### ALL EYES ON NEW YORK.

DEEP INTEREST IN THE COMING CONTEST IN THE EMPIRESTATE.

Nathan Straus, the Tammany Candidate for Mayor, a Georgia Man-Wild Populist Claims for Virginia,

### Times | UREAU, RAPLEY BUILDING, | WASHINGTON, October 12, 1894.

The political eyes of the country are, of course, always torned upon New York, the great Empire State of the Union, with its wonderful cosmopolitan metropolis, whose ever growing and changing population has given many kaleidoscopic,

presentations of practical politics. a The nomination of Senator Hill for the Governorship was followed yesterday by the nomination of Nathan Straus for the Mayoralty of the greatest city in the country. The Democratic seers here, who watch and note every changing phase of national politics, are jubilant over the

There are few men in New York better known than Nathan Straus, and among the poor of the city he is regarded as a philanthropist and friend, for whom they stand ready to vote as early and often as the judges will allow. The wonderful charities of Nathan Straus during the past few sensons has been a matter of national interest. The Carnegles of the country may present public libraries, and the Vanderbits build memorial churches, but Nathan Straus started stores where the poor got coal at cost, and in summer sensons ice and milk for the indigent and ill came to them without money and without price, and after all, "Who builds to God, and not to fame,

Who builds to God, and not to fame, Ne'er marks the marble with his name," Ne or marks the marble with his name, and the deeds of Straus are dearer than hose of alleged charity, which may have monuments long after he is laid to rest. Mr. Straus was born in Germany, but wived in Georgia until after the war when, at the age of seventeen, he moved to New York. His nomination is generally regarded as a strong and creditable selection, as the party, irrespective of any bartle ular organization, has always received his aid and support.

#### THE CONGRESSICNAL OUTLOOK.

The congressional outlook in New York is far better than it has generally been regarded, and at the headquarters here to-day of the National Congressional Committee a prominent New Yorker said:

"The placing of the third ticket in the field is a great thing for the Democratic nominees for Congress, for it will have the effect of bringing out the entire party vote, and while this vote may be divided as to the Governorship, it will be as a unit for the congressmen."

#### BETTER PROSPICTS FOR DIMOCRACY.

The entire outlok is brightening for Democracy all over the country. The people are beginning to learn and fully recognize that the great body of representatives and senators were conscientious and loyal to party pledges, and that while the full measure of tariff reduction was not achieved, that a long, well-defined and determined effort did accomplish much in this direction, and that a continuation of power by the Democrats will surely eventually result in the perfect establishment of the fundamental principles of tariff reform.

Major Thomas O. Towles, the stalwart Democrat and popular cierk of the House of Representatives, was at the Capitol this morning, laving just returned from a visit to his home in Missouri. In conversation with his associates at the Capitol, he spoke with enthusiasm and great confidence as to the party success in his State at the coming election. He predicts no inroads upon the Democratic delegation from the State, and says the prespects are materially brightening all along the line.

POPULIST CLAIMS IN VIRGINIA.

The indifference manifested by a emograts in the recent State ele-ticorgia, which the best-posted me-dicorgia, which the best-posted me-Democratis in the best-posted men on the georgia, which the best-posted men on the political situation in that State declare means nothing, is the first crumb of comfort that has fallen to the managers of the Populist campaign here since the opening of the congressional canvass. To the meiancholy delty who presides over the headquarters of the Populist Congressional Committee here it has been an inspiration. Already has he commenced to stuff his raillible followers with a lot of rot that he cals auguries of Populistic success this fall. Among other things, he now claims five districts in Virginia this fall. This reckless piece of extravagance is a fair sample of the literary manna he is at present teeding. erately well posted on the political signation in Virginia, and Chairman Taubeneek, when asked to mame the five districts he expected his people to control in the election this fail, declined to do so, on the grounds that he would be "giving away" party secrets. When closely pressed he took refuge in the Sixth Virginia district, in which, he said, he knew his people had a great fighting chance, but, like the Republican managers, he put in a great many qualifications there, and is evidently preparing himself for the political obliteration which awaits him this fail.

The duliness at Republican headquarters to-day almost amounted to stagmation. There were no callers of prominence, and as the bulk of the campaign literature has been distributed, many of the clerks have been discharged. By next Wednesday the literary labors of the committee will be ended, and no new orders for campaign literature will be filled.

filled.
Chairman Babcock is preparing to go
to Wisconsin to look after his own cam-paign, and will leave the machine to be
run by Secretary McKee and his assis-tants.

#### TO GO TO PREDERICESBUEG.

The quartette Chairman Bahcock, Vice-Chairman Apsley, Secretary McKee and Treasurer Thompson, will all probably go to Fredericksburg to attend the Re-publican raily there on the 17th of Octo-

ber.

The only written communication as yet received from Virginia by the Post-Office Department in reference to the change of the name of the post-office at Appomattox Courthouse is the protest from the R. E. Lee Camp of Confederate Veterans, at Richmond, against the change.

There were no appointments of fourth-class postmasters to-day for Virginia of North Carolina.

#### Setting an Example for Insulting Ladies

on the Street. 8. H. Conway, of Manchester, and S. H. Conway, of Manchester, and Smith Ford, of this city, were arraigned in the Police Court yesterday on the charge of disorderly conduct and insulting ladies on the street. From the testimony of the prosecuting witnesses, it appeared that Ford had committed no offence. He was, therefore, discharged, while Conway was fined \$20 and costs.

R. J. Adams was charged with violating a city ordinance by allowing his house, No. 526 north Twenty-sixth street, to remain in a dangerous condition. Colonel Cutshaw stated, by letter, that the building should either be torn down or repaired. Adams was given time until October 18th to start in with either work. The same disposition was made in regard to the house No. 1418 east Broad street, of which Mr. J. H. Crenshaw is owner.

John Thorp (colored), charged with being drunk and disorderly in the street, was fined \$5 and costs and sent to jail for thirty days in default of \$100 security.

Mitchell Frayser (colored), charged with attempting to rescue a prisoner, was sent on to the grand jury.

Douglas Cullingworth was sent to jail for nihety days as a chronic drunkard. He was also sent on to the grand jury for resisting an officer while in the discharge of his duty.

Samuel Lynn was fined \$2 and costs and sent to jail for thirty days.

Emanuel Johnson had to pay \$2.50 and costs for being disorderly and fighting in the street.

Walker Taylor was sent to jail for ninety days for being a professional drunkard.

Harry Furst, alias Charles Bemiington, a fifteen-year-old boy, was brought before the Justice on the charge of being a suspicious character. He stated that he came to Richmond about a week ago, penniess. Through the kindness of Mr. Charles E. Smith, to whom he appealed for aid, he secured employment with the Baughman Stationery Company, and Mr. Charles E. Smith, to whom he appealed for aid, he secured employment with the Baughman Stationery Company, and Mr. Charles E. Smith, to whom he appealed for the police. It appeared in court that the boy was of a reckless dispositio Smith Ford, of this city, were arraigned in the Police Court yesterday on the

various places for whatever money he might obtain in that manner.

From letters found in his possession, it was seen that he had sent one dollar of his money to his mother, in New York, who seems to live in very needy circumstances. The Justice was about to commit him to the reformatory, when Messrs Mark Gunst and A. Greentree intervened on his behalf and differed to tend him back to New York on to-day's steamer. He was, therefore, sent to the First police station until this afternoon, when Mr. Gunst will see that he leaves for his home.

#### ACTIVITY IN THE SOUTH

AN IMPROVING TENDENCY FOR INVESTMENTS REPORTED.

Seve al New Industrial Enterprises Organized in Virginia and North (arelina\_O.her States.

BALTIMORE, Oct. 11.—Special reports to the Manufacturers' Record show a fair degree of activity throughout the South in railroad and industrial matters with a steady increase in the earnings of Southern roads, a very large increase in the demand from northern and western people for southern agricultural lands, and an improving tendency in all directions for investments in the South. The organization of colonies in the West and North to settle in the South is becoming a very prominent feature of the business interests of the country, and every week shows a great increase in the number of people moving South, especially those interested in truit and vegetable cultivation. Large sales have recently been made in Carolina, Georgia, Texas, Florida and other States for fruit production. A number of short railroads have been put under construction, and one or two important lines projected.

Arrangements have been about completed for the building of an extensive belt line at Norfolk and Portsmouth, Va.

A North Carolina company, owning 16, 600 acres of mountain land, has been reorganized for the purpose of developing a resort section.

organized for the purpose of developing a resort section.

The organization of new industrial enterprises has been quite active, and among those reported for the week are a \$50,000 gold mining company; \$250,000 improvement company; \$50,000 machine shop and a paper bag factory in Georgia; a \$10,000 spindle cotton mill, the doubling of the capacity of another cotton mill, electric light works and important mineral developments in North Carolina; a \$30,000 electric light and water company in South Carolina; a \$25,000 paper company, wood working plant and flour mill in Tennessee; a \$25,000 investment company, \$60,000 electric light plant, paint mill, lumber mill, iron and coal mines in Virginia; a \$29,000 lumber mill, electric plant, ice factory and carriage shop in Florida.

Among the new buildings for the week a \$25,000 church in

Florida.

Among the new buildings for the week are \$6,000 theatre and \$5,000 church in Georgia: a \$6,000 institute and a \$125,000 business block in Virgina.

Notwithstanding the low price of cotton, the general business situation of the South is in a very healthy condition, with all indications promising a steady increase in activity in that section in advance of general prosperity in other parts of the country.

#### IRON AND STREL TRADE.

The Present Lu | Due to the Near Ap. proach of a Congressional Election. CLEVELAND, OHIO, Oct. II.-The Iron

Trade Review says:

While the business in iron and steel has not developed any phases of late with direct bearing on tariff rates, there are retidences that the near approach of a evidences that the near approach of a congressional election is in part responsible for the present inli in buying. The fact for the present inli in buying. The fact that an individual belief on the uppermost political question affects conduct as buyer or seller has led some authorities to regard the election as another turning point in business.

Developments of the week in iron and steel have afforded no special encouragement except that based on the disappointment of extremely bearish views. The announcement that there will not be lower prices among steel rail producers, and that prophecies of the collapse of the agreement of a free fight for tonnage are not to be fulfilled, is so far an element of strength. The importance of the Pueblo (Col.) mill was over-estimated in the rumors of the impending war, so also was the anxiety of the leading Pennsylvania producers to lead in a carnival of price-culting. Meanwhile railroads are waiting for the December showings to determine a policy, that all admit should be one of buying. If safety and the interests of the property were alone regarded. There are signs at Pittsburg of a strong effort to bear the bessemer pig market, and while prices are weak, there has been much more of prophecy on this line than would seem to be warranted by the amount of metal changing hands. There have been a few sales at \$10.90 at Pittsburg the past week, but there is no effort to push metal on the market, and no consumers of importance are buying. Some of the late sales are evidently to dealers, who need bessemer pig to deliver. The billet market is also weak, with rather more trading yet the volume of sales is the range. There are varying reports as to foundry iron, some markets telling of a good business, closed at unchanged prices, while others record weakness. Chicago keeps up a good volume of sales. The inc Trade Review says: While the business in iron and steel has

THE CLOSING QUOTATION . OF MONEY.

Offerings and Sales at the Richmord To bacco Exchange-Internal Sevenue Collections-Foreign Advices,

NEW YORK, Oct. 11.—London was responsible for the strong opening at the local Stock Exchange this morning, the foreigners having turned purchasers of Louisville and Nashville, St. Paul, and other of their favorites. This leaf to a rise of 1/201 per cent. Sugar, Louisville, St. Paul, Manhattan, and Missouri Pacific were all prominent at this time. The improvement was followed by a selling movement in the Grangers, General Electric, Manhattan, and the Cordage stocks. The Grangers were pressed for sale on the old reports about poor earnings, some of the sellers predicting that St. Paul will show a comparative failing off in receipts for the second week of the current month of fully \$200,000. The pressure resulted in a decline of % to 60% in St. Paul, % to 55% in Rock Island, and % to 17½ in Burlington, The Government crop report had no influence on the market. Manfiattan was forced down 1½ to 112, but closed at 112%. In the Cordage stocks liquidation continued early in the day, and the common fell to 10 and the preferred to 23%, Biy State Gas ranged between 25 and 27 and closed at 25. Erle Telegraph and Telephone, which was listed yesterday, opened at 54 and rose to 55%. Toward the close a firmer tone prevailed, owing to the somewhat weaker condition of sterling exchange. The market for the latter was weakened by the appearance of security bills. This was accepted as meaning that there would be no gold shipments, at least this week, and consequently some of the smaller shorts started in to cover, which reuited in an advance of ¼ to 1½ per cent, from the lowest point of the day. The improvement was pronounced in Sugar, Louisville. Reading, the Grangers, and Missouri Pacific. The loan crowd indicates that the market is again heavily overseld. St. Paul having commanded a premium of 1/41 1-29 per dem. At the close speculation left off firmer. Net changes show a gain of ¼ to 1½ per cent. Louisville and Nashville leading. CHICAGO.

CHICAGO, ILL., Oct. II.—The uncertainty surrounding the Government report having been dispelled by the publication of that document, destroyed one of the elements of speculation in grain to-day and restricted trade to a marked extent. The guesses and tips were at variance with the true figures, which, aithough they showed an improvement in wheat, were more than discounted by the sales of the past few days. There was, however, a lack of confuence in present values, and the little fellows sold freely, whist the heavy traders did little, If anything. Up until noon prices held within narrow boundaries, but the last hour was weak, the lowest point being reached during that time. December wheat opened at 53%c, ranged between wheat opened at 53%c, ranged between the sales were made at prices unchanged from yesterday. Cash wheat sales were made at prices unchanged from yesterday, the nominal closing being weak, with the futures. Corn-More reliance was placed in Thoman's report of the corn yield (1,535, 100,03) bushels), as published in the Cincinnati Price Current, than in the Government figures (1,126,000,000 bushels), as reported yesterday, prices sinking under the weight of selling, induced by the former estimate. Like in wheat, the weakest portion of the session was during the last hour, when the inside prices for the day were made. It was not a bread market, but the disposition was to sell rather than to buy. May corn opened from folice to 50%c, sold between 50%c, and 49%c, closing at 49%c, 5%c, under yesterday, Cash corn was about 1,6%c, under yesterday, the nominal closing being a full cent under that day. Outs—The Government report showed a slight improvement in yield of oats. The weakness of wheat and corn helped the decline. There was nothing of importance in the trade, the bulls displaying no currage. May closed %6%e, lower The weakness of wheat and corn helped the decline. There was nothing of im-portance in the trade, the bulls display-ing no courage. May closed %@\@c. lower than yesterday. Cash oats were un-changed, a fair demand for them being Provisions-An advance in the price of
