

STOCK MARKET AND WITH NET GAINS NEARLY ALL THROUGH THE LIST.

PRICES OF BONDS IRREGULAR

The Bears' Demand for Stocks to Cover Short Contracts Worked Some Violent Recoveries in the Industrials.

NEW YORK, March 3.—The feature of the stock market was the disturbance in the industrial and specialty departments of the market. This influence was first evident in Third Avenue, which rebounded 8 points on the belief that the cost of raw and refined sugars was an influence.

A movement in these stocks had a sympathetic influence upon other industrials. The market was generally at the top and at net gains in nearly all stocks. Part of the buying was on the principle that when bonds were sold, the price of the interior was larger than anticipated, and the loss in cash correspondingly less.

Another loan expansion so formidable as \$9,212,000 was apparently viewed with equanimity, which was generally at the top in Wall street that much of the recent loan expansion will find a quick return to the money market.

The market for railroad bonds had shown decreased activity during the week, and the price movement had been irregular. United States new 4's advanced 1/2.

The total sales of stocks to-day were 271,900 shares, including Atchison preferred, 1,170; American and Quincy, 6,340; American Steel and Wire, 6,685; American Tobacco, 17,680; Brooklyn Rapid Transit, 18,780; Federal Steel, 5,380; General Electric, 12,775; National Steel, 5,200; Sugar, 62,400.

MONEY AND EXCHANGE.—Money on call steady; actual transactions at 2 1/2 per cent; closed offered at 2 1/2 per cent; prime mercantile paper, 4 1/2 to 5 1/2 per cent.

WEEKLY BANK STATEMENT.—The weekly bank statement shows the following: Cash reserve, decrease \$6,637,000; Loans, increase 9,621,000; Deposits, decrease 4,502,000; Circulation, increase 962,800.
