

WHEAT IS STEADY; SO ARE STOCKS

Grain Production Will Break All Former Records.

STEEL STOCKS STAND STRIKE.

Daily Small Depression Caused by Labor Troubles—Produce Market Active at Good Prices—Supply Less Than Demand.

Produce reports to the Richmond Grain and Cotton Exchange, reviewing the grain trade of the week...

The splendid promise in this country almost assured a crop largely in excess of 200,000 bushels...

The Richmond market shows 5 1/2 cents over Chicago, and 1 1/2 cents over St. Louis.

Early July will witness a large augmentation in the local receipt of wheat...

The visible supply of wheat last year was 4,242,000 bushels against 3,900,000 for this year.

COMBINATION OF COAL COMPANIES

Corporation With Immense Capital to Control the Output of Bituminous Coal.

CLEVELAND, OHIO, July 1.—The leaders to-day will say: "Before the first of September all of the big companies producing bituminous coal will have been gathered into one organization..."

From what can be learned work upon the big coal trust has been under way for a greater length of time than any of the other industrial combinations...

One year ago all of the coal properties in the Pittsburgh district, which ship coal to the lakes, were collected into one organization known as the Pittsburgh Coal Company...

The aim of all this is to effect a complete monopoly of the bituminous coal property in the territory of the Mississippi and north of the Ohio and Potomac.

Local investors and speculators in stocks demonstrated little activity either in buying or selling yesterday.

There was much interest manifested in steel stocks and the probable result of the strike of the members of the Amalgamated Association...

As advertised in another column, Messrs. Scott & Stringfellow are offering for sale a miscellaneous lot of stocks of Richmond banks...

The banks of Richmond have been very conservative in their management, as evidenced by the large surpluses and undivided profits they have accumulated.

As advertised in another column, Messrs. Scott & Stringfellow are offering for sale a miscellaneous lot of stocks of Richmond banks...

The absorption of the Richmond Locomotive Works by the American Locomotive Company will place the six per cent. bonds of the former corporation among the gilt-edge securities and will probably produce an advance on the present quotations.

MANY DEATHS FROM THE HEAT

To mitigate against effective work. In many cases horses had to be obtained from contractors to draw wagons and ambulances.

Although the Weather Bureau shows that the maximum 98, this does not indicate the heat on the street. Many deaths are reported near Holston, Cambridge and other Iowa points, but details are lacking in connection with Cambridge cannot be secured from here.

A LYCHING IN VIRGINIA. Negro Hanged by Mob to Bridge Over Meherrin River.

LAWRENCEVILLE, VA., July 1.—This morning between 12 and 1 o'clock, a mob of about one hundred men called upon Deputy Sheriff Chas. Mitchell and demanded of him the jail keys, which Mr. Mitchell refused. They then proceeded to go to the jail and went direct to the cell in which Joseph Walton, a negro, was confined, who was charged with an attempt to commit criminal assault upon the daughter of Mr. J. H. Clark, who lives near Triplett's, in this county.

The negro was taken from the jail, tied to a jumper and taken to Gholson's bridge, over the Meherrin river, about four miles from here. He was then tied with a pole-line to the arch in the middle of the bridge and allowed to swing; and it is supposed that he was shot, one shot taking effect in the forehead.

He was then cut down and swung under the bridge and at present is swinging about twenty-five feet from the water. A very little noise was made by the lynching party and there is no clue whatever as to who the parties are, all being masked and perfectly organized.

Fields Lewis, a negro convicted of house-breaking and sentenced to two years in the penitentiary, was in the cell with Walton and made his escape in some way while Walton was being gotten out of the cell.

The crime for which the negro hung was committed last Thursday morning. Walton was living with J. H. Clark, a white planter. About 2 o'clock screens were heard from the room of Miss Kate Clark, a young lady seventeen years old. A ladder had been placed against the window of the young lady's room and a person was seen to climb up to a cotton patch, fitting the negro's feet, were found. After a thorough search Walton was found hiding in the cotton patch.

Miss Clark said she felt some one's hands on her feet and when she called out the negro jumped head first out of the window.

Mr. Powers Recovering. Mr. W. A. Powers has been confined to his residence for the past ten days from the effects of a painful accident. While handling a heavy case of goods at the warehouse of Drenny Hughes Company, he was struck on the back of the neck by the case falling on it. He hopes to be out in a few days.

CHICAGO MARKET. CHICAGO, ILL., July 1.—Continued hot weather throughout the Southwest caused excitement in the corn pit at the opening, and a grand scramble to buy, but later on reports of rain in Kansas the market assumed a more rational tone and the close was 7c higher, September wheat 3/4c lower, and September white provisions were 5 to 10c higher.

The leading futures ranged as follows: WHEAT—No. 2 July 65 1/2 Sept. 65 1/2 CORN—No. 2 July 44 1/2 Sept. 44 1/2

OATS—No. 2 July 27 1/2 Sept. 27 1/2

CHICAGO, ILL., July 1.—Crowded together in a little zinc-lined shanty under a North Shore pier, ten boys and young men and another man met instant death by lightning to-day. They had left their fish lines and sought shelter from the fierce thunder storm that deluge the northern part of the city about 1 o'clock.

Ten minutes later their bodies lay, with twisted and tangled limbs, "like a nest of snakes," as the men who found them said.

Twelve sought the shelter, and one escaped. Twelve-year-old Willie Anderson is injured, and lay many minutes before he could be drawn out from the dead bodies. The dead are all from the families of comparatively poor people, and comprises a party who were fishing and seeking relief from the heat of the day, accompanied by a number of boys, who had come to wade and swim on the beach.

GREAT CROP OF TOBACCO. Colonel Cuninghame Has Planted About 4,000,000 Hills of the Weed.

"I am giving most of my attention now to my tobacco crops instead of to politics," said Colonel John S. Cuninghame, of North Carolina, at Murphy's Hotel last night.

Colonel Cuninghame is the largest tobacco planter in the world. This year, he says, he has planted somewhere between 2,000,000 and 4,000,000 hills of the weed. The Colonel will return to his home to-day.

BUSINESS MOVEMENTS. Richmonders Engage in a Big Enterprise at West Point.

Messrs. J. B. Elam & Co. and Augustine Royall & Co. will offer for sale at noon to-day in front of the Post-office, on Bank Street, all the property of the "Midlothian Mining Co." situated in Chesterfield county and Manchester. This sale is to be made in accordance with a decree entered in the Chancery Court.

The intense heat yesterday caused many of the workmen on the various buildings in the city to retire from work a portion of the day. There were no cases of sunstroke reported, but the men stopped work in order to prevent such disaster.

One of the largest enterprises—one that may be termed a Richmond enterprise—in this vicinity is that at West Point, in which Richmond capitalists are investing a little short of \$100,000 in the improvements to the water front of that comfortable town. The improvements are in the shape of wharves, piers, restaurants, bath-houses, etc., and are designed mostly as places for the "Richmond people." The prime mover in this enterprise is Mr. George Governator, of this city. The water front adjacent to the Terminal Hotel property is now a great mass of new buildings, constructed especially for the opportunity of spending their vacations or their holidays at West Point. The Southern Railway Company has constructed a spur track leading directly to the park, and within a few days daily afternoon trains will be run from the city to the benefit of those who may wish to spend the evening there, or visit their families and friends who may be spending the summer at West Point.
