fuel for the railroads, ships, public utilities, essential industries and public welfare institutions as well as for household uses.

Many Cars Held.

The railroad administration's central coal committee still is holding the thousands of cars of export coal assembled at Atlantic tidewater

ports. Officials declared that, contrary to reports, conditions were normal at the ports where this reserve supply of coal is held and that no congestion was being permitted.

Where Production Is.

Production is now mainly in the East in the South and in the Rocky Mountain region. In the central states where bituminous coal is largely used, there is little or no present output. The railroads have the difficult and unusual task of moving to the west a large part of the production of such fields as the Pocahontas, and Pennsylvania that normally moves east. The 22,000,000 tons, the railroads had on November 1 was as evenly distributed as possible over the country but in the sections where there had been no production supplies have become depleted and coal from the eastern production fields has been and is being sent west to fill these needs.

Steele who Mrs. Goodman is a domestic. Considerable pus was taken from the child's back, caused from a fall some time ago. The operation was so very painful that it necessitated the child being put under chloroform, which was administered by Dr. Rex Steele, who happened to be in the house at the time. The child is recovering rapidly.

Wm. Shepherd moved his family from W. B. Steele's (the Williams place) to Richlands where he bought a farm near Praters school house. Mr. Shepherd's sister, Mrs. Eliza Pruet, died suddenly at Richlands Saturday. Mr. Floyd McGuire, an old Confederate soldier, is still lingering at home, the home of his son, Chas. McGuire on Pounding Mill Branch. He seldom speaks and eats very little. He has been confined to his bed since July 5th. His death would not be a surprise at any time. Mr. Chas. McGuire has been very sick of scarlet trouble in his side, while his daughter, Mrs. Cora Ashby, Thompson Valley, who is visiting here suffered tonsils. Jim McGuire and little son have recovered from their recent illness of the flu. Truly, troubles do not always come singly. He lost a fine horse recently, from being choked.

Mrs. James H. Johnson was called by message to Raven on Monday on account of her father, Richard White, having been kicked on forehead by a horse. His brother, Israel White, at Cedar Bluff is also very sick, having been unconscious, both are quite of an dfeebie. The latter is reported a little better.

SGT. THOMPSON IS EXONERATED

Grand Jury, After Exhaustive Investigation, Fails to Bring Indictment Against Him For Alleged Shooting.

The grand jury, in its deliberations Tuesday and Wednesday, had the usual variety of alleged violations of law brought to its attention, among the number being the shooting of James Alexander, the young son of Mr. and Mrs. J. Frank Alexander, of this town.

The jury, after a thorough investigation of the matter declined to find an indictment.

It will be recalled that Alexander was shot Halloween night while he and a number of other boys of the town were engaged in making life miserable for the Sergeant by tearing up sidewalks, obstructing roads, and sidewalks, with any available material, etc. The shooting is said to have occurred between the buildings of the Tazewell Motor Co and the store of Fuller Brothers' about midnight. Alexander and the other boys had attempted to move lumber and other things to Main Street, when they were surprised by the Sergeant who was in hiding in a dark place.

When he emerged from his hiding place the boys began to run, down the street between the buildings, and to scare them the Sergeant fired his pistol in the direction in which the boys were running, but the Sergeant states that he held the barrel of the gun in such a position that the bullet would have gone far over the heads of the fleeing boys. Alexander who was running, was shot, he claims at the time the report from the Sergeant's pistol was heard.

A strange feature of the shooting is that the bullet entered the front of Alexander's leg, just below the knee, ranged downward and came out at the calf of the leg, when the only shot fired, according to all the witnesses, was the one fired by the officer, when the boys were running from him. Members of the grand jury were of the opinion that it was likely Alexander had received his wound from some other source than that of the Sergeant's weapon.

Sergeant Thompson is one of the most faithful officers this town has ever had.

Christmas And Goods.

Yes you say it is the same old story, "cannot buy what I want." Well, I will be perfectly frank, merchandises are hard to get. I ordered some Christmas stock last February, part of it has not come yet. Some Holiday goods I simply could not buy, they were not on the market. But listen, I have added other things until now I have more goods than I ever had. In gentlemen's and ladies' jewelry I have stock far surpasses anything I have ever had before. I bought these things for you. Why go out of town and pay higher prices? At least give me a chance to show you. H. W. POBST.

The Mail Order Octopus.

One mail order house in Chicago last year did business amounting to two hundred and eighty million dollars. Think of that! It did a twenty-one million dollar business in shoes alone. Yet, this is only one house; there are many of them in all the big cities of the country and all of them are doing a bigger business today than ever before; declaring dividends of 35 per cent to 100 per cent on their capital stock. Do you know why this is as it is? The mail order houses are advertising.

Seed Situation Serious.

Blackburg, Va., Nov. 25.

To all county agents:

This office has received a communication from the Washington office stating that the seed situation for the coming year is somewhat serious, and that there is a probability of a shortage of good planting seed for the spring of 1920. In all sections where the soil has been heavy and the temperature high during the months of October and November matured seed, undamaged by weather conditions, may be scarce. This is especially true of corn and possibly other crops.

Therefore, I urge you to call the attention of your farmers to the seed situation. Ask them to save all sound, mature seed and to hang on to all the supply in sight so that farmers may not have trouble this coming spring. If the situation is urgent in your section it will require your most vigorous action, prompt efforts, and thorough organization. Publicity, both in the papers and through the proper organizations in the counties, will be helpful.

Yours very truly,
J. R. HUTCHESON.

STATEMENTS OF YOUR ACCOUNTS.

TAZEWELL, VIRGINIA

Special Notice to Subscribers.

On and after January 1st, 1920, the subscription price of this paper will be increased from \$1.50 to \$2.00 a year, strictly in advance. Up to January 1st 1920 new and renewal subscriptions will be received at the old rate of \$1.50.

The present rate of \$1.50 was established May 1st 1914, before the war. The increase in price of paper and material makes it impossible to get out the paper for \$1.50 and make even a small profit. The price of paper is higher now than a week ago, and will go higher still.

We give ample notice therefore, of this increase in rate. If subscribers wish to renew now at the old price they can do so. If they choose to defer and pay the higher rate of \$2.00 they can do so.

Some few subscribers will discontinue. This is to be expected. They will, of course, pay back dues if any, before doing so.

CHILDREN OF THE RICH SUNDAY SCHOOL SLACKERS

Poor East Side Churches Have Much Better Attendance Than Old Trinity, the World's Wealthiest Parish.

The little son of poverty is a regular attendant at Grace Chapel, East Side, N. Y. The son of wealth is not so regularly seen at Sunday School.

The children of the poor are better Sunday School scholars than the sons and daughters of the rich, surveys of over 100 New York City parishes of the Episcopal Church indicate.

The surveys which are a part of the Church's Nation-Wide Campaign to be waged Sunday, December 7, for a minimum of \$25,000,000 from Episcopalians only, developed that children are neglecting Sunday School; and that of those who do go, the children of the poor show to much better advantage than do those of the rich.

Old Trinity at Broadway and Wall Street, rated the wealthiest individual parish in the world, with realty investments of over \$20,000,000, reported a Sunday School enrollment of only 100

children over 1,000 communicants. Grace Church with a budget in 1918 of \$390,041.83 reported an equally small percentage.

A few blocks away where children through the tenement houses of the lower East Side, little Grace Church Chapel has a Sunday School of 450. St. Bartholomew's Church at Fifth Street and Park Avenue, a mecca of fashionable has only a five per cent. Sunday School enrollment. Well-to-do St. Ignatius' parish at East End Avenue and 87th Street, has only thirty-seven children in its Sunday School compared with 600 communicants.

Rehabilitation of its Sunday School is one of the purposes of the Episcopal Church's Nation-Wide Campaign.
