the negro vote always lying across their path. But in Maryland and in the Northern and Western States this political and social blight is missing and the independent newspaper and the independent voter are displaying their power more and more at each election.

It is not too much to say that Gorman's overthrow and Maryland's happy riddance or him, are due to the Baltimore Sun. For five or six years, this independent and influential paper has devoted itself day in and day out to exposing the dark methods and wicked machinations of this Arch Boss, until it had made the people of the State understand perfectly how he was abusing their confidence and plundering them on every hand by the most degrading and demoralizing influences of ring rule and boss politics.

There is a moral in the Maryland election that all of the bosses would do well to bear in mind. They may establish themselves in power for a time, but the independent newspaper and the independent voter will attend to their case in time just so surely as that they undertake boss rule.

Our free institutions are the greatest blessing that mankind can have and their strength lies in the fact that we have an unumquodam daily press to tell the people whatever takes place.

WHENCE MR. BRYAN'S COMFORT? We have been waiting for fuller returns to see where Mr. Bryan has found so much comfort and encouragement in the late election.

Surely his comfort does not come from New York, where Tammany won without Mr. Bryan's platform, aid, or sympathy.

It does not come from Maryland, where the Republicans and independents have beaten Gorman and Gormanism.

It does not come from Kansas, lately the hot bed of free silver and Populism, which shows up with large Republican gains.

It does not come from Iowa, the home of Uncle Horace Boies, which gives Shraw sixteen thousand more votes than the highest Republican candidate for Governor had before received.

It does not come from Nebraska, Mr. Bryan's own State, which, in spite of his vigorous canvass, returned a decreased plurality for the fusion candidates.

The fact is the farmers of the West have seen it practically demonstrated that Mr. Bryan's pet theory about wheat and silver is nothing but theory, and has been knocked sky-high by dollar wheat and a forty-cent silver dollar.

There is no comfort to the silverites in the late election. There is, however, encouragement, and much encouragement to those who believe that if the Democratic party will only discard free silver and Populism the forces of Democracy will be reunited, and will march with banners to victory in 1900.

THE VALUE OF CHEAP POWER. A writer in the Atlanta Journal declares that the great need of this city is cheap power, and seriously recommends that the municipality issue bonds and erect a giant electric plant, from which power will be sold at low cost to small industries.

The Journal comments the suggestion, and adds: If we had such a power plant as Mr. Hendrix suggests it would be one for persons and companies with small capital, that would pay them well, would increase our population, afford employment and good wages to a host of men, women, boys, and girls, and in many ways contribute to the growth, prosperity and importance of Atlanta. This is a big and important question on the part of many so-called gold men before they can argue for the gold standard straight.—Salem Sentinel.

A DEAD ISSUE. We are glad to see the Richmond Times admit that the issue between the gold standard and bimetalism is at last clearly drawn. The subterfuge of international bimetalism is now no more, and the gold bugs must stand on the gold standard, pure and simple. It will require considerable argument on the part of many so-called gold men before they can argue for the gold standard straight.—Salem Sentinel.

THE BOSS REBUKED. It is necessarily a source of regret that the fine Democratic party of Maryland has been so disorganized that Maryland, a long time esteemed the banner State of Democracy, has passed into the Republican column, though we hope with the Democratic party under a different leadership it will not remain there long. But deeply as Maryland's loss to Democracy is to be deplored, there is one compensation and one great compensation for it. She is relieved of the appalling curse which her political boss, Gorman, brought upon her, and the Democracy of the nation will be freed of his blighting influence also. He retreats now to that ignominious oblivion that is the fate of all such men as he who rely upon corrupt practices for their power and influence, and who have lost their grip. Warned by the degrading and demoralizing use he made of power, when he had it, all Maryland will unite to prevent him from ever re-establishing his control there again. The result in Maryland is a striking testimony to the power of two influences in our modern politics, the independent newspaper that always tells the truth and wishes only to have simple justice done, and the independent voter. In Virginia and the other Southern States the people are denied the full benefit of these two influences because of the dark shadow of

We had long suspected that this was the way railroad organs looked at the matter. The public is to be congratulated that they have uncovered themselves and let it be known to all men that they expect a man who accepts a free pass to serve the railroads.

Of course The Times has expressed no such opinion as the Caucasian attributed to us. Our exact language was this: "It seems to us a great deal more decent to accept favors from a corporation that one 'stands in with,' and is friendly to than to accept favors from a corporation which one is forever denouncing and fighting."

The Caucasian is making a desperate effort to defend Governor Russell and to extricate him from the ridiculous predicament in which he has been caught. But it cannot do so and it does its poor cause no good by distorting the language or those who have seen fit to prod the Governor with his inconsistency. The only effect of his little tirade is to make us as ridiculous as his client.

Governor Russell had been enraged since he went into office in denouncing the "robber corporations" and one day he was caught with his pockets full of railroad passes. He had been denouncing these "robber corporations" as defiant of the rights of the people and the law of the land. But when the grand jury indicted the "robbers" for issuing passes to State officials contrary to law, it turned out that the Governor was particeps criminis.

Go to! Governor Russell is very much in the attitude of the fellow who turns State's evidence to save his own hide. And the Caucasian is his apologist.

Seriously speaking the "General" hasn't been seen in this section. Nobody is starving or even hungry long at a time, but money is hard to get, wages are low and the outlook for winter far from cheerful. Thank God we have a yellow fever, but the Wall Street system of finance still distresses us.—Farmville Herald.

Which was it, old man, Stocks or wheat? The New York papers gave a magnificent exhibition of over-confidence in this election.

General Fitz Lee has been much commended on his "Life of General Robert E. Lee," and there is ample material for a delightful romance mingled with facts in the Cuban controversy, when his official term ends.

A month more and the show will open up again under the big tent in Washington, with Reed as the ring-master.

Seth Low is now eligible to join the E. Benjamin Andrews class of college president martyrs.

A Washington author has just put out a book on "How to Live Longer." Just the same old suggestion very likely of putting cork soles in your shoes.

George Fred Williams is out in a long statement to the people. An explanation possibly of how those folks looked that he kept seeing flocking to his standard during the campaign.

In answer to a subscriber, we would say that Senator Morgan is not dead by any means. He is probably just training a few guns on Blanco.

WATKA, the Creek Indian base-ball player, who returned to his tribe to be killed, is being greatly lauded. A sacrifice hit, so to speak.

It will be useful to "ask your druggist" for Beth Low brand of reform, for the manufacture of it has been temporarily suspended.

Croker says "Van Wyck will carry out every promise," and Croker will be right there to see that he does.

The Times cannot forbear to acknowledge the many compliments extended yesterday on its complete account of the unfortunate wreck.

you wouldn't marry me for money, would you, dear? "No, darling, I wouldn't marry you for all the money in the world. And he marvels now that she did not speak the last time he met her.—Philadelphia Inquirer.

In Doubt. Ethel—Oh, dear me! I don't know what to think! Alcy asked me nothing around the house that I could love, and that would love me.

ATELHEMATH. Miss Louise Charlotte Wiberg and Arthur H. Andraszy were married in Boston Thursday night at the Zoo while standing in a den of lions.

Mayor George D. Todd, of Louisville, was defeated for re-election at the polls on Tuesday. He charges that thousands of negroes were intimidated and otherwise prevented from voting for him, and to ascertain their number opened polls at Republican headquarters and invited all to vote for him there.

The boxes for the Horse Show were sold Thursday in New York.

The coveted privilege was secured in 1892 by W. Seward Webb, who bid \$800. In 1893 J. J. Astor, Jr., paid \$900 for choice of the front row of seats. The list in 1894 with a bid of \$500 and in 1895, Kinsley Magoun and E. Than of Pittsburgh each paid \$500 for a choice.

and while it cannot be said Mr. Kasey got the worst of it, he certainly got more than he wanted, for the angry bird struck one of his spurs into his hand inflicting an exceedingly painful wound and for several days the arm had to be carried in a sling. The wound is now entirely well, however, and Mr. Kasey says he wants no more rooster fights.—Bedford Bulletin.
