NEW YORK, Nov. 18 .- The general run of prominent stocks after an irregular became strong and higher on purchases by the trading element, which felt encouraged by the spiendid showing made by the St. Faul for the 'second week of November, an increase of \$288. 189 having been reported in gross earnings, the absence of disquisting news from toreign financial circles, and the fact that no gold will be forwarded by to-morrow's European steamers. In the first hour prices advanced \$2678, per cent. on this buying, Manhattan, the Grangers, Sugar, General Electric, and Chicago Gas leading. Sugar first felt of \$66, but soon advanced to 1013, the reduction in the price of certain grades of refined having failen flat. Later on London houses sold fully 14,000 shares of Reading, St. Paul, and Louisville and Nashville, which encouraged the local bears to make attacks on Manhattan. Tobacco, and Western Union. Reading was the first to yield and fell \$2\$ to \$6. The reorganization plan, which will be securified below the general \$48. The present incomes are to receive new preferred stock, but the stock receives some consideration. Manhattan rose to 1014, and broke to \$88,628. Long stock came out on the way down, the announcement that the Metropolitan Trailion was considering a system of underground trolleys for its new lines having frightened timid holders. Tobacco dropped from \$88, to \$84, with a subsequent rally to \$89. \$81. Louis holders and Well heaviest sellers at the decline. Western Union was the weak feature in the late trading, falling 2 points to \$88, 628. Long sholders and well heaviest sellers at the decline were freelyl circulated that at last \$2,00,000 would be forwarded to Europe this week. One commission house, it was said, has sold cables against \$1,000,000 gold, and another banking firm so tumor had it, will have to anipas a much either by Weinesdays or Thursday's steamer. CHICAGO.

CHICAGO, ILL., Nov. 18.—Wheat ended worse than it began to-day. The topic of discussion in the morning was a marked failing off in Northwestern receipts, both as compared with last week and last year. The boils professed great gratification over the matter, ciaiming that the rush of wheat to market in that section had subsided, whereas, on the other hand, the bears found various reasons for what they thought was but a temporary break in the movement. A slight appreciation in prices came about through this question, but the market went to pieces before the close on selling by a local professional trader who inadvisedly covered his short wheat carly and went long in the expectation that greater results in the way of an advance would take place. December wheat opened from 57×3674c, sold between 57×3675c, and 57×c, closing at the latter, 1979c, under Saturday. Cash wheat was steady.

Corn—The session was thresome in corn. No new or important feature developed, and prices changed only to agree with the strength or weakness of wheat, and with no wide or rapid fluctuations occurring. May corn opened at 29×c, closing at 29×6225c, a shade under Saturday. Cash corn was steady and unchanged.

Oats—The Higless and inert feeting still CHICAGO.

day. Cash corn was steady and unchanged.
Oats—The lifeless and inert feeding still prevails in oats. Prices were for the most part unchanged, and no disposition to do better was noticeable. May oats closed unchanged from Saturday Cash oats were, on the average, without change. Some grades brought a triffe more than on Saturday and others a fraction less.
Provisions—Provisions rank in value to-day. The decline was caused by a loss in prices of holdings at the yards, if there was any increase in the amount of business in product to-day it was not apparent in the pit. A general complaint of the inactivity and duliness was still heard. At the close January pork was 75-grice, less than Saturday, January lard be, lower, and January ribs between

NEW YORK DRY GOODS MARKET.

NEW YORK, Nov. 18.—The week opens with no break in the monoteny in the dry goods market so far as staples and seasonable cotton fabrics are concerned. In the former leading makes show a steady range of prices, but there is no disgnishing the fact that outside of these the tone of the market is easy, with some irregularity in prices. Some sonthern manufacturers, even while expressing belief in an ultimate loc, cotton market, have slackened their restrictions ever agents actions and are willing to do business on rather easier terms than earlier in the month. Seasonable cotton dress fabrics are duil, but the market is generally so well cleaned up that prices are not affected by the indifferent current demand. On the other hand, the demand for such spring lines as are open to buyers is on a liberal scale, and prices show general firmness. NEW YORK DRY GOODS MARKET.

Heavy breaks reported on the Danville, Winston, and other Interior tobacco markets last week.

Mr. Nathan Strause, of Henderson, N. C., is in Richmond, Va., to-day, and speaking of that tobacco market, says. "We are having good breaks in Henderson, indeed, the breaks are very large, quantity excelling quality. The proportion of wrappers is very small, and those that are offered of decided character sell well. Color has not held up. Our immediate crop shows up well as far as body is concerned, but is deficient in character, owing to the 'frog-eye' and 'flea bites.' Good mahogany filters are noticeally scarce, and the truth of the axiom, When good filters are scarce, 'Is fally verified in this cipp."

week ending November is, 1825, 428,709 pounds.
Sales from October I, 1825, to November 18, 1826, 1022,009 pounds; sales from October I, 1826, 162,009 pounds; sales from October I, 1826, 162,009 pounds. Decrease for 1826, 227,009 pounds. Our offerings of new darks were made up chiefly of late cuttings, and the quality was anything but desirable. Logs appeared in large quantities, and sold, in comparison to other grades, very low. For medium lear there was afairly good demand, and prices showed an advance over last year from one to two dollars per hundred. Only a few piles of fine leaf was run across. The highest price paid was \$15, and this appeared exceedingly high for Austrian at this time of the season. The tobleco has a good, ripe bolor, but lacks body and gumminess.

Much larger offerings of old burley at auction, a stronger and more animated market generally for all grades from medium up, with weather clear and cool, were the leading features of the week.

We are now in the interval between two sasons, the old crop nearly disposed of and the new crop not ready for even the loose tobacco market. That's What This Couple Did Just to Get

Married. The matrimonial refuge, with Parson Burroughs in charge, had another in-teresting marriage Thursday evening, The contacting parties were Will Thompson, aged twenty-two, and Miss Myrtic Wallace, aged eighteen. The couple cloped from Honaker and came all the way on hoselack, a distance of fifty miles. They were accompanied from Wyndale by C. C. Wilson. They were plain country people, but had the love fever in all of its earnestness. They rode back to Wyndale last night and stopped with Mr Wil-

ride across the mountains, but the condi-tions are such that it will seem to them anything but a hardship to travel the long distance. Even after they had Mi-den fifty miles to reach the Mecca, their faces looked as fresh as the roses of lune.—Ristal Courier. June.-Bristol Courier.

THREE MORE STEAMERS. The James River Country to be Developed

We learn upon fair authority that the Seaboard Air Line will have in operation by December 1st a line of steamers ply

by December 1st a line of steamers plying between Richmond and Baltimore, and touching the principal landings on the James river each trip.

It is said, further, that the Air Line has three boats to put into this service, so it is more than likely three return trips will be the weekly schedule.

The reason for the Seaboard's action is assigned to the close rivalry between it and the Southern railway. The latter now has a through line from Richmond to Baltimore, by way of the West Foint Terminal and the York River Line.

The Seaboard Air Line will, if this report be founded upon fact, do the James river country great good, as it believes in judiciously advertising the territory through which it travels. The people along the fiver will welcome the new line and do all they can to aid it.—Claremont Herald.

The sult of the maneocuvre, as far as Pike concerned, is two sprained ankles, one roken leg, battered face and head, and broken leg, battered face and head, and a bruised booy. It is said that Pike had succeeded in escaping as many as five times before this attempt. He was brought on here, and yesterday in the Federal Court was convicted of retailing liquor and sentenced to one month's imprisonment and \$500 fine. MANCHESTER PULPITS FILLED SUNDAY BY VISTING MINISTERS.

Hustings Court in Session - Fat Boy on Exhibition-A Beautiful Entertainment. Other Items Personals and Briefe.

The religious services in this city yesterday were of greater interest than for

a long time past, there being many visiting ministers present. At Central Methodist church Rev. Dr. E. M. Peterson, now of Hampton, who was formerly pastor here, preached an eloquent sermon, which was listened to by a large congre-

at the morning discourse was, "Where Has Your Rank Been Kept?" taken from I. Chronicles, xii., 38. He was very pointed, in a gentle way, about the Christian's rank and the particular duties belonging thereto. There must be uniformity, and a very pretty illustration was here pictured: "As a company of soldiers are drilled in perfect uniform step, so should we as soldiers of the cross, if we should accomplish anything for Christ, be of one accord happy, step harmoniously together, and have an eye single to that glory which we ought to obtain." He closed with an admonition to the congregation not for any to be dragging behind or any to become dissatished and leave, therefore cause disorder in this church or any other they should pray and work with one accord, and their efforts would be crowned with success.

Mr. Constable presched at night from Christian's rank and the particular duties

and their efforts would be crowded with success.

Mr. Collstable preached at night from the subject: "Hearing and Doing." He is a rising young minister and with prospects of a bright future before him. The people of Clopton-Street will always hear him with a great deal of delight.

A special feature of the service was the singing, directed by Mr. William Morrissett. There were sixteen members in the choir, and the music furnished was delightful.

Next Sunday a series of revivals will begin at Cowardin-Avenue Christian church, in which Rev. Mr. Brook, who is well known here, will take part. A letter was received here Sunday from Birmigsham, stating that Mr. Thomas G. Mathews was somewhat improved, and that he would soon recover from his injuries. Mr. Mathews had a miraculous escape, and it took about twenty minutes to get him out of the debris. He was the engineer of a freight, which was running on schedule time, but when the train reached a deep cut at a curve it collided with the engine of a material train, which was going in an opposite di-

the train reached a deep cut at a curve it collided with the engine of a material train, which was going in an opposite direction. The meeting of the two engines resulted in the injury of both locomotives. The fireman on the freight had both legs broken, and four of the crew were killed.

The entertainment to be given on Friday night next, at the residence of Mrs. W. H. Oweng by the ladies of Central Methodist chartch, promises to be of great interest, as there will be many beautiful features. A pretty part of the programme will be "The Floral Rainbow," by seven little girls. There will be excellent music, and there will be a recitation by Miss Florence Evans.

his annual report called attention to the death of Mr. W. T. Waiters, so long identified with the intersts of the two companies. At the meeting of Richmond and Petersburg stockholders Major Scott also offered a resolution paying a beautiful tribute to the life, character, and worth of Mr. Waiters, which was adopted after a very eloquent address from Mr. John P.
