

Varsity Triumphant Over Polytechnics

at right half and played great ball. He repeatedly went into V. P. I.'s line for gains.

THE LINE-UP. Blackburg. Varsity. Virginia. Blackburg. Varsity. Virginia. Blackburg. Varsity. Virginia.

CADETS DEFEATED.

Georgetown won by close score of five to nothing.

WASHINGTON, D. C., Oct. 26.—A Virginia football team sprung a surprise on the Georgetown team a week ago.

ONE TOUCHDOWN. The improvement was such that at the end of forty-five minutes of stubborn play on the Georgetown campus to-day Georgetown successfully defended its goal and sent a runner once across Virginia's goal line.

STIFF GAME. The V. M. I. boys, under the redoubtable Captain Johnson, put up a stiff game, with never a waver in it, and there were cheers for their plucky fight after the game.

GAME IN DETAIL. It was another hot day, and within a few minutes after play began the men on both sides were blowing hard.

POOR JUDGMENT. It was at this stage of the game that Virginia made use of poor judgment. The soldier lads attacked Georgetown's line and found it still unyielding.

GAME IN DETAIL. It was another hot day, and within a few minutes after play began the men on both sides were blowing hard.

continued her rushing tactics, instead of using Berry's good right leg to boot the ball out of danger. Johnston failed to make the required distance, and it was Georgetown's ball within striking distance of the goal.

POURTH STUBBORNLY. Virginia fought valiantly in this last ditch, and it required three plays to get the ball over the line. Rellly being credited with the touchdown. Mackay failed on an easy goal. For the rest of the half the play was about even.

CLOSE FINISH. Nine yards of field separated Virginia from at least a tied score and probably a victory, but the nine yards were harder to get than an unsecured lead, and while Virginia was still five yards from the goal line, the whistle blew, announcing the close of the game. The line-up was

BULLETINS WERE ALL COLORED

Dr. Rixey's Report on Shooting and Death of McKinley.

GOES INTO SMALLEST DETAILS.

Radical Difference Between This and Former Report of Physicians, Which Rixey Also Signed—Valuable from Medical View.

WASHINGTON, D. C., Oct. 26.—A remarkable report from a medical point of view is that submitted to the Surgeon-General of the Navy by Dr. Presley M. Rixey, the physician of the late President McKinley. The report is upon the assassination of the President, and it differs radically in the matter of arrangement from that prepared and published by the other physicians who joined in the treatment of the case and which also was signed by Dr. Rixey.

FIRST BULLETIN. Dr. Rixey, stating that all the physicians agreed to an immediate laparotomy, makes his first entry at 5:20 o'clock P. M. when Dr. Mann made a vertical incision, passing through the wound, and found at the very beginning a piece of cloth carried in by the bullet.

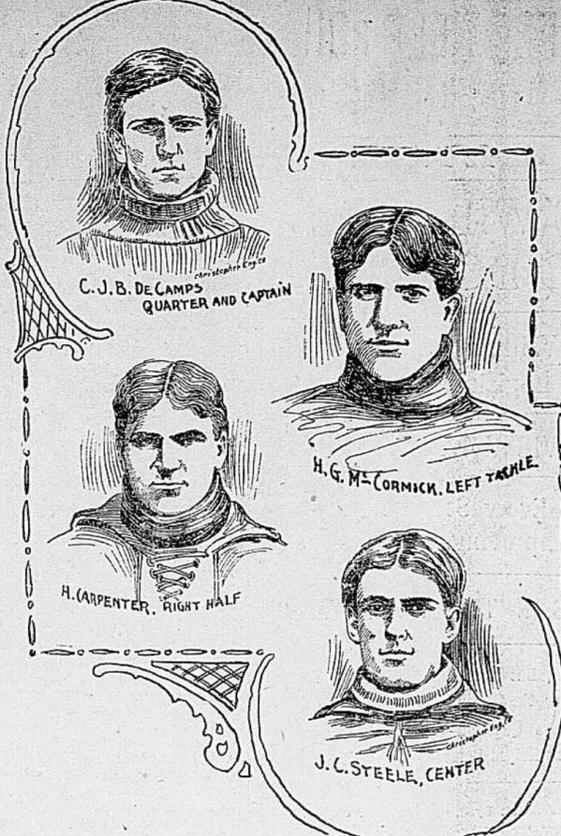

MIDDIES MET DEFEAT. ANNAPOLIS, MD., Oct. 26.—State College of Pennsylvania defeated the cadets here to-day by 11 to 6. The cadets defeated the University of Pennsylvania last Monday and were perfectly confident of winning this game, but they were decidedly outplayed.

HARVARD BEAT INDIANS. CAMBRIDGE, MASS., Oct. 26.—Harvard defeated the Carlisle Indians on Soldiers' field this afternoon by a score of 29 to 0. Harvard's line was much heavier and easily outplayed its opponents.

CLINSON WON FROM GEORGIA. ATHENS, GA., Oct. 26.—In a hotly contested game, Clemson won from the University of Georgia to-day, 29 to 3. The manner in which Georgia played surprised her supporters.

YALE DOWNED COLUMBIA. NEW HAVEN, CONN., October 26.—Yale defeated Columbia at football this afternoon by the score of 19 to 5. Two touchdowns were Yale's portion, but neither of them were converted into goals.

PENNSY VICTORS. CHICAGO, ILL., October 26.—Two brilliant runs, one by Captain Davidson, for forty-five yards, and another by Reynolds for thirty-five yards, together with a goal-kicked by Snook netted a score of eleven points for the University of Pennsylvania eleven to-day, while the Chicago men were unable to score.

A GROUP OF BLACKSBURG PLAYERS.

but it is passed in a moment." The patient was restless and talkative from 5 A. M. expelling brown fluid and gas. There are frequent entries of these eruptions, and at 9 o'clock there was an eruption of morphia. A hypodermic of strychnine was followed at 10:20 with an enema and somatose, which was not retained, and an alcohol.

FOURTH DAY. On the fourth day, September 9th, the patient is recorded as "restless from 1 to 1:20 o'clock." At 3:15 P. M., as "very restless and rest much disturbed." Calomel was administered hypodermically, at 7:00 A. M. "Mind clear, feet chilly." The patient drank water frequently in small quantities. At 9:20 the bulletin issued: "The President's condition is coming more and more serious, etc. At 10 o'clock on this morning, the doctors began to administer hourly doses of calomel. Meanwhile, following a nutritive enema of egg, whiskey and water, there were two high enemata, one with soap water and ox gall, which brought away a copious discharge, with gas. At 2 P. M. the bulletin said: "The President's condition steadily improves and he is comfortable without pain or unfavorable symptoms. Bowel and kidney functions normally performed, etc."

FIFTH DAY. The fifth day, September 10, began at 1:45 A. M., after a short sleep, with this entry: "Uncomfortable, turning frequently." There are three entries of "sleeping" and L. ena at 5:20 bulletin, stating that the President had passed the most comfortable night since the attempt on his life. At 9 A. M., bulletin predicted a rapid convalescence, falling complications. The bulletin at 10:20 said the President's condition was unchanged and described the removal of the stitches, and the cause therefor. The sixth day's treatment was marked by the administration of the first food into the stomach, beef juice, which the note says: "Tasted good."

There were seven administrations of this beef juice, between midnight and 9 o'clock the next morning. The patient complained of feeling chilly, but is recorded as sleeping more than usual, and the bulletin at 9 o'clock said that he rested comfortably and his condition was excellent. The patient complained of headache at 2:25, and calomel was applied to the head. The bulletin at 3:20 stated that the President continued to gain and the wound was becoming healthy.

BEEF JUICE. The seventh day began with the administration of beef juice, and the diet was varied this time, the patient complaining of the pain in the abdomen, by whiskey and water and chicken broth. Later digitalis and strychnine having been rejected hypodermically, the patient was given the second piece of toast and one egg. The entry reads: "Did not relish it, and ate very little. Quieter and more cheerful since having last strychnine. At 4:45 it says: "Mind wandering and restless." Calomel, whiskey and water and digitalis were again administered. The skin was moist and cold, and the 6 A. M. bulletin reported that the President's condition was not quite so favorable and his food had been stopped. At 5:20 Dr. Rixey writes: "Whole body moist and cold, pulse weak and thready. Slept quietly twenty minutes."

At 11 o'clock of that night normal salt solution was injected beneath the skin.

At midnight whiskey and water was given, with an infusion of digitalis. For the first time resort was had to inhalations of oxygen. The bulletin issued at that time reads: "All unfavorable symptoms in the President's condition have improved since the last bulletin, etc."

LAST DAY. At the eighth and last day of the President's life, September 15th, opened with this entry at 12:30 A. M.: "Restless and complaints of headache." Whiskey and hot water was given and a perspiration was induced, but at 1 A. M. in this entry: "Very restless and wants to get up; tired." The same medical treatment was continued, involving a plentiful use of oxygen, digitalis, strychnine and morphia and peptonoids. Still, at 4:55 the patient's condition is reported as grave. The oxygen was continued. There was no response to stimulants. Atrophine and morphia was injected. The patient was almost pulseless. The last entry was made at 9 P. M., and there was a gap of five hours between that and the end. It reads: "Heart sounds in the chest. Oxygen continued slight reflex movements, and at 2:15 September 14, 1901, the President died."

Attached to the report are the results of the autopsies and the chemical and bacteriological examinations, which have been published in the medical journals.

WAR RELIC.

Justice John Discovers the Picture of Sergeant Hall Taken While in the Army.

Justice Crutcheff, while at the reunion in Petersburg, discovered a picture which is a relic of the late war, being a picture of four members of the Richmond Blues. The picture is a good drawing of four of the members of the Blues getting the camp meal ready, with some characteristic remarks written beneath each face.

Sergeant Hall stated yesterday that he remembered the picture, and would prize it very highly if it came into his possession.

Moument to Mr. Gilbert.

Hickory Camp, No. 6, Woodmen of the World, of this city, will unveil a monument this afternoon at Oakwood to the memory of a departed comrade, Mr. E. C. Gilbert. The monument is given by the grand chapter and is on the order of others that stand to the memory of other dead members who lie buried in the same cemetery.

The exercises will take place at Oakwood at 4 o'clock P. M., and Superintendent George B. Davis, of the Alms-house, will be the orator of the occasion. Prayer will be offered by Rev. R. B. Beadles, pastor of the Hasker Memorial Church, of which Mr. Gilbert was a member.

Mr. W. R. Cavado, the head of this camp, requests the members to meet promptly at 3 o'clock at camp hall and promptly at 4 o'clock in a body. The ceremony promises to be a very impressive one, and a full attendance of the members of the Order is desired.

"A Great Saviour."

The meeting this afternoon at the Young Men's Christian Association will be worthy of the attendance of every young man who can arrange to be present. Rev. Thomas Sumner, rector of St. Andrew's Episcopal Church, will be the speaker, and will take for his theme, "A Great Saviour," following along the line of thought of the last two weeks, the subjects being "A Great Book," "A Great Sinner," and to-day, "A Great Saviour." Mr. C. W. Montgomery will sing a solo during the opening service.

Cadets Victorious.

WEST POINT, N. Y., Oct. 26.—In two 20-minute halves West Point to-day defeated the Williams' College football team by a score of 15 to 0. Williams put up a good fight, but was no match for the soldiers.

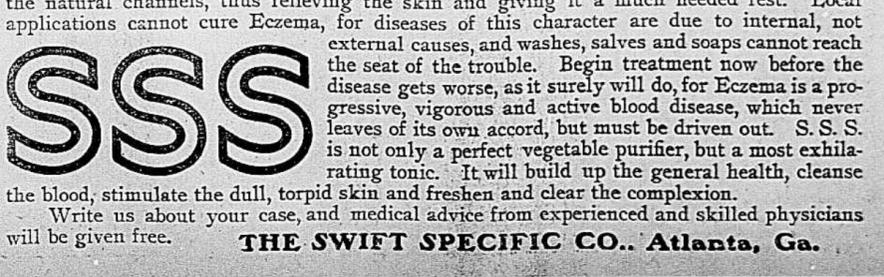

WINTER ECZEMA

While not so common, is much more stubborn and far reaching in its effects than the other varieties. In this form of the disease atmospheric conditions are the exciting cause and controlling power. The cold, bleak winds of winter, that chill the body and penetrate the very bones seem also to revive the sluggish blood and draw it to the surface, when the poisonous acids with which it is filled irritate and burn the tender skin and inflame the little glands and pores, thus checking perspiration and drying out the natural oils, when the skin becomes parched and dry, cracking and bleeding, and causing the most intense pain and itching.

Tetter is the name sometimes given to this form of Eczema when confined to the arms, hands and feet. All persons are not affected alike; some suffer but little discomfort at first, while others in more advanced stages of this terrifying disease endure the most exquisite torture. The burning fluid that oozes out through the skin often causes little pustules and blisters to form, and the watery, sticky discharge dries and hardens into scabs and scales, which, when rubbed off, leave a raw, tender surface. Itching is one of the chief characteristics of this tormenting malady, whether it comes in summer time or winter. Rheumatism and Neuralgia not unfrequently accompany winter Eczema, for the acrid poisons that so surely destroy the health and functions of the skin permeate the muscles and nerves, and a draught of air or exposure to any sudden change in the weather will produce the most acute paroxysms of pain. That Eczema is a constitutional blood disease is beyond dispute. The very fact that it lingers so long, sometimes dormant, at other times active and alert, proves that the blood and system are affected. Local causes could not produce so many varieties and forms of the same disease.

The only rational and certain cure for Eczema is to neutralize, dissolve and filter out of the blood the acids, and this is what S. S. S. does. It purifies the entire blood supply and cleanses the circulation, sending healthy, rich blood to the diseased skin, cooling and softening the rough and inflamed places, opening the congested glands and pores, and allowing the accumulated impurities to escape. S. S. S. stimulates all the bodily organs to more vigorous action, and the waste materials are carried out through the natural channels, thus relieving the skin and giving it a much needed rest. Local applications cannot cure Eczema, for diseases of this character are due to internal, not external causes, and washes, salves and soaps cannot reach the seat of the trouble. Begin treatment now before the disease gets worse, as it surely will do, for Eczema is a progressive, vigorous and active blood disease, which never leaves of its own accord, but must be driven out. S. S. S. is not only a perfect vegetable purifier, but a most exhilarating tonic. It will build up the general health, cleanse the blood, stimulate the dull, torpid skin and freshen and clear the complexion.

Write us about your case, and medical advice from experienced and skilled physicians will be given free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparil. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained and I felt bad all over. I took Hood's Sarsaparil and now have a good appetite, sleep well, and have no symptoms of catarrh."

Hood's Sarsaparil Promises to cure and keeps the promise. It is better now to put off treatment—buy Hood's today.

COLLEGE SNOWED UNDER.

Baptists Beaten by Washington and Lee 39 to 0.

(Special Dispatch to The Times.) LEXINGTON, VA., Oct. 26.—Richmond College was snowed under by Washington and Lee late afternoon to the tune of 39 to 0. Varsity started the game with three "subs," and before the end of second half, except for two positions, the whole team was made up of "scrubs."

One in second half, the Richmonders took a brace and made several good gains. Washington and Lee held them for downs, however, and Varsity's goal was at no time in danger. Features of game were 80-yard run by Glasgow and several pretty runs by A. M. Smith, D. T. Smith and Swartz. Captain Fraizer, for visitors, put up a plucky game. The Richmonders play the Virginia Military Institute Monday. Line-up: W. and Lee. Positions: R. C. McSmith, left end, Collier; McNulty, left tackle, E. W. Hudgins

Clinson Won from Georgia.

ATHENS, GA., Oct. 26.—In a hotly contested game, Clemson won from the University of Georgia to-day, 29 to 3. The manner in which Georgia played surprised her supporters. Clemson worked hard at every point, Gordon, catching the ball on a fumble, made an eighty-yard run to a touchdown, scoring Georgia's only point. The Georgia team was handicapped by the temporary injury to Captain Cliney early in the game, preventing his further participation. For Georgia, Gordon, Burt, Turner, and Monahan distinguished themselves, and for Clemson, Decosta, Pearnan, Limer, and Lewis. It was a clean game. Referee, Burt M. Colquitt. Time of halves, 20 and 25 minutes.

Yale Downed Columbia.

NEW HAVEN, CONN., October 26.—Yale defeated Columbia at football this afternoon by the score of 19 to 5. Two touchdowns were Yale's portion, but neither of them were converted into goals. Columbia was unable to carry the ball across Yale's goal line, but Captain Morley executed in superb style a goal from the field and thus registered five points for the Blue and White.

Pennsy Victors.

CHICAGO, ILL., October 26.—Two brilliant runs, one by Captain Davidson, for forty-five yards, and another by Reynolds for thirty-five yards, together with a goal-kicked by Snook netted a score of eleven points for the University of Pennsylvania eleven to-day, while the Chicago men were unable to score.
