CHICAGO.

CHICAG

Pice, lower than yesterday. In the sample branch of the market trading was light, the few sales that were inade being at steady prices.

Corn—The corn market was notably steady for quite a while to-day. No activity was seen which tended to preserve the stationary position of values. When the extreme weakness of wheat developed corn was unable to resist me decinning force, and sold off. Outsiders did scarcery anything in the market, local scalpers keeping up the semblance of activity, July corn opened at 1950c., closing at the latter, ye. lower than yetterday. Cash corn was ye. higher.

Outs declined from the influence of their surroundings. At the start there was fair trading at moderately limingures, but after the wheat and corn markets started down oats followed. Commission houses were good sellers, principally of long stuff. July oats closed yellow, under yesterday and lieptember be, lower than Monday. Cash oats were steady for No. 2 and ye. lower to white.

Provisions—With the grain and hog markets both weak, if was strange that provisions maybe and it was altered to the market was in favor of higher in the market was in favor of higher prices, and on any encouragement, it was thought an advance should take place. At the close July pork and July lard was unchanged and July 105 a shade higher.

The leading futures ranged as follows: Wheat—Open, High. Low. 105.

July ... \$12.42% \$12.42% \$12.37% \$12.40 Sept ... 12.40 12.72% 12.37% 12.70

## MAJ. HUNTER APPOINTED

HE IS MADE ASSISTANT ATTORNEY IN THE INTERIOR DEPARTMENT.

Union...Mr. Gerdon Finney to be Appointed a Naval Cadet,

## TIMES BUREAU, WASHINGTON, June 14, 1895.

The Secretary of the Interior, Hon. Hoke Smith, this day appointed Major Robert W. Hunter, of Winchester, as-sistant attorney in the Interior Depart-ment.

Robert W. Hunter, of Winchester, assistant attorney in the Interior Department.

Major Hunter is a well known man in
Virginia, having for years taken a conspicuous part in many important campaigns. He is recognized as a man of
legal ability. The appointment gives great
satisfaction to his many friends in this
city. The position pays \$2.500 per year, and
his work is comparatively light.

The appointment will not necessarily
remove the Major from this city, as his
duties will be mainly settling land disputes. He qualified this afternoon. This
appointment was made at the earnest solicitor-General Contrad.

The President yesterday placed the Government Printing Office under the clausified service. The Government Printer, Mr.
Benedict, has thirty days from this day to
make any change or changes before this
office will be put our of the reach of
patronage-hunters. This rule places 250
employes under the service, and about in
Virginlans who have places in this office.

It is thought that the machines which
the government purchased some years
aso, will be brought into play in the
office. The Typographical Union's fears
that this will be done is the reason assigned for fighting the proposition of
placing these people under civil service.
These machines are now packed away in
the warchouse.

At the Navy Department this morning the Acting Secretary said that Mr. Robert Gordon Finney, of Hichmond, would be appointed an alternate to the Naval Academy. This young man is a brother of the secretary to the Secretary of the Navy. This appointment will be made upon the recommendation of Colonel Tazewell Electric

left.
At the State Department this morning it was learned that Minister Smythe, of Haift, has been granted leave for sixty days, and will arrive in Washington in a few days, en route to his home in Southwest Virginia.

### THAT FISHING STORY.

It being Cabinet-day, there were no callers at the White House. Only newspaper men were admitted, and they only saw the Private Secretary, who said that he had nothing to give out. When asked about the President's fishing on Sunday, he said it was false as false could be. The President and his friends did not leave Washington until late Sunday, and if not reach the fishing grounds in Virginia until all had retired in the sleeper attached to his special car.

Mr. George Booker, of Old Point, left Washington to-hight, accompanied by his two daughters, Misses Mary Louise and Lady Anne Booker, who for the past year have been at the Academy of the Visitation at Georgetown.

Post-PFICE CRANGER.

### POST-OFFICE CHANGES.

The following changes occurred in the postal service for Virginia: Route 15,196, Nurseries by Boon's Fath, to Rose Hill; mail in the future will be delivered six times per week, instead of three, as it has been heretofore. Route 15,197, Vermilion to Appendation; mail three times per week. Route 15,188, Fort Myer to Georgetown, D. C.; mail three times per week Route 15,201, Cave Springs to Farland; twelve times per week. Route 15,202, Letcher, by Masters, to Ben; three times per week. The total number of fourth-clars post-massiers appointed to-day was 2, 22 of which are to fill vacancies caused by death and resignations.

For Virginia—Topeco, Floyd county, N. C. Canaday appointed, vice E. A. Hall, resigned.

For North Carolina—Battle Ground, Guilford county, h. E. Noah appointed, vice Emsley Sikes, removed. H. L. W.

MISS PANNE TOUK POLSON.

## MISS PAYNE TOOK POISON.

Despondent From D sappointed Love and

CINCINNATI, OHIO, June 14.—Miss Alta Dell Payne, three months ago a New York girl, made a tragic attempt to commit suicide at the residence of her married sister, No. 33 Woodward street, in this city, yesterday.

Miss Alta is a strikingly handsome girl of twenty years, of the brunette type, but her life has been filled with woes.

Twice in New York she was left at the altar, and for that reason her par-ents, who live at No. 102 east Tenth street, New York, sent her to this city, in the hope that she might forget the man who had twice desered her at the venth hour. Since her arrival in this city Miss Alta

Since her arrival in this city Miss Alta las made the acquaintance of a cat, which had become much attached to her. If a P. M. Seats free. The public corfliction were never apart, and for hours M. Seats free two were never apart, and for hours M. which had become much attached to her. The two were hever apart, and for hours the despondent girl would sit by the window, and tell her secrets to her feline companion. Site would ask it questions, and take as answers whatever gesture the dumb animal inadvertently trade.

Acute melancholia attacked her some Acute melancholia attacked her some weeks ago, and she seldom spoke to any one. Yesterday she resolved to end her misery, and procuring a bottle of laudamum and a box of rat poison, she mixed them together. Just then the cat jumped up on her lap, and rubbed its soft back against her arm. She hesitated for a moment; then suddenly threw the cat from her.

A plaintive call brought the cat back

from her.

A plaintive call brought the cat back to her, and caressing it for a moment, she reached in a dvawer of a dressing-case standing at the head of the bed, and brought forth a pair of scissors. Placing the cat's paw on her white night-dress, she ran one blade of the scissors through it. Blood began to trickle down the steel to the handles, and from there on the linen.

Alta Dell smiled at her act. Jerking

on the linen.

Alta Dell smiled at her act. Jerking the blade from the bleeding wound she hurled the instrument across the room, and held the cat's paw over the dish in which she had placed the mixture of laudanum and strychaine. The cat be-come weak, and lay ling on the form of the girl. Soon it closed its eyes and

died.

Then she pressed the china dish to her lips, and drained it to the last dregs. She lay back on the pillows, and smiled

in the region of her stomach, and began to realize what she had done. She lost nerve and shrieked. It was a scream that almost shook the house. Her sixler answered, and, seeing her condition, summoned a physician. A stomach pump got most of the poison out, and powerful antidotes were administered. She is conscious to-night, and may live. The note she left was addressed to Wallace Reid, No. 254 Sixteenth street. New York city, and after telling him that she loved him still, said that the reason she attempted her life was that they could never be made one; that he did not love her, and that she was tired of living.

## Naval News Notes.

Mayai News Netes,
WASHINGTON, June 14.—The President
has approved the recommendations of
naval boards retiring from active dudy
on account of incapacity due to service.
Commander O. F. Heyerman, who commanded the Kearsarge when she was
lost on Roncador Reef; Medical Director
Adolph A. Hoehling, Gunner, Henry J.
Tresselt, and Boatswain John H. Brown.
Lieutenant H. A. Winterhalter has been
detached from the Bureau of Equipment
and ordered to the Hennington.

M., followed by communion service. Prayer-meeting every Wednesday night at 8 o'clock, and Bible study every Tuesday night at 412 south Belvidere street.

## HARVARD AND CORNELL, The Two Great 'Varsities Unite in the Field

ITHACA, June 11.-Harvard and Cor-

nell have completed arrangements for the formation of dual league in foot ball, ment is to last for two years, when there is every reason to believe that it will be renewed with such modifications as may seem advisable. Next fall's foot-hall game will be played at Cambridge and the base-bail game the ensuing spring will take place at thace.

Harvard originally suggested the idea of the league, and Dean White has conducted the negotiations for Cornell. The dean is an old Harvard man and played on their base-bail team for four years, and was captain during the last two seasons. The negotiations were practically

completed before the recent Harvard Yale controversy occurred, and are any-thing but an outcome of that difficulty. This new series of contests will not alter in the slightest Cornell's attitude in the college world. Nothing but the in the college world. Nothing but the best of feeling is evinced here for Princeton and Pennsylvania, and nothing would please Cornellians more than a triangular race next spring between Pennsylvania, Harvard, and Cornell. If such a race cannot be arranged Cornell will certainly row both Pennsylvania and Harvard. Harvard's attitute throughout the ne-gotiations has been most sportsmanlike, and the similar attitude of Penusylvania and Princeton toward Cornell points to-ward a most prosperous athletic year for 186 and 1896.

At a meeting of the Athletic Council last night the following resolution was

passed:"Resolved, That no person shall be elibible to represent Cornell University in any branch of athletics who has been a professional in that branch, or who has engaged in such branch of athletics for any compensation apart from necessary travelling expenses in connection with occasional contests away from home."

home."

This action is the result of much de-ilineration and will debar all Cornell base-ball men from playing on any of the ath-letic clubs or other summer teams.

Killing Off the Cotton. NEW ORLEANS, La., June 10 .- A small insect shaped like a diminutive perch or minnow and covered with a white froth has been discovered at work on the cot-ton in Rapides Parish. The insect sticks to the stem and seems to be sucking and sapping the cotton stalk. Those who have seen it express the opinion that it is the cotton boil weavil, or sharpshooter of Texas, but venture no opinion as to how it got to Louisiana. A great deal of the growing cotton in Rapides Parish was recently killed by the cold and cloudy weather, it was said, but it is now thought that it was done by the boil weevil. to the stem and seems to be sucking and

ENCOURAGING REPORTS AS TO THE CONDITION OF BUSINESS

Come From all Parts of the Country-Bright Outlook for the Growing Crop-Iron and Cotton,

NEW YORK, June 14.-R. G. Dun &

Company's Weekly Review of Trade tomorrow will say: It is no longer a question whether bust-

ness improves. Not for a long time have our reports from all parts of the country been so uniformly favorable.

The daily average of bank clearings in

June is 24.8 per cent. larger than last year, though 1.4 lower than 1892.

The most potent influence has been the receipt of more favorable advices regarding the growing crops. Even official statements helped, because altogether less

ments helped, because altogether less gloomy than previous rumors.

Labor troubles are getting out of the way, wages in many establishments are rising, and with the iron industry just now leading, there is general improvement in manufactures.

Monetary conditions also help. The time draws near when, with good crops, exports will bring gold hither, and bonds having been insignificant this week, the effect of previous trarsactions has not been exhausted.

Much diminished receipts of money from the interior indicates better employment, and the value of commercial loans steadily rises, and is now fair for this season, even in a good year.

## THE COTTON CEOP.

THE COTTON CEOP.

The official statement of 14.8 decrease in cotton acreage was quickly found, in view of the revised government estimates for last year, to mean more than 20.00.00 acres now in cotton, which much exceeds the best unofficial estimates, and from an area no greater over 9.00.000 bales were produced in 1801, so that the report gave no aid to prophets of evil. That some reduction would be well for the South is clear, but the heavy surplus will cover a larger loss than seemed possible. The price has not changed, but transactions have become insignificant, though rainfall and temperature are closely watched.

Manufacturers abroad, according to Ellyson, have stocks 20.000 bales greater than a year ago, and the commercial stock of America in sight is still 3.200.20 bales.

Cotton mills are doing well for the scason, and numerous advances of an eighth to a quarter in brown sheetings drills, bleached muslins, denmis, and tickings are still reported.

The wool manufacturer looks for speedy

drills, bleached muslins, dentms, and tickings are still reported.

The wool manufacturer looks for speedy
settlement of the labor troubles, and finds
a moderate demand for low and heavyweight goods, while some of the cheaper
lines of the spring goods have been
opened with flourishing results, but as to
hetter grades there is still great uncertainty about prices.

## THE IBON THADE.

The output of pig iron June 1st was but a trifle larger than May 1st, 157,224 tons, against 155,54 tons a month ago and 114,02 tons by stoppage of many Mahoning. Shenango, Illionis, and Virginia furnaces, which afterwards resumed.

The advance in spring continues, Bessemer pigs reaching \$12.00 and gray forge \$19.05 at Pittsburg, and changes in all iron products show an advance of 3.1 per cent, this month, and 13.3 per cent, from the lowest point in February.

For this conservative industry the rise of 35 per cent, in Bessemer iron seems large, but it compares with 35 per cent, on cotton, 53 per cent, in wheat, 60 to 70 per cent, in leather, 50 per cent, in reinhed oil, and over 100 per cent, in fiest prices ever known, and remarkable gains were to be expected when any came, but with each consumption has yet to justify advances.

The coke producers about Connellsville have not made open declaration of their new compact, but contracts are being made at 15.36 for the last half of the year, with provisions for advance of wages tise.

Fallures for the past week have been

Wednesday evening at 8 oclock. All are UNIFORMLY FAVORABLE. 241 in the United States, against 222 last year, and 24 in Canada, against 40 last year.

NEW YORK, June 14.—Bradstreets will say to-morrow:

The recent check to the utivity in general trade, taking the country as a whole, which was followed by the severe and usual freets of the close of May, has begun to register itself in relatively fewer upward spurts of prices for staples and moderately smaller totals of bank clearings. The cereal crop scares which followed the frosts, frightened foreigners out of Wall street for the moment, and since then the speculative exchanges and leading commercial houses have been busy trying to determine future valued on the basis of present conditions.

The exception to the hait is found in the remarkable exhibition of strength by iron and steel.

Cotton, leather, wheat, railway and other securities have each presented a season of active demand and advancing prices, but none of them has outdone iron and steel, which, without special orders from large consumers has again advanced.

There have been few changes in the trade situation in the South, but these are in the direction of improved demand principally in dry goods, shoes, hats and other seasonable goods, with the prospect for a good fall trade, should the crop prospects remain as at present. Gains in the volume of business are reported from Charleston, Nashville, Jacksonville, and Gaiveston. NEW YORK, June 14 .- Bradstreets will

Professor Moses Stein has returned with his band and orchestra from Hampden-sidney College, after an engagement of three days at the 'institution sturing the commencement exercises.

## **Blood Pure**

If it is, you will be strong, vigorous, full of life and ambition; you will have a good appetite and good digestion; your sleep will be sound and refreshing; your nerves will be strong; you will have little need to fear disease in any form.

But how few can say that their blood is pure! How many people are suffering daily from the consequences of impure blood, scrofula, salt rheum, rheumatism, catarrh, nervousness, sleeplessness, headache, and

## That Tired Feeling

and enriches the blood. Therefore, it is the medicine for you. It will give you pure, rich, red blood and strong nerves.
It will overcome that tired feeling,

create an appetite, give refreshing sleep and make you strong. Is not this just what you want? Then take Hood's Sarsaparilla. It

is the best building up medicine.

LADY'S SKIRT WITH ADJUSTABLE BOX-PLEAT IN FRONT.

A Perfect-Fitting Paper Pattern of this Garment May be Obtained by Filling

in the Coupon Provided Below and Mailing it with TEN CENTS

DESCRIPTION OF 7583.

The pattern shown here is especially liked for very thin materials, for wash goods, or light-weight silks. It also develops well in the light-weight cropous, and may be made without the box-pleat in front.

A charming evening dress of pink taffetas, with a black stripe, was trimmed with black saim ribbons run through a creamy lattice work of batiste, as shown in the illustration. The waist had a black chiffon bodice, with short puffed in the control of the silk. Three strips of the batiste, with black saim ribbon run sleeves of the silk. Three strips of the batiste, with black saim ribbon run shown them, formed brettelle trimming on both back and front of the waist.

A blue dotted mull dress had a ruffle of narrow Valenciennes lace on the cdges of the double box-pleat. The waist was made with a blouze front, which was also made with a double box-pleat edged with lace. The short, puffed sleeves had four rows of lace from shoulder to the chow.

The pattern is also suitable for extra skirts, with or without the box-pleat. It is cut in sizes 20, 21, 24, 25, 30, and 32 inches waist measure, and a medium size requires 5 yards of 42-inch goods.

We have made special arrangements with the publishers of the MOST STYL-ISH. ACCURATE AND PERFECT-FITTING PAPER PATTERNS that are made, by which we can present to our indy readers all of the very newest and choicest patterns of garments for ladies, missees and children.

Full and explicit directions for putting together the garments accompany each pattern. These descriptions and the patterns themselves have many novel and pattern.
