In many of the States, the societies have offered bronze medals for essays on similar subjects to the pupils of the public schools. This movement is in the orinion of the Board of Managers, one to be encouraged in every way, as being instrumental in causing the young people throughout the land to acquaint themselves more thoroughly with the interesting details of our war for independence. A notable feature of the work of the year has been the organization of local chapters in most of the larger State societies. This movement, starting with the organization of the Elizabethown chapter of the New Jersey Society, with Walter Chaudier as president, on the 25th of September, 1838, has now become very general, and in some

These chapters greatly increase local interest in the work of the society and, perhaps, more than any other single cause are instrumental in its growth. A Committee on the Form of Organization of Chapters was alpointed at the last Congress, and will doubtless report at this session.

The one subject upon which the secretary-general expected to devote the main portion of his report was that of unlen with the Sons of the Revolution. The necessity for any extended statement in connection with this incresting and important midpect is, however, done away with by the action of the General Society of the Sons of the Revolution, at their recent meeting in Savanhah, at which

The Afternoon Session.

Shortly after tife hour fixed for the afternoon session had elapsed President-General Porter called the National Congress again to order. Mr. Walter S. Logan, of New York, who was first recognized, stated that he had been instructed by the New York society to request the congress to adopt a banner to be used in connection with the flags and stripes. He then exhibited the picture of a banner that had been agreed upon by the Empire State Society. It shows a flag of blue State Society. It shows a flag of blue and white horizontal stripes, with the fewell of the National Society in the upper left corner. He added that if the hanner submitted was adapted the New York So.

Mr. Page suggested that such a ban-ner be only adopted after a union of the two national societies had been accom-plished and he, therefore moved that the matter be referred to the joint com-mittee that is to consider the matter of suggrestions for the various State societies as to the design of the banner. After some little discussion the amendment offered by Mr. Rosewell Page, of this city, was adopted.

THE DECISION. The Chair ruled that a change of the colors of the rosette would involve a change of the constitution and it could therefore not to act upon by this congress, but would have to be submitted in writing sixty days before the next congress. The Maine resolutions were then referred to the committe as suggested by Mr. Gould.

Mr. Murphy, the secretary-general, presented a communication.

ELECTION OF OFFICERS.

On motion of Mr. Gould, of Massachusetts, it was then decided to proceed with the election of officers for the ensuing year. Mr. Gould then stated that he had only one desire—to continue the gentleman who then filled the chair for another year—and he therefore moved that the secretary be instructed to cast one bailot for General Horace Porter, as president-general.

Dr. Berglamin, of New Jersey, in seconding the motion, thought that this Congress would go down in history as the unanimous Congress, for so far every resolution had been adopted by a unanimous vote.

Mr. Gould's motion was then put by Mr. Earrett, who occupied the chair, and General Porter was unanimously relected. He briefly thanked the Congress for the honor conferred upon him, in some feeling remarks, and Mr. Converse, of Ohlo, then moved that all the other officers be re-elected, but Judge Whitehead, of New Jersey, nominated Colonel William Ridgeley Griffith, president of the Maryland Society, for one of the vice-presidents. Thereupon Mr. Converse excepted the five vice-presidents from his motion, and the following officers were then re-elected:

Franklin Murphy, of New Jersey, sectetary-general.

Mr. Murphy then introduced Dr. Jos. A. He explained that there would be three steeple-chase races and two flat races. The former would be of three miles each, with elshteen hurdles and a number of ditches to be taken.

The Chair then announced the business sessions of the Seventh National Congress and Triennial Conclave of the National Society of the Sons of the American Revolution as closed. There was a rather lively contest for the mayoraity. Mayor Richard M. Taylor did not make as strong a fight for re-eletion as had been foressted by his friends. There was a surprise party for friends. There was a surprise party for the election people in this respect, and Captain E. P. Reeve, of the Board of Aldermen, gave Mayor Taylor a lively race. As it was, Mr. Tayor defeated his opponent by more than 70 votes when the returns had been recived up to 5 o'clock in the morning.

The returns received up to 5 o'clock this morning gave Mr. Richardson something over 60 majority. It is believed that when the other precincts in the city are heard from Mr. Richardson's majority will be even larger, and that he will run ahead of Mr. Smith by a vote of from 70 to 30. There is no by a vote of from 700 to 900. There is no doubt whatever that Mr. Richardson will be the next Commonwealth's Attorney. CITY SERGEANI.
