France, say returned travelers, is barren soil for Bolshevism. Its people are concerning themselves with rehabilitating the nation. American economists ascribe the incredible progress of the French toward restoration to the universality of property ownership.

Such is the basis of the government's "EARN, SAVE AND INVEST" campaign. It seeks to make each boy and girl in school this year a convert to the doctrine that all must work, live within their income and invest their savings to aid the nation and themselves.
