PAID-BACK SUITINGS.

Priced at Half.

Two big tables full of high-valued new goods for rainy-day service. Full fifty pieces and nearly as many patterns. They are popular and desirable. Everybody needs a walking suit or skirt. Witness the weather of the last few days. The time of their usefulness is just commencing. But the past warm season was so protracted that our big stock hasn't moved fast enough. Now we need the room for Christmas displays. How quickly shall we have it with prices halved on goods like these:

The \$1.50 and \$1.25 qualities are 75c.

Some \$2.00 qualities are \$1.00.

Some \$2 and \$2.50 qualities are \$1.25.

Some \$2.25 and \$2.50 qualities are \$1.50.

NICARAGUA ROUTE GREATLY FAVORED

(Continued from First Page.)

ume of our trade with the Orient. The amount of the American commerce through the canal will quickly surpass the total amount of Europe's traffic. "An isthmian canal will strengthen the unity of the national and political interests of the United States and promote its commerce and industries.

The commission's final conclusions follow: The estimate cost of building the Nicaragua Canal is about \$58,000,000 more than that of completing the Panama Canal, leaving out the cost of acquiring the latter property. This measure the difference in the magnitude of the obstacles to be overcome in the actual construction of the two canals, and covers all physical considerations.

"II. The new Panama Company has shown no disposition to sell its property to the United States. Should that company be able and willing to sell there is reason to believe that the price would not be such as would make the total cost to the United States less than that of the Nicaragua Canal.

"III. The Panama Canal, after completion, would be shorter, have fewer locks and less curvature than the Nicaraguan Canal. The measure of these advantages is the time required to be vessel to pass through, which is estimated for an average ship at 12 hours for Panama and thirty hours for Nicaragua. On the other hand, the distance from San Francisco to New York by the Panama route is 2,000 miles, to Liverpool 2,800 miles greater via Panama than via Nicaragua. The time required to pass over these distances being greater than the difference in the time of transit through the canals, would be somewhat the more advantageous of the two to the United States, notwithstanding the greater cost of maintaining the longer canal.

"IV. The Government of Colombia, in which lies the Panama Canal, has granted an exclusive concession, which still has many years to run. So far as can be ascertained the company is not willing to sell its franchise, but it will accept of the United States becoming the owner of part of its stock. The commission considers such an arrangement inadmissible. The Governments of Nicaragua and Costa Rica, on the other hand, are untrammelled by concessions."

James River on the Rise. The rain of the past two days has been quite general throughout the State, Virginia being the storm centre yesterday, and it is quite likely that the James river will experience a considerable rise, though it is hardly probable that it will set out of its banks. No damage has been reported as a result of the rains.

AT BERRY'S. Decision in the Oliver-Donati Case To-Day. (Special Dispatch to The Times.) NORFOLK, Va., Dec. 4.—The case of Frank S. Oliver, thirty-one years old, charged with assaulting Amelia R. Donati, the ten-year-old child of Charles Donati, of Richmond, at Old Point last night, was tried in the United States Court here to-day, Judge Waddell presiding.

Mr. Donati, Mrs. Donati and the girl testified and the case was argued this afternoon with District Attorney Alan for the prosecution, and ex-Congressman R. T. Thorp for the defense.

The case was given to the jury to-night with instructions to render their decision to-morrow.

THE COURTS OF SMYTH. Tramps Convicted of a Car Robbery Of Silverware—Postoffice Entered. (Special Telegram to The Times.) MARION, Dec. 4.—Circuit Court began here yesterday, but there will be little done, as the docket is a light one. The County Court adjourned last Saturday after a more than usually busy term. The two tramps whose arrest and attempted escape was mentioned in The Times some six weeks ago, were arrested at Atkins and stealing silverware, which they were selling here "regardless of cost." They got two years in the penitentiary. They gave their names as Frank Osborne and Joe Wilson, probably fictitious.

The postoffice at Rural Retreat, was broken open last week, and two tramps were brought to jail here to-day, supposed to have had a hand in it. Tramps living in this county had better avoid Marion, unless they carry a certificate of character with them.

Dr. P. W. Atkins' new residence is nearly completed, and will be the finest house in town.

The electric light company putting in the electric light plant expect to have it in operation by the end of this week.

SUBSIDY BILL IN THE SENATE

(Continued from First Page.)

work will begin to-morrow, when it will take up the consideration of the army reorganization bill, which Mr. Hull, chairman of the Military Committee, introduced for immediate consideration.

The objection to the swearing in of Mr. Connor of Iowa, the successor of Senator DeWitt, which was raised by Mr. Bailey of Texas, yesterday, was removed to-day by the presentation of a new set of credentials from Governor Shaw, and he took the oath.

Three bills were passed under the call of committees, the most important being one to provide for the detail of not to exceed 100 retired army officers and 300 non-commissioned officers as military instructors in the public schools of such cities as adopt a system of military instruction. The others were "to prevent the failure of military justice" and to legalize an issue of \$25,000 of bonds by Pima county, Arizona.

The resignation of Mr. DeVries, of California, who is now a member of the Board of General Appointers, was laid before the House. The Speaker announced the appointment of Mr. Davis, of Florida, as a member of the Committee on Merchant Marine and Fisheries.

ARMY BILL REPORTED. Mr. Hull, of Iowa, chairman of the Military Affairs Committee, reported the army reorganization bill. The volunteers under the present law, he said, must be mustered out by July 1st, and every one must feel the imperative need of providing for a new army. He asked unanimous consent that the bill be taken up to-morrow.

Mr. Sulzer objected. A resolution providing for memorial exercises in the city of New York on the occasion of the celebration of the Centennial anniversary of the founding of the Government at Washington, D. C., December 17th, was adopted.

At 1:35 P. M. the House adjourned.

THE ARMY BILL.

The One Reported Is Secretary Rooks's Measure Amended. (By Associated Press.) WASHINGTON, Dec. 4.—The bill reported by the House Military Committee to-day is the Rook bill amended. Most of these changes have been reported. Two sections were added to the bill to-day, the first of which is meant to cover the case of General Slocum, and the last of General Fitzhugh Lee and James H. Wilson. These sections are:

"41. That the President is hereby authorized to select from the retired list of the army an officer not above the rank of brigadier-general, without regard to age, and appoint him brigadier-general, U. S. A., for the purpose of placing them upon the retired list.

"42. That the President is authorized to select from the brigadier-general of volunteers two officers, without regard to age, and appoint them brigadier-general, U. S. A., for the purpose of placing them upon the retired list.

Other amendments are: That the number of officers of artillery shall be in proportion to the increase in the number of men. The adjutant-general shall have the rank of a major-general incumbent, thereafter the rank of brigadier-general, and the number of adjutants to staff positions is stricken out. The surgeon-general is authorized, in emergencies, to appoint as many contract surgeons as may be necessary.

MANUAL LABOR TRAINING

To Be Introduced in Public Schools Of Lynchburg. (Special Dispatch to The Times.) LYNCHBURG, Va., Dec. 4.—Messrs. Camillus Christian and E. C. Hamner, of this city, and O. B. Barker, John W. Craddock, and B. F. Kirkpatrick, of the School Board, and E. C. Glass, superintendent of the city schools, will leave to-morrow afternoon to visit a number of schools for the purpose of inspecting their manual training departments with a view to introducing a similar system in the Lynchburg schools.

They will first go to the Miller Manual Labor School, from which they will go to Washington, where they will spend Friday. They will then go to Boston, and before returning may visit other prominent educational centers. The committee will be at the Miller school on Thursday.

For several years past plans have been considered by the Lynchburg school authorities for introducing manual labor into the city's schools, and as the matter has been quite generally discussed among the people, all of whom take a great deal of pride in their excellent system of public instruction, it was finally decided to appoint a joint committee from the School Board and the Board of Education, with a view to the selection of a few of the well-known institutions of the country in which manual training is taught.

The schools of Lynchburg are regarded as among the very best in the South, and the committee will endeavor to select a few of the best in the North, and strengthening of their usefulness is in line with the progressive policy that has always characterized their management. Manual training, it is believed, will prove a potent factor in the solution of the negro problem.
