

NERVES GAVE WAY

Had Headache, Backache and Serious Indigestion. Pe-ru-na Cured.

Miss A. Brady, Corresponding Secretary, Illinois Woman's Alliance, writes from 2725 Indiana Avenue, Chicago, Ill.:

"Last year, from continued strain in literary work, I became very much exhausted, my nerves seemed to give way, and I had backache, headache and serious indigestion."

"One of my friends suggested that I try Peruna. It certainly acted like magic on my system."

"Within ten days I felt new life and health given me, and by taking an occasional dose of it I have felt extra tired, I keep my system in perfect order."—Miss A. Brady.

Mrs. Fanny Klavatscher, of Summitville, N. Y., writes as follows: "It is not necessary to suffer when a bad case of pelvic catarrh can be cured with two bottles of Peruna. From my own experience I can recommend it to every one."

"For three months I suffered with pain in the back and in the region of the kidneys, and a dull, pressing sensation in the abdomen, and other symptoms of pelvic catarrh."

"But after taking two bottles of Peruna I am entirely well, better than I ever was."—Mrs. Fanny Klavatscher.

Everywhere the people, especially the women, are praising Peruna as a remedy for all forms of catarrhal difficulties. Send for "Health and Beauty," written especially for women by Dr. S. B. Hartman, President Hartman Sanitarium, Columbus, O.

Reward for Information Concerning J. Wilkes Booth Basis of a Fortune.

(Special Dispatch to The Times.) KING GEORGE C. H., VA., July 15.—Mr. William Rollins, who died Thursday, was one of the most extensive and prosperous farmers of this county, and his funeral took place from his home, "The Dogue," Saturday. Mr. Rollins had been very sick for a month or two past and his death was not unexpected. In his death a man around whom clustered an interesting page of history has passed away.

During the Civil War Mr. Rollins was ferryman on the Rappahannock River from Port Conway in this county, to Port Royal, in Caroline county. When J. Wilkes Booth was making his escape after assassinating President Lincoln he crossed the Rappahannock in the boat owned by Mr. Rollins. An hour or two afterwards his pursuers reached the ferry and insisted that Mr. Rollins should give

BIG HURRICANE IN MIDSUMMER

The Worst Storm Ever Known for the Time of Year.

SCHOONER'S MASTS BLOWN OUT

Her Captain and Crew Stick to Her, Though She is but a Wreck—Damaged Ships Continue to Limp into Port, and Some May Never Come.

(Special Dispatch to The Times.) NORFOLK, VA., July 15.—A hurricane that blew off Hatteras last Wednesday wrought havoc. Nobody remembers a storm so destructive in mid-summer.

Battered vessels have been coming in this and other ports, all telling of the severity of the storm, which all show unmistakable signs. Some are outside and may never come in. Among the last is the schooner Theoline, whose three masts were blown out of her by the hurricane while she was loaded with lumber, bound from Brunswick, Ga., for New York.

STUCK TO THE SHIP. She was full of water when the Ward Line steamer Saratoga passed her, but Captain Francis, her commander, and her crew, refused to leave her, and after seeing the Saratoga's provisions curing from the masts, got about trying to rig a jury sail, hoping to sail into this port. She was on Friday last midway between Cape Hatteras and Henry, in latitude 36.20, longitude 74.12, and probably 50 miles off shore. Nothing has been heard of her since.

The four-masted schooner Henry J. Smith, which sailed from Newport News for Trinidad July 9th, was towed in here this morning by a Joseph M. Clark & Co. tug.

BADLY BATTERED. She has lost two sails, her midship house is badly battered and is reported leaky. Her master is ill and the vessel is in a bad way. The Smith ran into the north edge of the hurricane, and although she was badly torn up, she did not feel the full force of the blow. She will patch up here and proceed.

The four-masted schooner Mabel Jordan, which was towed in here Friday, practically denuded of sails, is expected to proceed for Philadelphia to-day in tow of the tug Ivanhoe. Experts say that no vessel of the Jordan's class ever came in here so stripped of canvas by a storm.

THE MALDEN. The schooner Malden, Captain McKown, bound from Boston for Savannah, was ashore last night at 9:30 o'clock at False Cape. The Merritt tug Wm. Coley, which went to her assistance, hauled her off at 8 o'clock this morning and proceeded to tow her to Newport News for repairs.

The steamer Dudley, a Norwegian, which is really a big white yacht, lies off Lambert's Point to-day. She burst a steam pipe at sea and came in for repairs.

Excavations at Fredericksburg Ordered Stopped and Refused.

(Special Dispatch to The Times.) FREDERICKSBURG, VA., July 15.—The City Council today received legal notice from the Fredericksburg Milling Company, ordering their work on their large race-way from their mills, on Sophia Street to the National Boulevard, suspended until the weather is more suitable for such work. The City Health Board having informed the Council that the excavating during the hot spell may seriously affect the health of the citizens.

The work has been in progress several weeks and will cost over four thousand dollars. The milling company declines to stop operations and a law suit may result.

(Special Dispatch to The Times.) HARRISBURG, VA., July 15.—News has reached here to-day of the accidental killing of Floyd Black Saturday at McGaheysville, J. O. Korsev, the stepfather of the boy, a man who was in the shooting, made the following statement: "Cal Morris, a step-son of mine, and Floyd Black, aged thirteen, were at my house with several revolvers. Morris had the gun, when a short distance from the house they began shooting at a tree. Black shot first, but his gun missed fire."

JURY HANGS SECOND TIME.

Employees of the Powhatan Knitting Mills Attach the Stock.

(Special Dispatch to The Times.) NORFOLK, VA., July 15.—A jury in the United States District Court here today, trying Thomas Humphrey charged with robbing a dying comrade at the Soldiers' Home, Hampton, of \$100, disagreed and were discharged.

Another jury in the Humphrey case rejected a verdict of guilty.

The Powhatan Knitting Mills, at Lambert's Point, after ten years' successful operation, shut down Friday night, no explanation of this cause of the shut down being forthcoming. One hundred and thirty-five operatives to-day, fearing they would lose their wages due, aggregating \$2,500, attached the mill and stock on hand. The workers said they saw signs of a strike in the town or county, and it is understood that the quarantine about the house where the little fishery child has been sick would be raised to-day.

ENDOWMENT RANK K. P.

Grand Representative of K. C. Richardson Says Nobody Will Lose—Members of the Body.

The Endowment Rank, Knights of Pythias, will lose nothing by the maladministration of the affairs of the Rank. Grand Representative D. C. Richardson, who has just returned from Chicago, says that the Supreme Lodge has been in session, discussing the matter yesterday, said:

"That the investigation showed gross mismanagement of the affairs of the Endowment Rank, which has necessitated the discharge of nearly every one connected with the administration of its affairs and the appointment of others. The funds of the Rank had been injudiciously invested and while none of the securities are at present available, it is believed that large percentage may be recovered by wise management. The Supreme Lodge pledged the whole resources of the order for the fulfillment of the obligations of an Endowment Rank and now with \$17,000 members and more than \$100,000 to back it, under an honest administration, the Rank is stronger than ever before."

BENEDED BY A TRAIN.

Naval Recruiting Station Opened at Durham.

(Special Dispatch to The Times.) DURHAM, N. C., July 15.—While rounding a curve between Cary and Morrisville yesterday morning, the west-bound passenger train of the Southern Road ran over C. O. Wilburn of West Durham and killed him instantly crushing his head into a pulp. The train was running at full speed down grade, and it was impossible to stop in time. Wilburn was lying across the track, fastened and with his head on the rail. A half-filled bottle of whiskey was found on him, and the supposition is that, having taken too much, he lay down and met this sad end. His remains were brought here early in the evening, and interred in the cemetery to-day.

United States naval officers, Lieutenant L. G. Mitchell and Surgeon W. C. Brantley, opened a recruiting office here to-day, and will remain during the week. They are enlisting three classes—apprentices from fifteen to seventeen years of age, seamen from eighteen to twenty, and tradesmen up to thirty-five.

The apprentices will be sent first to the training school at Bridgeport, Maine, and will be wards of the nation until they reach their majority.

A terrific rain storm swept this section yesterday evening. Streams are all up and communications with the country such that damage cannot be ascertained.
