A HANDSOME STRUCTURE.

THE CHURCH OF THE HOLY TRINITY NEARING COMPLETION.

Sketch of the Church—A Beautiful Style of French Gothic—Mr. Barney's Gift, Its History and Architecture.

The new house of worship of the Holy Trinity is now almost complete.

In addition to being a fitting memorial to the venerated Bishop Moore, the building, when complete, will be one of the most imposing edifices of the kind in the city.

In 1871, by order of the vestry of St. James' church, erected the church of the Holy Trinity in an off-shoot, the present site of the structure on Laurel street, between Main street and in July, 1874, a chapel was completed.

The building committee decided to consult Mr. J. Stewart Barney, of New York, formerly of this city, and that gentleman, after some correspondence with the committee, and after having been approached, made the following liberal proposition:

That in consideration of the fact that the church was the one attended by his mother, the late Mrs. Charles C. Barney, who had long been a member of the church, he would donate to the church his professional services, and would have the cost of the same stated on a tablet placed in the building, as a memorial to his mother.

Mr. Barney's proposition was accepted, and the front portion of the building, which is on Laurel street facing Monroe Park, is the result of his labor and architectural taste.

The most striking feature of the structure next to its purity of style, is its restful dignity. The architect adopted a scheme to concentrate the ornamentation in the facade, and to bring it into contrast with the wall surfaces, at the same time avoiding an elaborate and heavy display of sculpture.

The ornament is concentrated at three points. The first of these is the main door, the details of the embellishment of which bring to mind forcibly the beautiful entrance of the French school in which the architect has worked.

The next point is the circular stairway tower, which is pierced by a richly carved iron balcony. The stairway and through interior window, which is the crowning feature of the design, is the top of the main tower. Segregated from the ornamental scheme of the building for the most part, is the tower which is the most conspicuous feature of the design.

The large auditorium is finished. The main body of the church remains open, but the plan, a nave and two aisles, and the choir, are complete. The large auditorium is finished. The main body of the church remains open, but the plan, a nave and two aisles, and the choir, are complete.

Mr. Barney who is a native of this city, completed his course in architecture in 1879, and was for several years in the office of Mr. George B. Post. He won a competition for a group of school buildings for the corporation of Grace church, New York, which will cost \$300,000, and consists of church, hospital, school-house, clergyman's house, and boys' club. Later he became associated with Mr. Henry Otis Chapman, and his firm completed successfully for the church of the Holy Trinity a building to be erected in New York by the Rhineland estate; also for the Hart Memorial Library to be erected in Troy, N. Y.

Messrs. G. P. Newell & Brothers are the general contractors for the church of the Holy Trinity, and Mr. James Netherwood is the stonemason. The construction of the building has, however, been under the supervision of Mr. E. T. D. Myers, civil engineer, who has given his services free and devoted his time and labor unselfishly to his country's task. His has been, as was Mr. Barney's, truly a work of love.

ITS SEATING CAPACITY. The congregation of the Church of the Holy Trinity embraces about 250 communicants and the general attendance is as follows: Main body of church 130, Gallery 35, Choir 25, Morning Chapel 100, Total 310.

Rev. Dr. Sprague resigned the rectorship a little over a year ago, after long, faithful, and consecrated work, and the present rector, who is called to succeed him, Mr. Gravatt entered upon his charge with zeal, and soon endeavoring himself to become a member of the church. He has carried on the good work of his predecessor.

In February last the name of the church was changed by the congregation from Moore Memorial to the Church of the Holy Trinity, a memorial to Bishop Moore, and the Episcopal Council, at its meeting in May, approved the change. The above name will be carved on a tablet at the main entrance.

The new organ ordered by the congregation will be a very fine instrument. The Music Committee has carefully considered the merits of the various makes of organs, and finally their chairman, Mr. H. T. Meloyne, and the director of the choir, Mr. S. H. Sweeney, made a trip north, and after hearing the organs in a number of churches, selected an instrument of the Hook & Hastings make. This organ will have 1,525 pipes, and will cost in the neighborhood of \$3,000. The church of the Holy Trinity has in it many young members who are especially active in expanding its field of usefulness.

The Theatres This Week. Theatrical attractions this week will be plentiful. At the Academy of Music the "Dazzler" will be seen to-morrow evening, and Tuesday matinee and evening; the "Silver King" on Wednesday, matinee and evening; and Lillian Lewis in a spectacular production of Shakespeare's "Cymbeline" on Thursday, Friday, and Saturday evenings and Saturday matinee.

Elie Elser will be seen at the same play-house Wednesday evening in "Doris," Thursday matinee, "Hazel Kirke," and Thursday evening, "A Woman's Power." Mr. James Young, a young tragedian, in a repertoire of tragedies will hold the Theatre on Friday and Saturday evenings, and Saturday matinee.

Julius Byrle & Sons' store will be closed Wednesday, October 10th.
