

WHERE IS COL. HOGE?

A REPORT THAT HE IS IN AN INSANE ASYLUM DISCREDITED.

The Rumor That He Endeavored to Secure a Life Insurance Policy Denied—Captain Coloe Talks—Other News.

THE BUREAU, BAPTIST BUILDING, WASHINGTON, November 11, 1893. The city was never more quiet than to-day. The President remained at his country home, engaged in the preparation of his message to Congress, which not only by the party, but by the whole country, is looked forward to with the greatest interest since the days of Lincoln.

The matter of appointments has nominally been left to the chief officers, but it is generally believed that the President would name the successors of Judge Bond, the Marshal of the Eastern Virginia district, and the postmaster at Norfolk and Richmond, before he went into his retirement.

Colonel Hoge is reported from San Francisco, received to-night, that the Colonel is quietly resting within the sheltering walls of an insane asylum, on the Pacific coast. This report is a quieting of the nerves of the Governor's relatives, that he might be doing something worse than recovering from the spree whose inauguration was chronicled by Mrs. Hughes.

The Colonel's friends here, however, do not seem to credit the story of his incarceration in any asylum. Colonel Hoge is reported to be in the city, and it would not be improbable if the story is true, said a clerk in the State Department this afternoon, "but, even then, it is only natural that a man expecting to go to China in a few days, should take out a life insurance policy."

Professor Conrad, with whom Colonel Hoge sometimes stops while in Washington, said he did not believe any word had come from him since the steamer sailed. Some of his reported messages sound very much like Hampton, he said, "but I have known him long enough to be sure that his first words would be to tell me that he was in the city, and they have surely received nothing as yet."

Another friend of the Colonel's says that if the messages reported in some of the papers are really from Colonel Hoge, they are prima facie evidence that he is not drinking, for he never drinks and writes at the same time. The whole thing can be summed up into one of two propositions: either Colonel Hoge started drinking on his return from China, or he started for China. It is incredible to suppose that a man with Colonel Hoge's reputation for brilliancy and activity, could sit quietly down in San Francisco and drink himself into a stupor for the day before he had written a detailed dispatch of his westward journey.

The fact that Colonel Hoge received the telegram beyond dispute from the report of his friends in the city, is a fact that is smarter than he is credited with being. It may have been received, but I do not believe it was. For the Colonel is a man with a quick sense for danger, and he had opened that message he would have hurried back here and pronounced his arrival as a lie.

It is a fact that the late Senator of Cumberland, the defeated candidate for Governor of Virginia, on the Republican ticket, arrived here on a late train last night, and registered at the National. I called on him and he said that he had not seen anything else that would lead to a disclosure of the cause that brought about the result in the last election, and it is extremely distasteful to me to be asked to analyze the vote, as I have not had either the time nor opportunity to analyze the vote, as I have not had either the time nor opportunity to analyze the vote.

I would greatly prefer not to say anything about the cause that brought about the result in the last election, and it is extremely distasteful to me to be asked to analyze the vote, as I have not had either the time nor opportunity to analyze the vote, as I have not had either the time nor opportunity to analyze the vote.

SCORED AGAINST YALE.

FOR THE FIRST TIME IN YEARS THE QUAKERS ACCOMPLISH THIS.

Enthusiasm and Hard Work the Features, for it Was a Game for Blood-Numinous Other Games.

NEW YORK, Nov. 11.—For the first time since 1855, the University of Pennsylvania has scored against Yale on a football field, and for the first time in three years, the giants from the City of Elms have left the field without donning a goose egg to their opponents. All this happened to-day on Manhattan field, in a game of foot-ball.

The game to-day for enthusiasm and hard work has been equalled, and seldom if ever since the Quakers were broken blood from the loss of the copper to the calling of time at the end of the second half. It was a game that practically brought a victory to Pennsylvania colors, though the cold, hard score said it was a defeat, the score standing 11 to Yale's 6.

The Quakers point to that score and the work of their men and remark as they do that it is about time they were given credit for knowing something about foot-ball.

No game ever approached the annual Thanksgiving Day struggle in the interest shown and in the crowds that gathered as did to-day's. It was, to begin with, an ideal foot-ball day. The sun came out in warmth and splendor, and the air was a beautiful stretch of green, whose white-washed lines glistened in the light. The crowd that grew in extent until it approached 100,000 numbers, began to flow in early. On the blue surrounding the field there was a crowd that numbered fully 5,000 or more, on every hill and house top in sight was a black mass of humanity.

The college best were wearing Pennsylvania blue. The Quakers were particularly strong. Some one had said that nearly half the college would be there and he was not far astray in his prophecy. They occupied two of the bleachers and their yelling went further than the annexed district.

No such howl had ever been sent up from a foot-ball field when Knipe made a touch-down for Pennsylvania in the second half. The crowd went wild, and the stands were one broad sheet of red and blue. That part of the crowd which, at the beginning of the game, had no particular favorite, lent its sympathy to the Quakers after the grand kick they made, and all joined in cheering for Pennsylvania.

The punting of Brooke was excellent, and he was never found wanting. The hard, honest work of the Quakers scored the only touch-down for Pennsylvania. The ball had been forced with startling rapidity down Yale's territory after the second half. It was within the ten-yard line when the ball was passed to Knipe, and he tried through the center. He found a solid wall there, but discovered an opening at the right, where Henry Rhodes, who had been so prominent in the first part of the game, settled down to his usual game of center line, and seldom failed to make a gain. At punting he was not so successful as Brooke. Thorne gladdened the hearts of the Quakers for the blue by his exhibition of form. Knipe was willing to take the responsibility of the blow. It was by the smallest chance that Yale scored in the first half. Only a few minutes before time was called, the ball was kicked to the Quakers. But shortly thereafter commenced his great work. He found Mackey and Woodruff weak and went through them for several gains in rapid succession. Vail was badly injured in the first rush, and Knipe was willing to take the responsibility of the blow. It was by the smallest chance that Yale scored in the first half.

AN EMPTY PROGRAMME.

THE ANNUAL CONFERENCE OF THE CONSERVATIVE NATIONAL UNION.

The Conservatives are Working Upon the Hope That the Liberals Will be Ousted at the Next Session of Parliament.

(Copyright 1893 by the United Press.) LONDON, Nov. 11.—The arranging of the programme for the annual conference of the Conservative National Union was only finished last night. As finally announced, it presents nothing new. It avoids making any declaration on the questions of electoral reform, the disestablishment of the church in Wales, or other political issues, on which it would be dangerous to commit the party.

Lord Dunraven, who, besides being a genuine sportsman, takes rather great interest in the success of the Conservatives, will preside at the conference, and Lord Salisbury will make a speech. On the second day Sir Ellis Ashmead Bartlett, who sits in Parliament for one of the Sheffield divisions, will represent the south division of Lancashire in the House of Commons, and will speak in favor of boards of arbitration for the settlement of trades disputes.

Mr. Arthur Hugh Smith-Barry, representative in Parliament of the south division of Huntingdon, will call the attention of the conference to the time wasted by Parliament by discussing an impossible Home Rule bill.

The more prominent resolutions to be submitted will be one affirming that Great Britain is suffering from the effect of the disestablishment of the church in Wales or other political issues, on which it would be dangerous to commit the party.

Viewed as a whole, no emptier programme was ever submitted to a great party caucus. It is significant that nothing is said in the programme about forcing the dissolution of Parliament. The conservative cue now being followed by the Liberal Unionists is to avoid the government as certain to be ousted at the next session either on the measure providing for the disestablishment of the church in Wales or on the budget. It is a double-edged sword, unless the anti-Parnellite section of the Irish parliamentary party gives the government unrelaxed support during the divisions on the disestablishment bill, Mr. Gladstone and his ministry will be compelled to resign.

The budget, too, will prove a point of danger. The trade of Great Britain is so depressed, and the customs receipts so diminished, while the expenditures are not lessened, that an enormous deficit will be the result of the budget. The only possible solution of the financial question will be the imposition of fresh taxation, and this will, of course, make trouble.

Having decided in mind, the members of the Conservative National Union will clamor for the dissolution of Parliament. They are satisfied to make the ministry stew in its own juice.

In regard to the fidelity of the anti-Parnellite section of the Conservative National Union, it will depend for its existence, it can be plainly said, it is being subjected to a heavy strain. The visit of Home Secretary Asquith to Dublin, for the purpose of conferring with Mr. Gladstone, secretary for Ireland, was fruitless of result, so far as benefit to the Irish political prisoners and tenants is concerned.

Mr. Morley was in favor of making concessions on these questions to the Irish members of Parliament in order to secure their support to the government, but his policy was overridden by Asquith. The latter's return from Dublin has been followed by a sequence of coercive measures similar to those that prevailed during the eviction of Balfour as chief secretary. The recent campaign on the Deane's estates and the prosecution of William Field, Parnellite member of Parliament for the South, Mr. Gladstone, member of Parliament for South Roscommon, and the others who were committed for trial on charges of rioting while these evictions were being made, followed the chief secretary's return.

Eleven of the most popular men in the country have been unwisely selected for the cabinet by the government, which entered office pledged to end coercion, to restore evicted tenants to their holdings, and to dismiss from office non-royal magistrates. Nothing keeps Dillon and O'Brien and other anti-Parnellites from the cabinet except the fear that without him home rule would die.

Private representations made by the Irish leaders to Gladstone and Morley on the difficulties of their position received a sympathetic but not practical response. The strong element in the cabinet opposed to Morley triumphs for the time, but it requires little gift as a political prophet to foretell that the present administration that will admit the resourceful energies of Gladstone to avoid.

ARMY FOR BRAZIL. An "Immediate Permit" to Transfer Them to El Cid Granted. NEW YORK, Nov. 11.—The Brazilian government has purchased a large quantity of arms in France, and these arms arrived here to-day on the steamship La Touraine. The shipment comprises nearly 200 cases of arms to the Hotchkiss Arms Company. One of the officials of the company applied to-day at the customs house for an "immediate permit" to transfer the guns to the El Cid.

The permit was granted at first refused, but after satisfactory proof had been submitted to the customs house, and not for Admiral Mello, the demand was complied with. The guns are being transferred to El Cid to-night, and it is said that by the time they are put on board of her, her arm will be complete and she will be ready to sail.

THE NEW YORK FOR BRAZIL. A Report That She Will be Sent Thither Cannot be Confirmed. WASHINGTON, Nov. 11.—There was a rumor that the cruiser New York would be sent to Brazil as soon as she could be made ready for sea, which means as soon as the necessary changes can be made in her gun circles. The rumor could not be confirmed, and probably had its origin in the desire of the department for a short cruise, and in fact, that the Navy Department was in receipt of a long cipher despatch from Brazil, which had not been made public and therefore, was assumed to be of a disturbing character.

The Secretary of the Navy to-day approved the report of the Naval Board which was charged with the examination of the merits of three types of six-pound rapid fire guns which are used at present on United States naval vessels, at present on the Hotchkiss, the Briggs-Schroeder and the Sponson guns. The finding of the majority of the board is in favor of the Hotchkiss gun, although the difference in its favor is very slight as compared with the Briggs-Schroeder.

OTHER OUTLAW KILLED. Captain John Miller Shot Down by the Crew of the Maria. ANNAPOLIS, MD., Nov. 11.—Captain John Miller, of the oyster-dredging sloop Ostich, of Baltimore, a notorious violator of the State dredging laws, was shot and killed to-day by the crew of the Maria, a schooner owned by the same Miller. Miller was caught violating the laws this morning, and was fleeing from the officers when shot.

The very first steam locomotive constructed in America was made by the Kembles Company, of West street, New York, in 1830-31. This pioneer American "triumph of the mechanic's art" was used on the Baltimore and Annapolis road, and first used on a short freight road between the city last named and a small place called Ham-burg.

NEW ORLEANS, Nov. 11.—Late yesterday evening a petition for an injunction was filed by Attorney-General Cunningham against the Olympic Club to prevent the Brown-Abbot glove contest on the 15th inst., as advertised. The injunction was granted. The attorney-general has filed a petition that the charter of the club be violated, the law in holding prize fights, the attorney-general designating glove contests as prize fights.

WHEELMEN HANCOCK AND HOFFMAN LEAVE STAUNTON TO-DAY FOR THE NORTH. STAUNTON, VA., Nov. 11.—Special J. H. Hancock and J. S. Hoffman, wheelmen from Roanoke, Va., put in an appearance here this afternoon at 4 o'clock. They left Roanoke this morning on the train of 4:30, arriving at Staunton at 11:15 P. M., and mounting their wheels, struck out for Staunton at 2:30, running thirteen miles over a very rough road, says Wheelman Hoffman. They leave here at 6 o'clock to-morrow morning, breakfast in Harrisonburg, and then run twenty-five miles, and stop for the night at Woodstock, sixty miles from here. These young men are out on a ten-days' trip. They will go to Winchester, and then to Hagerstown, and then to Washington, and then to a run North. These gentlemen seem to be in fine condition, and attract great attention to-night at the Virginia Hotel by their splendid physical developments.

INTERESTING GAME YESTERDAY AT LEXINGTON. The Richmond College Foot-ball team was completely vanquished here this afternoon by the Cadet team of the Virginia Military Institute, by a score of 34 to 0.

THE GAME WAS CALLED AT 3 O'CLOCK WITH THE VISITORS IN POSSESSION OF THE PINK BALL. The game was called at 3 o'clock with the visitors in possession of the pink ball. Telling game, but lost the ball in the second rush. The V. M. I.'s in the third rush made a touch-down. Richmond again took the ball and it was captured in the first rush. Ten the V. M. I.'s played May through the line on the Richmond team, and made a 30-yard touch-down. Biscoe kicking goal. Richmond again with sphere, and, as before, lost it in the first rush, but the V. M. I.'s kept it in the second rush, and near the goal, but regained it on the next rush and made a touch-down. The Richmond with the ball, lost in the kick for goal. Coffey, of the V. M. I.'s gets it. Richmond scored a 10-yard touch-down. The next move Richmond played hard, gaining 30 yards in the second rush, and was near the goal when time was called. Forty-five minutes first half.

The second half opened with the V. M. I.'s playing ball for all that was in it. Captain Duke, of the Richmond team, had his arm fractured in the first rush, and Pierson was substituted. The V. M. I.'s lost the ball and Richmond got within 10 yards of the goal, when Holt captured the ball and went around the end, making a 30-yard touch-down. Biscoe falling to kick goal. Richmond lost the ball in the next second rush, and made a 9-yard touch-down. The visitors again took the ball in the first rush, and, after several hard rushes. Coffey, of the V. M. I.'s, made a touch-down, and kicked goal. The Richmond had the ball when time was called. Thirty minutes was out from the 45 on account of Duke being injured.

NAVY CADETS BEAT TO-GETHER. ANNAPOLIS, MD.—Georgetown University was defeated to-day by the U. S. Naval Cadets. Within six minutes after the game was called, Carmody secured a touch-down for the University, but failed at goal. Kimball touched for the Cadets eleven minutes later and Bagley kicked a goal. Segar secured the second and last touch-down for the University, and Carmody kicked the goal. The Cadets forced the play threatening, and scored twice points before the close of the first half, the score then being 12 to 1 in favor of the Middles. In the second half Kimball touched and Bagley kicked goal. Bagley touched down but failed at goal. Final score: Cadets, 21; Georgetown, 10.

THE GEORGETOWN MEN AVERAGED TEN POUNDS MORE TO A MAN THAN THE CADETS. BIRMINGHAM, ALA., Nov. 11.—The Swann, Tenn., University eleven de-

FEATED THE UNIVERSITY OF ALABAMA ELEVEN IN AN EXCITING GAME OF FOOT-BALL THIS AFTERNOON, BY A SCORE OF 20 TO 6.

There were about 600 people present. Nelson's forty-five yard run and touch-down was the feature of the game. Both sides played well.

Other Foot-Ball Games. NEW YORK, Nov. 11.—Other games to-day resulted as follows: At West Point—Military Academy team, of Cornell, and Columbia College eleven, of New York, defeated the Orange Athletic Club, 18; Yale University, 10; and Princeton, 10.

BOSTON—Harvard Athletic Association, 3; Boston Athletic Association, 0; Williamstown, Mass.—Williams, 21; Tufts, 0.

UTICA, N. Y.—Hamilton College, 6; Rochester University, 11; Exeter, N. H.—Phillips-Exeter, 26; Phillips-Andover, 0; Crescentic, 26; New York Athletic Club, 0.

BALTIMORE, M. D., Nov. 11.—Johns Hopkins eleven and the St. John's College team played a touch-down, from which a goal was kicked, the score being 6 to 6 at the finish.

THE GAME AT LYNNBURG. LYNNBURG, VA., Nov. 11.—Special.—The foot-ball game here this afternoon was a close one, the Virginia team being the victors. The game was called at 3 o'clock with the Virginia team in possession of the pink ball. Telling game, but lost the ball in the second rush. The V. M. I.'s in the third rush made a touch-down. Richmond again took the ball and it was captured in the first rush. Ten the V. M. I.'s played May through the line on the Richmond team, and made a 30-yard touch-down. Biscoe kicking goal.
