Women Wonder Why

They are doomed to so much suffering. But are they doomed? Is not the suffering the result of conditions which under skillful treatment might be entirely cured? Thousands of women who had been great sufferers, have learned that suffering was unnecessary after using Dr. Pierce's Favorite Prescription.

"Favorite Prescription" is absolutely a temperance medicine in the strictest meaning of the term. It contains no alcohol and is free from opium, cocaine and all other narcotics.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Sermons of Dr. W. E. Evans at Monumental Sunday.

Services in the Other Churches Last Sunday—Convention of Priests at the Cathedral To-Day.

Monumental Church, on Sunday morning and afternoon, when Dr. W. E. Evans, of Columbia, S. C., preached, was filled to its utmost capacity.

Dr. Evans, though urged on every side to accept the call to Monumental, has not yet reached a decision. He will leave to-day for Columbia.

The subject of Dr. Evans' sermon Sunday morning was "Personal Accountability," taken from the text, "What is That to Thee? Follow Thou Me."

He proceeded to give the historic setting of the words and then discussed the question of individual responsibility. He took the position that this personal accountability grew out of the fact that man is free, and that while man was subject to law, yet it is moral law which is never compulsory.

He then showed that this responsibility was in proportion to man's possibilities, God not requiring duties of men that are impossible of performance when they are called upon to be performed in order to meet corresponding responsibility. He then showed that this responsibility was an individual matter and cannot be shifted from one man to another by any other man.

He spoke of how Judas Iscariot endeavored to lay the responsibility of his treachery upon the priests, but they said, "Shame to that!" No one is justified in seeking to escape responsibility by the lives of other men, or the providences of God, or the mysteries of religion.

At the Methodist pastors' Monday morning meeting it was decided to close the church for the next Sunday evening except Centenary, Broad-Street, and Union-Street, at which mass-meetings will be held.

UP TO THE JURY. Gallego Mills Suit to be Decided This Morning.

Arguments were concluded yesterday afternoon in the suit of the Gallego Mills Company against the city for \$35,000 damages alleged to have been done by the bursting of a defective sewer about two years ago. The case will go to the jury this morning at 10 o'clock.

The city, in its defense and in reply to the declaration made by the plaintiff, contends that the culvert in question was not made by the city of Richmond, nor was its use adopted by the city in such a way as to render it liable for its condition; that the sewer was built over a natural stream by some person other than the city, and that the city had a right to draw and empty its culvert into it without incurring responsibility; that the break was caused by a sudden rain-storm; that the primary cause was the imperfect and dangerous condition of the Basin Bank; that the culvert was wholly upon private property; that the damages in the declaration are speculative and remote and not such as can be recovered in an action at law; that the damages claimed are excessive and illegal, and not such as necessarily resulted from the accident mentioned; that even though it can be established that the city was negligent, yet the plaintiff was guilty of contributory negligence.

THE SCHOOL CENSUS. Supervisor Walford Will Begin the Taking of It To-Morrow.

Mr. C. P. Walford, clerk of the City School Board, will commence on Wednesday to take the school census of the city. This includes all persons between the ages of five and twenty-one.

This census is taken every five years in accordance with the State law, and is done in order to apportion the State school funds to the several districts.

The enumerators have been selected from the corps of school principals, who are familiar with the districts and the work. This census should not be confused with the regular United States census, as it is for a different purpose and in no way connected.

It is necessary that every facility be given the enumerators when they call, as each name taken will add to the amount received by the city from the State school fund.
